

Fiscal 2018 Q2 Earnings Presentation

April 10, 2018

Risks and Non-GAAP Disclosures

This presentation contains forward-looking statements within the meaning of U.S. securities laws, including guidance about expected future results, expectations regarding our ability to gain market share, expected benefits from our investment and strategic plans, and expected future margins. These forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those anticipated by these forward-looking statements; are based on our current expectations; and we assume no obligation to update them. Factors that could cause actual results to differ materially from those in forward-looking statements include: general economic conditions in the markets in which we operate, changing customer and product mixes, competition, including the adoption by competitors of aggressive pricing strategies and sales methods, industry consolidation, volatility in commodity and energy prices, outcome of government or regulatory proceedings or future litigation, credit risk of our customers, risk of cancellation or rescheduling of orders, work stoppages or other business interruptions (including those due to extreme weather conditions) at transportation centers or shipping ports, our headquarters or our customer fulfillment centers, dependence on our information systems and the risk of business disruptions arising from changes to our information systems, disruptions due to computer system or network failures, computer viruses, physical or electronics break-ins and cyber-attacks, retention of key personnel, the loss of key suppliers or supply chain disruptions, risks associated with changes to trade policies, failure to comply with environmental, health and safety laws and regulations, goodwill and intangible assets recorded as a result of our acquisitions could be impaired, risks associated with the integration of acquired businesses or other strategic transactions, and financial restrictions on outstanding borrowings.

Information about these risks is noted in the earnings press release and in the Risk Factors and MD&A sections of our latest annual and quarterly reports filed with the SEC, as well as in our other SEC filings. Investors are cautioned not to place undue reliance on these forward-looking statements.

Throughout this presentation we will reference both GAAP and adjusted financial results, which are non-GAAP financial measures. Please refer to the reconciliation tables at the end of this presentation for a reconciliation of the adjusted financial measures to the most directly comparable GAAP measures.

Reconciliations

Non-GAAP Financial Measures

- ***Free Cash Flow (“FCF”)***

Our measure of “FCF” meets the definition of a non-GAAP financial measure. FCF is used in addition to and in conjunction with results presented in accordance with GAAP and FCF should not be relied upon to the exclusion of GAAP financial measures. Management strongly encourages investors to review our financial statements and publicly-filed reports in their entirety and to not rely on any single financial measure. FCF, which we reconcile to “Net cash provided by operating activities,” is cash flow from operations reduced by “Expenditures for property, plant and equipment”. We believe that FCF, although similar to cash flow from operations, is a useful additional measure since capital expenditures are a necessary component of ongoing operations. Management also views FCF, as a measure of the Company’s ability to reduce debt, add to cash balances, pay dividends, and repurchase stock. FCF has limitations due to the fact that it does not represent the residual cash flow available for discretionary expenditures. For example, FCF does not incorporate payments made on capital lease obligations or required debt service payments. In addition, different companies define FCF differently. Therefore, we believe it is important to view FCF as a complement to our entire consolidated statements of cash flows. A reconciliation of cash provided by operating activities to FCF for the thirteen weeks and twenty-six weeks ended March 3, 2018 and March 4, 2017, respectively is shown below.

- ***Results excluding DECO Tool Supply Co***

- ***Results excluding (a)provisional one-time tax benefit and (b)adjustment from applying lower YTD rate due to the Tax Cuts and Jobs Act (“TCJA”)***

To supplement MSC’s unaudited selected financial data presented consistent with Generally Accepted Accounting Principles (“GAAP”), the Company discloses certain non-GAAP financial measures, including Non-GAAP net sales, non-GAAP gross profit, non-GAAP income from operations, non-GAAP (benefit) provision for income taxes, non-GAAP net income and non-GAAP diluted earnings per share, that exclude the results of our acquisition of DECO Tool Supply Co. (“DECO”) on July 31, 2017. These non-GAAP financial measures also exclude, for the thirteen and twenty-six-week periods ended March 3, 2018, the net estimated impact of the TCJA passed in December 2017, as these items will significantly impact comparability between years. This provisional benefit is an estimate subject to adjustment during a 12-month measurement period.

These non-GAAP measures are not in accordance with or an alternative for GAAP, and may be different from non-GAAP measures used by other companies. We believe that these non-GAAP measures have limitations in that they do not reflect MSC’s results of operations as determined in accordance with GAAP, and that these measures should only be used to evaluate MSC’s results of operations in conjunction with the corresponding GAAP measures. The presentation of this additional information is not meant to be considered in isolation or as a substitute for the most directly comparable GAAP measures. We compensate for the limitations of non-GAAP financial measures by relying upon GAAP results to gain a complete picture of the Company’s performance.

In calculating non-GAAP financial measures, we exclude the results of DECO and the tax benefits attributable to the TCJA to facilitate a review of the Company’s operating performance on a period-to-period basis, for comparison with forecasts and strategic plans, and for benchmarking performance externally against competitors. We believe that investors benefit from seeing results “through the eyes” of management in addition to seeing GAAP results. We believe that these non-GAAP measures, when read in conjunction with the Company’s GAAP financials, provide useful information to investors by offering:

- the ability to make more meaningful period-to-period comparisons of the Company’s on-going operating results;
- the ability to better identify trends in the Company’s underlying business and perform related trend analyses;
- a better understanding of how management plans and measures the Company’s underlying business; and
- an easier way to compare the Company’s operating results against analyst financial models and operating results of competitors that supplement their GAAP results with non-GAAP financial measures
