CHESAPEAKE ENERGY CORPORATION

PROXY STATEMENT

ANNUAL MEETING OF SHAREHOLDERS

To Be Held On June 9, 2006

GENERAL INFORMATION

This proxy statement is furnished in connection with the solicitation of proxies by the Board of Directors of Chesapeake Energy Corporation, an Oklahoma corporation (the "Company"), for use at the Annual Meeting of Shareholders of the Company to be held on the date, at the time and place and for the purposes set forth in the accompanying Notice of Annual Meeting of Shareholders, and any adjournment of the meeting.

This proxy statement, the accompanying form of proxy and our Annual Report for the year ended December 31, 2005 are being mailed on or about April 28, 2006 to shareholders of record as of April 17, 2006. Shareholders are referred to the Annual Report for information concerning the activities of the Company.

Who Can Vote

Only shareholders of record as of April 17, 2006, the record date for the meeting, are entitled to notice of and to vote at the meeting. At the close of business on April 17, 2006, there were 382,078,558 shares of our common stock outstanding and 376,480,776 shares entitled to vote at the meeting. Each outstanding share of common stock is entitled to one vote, except unvested shares of restricted stock issued to our directors and employees do not have voting rights.

Establishing a Quorum

The holders of a majority of the outstanding common stock, present in person or by proxy, will constitute a quorum for the transaction of business at the meeting.

How to Vote

Most shareholders can vote their shares one of three ways:

- placing a toll-free telephone call from the U.S. or Canada to 1-800-690-6903;
- using the Internet at www.proxyvote.com; or
- mailing the signed proxy card.

The telephone and Internet voting procedures are designed to authenticate shareholders' identities, to allow you to vote your shares and to confirm that your instructions have been properly recorded. Please refer to your proxy card or the information forwarded by your bank, broker or other nominee to see which options are available to you.

If you are a Chesapeake employee and also a shareholder directly, or through the Chesapeake Energy Corporation Savings and Incentive Stock Bonus Plan (the "Plan"), you will receive one proxy for all of your accounts that are registered in the same name. This single proxy, which will be sent to you electronically via email, will allow you to simultaneously vote all of your non-Plan shares as one block and will serve as your voting instruction for the trustee of the Plan to vote your Plan shares. **To allow sufficient time for the trustee to vote the Plan shares, your voting instructions must be received by 11:00 p.m. (CDT) on June 6, 2006.** Please note, however, that since you only vote one time for all shares you own, your vote on each proposal will be identical across all of your shares. This new voting and material delivery procedure will simplify your voting process when you hold shares in multiple accounts and will eliminate the extra sets of proxy materials, annual reports and other shareholder communications that you may have received in prior years.

If you are a participant in the Nomac Drilling 401(k) Plan, you will receive our proxy card for all shares you own through the plan. That proxy card will serve as a voting instruction card for the trustee of the plan. If you do not vote your proxy, the trustee will not vote the plan shares credited to your plan account.

Votes Needed

The election of the director nominees will be by plurality vote (that is, the three nominees receiving the greatest number of votes will be elected). However, you may not cast more than one vote per share for each nominee. The affirmative vote of holders of a majority of the outstanding shares of common stock will be required for approval of the amendment to our Certificate of Incorporation to increase the number of authorized shares of common stock. The affirmative vote of holders of a majority of shares of common stock present at the meeting in person or by proxy will be required to approve the amendment to our Long Term Incentive Plan.

How Votes Can Be Revoked

You may revoke your proxy at any time before it is voted by:

- executing and submitting a revised proxy;
- providing a written revocation to the Secretary of the Company; or
- voting in person at the meeting.

In the absence of a revocation, shares represented by the proxies will be voted at the meeting. Your attendance at the meeting will not automatically revoke your proxy. If you do not hold your shares directly, you should follow the instructions provided by your broker, bank or nominee to revoke your previously voted proxy.

How Votes Are Counted

Each proxy properly completed and returned to the Company in time for the meeting, and not revoked, will be voted in accordance with the instructions given. If there are no contrary instructions, proxies will be voted **FOR** the election of the nominees as directors, **FOR** the approval of the amendment to our Certificate of Incorporation and **FOR** the approval of the amendment to the Long Term Incentive Plan. The Company will appoint an inspector of election to tabulate all votes and to certify the results of all matters voted upon at the meeting.

It is the Company's policy (i) to count abstentions and broker non-votes for purposes of determining the presence of a quorum at the meeting; (ii) to treat abstentions as shares represented at the meeting and voting against a proposal and to disregard broker non-votes in determining results on proposals requiring a majority or higher vote; and (iii) to consider neither abstentions nor broker non-votes in determining results of plurality votes.

Under the rules of the New York Stock Exchange, brokers who hold shares on behalf of their customers have the authority to vote on certain proposals when they have not received instructions from beneficial owners. A broker non-vote occurs when a broker holding shares for a beneficial owner does not vote on a particular proposal because the broker does not have discretionary voting power with respect to that item and has not received voting instructions from the beneficial owner. Your broker has discretionary authority to vote your shares in the election of directors and on the proposal to approve the amendment to our Certificate of Incorporation. Your broker is not empowered to vote your shares on the proposal to approve the amendment to our Long Term Incentive Plan in the absence of specific instructions from you.

When the Voting Results Will Be Announced

We will announce preliminary voting results at the meeting and publish final results in our quarterly report on Form 10-Q for the second quarter of 2006.

Cost of Proxy Solicitation

We will pay the cost of soliciting proxies. We have retained The Proxy Advisory Group, LLC to assist in the solicitation of proxies for a fee of \$7,500, plus out-of-pocket expenses. In addition, employees of the Company may solicit proxies by mail, personally, or by telephone, facsimile transmission or email communication. We will request banks and brokers or other similar agents or fiduciaries to transmit the proxy material to the beneficial owners for their voting instructions and will reimburse their expenses in so doing.

Electronic Access to Proxy Materials and Annual Report

This proxy statement and our 2005 Annual Report are available on our website at www.chkenergy.com. If you are interested in receiving all future shareholder communications electronically, including proxy statements and annual reports, please visit www.icsdelivery.com/chk and register for electronic distribution. Once you register, any time we distribute materials or communications to our shareholders, you will receive an email notification containing an internet address which will direct you to these documents. Once you have registered for electronic distribution, you will continue to receive all shareholder communications electronically until you change this election at www.icsdelivery.com/chk. Electronic distribution saves the Company the cost of printing and mailing the documents to you, reduces the amount of mail you receive and is environmentally friendly by helping to conserve natural resources consumed in the printing process.

Householding

Based on rules adopted by the Securities and Exchange Commission, certain shareholders who share the same last name and address will receive only one copy of the proxy materials. This procedure is called “householding” and is designed to reduce our printing and postage costs. If you hold your shares in street name and would like additional copies of the proxy materials, please contact your broker. If you are currently receiving multiple copies of the proxy materials and would like to request householding, please contact your broker as well.

The Company will begin householding for record holders 60 days after the distribution of this proxy statement. Please refer to the insert enclosed with your proxy materials that describes the householding process in more detail. If you do not wish to participate in householding, please make this election on your proxy card by checking “No” under “Householding Election”. If you do nothing, you will be deemed to have given your consent to participate and we will begin householding 60 days after the mailing of these proxy materials.

VOTING ITEM 1—ELECTION OF DIRECTORS

Pursuant to provisions of the Company’s Certificate of Incorporation and Bylaws, the Board of Directors has fixed the number of directors at eight, subject to the rights of the holders of our preferred stock to nominate and elect two additional directors on the occurrence of a voting rights triggering event as defined in the preferred stock certificates of designation. Our Certificate of Incorporation and Bylaws provide for three classes of directors serving staggered three-year terms, with each class to be as nearly equal in number as possible. The terms of three directors expire at the meeting.

The Board of Directors has nominated Breene M. Kerr and Charles T. Maxwell for re-election as directors. The Board of Directors has also nominated Richard K. Davidson for election as a director. Mr. Davidson was initially recommended to the Nominating and Corporate Governance Committee by Aubrey K. McClendon, our Chairman and Chief Executive Officer, and was appointed to the Board of Directors effective March 1, 2006. Mr. Davidson’s nomination as a director fills the vacancy created by Shannon Self who chose not to stand for re-election as a director at the expiration of his term in June 2005. Upon election, Messrs. Kerr, Maxwell and Davidson will serve for terms expiring at the 2009 Annual Meeting of Shareholders and, in each case, until their successors are elected and qualified. Proxies cannot be voted for a greater number of persons than the number of nominees named. Other directors will continue in office until the expiration of their terms at the 2007 or 2008 Annual Meeting of Shareholders, as the case may be.

Tom L. Ward, co-founder of the Company and a director and the President and Chief Operating Officer since inception, resigned as a director, officer and employee of the Company on February 10, 2006. Mr. Ward agreed to serve as a consultant for six months following his resignation pursuant to an agreement with the Company described on page 32 under "Employment Agreements, Termination of Employment and Change of Control Arrangements." Mr. Ward's position on the Board of Directors will remain unfilled until such time as a successor is appointed by the Board or elected by the shareholders. Because Mr. Ward held a management position with the Company and therefore was not independent, he did not serve on any of the standing committees of the Board.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE "FOR" EACH OF THE NOMINEES FOR ELECTION TO THE BOARD OF DIRECTORS.

It is the intention of the persons named in the enclosed form of proxy to vote such proxies for the election of the three nominees. The Board of Directors expects that each of the nominees will be available for election but, in the event that any of the nominees is not available, proxies received will be voted for substitute nominees to be designated by the Board or, in the event no such designation is made, proxies will be voted for a lesser number of nominees.

The following information is furnished for each person who is a director nominee or who is continuing to serve as a director of the Company after the meeting.

Mr. Whittemore graduated from Dartmouth College in 1953 and from the Amos Tuck School of Business Administration in 1954.

Directors Whose Terms Expire in 2008

Donald L. Nickles, 57, has been a member of our Board of Directors since January 2005. From 1982 to 1989, Mr. McClendon was an independent producer of oil and gas in affiliation with Tom L. Ward. Mr. McClendon graduated from Duke University in 1981.

VOTING ITEM 2—PROPOSAL TO AMEND CERTIFICATE OF INCORPORATION TO INCREASE AUTHORIZED COMMON STOCK

The Board of Directors recommends that the shareholders authorize an amendment to the Company's Certificate of Incorporation to increase the number of authorized shares of common stock from 500,000,000 to 750,000,000 shares, par value \$.01 per share. The Board of Directors believes that the proposed increase in authorized shares of common stock is desirable to enhance the Company's flexibility in taking possible future actions, such as corporate mergers, acquisitions of assets, stock splits, stock dividends, equity compensation awards or other corporate purposes. The proposed amendment will allow the Company to accomplish these objectives quickly. The Board determines whether, when and on what terms to issue shares of common stock. Use of the additional shares proposed to be authorized will not require shareholder approval unless required under Oklahoma corporate law or by the rules of any national securities exchange on which the common stock is then listed. There are currently no plans or arrangements for use of the additional shares of authorized common stock.

The Company has historically issued common stock for the following three main purposes:

- To finance the acquisition of oil and natural gas reserves and leasehold through both corporate and asset purchases;
- To reduce the Company's fixed dividend obligations by replacing outstanding preferred stock that had previously been issued to finance acquisitions; and
- To compensate, attract and retain our employees and directors through participation in our equity compensation plans.

Since our inception in 1989, our goal has been to create value for investors by building one of the largest onshore natural gas resource bases in the United States. In building our industry-leading positions in the Mid-Continent, South Texas, Texas Gulf Coast, Permian, Barnett Shale, Ark-La-Tex and Appalachian regions of the U.S. we have integrated an aggressive and technologically advanced drilling program with an active property consolidation program focused on corporate and property acquisitions of natural gas that offer high-quality, long-lived production and significant development and higher potential deep drilling opportunities. From January 1, 1998 through December 31, 2005, we have been one of the most active consolidators of onshore U.S. natural gas assets, having purchased approximately 5.9 tcf of proved reserves, at a total cost of approximately \$10.3 billion. Please refer to the "Performance Data" included elsewhere in this proxy statement for our common stock price performance over the past 5 and 12 years. In addition, based on our view that natural gas will be in a tight supply/demand relationship in the U.S. during at least the next few years because of the significant structural challenges to growing gas supply and the growing demand for this clean-burning, domestically-produced fuel, we believe our focused natural gas acquisition, exploitation and exploration strategy should provide substantial value-creating growth opportunities in the years ahead.

Currently the Company has 500,000,000 shares of authorized common stock, par value \$.01 per share. As of the Record Date, there were 387,398,682 shares of common stock issued, including treasury shares; 16,580,798 shares of common stock reserved for issuance upon the award of restricted stock or the exercise of options to purchase common stock under the Company's stock compensation plans for directors, employees and consultants; 50,701,133 shares of common stock reserved for issuance upon the conversion of outstanding shares of the Company's convertible preferred stock; and 17,660,619 shares of common stock reserved for issuance upon the conversion of the Company's outstanding 2.75% Contingent Convertible Senior Notes due 2035. Based on the number of outstanding and reserved shares of common stock described, the Company currently has approximately 33 million shares of common stock available for issuance.

The additional common stock to be authorized will have rights identical to the currently outstanding common stock of the Company. The proposed amendment will not affect the par value of the common stock, which will remain at \$.01 per share, nor will it affect any series of the Company's preferred stock.

Under the Company's Certificate of Incorporation, shareholders do not have preemptive rights to subscribe to additional securities which may be issued by the Company. This means that current shareholders do not have a prior right to purchase any new issue of the Company's capital stock in order to maintain their proportionate ownership of common stock. In addition, if the Company issues additional shares of common stock or other securities convertible into common stock in the future, it could dilute the voting rights of existing shareholders and could also dilute earnings per share and book value per share of existing shareholders. The increase in authorized common stock could also discourage or hinder efforts by other parties to obtain control of the Company, thereby having an anti-takeover effect. The increase in authorized shares of common stock is not being proposed in response to any known attempt to acquire control of the Company.

If the amendment to the Certificate of Incorporation is approved by our shareholders, it is expected that the amendment will be filed with the Secretary of State of the State of Oklahoma on June 12, 2006, and the first sentence of Article IV of the Certificate of Incorporation will be amended and restated to read as follows:

"The total number of shares of capital stock which the Corporation shall have authority to issue is Seven Hundred Seventy Million (770,000,000) shares consisting of Twenty Million (20,000,000) shares of Preferred Stock, par value \$0.01 per share, and Seven Hundred Fifty Million (750,000,000) shares of Common Stock, par value \$0.01 per share."

THE BOARD OF DIRECTORS RECOMMENDS A VOTE "FOR" THE PROPOSED AMENDMENT TO THE COMPANY'S CERTIFICATE OF INCORPORATION TO INCREASE THE AUTHORIZED COMMON STOCK TO 750,000,000 SHARES. The affirmative vote of the holders of a majority of the outstanding shares of common stock will be required for adoption of the amendment.

VOTING ITEM 3—PROPOSAL TO AMEND LONG TERM INCENTIVE PLAN

We are asking shareholders to vote to approve an amendment (the "Amendment") to the Long Term Incentive Plan (the "LTIP") to increase the aggregate number of shares of common stock which are available for awards under the LTIP from 3,000,000 shares to 7,000,000 shares. The additional shares requested will allow the Company to continue to provide stock-based compensation to its employees, consultants and non-employee directors over the next two to three years. Other amendments being proposed include the following:

- Increasing the aggregate number of shares available for incentive stock option awards under the LTIP from 1,500,000 to 3,000,000;
- Decreasing the number of shares available for awards to any participant in any calendar year from 1,000,000 to 750,000;
- Clarifying the circumstances in which the vesting of an award may be accelerated;
- Prohibiting dividend equivalents with respect to stock options and SARs; and
- Further clarifying the prohibition on repricing, replacing or repurchasing underwater stock options.

Our shareholders approved the LTIP on June 10, 2005 and the Board approved the Amendment, subject to shareholder approval, on March 3, 2006. The full text of the LTIP, as amended, is included as Exhibit A to this proxy statement.

Stock-based compensation is an essential component of the Company's compensation system. Consistent with our compensation philosophy, we believe stock-based compensation fosters and promotes the sustained progress, growth and profitability of the Company by:

- attracting, motivating and retaining individuals of exceptional ability;
- allowing employees, directors and consultants to acquire a proprietary and vested interest in the growth and performance of the Company;

- providing incentives and rewards to employees, directors and consultants who are in a position to contribute materially to the success and long-term objectives of the Company; and
- aligning the financial interests of employees and directors with those of the Company's shareholders.

Pursuant to the Amendment, the Board has reserved an additional 4,000,000 shares of common stock for issuance under the LTIP. This amount represents 1.0% of our outstanding common shares and 0.9% of our fully diluted common shares (which assumes the issuance of shares pursuant to outstanding stock options, shares available for issuance under our stock-based compensation plans and conversions of our preferred stock and convertible senior notes into common stock at the current conversion prices).

As of the record date, stock options outstanding and shares available for issuance under the Company's stock incentive plans are the following:

(1) The 2003 Stock Award Plan is used to issue 10,000 shares of common stock to new directors upon their appointment to the Board.

As of the record date, the weighted average exercise price of outstanding stock options is \$7.11 per share and the weighted average remaining contractual life is 5.88 years.

Background on Stock Compensation at Chesapeake

Since our initial public offering in 1993, the Board and management have firmly believed in and encouraged broad employee stock ownership through participation in our stock-based compensation plans across all levels of the Company. In the 11 years that followed, the Company implemented this strategy through semi-annual grants of stock options to all employees. The success, growth and profitability that the Company experienced over this time period was, we believe, in large measure due to the efforts of the management team and employees. Key performance statistics during the eleven-year period ending in 2003 are as follows:

- We recorded the 13th best stock price performance among all U.S. public companies, with a 2,476% increase in our stock price (including the reinvestment of dividends);
- Our annual revenues increased 9,900%, from \$17 million to \$1.7 billion;
- Our total assets increased 5,700%, from \$79 million to \$4.6 billion;
- Our shareholders' equity increased 5,400%, from \$31 million to \$1.7 billion;
- Our oil and gas reserves increased 2,200%, from 137 bcfe to 3.2 tcf; and
- Our annual oil and gas production increased 6,600%, from 4 bcfe to 268 bcfe.

In addition to these financial and operational successes, employee retention was among the strongest in the industry over this time period.

In 2004, the Board and management re-evaluated the Company's equity compensation program and decided to begin utilizing restricted stock in place of stock options for the following reasons:

- The Company could realize a substantial reduction in its annual stock usage rate or "burn rate", without a reduction in compensation value transferred to the employees;
- A lower annual stock usage rate would reduce the dilutive effect of employee stock compensation to our shareholders;
- The income statement impact of restricted stock is more predictable, and less volatile, than that of stock options;
- The compensation value and tax treatment of restricted stock is easier for employees to measure and understand; and
- The ease with which restricted stock is transferred to employees upon vesting (as opposed to an intentional action by the employee to exercise a stock option) better facilitates and promotes the long-term ownership of our common stock by employees.

The shift to restricted stock was supported by the Company's management and employees who, together, delivered record-setting performance to shareholders in 2004 and 2005, as indicated by the following:

- Our stock price increased 134% from \$13.58 per share on December 31, 2003 to \$31.73 per share on December 31, 2005;
- Our annual revenues increased 172% from \$1.7 billion in 2003 to \$4.7 billion in 2005;
- Our total assets increased 250% from \$4.6 billion at December 31, 2003 to \$16.1 billion at December 31, 2005;
- Our shareholders' equity increased 265% from \$1.7 billion at December 31, 2003 to \$6.2 billion at December 31, 2005;
- Our proved oil and gas reserves increased 134% from 3.2 tcf at December 31, 2003 to 7.5 tcf at December 31, 2005;
- Our annual oil and gas production increased 75% from 268 bcf at December 31, 2003 to 469 bcf at December 31, 2005; and
- We were selected to join the Fortune 500 and the S&P 500.

As the Company's assets and revenues have grown, so have the number of employees, with the Company adding over 1,100 employees in 2005 alone. In addition, increasing competitiveness for technical talent in the energy industry has resulted in equity-based compensation becoming an ever more important component for key employee recruitment and retention. Thus the Board and management believe that approval of the amendment to the LTIP is crucial to the Company's ability to execute its business plan and growth strategy. In their view, stock-based compensation and employee and director stock ownership have greatly contributed to the Company's growth and success to date and should continue to contribute to its success in the future.

The following is a summary of the material terms of the LTIP as proposed to be amended. Significant differences from the LTIP as currently in effect are identified.

Plan Features

Administration. The Compensation Committee of the Board of Directors has overall authority to administer the LTIP. The Employee Compensation Committee, a subcommittee of the Compensation Committee, can be

authorized to grant and determine the terms and conditions of awards granted to consultants and employees who are not executive officers. The Compensation Committee and Employee Compensation Committee are collectively, the “Committee”. Messrs. Whittemore and Keating serve as the Compensation Committee and, for 2005, Messrs. McClendon and Ward served as the Employee Compensation Committee. For 2006, Mr. McClendon serves as the Employee Compensation Committee. Any awards or formula for granting awards under the LTIP made to non-employee directors must be approved by the Board. The Compensation Committee is authorized and has complete discretion to formulate policies and establish rules and regulations for the administration of the LTIP.

Eligible Participants. As of the Record Date, the Company had approximately 3,600 employees (eight of whom were executive officers) and six non-employee directors who were eligible to participate in the LTIP. The Committee determines from time to time the awards to be granted under the LTIP, taking into account the duties of the respective participants, their present and potential contributions to the success of the Company and such other factors as the Committee deems relevant.

Shares Available for Award. The aggregate number of shares of common stock which are available for award under the LTIP will not exceed 7,000,000 shares, an increase of 4,000,000 shares. Any of the authorized shares of common stock may be used for any of the types of awards described in the LTIP, except that no more than 3,000,000 shares of common stock may be issued pursuant to incentive stock options, an increase of 1,500,000 shares. The aggregate number of shares of common stock underlying options that may be granted to any participant in any calendar year may not exceed 750,000 shares and the aggregate number of shares of common stock pursuant to restricted stock, performance awards or other stock awards granted to any participant in any calendar year may not exceed 750,000 shares. The proposed amendment lowers each of these limits from 1,000,000 shares to the 750,000 shares reflected above.

Common stock that is related to awards that (i) are forfeited, cancelled, terminated or expire prior to the delivery of the common stock, (ii) are ultimately paid in cash rather than common stock, (iii) are tendered or withheld in order to satisfy payment of the exercise price of an option, or (iv) are tendered or withheld in order to satisfy payment of withholding tax obligations, will again be available for future awards under the LTIP.

The LTIP provides for appropriate adjustments in the event of a merger, consolidation, recapitalization, stock split, combination of shares, stock dividend or similar transaction involving the Company.

Types of Awards. The LTIP authorizes the issuance of the following types of awards:

- *Options.* Incentive stock options and nonqualified stock options may be granted under the LTIP. The exercise price of options may not be less than the fair market value of our common stock on the date of grant (or 110% of the fair market value of such shares in the case of an incentive stock option granted to a person who holds more than 10% of the combined voting power of the Company’s outstanding securities) and no option may be exercised after the expiration of ten years from the date of grant. An option may be exercised only to the extent that the option is vested in accordance with a schedule determined by the Committee in its sole discretion.

With respect to incentive stock options, the aggregate fair market value (determined as of the grant date) of the stock which a participant may first have the right to acquire pursuant to the exercise of any incentive stock options in any calendar year under all incentive stock options of the Company may not exceed \$100,000. In the event options granted to a participant exceed the \$100,000 annual limitation, the participant will be deemed to have been granted incentive stock options with respect to shares within the \$100,000 limitation and nonqualified stock options with respect to shares which cause such limitation to be exceeded. The fair market value of shares of common stock is determined by reference to the reported closing price on the NYSE.

- *Stock Appreciation Rights.* SARs may be granted to participants alone or in tandem with concurrently or previously issued stock options. The exercise price of a SAR may not be less than the fair market value of our common stock on the date of grant and no SAR may be exercised after the expiration of ten years from the date of grant. A SAR issued in tandem with an option will only be exercisable to the extent that the related option is exercisable and when a tandem SAR is exercised, the option to which it relates will cease to be exercisable, to the extent of the number of shares with respect to which the tandem SAR is exercised. Similarly, when the option is exercised, the tandem SARs relating to the shares covered by such option exercise will terminate. The payment of the appreciation associated with the exercise of a SAR will be made by the Company in shares of our common stock.
- *Performance Shares.* Performance shares issued under the LTIP will vest in accordance with the achievement of certain performance or other criteria as determined by the Committee in its sole discretion. The Committee has the discretion to (i) permit a participant who ceases to be an eligible participant in the LTIP before the end of any performance period, or the personal representative of a deceased participant, to continue to be subject to a performance award relative to the current performance period until such awards are forfeited or earned pursuant to their terms and conditions or (ii) authorize the payment to such participant, or the personal representative of a deceased participant, of the performance shares which would have been paid to the participant had the participant remained an eligible participant in the LTIP to the end of the performance period. A participation period may be no less than one year in duration.
- *Restricted Stock.* Restricted stock issued under the LTIP will vest in accordance with a schedule or achievement of certain performance or other criteria as determined by the Committee in its sole discretion. The Committee has the discretion to grant a holder of restricted stock the right to vote such shares and to receive dividends. The minimum restriction period applicable to any restricted stock that is not subject to performance criteria will be three years from the date of grant.
- *Other Stock Awards.* The Committee, in its sole discretion, may specify the terms and provisions of other forms of equity-based or equity-related awards not described above which the Committee determines to be consistent with the purpose of the LTIP and the interests of the Company, which awards may provide for cash payments based in whole or in part on the value or future value of our common stock, for the acquisition or future acquisition of common stock, or any combination thereof. The minimum restriction period applicable to other stock awards that are not subject to performance criteria will be three years from the date of grant.
- *Other Cash Awards.* The Committee, in its sole discretion, may grant cash awards, including without limitation, discretionary awards, awards based on objective performance criteria or awards based on subjective performance criteria.

No Discounted Options or SARs; No Repricing; No Dividend Equivalents. The LTIP does not permit the granting of discounted stock options or SARs and, without the approval of shareholders, prohibits the repricing or cancellation and re-grant of stock options, and the repurchase of underwater stock options or SARs. The LTIP, as amended, also prohibits dividend equivalents with respect to stock options and SARs.

Fundamental Transaction; Change of Control. Upon the occurrence of a fundamental transaction, defined as the merger of the Company with another entity in which the Company is not the surviving entity or other business combination or transaction resulting in other securities being substituted for the common stock or the common stock no longer being issued, the Board of Directors or the Committee may take one or more of the following actions without the consent of any Participant: (i) arrange for the substitution, in exchange for outstanding options and SARs that are not exercised prior to the fundamental transaction, of comparable options to purchase and stock appreciation rights related to equity securities of the surviving corporation (or a parent or subsidiary of the surviving corporation), and for other awards to remain outstanding after the fundamental transaction and be converted to comparable awards of the surviving corporation (or a parent or subsidiary of the surviving corporation), on such terms as the Board of Directors or Committee determines are appropriate;

(ii) accelerate the vesting of awards so that (a) all outstanding options and SARs will be fully exercisable and any unexercised options and SARs will terminate upon the closing of the fundamental transaction, (b) restrictions on outstanding restricted stock, other stock awards and cash awards shall lapse upon the closing of the fundamental transaction; and (c) each outstanding performance award is deemed to have achieved a level of performance that would cause all of the performance shares to become payable upon the closing of the fundamental transaction; and (iii) cancel or arrange for the cancellation of awards in exchange for cash payments, equity securities or other consideration to participants, on such terms as the Board of Directors or Committee determines are appropriate. Upon a change of control, as defined in the LTIP, the Board of Directors or Committee may, but need not, take any one or more of the aforementioned actions. The Board of Directors or the Committee need not take the same action for each award or participant, and no such action shall require the consent of any participant.

Section 4999 of the Code imposes an excise tax on executives who receive compensation in connection with a change of control that exceeds certain specified limits. The Committee may, in its sole discretion, provide in any award agreement for an additional “gross-up” payment by the Company in the event that acceleration of vesting of any award under the LTIP is subject to such a change of control excise tax. If an LTIP participant were entitled to receive a gross-up payment, we would pay the participant an additional amount such that the amount received under the award after payment of the excise tax will equal the total payments that the participant would have been entitled to receive absent the excise tax.

Termination and Amendment. The LTIP will terminate at midnight, September 30, 2014, but will continue in effect until all matters relating to the exercise or settlement of awards outstanding as of the time of termination of the LTIP have been completed. Prior to such time, the LTIP may be earlier terminated or amended by the Board of Directors. Shareholder approval is required for any amendment to the LTIP if (i) such approval is necessary or desirable to qualify or comply with any tax or regulatory requirement for which or with which the Board deems it necessary or desirable to qualify or comply, or (ii) in the opinion of counsel to the Company, shareholder approval is required by any federal or state laws or regulations or the rules of any stock exchange on which the common stock may be listed.

Acceleration of Awards. The Committee has the discretion to accelerate the vesting of unvested awards in the case of retirement from employment or service on the Board, death, disability, or in involuntary termination circumstances.

Transferability. Awards are not transferable except by will or by the laws of descent and distribution; however, options held by non-employee directors may be transferable under certain circumstances, as determined by the Committee.

Federal Income Tax Consequences. Under current federal tax law, the following are the United States federal income tax consequences generally arising with respect to restricted stock, performance shares, other stock awards and options granted under the LTIP. The discussion is not a complete analysis of all federal income tax consequences and does not cover all specific transactions which may occur.

Absent the filing of a Section 83(b) election with the Internal Revenue Service, no income will be recognized by a participant for U.S. federal income tax purposes upon the grant of restricted stock, performance shares or other stock awards. Upon the vesting of an award for which no payment was made by the participant, the participant will recognize ordinary income in an amount equal to the fair market value of the common stock on the vesting date. Income recognized upon vesting by a participant who is an employee will be considered compensation subject to withholding at the time the income is recognized and, therefore, the Company must make the necessary arrangements with the participant to ensure that the amount of tax required to be withheld is available for payment. Stock awards provide the Company with a deduction equal to the amount of income recognized by the participant, subject to certain deduction limitations. A participant’s adjusted basis in the common stock received through stock awards is equal to any ordinary income related to the award recognized by the participant. If a participant thereafter sells the common stock, any amount realized over(under) the adjusted

basis of the common stock will constitute capital gain(loss) to the participant for U.S. federal income tax purposes. If a participant forfeits an award prior to its vesting, the participant will not recognize gain or loss as a result of such forfeiture.

Upon the grant of restricted stock, performance shares or other stock awards, the participant may file an election under Section 83(b) of the Code to accelerate the recognition of ordinary income to the grant date of the award. Such ordinary income is equal to the fair market value of the common stock on the grant date (assuming no payment by the participant for the stock) and is considered compensation subject to withholding for employees. If a participant subsequently forfeits the stock or the stock depreciates in value after a Section 83(b) election is filed, the participant will not be eligible for capital loss treatment with respect to the stock.

There are no tax consequences associated with the grant or timely exercise of an incentive stock option. If a participant holds the common stock acquired upon the exercise of an incentive stock option for at least one year after exercise and two years after the grant of the option, the participant will recognize capital gain or loss upon sale of the common stock equal to the difference between the amount realized on the sale and the exercise price. If the common stock is not held for the required period, the participant will recognize ordinary income upon disposition in an amount equal to the excess of the fair market value of the common stock on the date of exercise over the exercise price, up to the amount of the gain on disposition. Any additional gain realized by the participant upon disposition will be capital gain. The excess of the fair market value of common stock received upon the exercise of an incentive stock option over the option price for the common stock is a preference item for purposes of the alternative minimum tax. An expense deduction by the Company in connection with the exercise of an incentive stock option is not allowed unless the participant recognizes ordinary income.

Generally, no income will be recognized by a participant for U.S. federal income tax purposes upon the grant of a nonqualified stock option. Upon exercise of a nonqualified stock option, the participant will recognize ordinary income in an amount equal to the excess of the fair market value of the common stock on the date of exercise over the amount of the exercise price. Income recognized, by a participant who is an employee, upon the exercise of a nonqualified stock option will be considered compensation subject to withholding at the time the income is recognized and, therefore, the Company must make the necessary arrangements with the participant to ensure that the amount of tax required to be withheld is available for payment. Nonqualified stock options provide the Company with a deduction equal to the amount of income recognized by the participant, subject to certain deduction limitations. The adjusted basis of common stock transferred to a participant pursuant to the exercise of a nonqualified stock option is the price paid for the common stock plus an amount equal to any income recognized by the participant as a result of the exercise of the option. If a participant thereafter sells common stock acquired upon exercise of a nonqualified stock option, any amount realized over(under) the adjusted basis of the common stock will constitute capital gain(loss) to the participant for U.S. federal income tax purposes.

If a participant surrenders common stock which the participant already owns as payment for the exercise price of a stock option, the participant will not recognize gain or loss as a result of such surrender. The number of shares received upon exercise of the option equal to the number of shares surrendered will have a tax basis equal to the tax basis of the surrendered shares. The holding period for such shares will include the holding period for the shares surrendered. The remaining shares received will have a basis equal to the amount of income the participant recognizes upon receipt of such shares. The participant's holding period for such shares will commence on the day after such exercise.

Generally, no income will be recognized by a participant for U.S. federal income tax purposes upon the grant of a stand-alone or tandem SAR. Upon exercise of a SAR, the participant will recognize ordinary income in an amount equal to the excess of the fair market value of the common stock on the date of exercise over the amount of the exercise price. Income recognized, by a participant who is an employee, upon the exercise of a SAR will be considered compensation subject to withholding at the time the income is recognized and, therefore, the Company must make the necessary arrangements with the participant to ensure that the amount of tax

required to be withheld is available for payment. SARs provide the Company with a deduction equal to the amount of income recognized by the participant, subject to certain deduction limitations. The adjusted basis of common stock transferred to a participant pursuant to the exercise of a SAR is the price paid for the common stock plus an amount equal to any income recognized by the participant as a result of the exercise of the SAR. If a participant thereafter sells common stock acquired upon exercise of a SAR, any amount realized over(under) the adjusted basis of the common stock will constitute capital gain(loss) to the participant for U.S. federal income tax purposes.

Upon the vesting of a cash award, the participant will recognize ordinary income in an amount equal to the cash received. Income recognized upon the vesting of a cash award, by a participant who is an employee, will be considered compensation subject to withholding at the time the cash is received and, therefore, the Company must properly withhold the required tax.

Burn Rate and Plan Benefits

For 2003 through 2005, the Company's three-year average annual stock usage rate or "burn rate" was 2.45%. Burn rate is defined by Institutional Shareholder Services as the total number of equity awards granted in a given year divided by the number of common shares outstanding. Our burn rate in 2005 was 2.18%, reflecting the change we made to awarding officers and employees restricted stock rather than stock options.

There are currently 2,737,500 shares authorized for future issuance under the LTIP and 162,500 outstanding stock options granted to our non-employee directors as detailed in the following table:

<u>Grant Date</u>	<u>Options Outstanding</u>	<u>Exercise Price</u>	<u>Expiration Date</u>
10/1/2004	37,500	\$16.08	10/1/2014
1/3/2005	62,500	\$15.47	1/3/2015
4/1/2005	62,500	\$22.49	4/1/2015
	<u>162,500</u>		

The selection of officers, employees, consultants and non-employee directors who will receive future awards under the LTIP and the size and types of awards will be determined by the Committee or the Board of Directors. The compensation of non-employee directors currently includes the annual award of 12,500 shares of restricted common stock, as described below on page 18 under "Directors' Compensation." Other than such director equity compensation, it is not possible to predict the benefits or amounts that will be received by, or allocated to, particular individuals or groups eligible to receive future awards.

Directors’ Compensation

Non-employee director compensation consists of (i) an annual retainer of \$25,000, payable in quarterly installments of \$6,250; (ii) \$10,000 and \$2,500 payable for each board meeting attended in person and telephonically, respectively, not to exceed \$60,000 per year for board meetings attended; and (iii) an annual grant of 12,500 shares of restricted stock, one quarter of which vests immediately upon award and the remaining three quarters of which vest ratably over the three years following the date of award. No additional compensation is paid to directors for participating on or chairing a Board committee. Directors are also reimbursed for travel and other expenses directly related to their service as directors.

Directors are eligible to defer all, or a portion, of their annual retainers and/or meeting fees through the Chesapeake Energy Corporation Deferred Compensation Plan on a tax-favored basis. In addition, non-employee directors are required to hold at least 15,000 shares of the Company’s common stock at all times while serving as a director. Newly appointed directors are given one year from the date of appointment to comply with this stock ownership requirement.

The following table sets forth the compensation earned by our non-employee directors in 2005.

In 2005, the Company adopted a policy of making gross-up payments to non-employee directors for taxes incurred when their family members accompany them on such flights.
- (b) Represents the weighted average of the exercise prices of the stock options granted to non-employee directors on January 3 and April 1, 2005. Prior to July 2005, non-employee directors were granted stock options to purchase 12,500 shares of the Company’s common stock on the first business day of each calendar quarter. The exercise prices of such options are equal to the fair market value of the Company’s common stock on the grant dates. Effective July 1, 2005, the Company began making annual restricted stock grants to non-employee directors, in place of the quarterly stock option grants.
- (c) The value shown is based on the closing price of the Company’s common stock of \$24.19 per share on July 1, 2005, the date of the award.

Under the Company’s 2003 Stock Award Plan for Non-Employee Directors, 10,000 shares of our common stock are awarded to each newly appointed non-employee director on his or her first day of service. Sen. Nickles

and Mr. Davidson were awarded 10,000 shares under this plan on January 3, 2005 and March 1, 2006, respectively, when each joined our Board. The closing prices of our common stock on January 3, 2005 and March 1, 2006 were \$15.47 and \$30.43 per share, respectively.

Audit Committee Report

The Audit Committee assists the Board of Directors in overseeing (i) the integrity of the Company's financial statements; (ii) the Company's compliance with legal and regulatory requirements; (iii) the independent auditor's qualifications and independence; and (iv) the performance of the Company's internal auditors and independent auditor. In so doing, it is the responsibility of the Committee to maintain free and open communication between the directors, the independent auditor and the management of the Company.

The Committee is directly responsible for the appointment, compensation, retention and oversight of the work of the independent auditor for the purpose of preparing or issuing audit reports or performing other audit, review or attest services for the Company. The independent auditor reports directly to the Committee.

The full text of the Committee's charter is available on the Company's website at www.chkenergy.com under Corporate Governance and is also attached to this proxy statement as Exhibit B. The Committee updated and restated its charter in 2005.

The Committee has discussed and reviewed with management the audited financial statements of the Company for the year ended December 31, 2005. The Committee has received and reviewed the written disclosures from PricewaterhouseCoopers LLP as required by Independence Standards Board Standard No. 1, *Independence Discussions with Audit Committees*, regarding the firm's independence. We have discussed with PricewaterhouseCoopers LLP its independence and considered the compatibility of non-audit services rendered by PricewaterhouseCoopers LLP with its independence. Based on these reviews and discussions, the Committee recommended to the Board of Directors that the Company's audited financial statements be included in its 2005 Annual Report on Form 10-K for filing with the Securities and Exchange Commission.

Nominating and Corporate Governance Committee Report

The Nominating and Corporate Governance Committee is responsible for identifying and recommending qualified candidates to the Board for nomination as members of the Board and for recommending to the Board the corporate governance principles applicable to the Company. A copy of the Nominating and Corporate Governance Committee Charter, as approved by the Committee and the Board, is posted on the Company's website at www.chkenergy.com and is available in print to any shareholder who requests it.

The Committee periodically assesses, and advises the Board, whether the current size of the Board is sufficient to function effectively as a body, assesses the current Board mix and considers skill sets that would complement those of the current Board and provide value-added perspective.

It is challenging to identify highly qualified candidates who are willing to serve on public company boards. Therefore, we believe it is essential to continuously and actively identify and evaluate candidates, on an informal

basis, who would potentially be willing to serve as a director on the Board at some future time. We may also use our network of contacts, or may engage, as we deem appropriate, a professional search firm to identify potential candidates. In addition, we will consider director candidates recommended by shareholders.

The Committee has no minimum qualifications for candidates. In general, however, we review and evaluate both incumbent and potential new directors in light of the following criteria:

- experience in business, government, education, technology or public interests;
- high-level managerial experience in large organizations;
- breadth of knowledge regarding the Company's business or industry;
- specific skills, experience or expertise related to an area of importance to the Company such as energy production, consumption, distribution or transportation, government, policy, finance or law;
- moral character and integrity;
- commitment to shareholders' interests;
- an understanding of a Board's fiduciary responsibilities to the shareholders and a director's duty to represent all shareholders as opposed to individual constituencies;
- ability to apply sound and independent business judgment;
- ability to provide insights and practical wisdom based on experience and expertise;
- ability to read and understand financial statements; and
- ability to devote the time necessary to carry out the duties of a director, including attendance at meetings and consultation on Company matters.

Qualified candidates for nomination to the Board are considered without regard to race, color, religion, gender, ancestry or national origin.

On an annual basis, in advance of the annual meeting of shareholders, we will recommend to the Board a slate of nominees to be submitted to the Company's shareholders at the next annual meeting. The Board has the authority to accept, modify or reject the slate of nominees recommended by the Committee.

The Committee, with the approval of the full Board, may determine from time to time that it is in the best interests of the Company and its shareholders to add a new director to the Board between annual meeting dates. If such determination is made, we will evaluate potential candidates, as described above and may make a formal recommendation to the Board that a potential candidate be appointed to the Board to serve until the next annual meeting of the Company's shareholders.

In accordance with the Company's bylaws, we will consider candidates recommended by a shareholder of record provided such shareholder follows the procedure set forth below. Recommendations complying with the following requirements will receive the same consideration that the Committee's candidates receive, in accordance with the procedures set forth above.

- The shareholder must deliver a written notice to the Company's Secretary recommending a potential director nominee for the Committee's consideration. Such notice must be delivered to the Company not less than 120 days prior to the meeting of shareholders.
- The shareholder's notice must set forth:
 - a. All information relating to the proposed nominee that is required to be disclosed in a proxy statement soliciting proxies for the election of directors, pursuant to Regulation 14A of the Securities Exchange Act of 1934;

- b. The nominee's written consent to being named as a nominee and to serving as a director if elected and the shareholder's written consent to being identified as a shareholder recommending the nominee;
- c. A statement in support of the nominee indicating why the person should be nominated for election to the Board; and
- d. The name and address of, and number and class of shares of stock beneficially owned by, the shareholder giving the notice.

EXECUTIVE COMPENSATION

Report of the Compensation Committee on Executive Compensation

Our Philosophy. We are responsible for establishing the Company's compensation policies and monitoring the implementation of the Company's compensation system for its executives. Our objective is to develop an executive compensation system that is competitive with the Company's peers and encourages both short-term and long-term performance aligned with shareholders' interests.

Our Objectives. In establishing executive compensation, our objective is to attract, retain and motivate executive officers and key employees with the competence, knowledge and experience to promote the growth and profitability of the Company. We consider the following to be key factors in our determination of executive compensation:

- Compensation should be related to performance. We believe that individual compensation should be tied to individual performance and to how well the Company performs financially and operationally.
- Compensation should be closely aligned with shareholder interests. We provide employees at all levels with various ways to become shareholders. We grant restricted stock to all employees through our stock compensation plans and allow employees to invest in Company stock through our 401(k) Plans. Further, the matching contributions we make in our 401(k) and 401(k) Make-Up Plans are made in common stock. In addition, the individual employment agreements of our executive officers establish stock ownership requirements for each officer ranging from 10,000 shares to such number of shares having a value equal to not less than 500% of annual base salary and bonuses. We want all employees to think and act like owners of the business.
- Compensation should be competitive. We must be conscious of the compensation practices of our peers and new trends in the executive compensation arena. Specifically, we compare our executive compensation levels to those of the eighteen companies in our 5-year performance graph peer group, along with EnCana Corporation, Ultra Petroleum Corporation and Plains Exploration & Production Company.
- Fixed and incentive compensation should be properly proportioned. We believe that the proportion of an individual's total compensation that varies with individual and Company performance should increase as the individual's business responsibilities increase.
- Compensation should be individually and subjectively evaluated. Individual circumstances and performance should be evaluated independently for each executive officer.
- Compensation should be re-evaluated frequently. Currently, we review executive compensation semi-annually and make adjustments as we deem appropriate.

Components of Our Compensation System:

Base Salary. The executive officers' base salaries are reviewed and set semi-annually for each individual. The actual amount of each executive's base salary reflects and is adjusted on a subjective basis for such factors as leadership, commitment, attitude, motivational effect, level of responsibility, prior performance of the Company and the individual's contribution to that performance. Although we review the salary levels of executive officers of peer companies to determine whether our executive officers' salaries are reasonable in comparison, we do not specifically target a percentile or range within the peer group compensation levels when establishing our executive officers' salaries.

Cash Bonuses. We believe that cash bonuses should be paid to the executive officers based on a subjective evaluation of the performance of the Company and the individual. The Company's financial and operating performance measurements are based on reserves, production, net income, cash flow, successful drilling results, finding and operating costs, general and administrative costs, asset acquisitions and divestitures, risk management activities and common stock price performance. Individual performance factors include leadership, commitment, attitude, motivational effect, level of responsibility, prior experience and extraordinary contributions to the Company. Cash bonuses awarded in 2005 were consistent with the Company's strong financial and operational results and management's successful execution of the Company's acquisition and drilling programs and risk management strategies while continuing to build on the Company's high-quality asset base and maintaining a low cost operating structure.

Stock-Based Compensation. Consistent with our compensation philosophy, we believe stock-based compensation provides strong incentives for long-term financial performance that increases shareholder value

while rewarding and retaining executive officers. Specifically, we award restricted stock that vests over a period of four years to employees, including executive officers, on a semi-annual basis. We have elected to award restricted stock, rather than stock options, for the following reasons:

- The Company could realize a substantial reduction in its annual stock usage rate or “burn rate”, without a reduction in compensation value transferred to the executives;
- A lower annual stock usage rate would reduce the dilutive effect of stock compensation to our shareholders;
- The income statement impact of restricted stock is more predictable, and less volatile, than that of stock options; and
- Structurally, we believe restricted stock better facilitates long-term employee stock ownership than stock options.

When granting restricted stock to executive officers, the Committee does not consider current holdings of Company securities or the amount and terms of stock options or restricted stock previously granted to the executive officer.

Policy on Deductibility of Compensation. Section 162(m) of the Internal Revenue Code limits the tax deduction to \$1 million for compensation paid by a publicly held company to its chief executive officer and each of the Company’s four other most highly compensated executive officers, unless certain requirements are met. In structuring executive compensation, the Committee considers the anticipated tax treatment of various arrangements and payments; however, we may choose to award compensation which is not deductible under Section 162(m) if we believe it is consistent with this compensation philosophy and would be in the best interest of the Company and its shareholders. Compensation recognized by the executive officers upon the vesting of restricted stock, as currently structured, is not deductible pursuant to Section 162(m).

Employment Agreements. We maintain employment agreements with our executive officers, the material terms of which are described under “Employment Agreements”. We review the terms of the agreements at least annually, generally focusing on the permitted activities allowed for our executive officers, the competitiveness and adequacy of the severance arrangements and the competitiveness and value of the perquisites and other personal benefits provided to such officers.

On February 10, 2006, effective with his resignation, the Fourth Amended and Restated Employment Agreement dated July 1, 2005 between Tom L. Ward and Chesapeake Energy Corporation terminated. The agreement provided for Mr. Ward’s full-time employment as Chesapeake’s President and Chief Operating Officer of the Company. In accordance with the terms of the agreement, upon Mr. Ward’s resignation, neither the Company nor Mr. Ward has any further obligations thereunder including, without limitation, any obligation of the Company to provide any further payments or benefits to Mr. Ward after the effective date of such resignation, except support staff and aircraft usage extended during the consulting period, as provided in the resignation agreement. Please refer to page 32 of this proxy statement for a full discussion of the terms of Mr. Ward’s resignation agreement under “Employment Agreements, Termination of Employment and Change of Control Arrangements.”

Compensation of the Chief Executive Officer. The compensation of our chief executive officer, who is the principal executive officer of the Company, is determined in the same manner as the compensation for other executive officers of the Company. The CEO’s current employment agreement, entered into effective July 1, 2005, provides for a minimum annual base salary of \$950,000 which represents an 8.0% increase over his year-end 2004 salary of \$880,000. In addition, his 2005 cash bonuses represented an increase of 18% over 2004 levels. The cash bonuses and restricted stock granted to our CEO were based on the subjective evaluation of the Company’s growth and profitability and the contributions of our CEO to that growth. We determined that the

increase in overall compensation for the CEO during 2005 was appropriate given the Company's strong performance in 2005, including the achievement of the following:

- 92% increase in common stock price from year-end 2004 to year-end 2005, not including the reinvestment of dividends (a 2,280% increase from our IPO in February 1993);
- 64% increase in net income per fully diluted common share from 2004 to 2005;
- 73% increase in operating cash flow from 2004 to 2005;
- 30% increase in average daily oil and natural gas production from 2004 to 2005;
- 53% increase in estimated proved oil and natural gas reserves from 2004 to 2005;
- 72% increase in annual revenues from 2004 to 2005;
- More than doubled our market capitalization and enterprise value to \$14 billion and \$20 billion, respectively;
- Most active driller of new wells in the U.S. in 2005, drilling 902 operated wells and participating in another 1,066 non-operated wells; and
- America's top performing stock during the past seven years according to Zack's Investment Research (based on stock price performance from December 31, 1998 to December 31, 2005 of nearly 3,000 companies tracked by Zack's with market capitalization over \$50 million on December 31, 1998).

In addition to leading the Company to outstanding financial and operational achievements in 2005, our CEO has established a strong record in the areas of employee commitment and retention, community support, governmental relations, environmental stewardship and technology use and innovation.

Internal Pay Equity. In performing our semi-annual review of executive compensation, we review a spreadsheet showing "internal pay equity" within the Company. This spreadsheet shows the relationship between the base salary, cash bonus and equity compensation of our upper management levels (i.e., the CEO, named executive officers, executive vice presidents, senior vice presidents, vice presidents and our senior managers) for the prior three years. We believe that the relationship between CEO compensation and the compensation of our executives is reasonable and in line with their respective job duties and responsibilities. We additionally take into consideration the fact that our CEO is the co-founder of our Company which we believe further differentiates him from the other executives and from the CEOs of our peers.

Conclusion. Based on our review of the Company's compensation system and policies in 2005, we have determined that the total compensation packages of the CEO and other named executive officers, in the aggregate, are reasonable and not excessive. The changes to the CEO's and named executive officers' compensation have been disclosed in our current reports on Form 8-K filed with the SEC on June 13, 2005 and December 22, 2005 and the related employment agreements are reflected as exhibits to our Form 10-K for the year ended December 31, 2005. In addition, we believe that the executive compensation arrangements are reflective of the exceptional growth and performance that the Company generated in 2005 and the contributions of the executive officers to those results.

Since the company-owned aircraft are used primarily for business travel, we do not include the fixed costs that do not change based on the usage, such as purchase costs and maintenance costs not related to trips. Pursuant to the provisions of their employment agreements, Messrs. McClendon and Ward are required to use Company aircraft for all business and personal travel in the Western Hemisphere. In addition, Mr. Ward's resignation agreement allows him to use fractional ownership interests in Company aircraft for personal use for a period of six months after his resignation date, or until August 10, 2006.

Employment Agreements, Termination of Employment and Change of Control Arrangements

Aubrey K. McClendon

We have an employment agreement with Mr. McClendon which provides, among other things, for an annual base salary of not less than \$950,000, bonuses at the discretion of the Board of Directors (through its Compensation Committee), eligibility for equity awards under the Company's stock compensation plans and benefits, including club membership and personal accounting support. For safety, security and efficiency, Mr. McClendon is required to use aircraft owned or leased by the Company for business and personal use in the Western Hemisphere and is not required to reimburse the Company for any costs related to such use. In addition, Mr. McClendon's immediate family members may use such Company aircraft for their personal use to the same extent. When a family member travels without Mr. McClendon, he is required to reimburse the Company for the variable costs of such use.

The employment agreement with Mr. McClendon has a term of five years commencing July 1, 2005, which term is automatically extended for one additional year on each January 31 unless the Company provides 30 days prior notice of non-extension. In addition, for each calendar year during which the employment agreement is in effect, Mr. McClendon is required to hold shares of the Company's common stock having an aggregate investment value equal to 500% of his annual base salary and bonus.

The Company may terminate its employment agreement with Mr. McClendon at any time without cause; however, upon such termination he is entitled to continue to receive Base Compensation (defined as salary equal

to his base salary on the date of termination plus annual bonus compensation equal to the bonus compensation he received during the twelve month period preceding the termination date) and benefits including office space, secretarial and accounting support and company aircraft usage for the balance of the contract term.

The employment agreement further provides that if, during the term of the agreement, there is a change of control and within three years thereafter (a) the agreement expires; (b) the agreement is not extended and Mr. McClendon resigns within one year after the non-extension; (c) he is terminated other than for cause, death or incapacity; (d) he resigns as a result of (i) a change in his duties or title, (ii) a reduction in his compensation, (iii) a required relocation more than 25 miles from his then current place of employment, or (iv) a default by the Company under the agreement; (e) the agreement has not been assumed by any successor to or parent of the Company; or (f) he has agreed to remain employed by the Company for a period of three months to assist in the transition and thereafter resigns, then Mr. McClendon will be entitled to a severance payment in an amount equal to three times his Base Compensation, plus three times the value of his benefits provided during the preceding twelve months, plus a gross-up amount to be paid with respect to any excise or income taxes or penalties imposed on the severance payment. Change of control is defined in this agreement to include:

(1) a person acquiring beneficial ownership of 20% or more of the Company's outstanding common stock or the voting power of the Company's existing voting securities unless one of the circumstances described in clause 3(i), (ii) and (iii) below exists or it is an acquisition directly from the Company or an acquisition by the Company or a Company employee benefit plan;

(2) a majority of the members of the Incumbent Board is replaced by directors who were not nominated or elected by the Incumbent Board (the current directors and directors later nominated or elected by a majority of such directors are referred to as the "Incumbent Board");

(3) the consummation of a business combination such as a reorganization, merger, consolidation or sale of all or substantially all of the Company's assets unless following such business combination (i) the persons who beneficially owned the Company's common stock and voting securities immediately prior to the business combination beneficially own more than 60% of such securities of the corporation resulting from the business combination in substantially the same proportions, (ii) no person beneficially owns 20% or more of such securities of the corporation resulting from the business combination unless such ownership existed prior to the business combination, or (iii) a majority of the members of the board of directors of the corporation resulting from the business combination were members of the Incumbent Board at the time of the execution or approval of the business combination agreement; and

(4) the approval by the shareholders of a complete liquidation or dissolution of the Company.

If Mr. McClendon becomes incapacitated, as determined by the Company's Board of Directors, and is unable to perform his duties set out in the employment agreement for a period of four consecutive months, the Board may terminate his services. In the event such a termination should occur, Mr. McClendon is entitled to receive compensation and benefits through the remaining term of the agreement. If Mr. McClendon dies during the term of the agreement, the Company is obligated to continue payments of base salary for twelve months after the date of his death.

In the event any payment by the Company to Mr. McClendon is subject to the excise tax imposed by Section 4999 of the Internal Revenue Code or any interest or penalties related to such excise tax, he will be entitled to receive a gross-up payment from the Company. The gross-up payment will be equal to the amount such that after payment of all taxes (including penalties and interest on the taxes) on the gross-up payment, Mr. McClendon will retain an amount of the gross-up payment equal to the excise tax imposed.

Mr. McClendon is prohibited from engaging in various activities outside his employment with the Company without the approval of the Board of Directors. His employment agreement also provides for a six-month non-competition period after the termination of his employment and prohibits disclosure of confidential information

for a one-year period following the termination of the agreement. In addition, the agreement contains non-solicitation restrictions with respect to employees, contractors, customers, vendors and subcontractors.

Tom L. Ward

On February 9, 2006, Tom L. Ward, our former President and Chief Operating Officer and a co-founder of the Company, resigned as a director, officer and employee of the Company. Our Board of Directors accepted Mr. Ward's resignation effective February 10, 2006 and approved a proposed resignation agreement with Mr. Ward in recognition of his significant contributions to the Company, his participation in the founding and success of the Company and his agreement to assist in the transition of his duties for a six-month period after his resignation. The Board authorized Mr. McClendon to complete negotiations of the agreement with Mr. Ward. Mr. Ward's resignation agreement was included as Exhibit 10.2.5 of our current report on Form 8-K filed with the Securities and Exchange Commission on February 15, 2006. Upon his resignation, his employment agreement with the Company, which provided for Mr. Ward's full-time employment as Chesapeake's President and Chief Operating Officer and was substantially identical to Mr. McClendon's employment agreement described above, terminated.

The resignation agreement provided for Mr. Ward's resignation from his employment and directorship with Chesapeake and his positions as an officer, director and/or manager of any Chesapeake subsidiary. In addition, Mr. Ward agreed to act as a consultant to Chesapeake for a period of six months from the effective date of the resignation agreement (the "Consulting Period") to assist in the transition of his responsibilities.

During the Consulting Period, Mr. Ward receives no cash compensation but the Company provides him support staff for personal administrative and accounting services and the use of the fractional ownership interests of the Company's aircraft in accordance with historical practices. Mr. Ward is permitted by the resignation agreement to employ support staff personnel that report directly to him.

The resignation agreement further provided for the immediate vesting of all of Mr. Ward's unvested stock options and restricted stock on February 10, 2006. As a result of such vesting, options to purchase 724,615 shares of Chesapeake's common stock at an average exercise price of \$8.01 per share and 1,291,875 shares of restricted common stock became immediately vested. The estimated Black-Scholes value of these stock options was approximately \$15.7 million and the fair market value of the previously restricted common stock was approximately \$38.3 million as of February 10, 2006. Mr. Ward exercised all of his outstanding stock options to purchase 7,815,808 shares of common stock on March 14, 2006.

The resignation agreement requires Mr. Ward to notify the Company if he acquires or enters into an agreement to acquire, directly or indirectly, any oil and gas interest or business that violates his employment agreement. If he should acquire a company or package of properties that includes interests covered by the non-competition provisions of his employment agreement and the allocated value of such interests is less than 25% of the total purchase price, the Company's sole remedy will be the right to purchase the interests at Mr. Ward's cost. The resignation agreement also included a release of claims by Mr. Ward and the Company and indemnification by Mr. Ward.

Other Executive Officers

The Company has an employment agreement with Mr. Rowland that is in effect through September 30, 2006. It provides for an annual base salary of not less than \$375,000. Mr. Rowland's employment agreement requires him to hold not less than 25,000 shares of the Company's common stock throughout the term of the agreement. Mr. Rowland's agreement provides for bonuses at the discretion of the Compensation Committee of the Board of Directors and eligibility for stock-based compensation and benefits, including an automobile allowance, club membership and personal accounting support. Mr. Rowland's employment agreement permits

him to continue to conduct oil and gas activities individually and through various related or family-owned entities, but prohibits him from acquiring, attempting to acquire or aiding another person in acquiring an interest in oil and gas exploration, development or production activities other than certain permitted activities without the Company's approval.

The Company also has employment agreements with Mr. Johnson and Ms. Burger in effect through September 30, 2006, with minimum annual base salaries of \$230,000 for Mr. Johnson and \$300,000 for Ms. Burger. Each agreement provides that the executive officer is eligible for bonuses, stock-based compensation and other benefits. The agreements require each executive to acquire and continue to hold at least 10,000 shares of the Company's common stock.

As a result of Mr. Ward's resignation, Steven C. Dixon was appointed Executive Vice President—Operations and Chief Operating Officer effective February 13, 2006. The Company has an employment agreement with Mr. Dixon in effect through September 30, 2006 which provides for a minimum annual base salary of \$325,000 and eligibility for bonuses, stock-based compensation and other benefits. Mr. Dixon's agreement requires him to acquire and continue to hold at least 10,000 shares of the Company's common stock.

The Company may terminate any of its employment agreements with Messrs. Rowland, Dixon and Johnson and Ms. Burger at any time without cause; however, upon such termination each is entitled to continue to receive base compensation (defined as the executive's base salary on the date of termination) and benefits for 180 days.

The employment agreements for Messrs. Rowland, Dixon and Johnson and Ms. Burger further provide that if, during the term of the agreement, there is a change of control, the executive officer will be entitled to a severance payment in an amount equal to 200% of the sum of (i) the executive officer's base salary as of the date of the change of control and (ii) annual bonus compensation paid to the executive during the twelve month period immediately prior to the change of control. The right to such compensation is subject to the executive officer's continued compliance with the terms of the employment agreement. The definition of change of control in these agreements is the same as the definition in Mr. McClendon's employment agreement.

Founder Well Participation Program

On June 10, 2005, our shareholders approved the Founder Well Participation Program (the "FWPP") which permits the Company's two founders, Messrs. McClendon and Ward, to continue participating as working interest owners in the wells that the Company drills in the future. The FWPP is a continuation of the well participation program previously administered through the founders' employment agreements and initiated by the Company in connection with its initial public offering in February 1993. The FWPP fosters and promotes the development and execution of the Company's business by: (a) retaining and motivating the principal executive officers who founded the Company; (b) aligning the financial rewards and risks of the founders with the Company more effectively than overriding royalty, carried interest or other performance incentive programs maintained by many of the Company's peers; and (c) imposing on the founders the same risk incurred by the Company in its core operations. The FWPP became effective on July 1, 2005 in conjunction with the effectiveness of amendments to the founders' employment agreements eliminating the well participation rights under the agreements. Messrs. McClendon and Ward have participated in all wells drilled by the Company since its initial public offering in February 1993, except during the five quarters from January 1, 1999 to March 31, 2000.

Under the FWPP, a founder is permitted to participate in all of the Program Wells, as defined in the FWPP, spudded by or on behalf of the Company during each calendar year. In order to participate, at least 30 days prior to the beginning of each year the founder must provide written notice to the members of the Compensation Committee of such founder's election to participate in the FWPP and the percentage working interest which the founder proposes to participate with during the year. The founder's working interest percentage may not exceed a 2.5% working interest in a well and is not effective for any well where the Company's working interest after elections by the founders to participate would be reduced to below 12.5%. If the founder fails to provide notice of

his election to participate or of the working interest percentage, the amount of the working interest percentage for the relevant calendar year will be deemed to be equal to the working interest percentage for the immediately preceding calendar year.

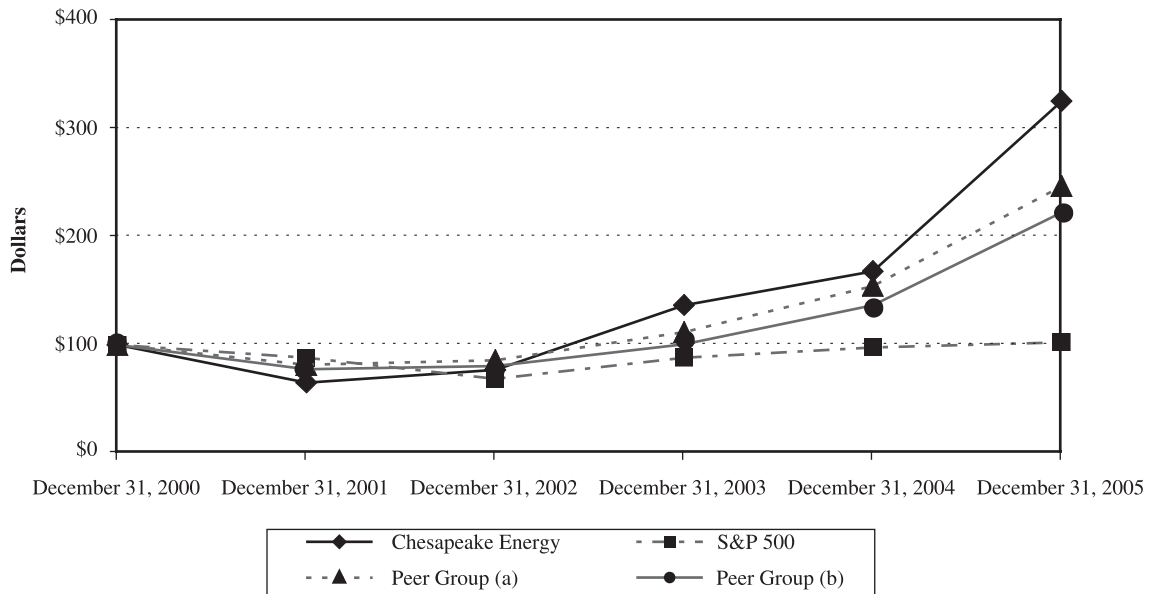

The FWPP is administered and interpreted by the Compensation Committee of the Board. In addition, the Board, in its sole discretion, may take any action with respect to the FWPP that would otherwise be the responsibility of or delegated to the Compensation Committee. The Board of Directors has the right to suspend or terminate the FWPP after December 31, 2015 by providing written notice of termination to the founders one year before the effective date of such termination. Shareholder approval is required for any amendment to the FWPP that increases the maximum working interest percentage applicable to a founder or any amendment, which in the opinion of counsel to the Company, requires shareholder approval under any federal or state law or any regulations or rules promulgated thereunder. A founder's right to participate in the FWPP during any calendar year will terminate on the earlier of (i) December 31 of such year; (ii) the termination of the founder's employment by the Company for cause or death; or (iii) the expiration or termination of any and all covenants not to compete subsequent to the termination of the founder for any reason not included in the foregoing clause (ii). In accordance with these provisions, Mr. Ward's participation in the FWPP will expire on August 10, 2006 when the non-compete covenants in his resignation agreement expire. The right to participate in the FWPP can only be assigned by a founder to a Founder Affiliate designated as such in accordance with the FWPP.

A founder's participation in the FWPP is independent of the other founder's participation in the FWPP. A founder's working interest percentage cannot be changed during any calendar year without the prior approval of the Compensation Committee. Participation by a founder under the FWPP is conditioned on the founder's participation in each Program Well spudded during the calendar year in an amount equal to the greater of the elected working interest percentage or the prior interest owned by the founder in the drilling unit for such Program Well. Under the FWPP, each founder: (a) agrees to execute and deliver any documents reasonably requested by the Company in connection with the FWPP; (b) appoints the Company as such founder's agent and attorney-in-fact to execute and deliver such documents if such founder fails or refuses to execute such documents; (c) agrees to pay all joint interest billings immediately on receipt of the Company's invoice issued by the Company in the ordinary conduct of its business; and (d) agrees to prepay to the Company amounts attributable to the founder's interest in a Program Well operated by a third party to the extent that a Company Entity (as defined in the FWPP) is required to prepay any costs in connection with such Program Well.

The amount paid by each founder for the acreage assigned in connection with his participation in the FWPP is computed as of the first day of each calendar year and is equal to the following amount computed on a per acre basis: (a) all direct third party costs paid by the Company Entities and capitalized in the appropriate accounting pool in accordance with the Company's accounting procedures (including capitalized interest, leasehold payments, acquisition costs, landman charges and seismic charges); divided by (b) the acreage in the applicable pool. The acreage charge amount is recomputed as of the first day of each calendar year by the Company and submitted to the Compensation Committee for approval. All other costs for Program Wells are billed in accordance with the Company's accounting procedures applicable to third party participants pursuant to any applicable joint operating agreement or exploration agreement relating to a particular Program Well. Notwithstanding anything to the contrary, in each case the founder's participation in a Program Well will be on no better terms than the terms agreed to by unaffiliated third party participants in connection with the participation in such Program Well or similar wells operated by the Company Entities.

Common Stock delivered pursuant to an Award under the Plan may consist, in whole or in part, of authorized and unissued shares or treasury shares. The Committee, in its sole discretion, shall determine the manner in which fractional shares arising under this Plan are treated. may be, to reflect any increase or decrease in the number of, or change in the kind or value of, issued shares of Common Stock to preclude, to the extent practicable, the enlargement or dilution of rights under such Awards. In the event there shall be any other change in the number or kind of the outstanding shares of Common Stock, or any stock or other securities into which the Common Stock shall have been changed or for which it shall have been exchanged, then if the Committee shall, in its sole discretion, determine that such change equitably requires an adjustment in the shares available under and subject to the Plan, or in any Award theretofore granted or which may be granted under the Plan, such adjustments shall be made in accordance with such determination.

No fractional shares of Common Stock or units of other securities shall be issued pursuant to any such adjustment, and any fractions resulting from any such adjustment shall be eliminated in each case by rounding downward to the nearest whole share.

4. STOCK OPTIONS AND STOCK APPRECIATION RIGHTS

Section 4.1 Grant of Options and SARs. The Committee may, from time to time, subject to the provisions of the Plan and such other terms and conditions as it may determine, grant Nonqualified Stock Options and Stock Appreciation Rights (SARs) to Eligible Persons and Incentive Stock Options to Employees. SARs may be granted either alone or in tandem with concurrently or previously issued Options. (b) *Exercise of Options and SARs.* Options and SARs granted under the Plan shall be exercisable, in whole or in such installments and at such times, and shall expire at such time, as shall be provided by the Committee in the Award Agreement. An SAR issued in tandem with an Option is only exercisable to the extent the related Option is exercisable and is subject to the conditions applicable to such Option. When a tandem SAR is exercised, the Option to which it relates shall cease to be exercisable to the extent of the number of shares with respect to which the tandem SAR is exercised. Similarly when the Option is exercised, the tandem SARs relating to the shares covered by such Option exercise shall terminate.

(c) *Form of Payment.* The payment of the exercise price of an Option by the Participant shall be made in cash, shares of Common Stock, a combination thereof or in such other manner as the Committee may specify in the applicable Award Agreement. The payment of the Appreciation associated with the exercise of a SAR shall be made by the Company in shares of Common Stock.

Section 10.8 *Non-Transferability*. Subject to other provisions of the Plan and any applicable Award Agreement, Awards are not transferable other than by will or the laws of descent and distribution. Any attempted sale, transfer, assignment, pledge, hypothecation or other disposition of, or the levy of execution, attachment or similar process upon, any Award contrary to the provisions hereof shall be void and ineffective, shall give no right to any purported transferee, any may, at the sole discretion of the Committee, result in forfeiture of the Award involved in such attempt. Notwithstanding the foregoing, an Award held by a Non-Employee Director may be transferable under certain circumstances as specified by the Committee in the Award Agreement.

Further, the adoption of this Plan shall not be deemed to give any Employee, Non-Employee Director or Consultant or any other individual any right to be granted an Award.

Section 10.14 *Other Compensation Programs.* The existence and terms of the Plan shall not limit the authority of the Board in compensating Employees and Non-Employee Directors in such other forms and amounts, including compensation pursuant to any other plans as may be currently in effect or adopted in the future, as it may determine from time to time.
