“We achieved a strong quarter with remarkable operating and financial performances, thanks to our successful strategy and continuous efforts to optimize our operations,” said Mr. Peiqing Tian, Chairman and Chief Executive Officer of Four Seasons Education. “In the second quarter, our total student enrollment reached 39,357, representing a robust growth of 90.8% compared with the same period of last year. The active student participation reflects the popularity of our programs and our enhanced brand awareness, as we have been consistently enriching and diversifying our course offerings to cover more academic subjects and educational topics. With differentiated programs designed for different grade levels, we have efficiently extended our courses to broader age groups.

“Following the optimization of our learning center network in previous quarters, our efforts are now bearing fruit respect to encouraging student enrollment in learning centers both in and out of Shanghai. Additionally, we included a new learning center in Chongqing and another one in Shenzhen in our national footprint during the second quarter. Both cities are economically dynamic markets that we believe have great growth potential for K-12 after-school education.

“Overall, our robust second quarter fiscal 2020 results demonstrate the success of our strategic adjustments according to the changing regulatory environment and evolving market demands. We believe that we have achieved healthy development following our strategic transformation. With our extensive educational capabilities and successful operating experiences, we will focus on strengthening our advantages in Shanghai and other cities where we have already established our presence. Meanwhile, we will remain prudent and diligent in our expansion while maintaining quality growth,” Mr. Tian concluded.

Ms. Yi (Joanne) Zuo, Director and Chief Financial Officer of Four Seasons Education, commented, “Our impressive second quarter results are a clear testament to our strategy of providing comprehensive after-school education for K-12 students with diversified course offerings. Besides the excellent total student enrollment growth, we carried the momentum of diversification with an increasing number of enrollments in our non-math courses and middle school programs. Bolstered by the enormous market demand for our high-quality courses, our revenue growth reached 37.9% year over year in the second quarter, exceeding the high end of our guidance range. As a result of optimizing our learning center network in previous quarters, our gross margin realized a substantial growth to 55.1% for the second

quarter, up 282 basis points from the same period last year. Coupled with our efficient operational cost control, we are thrilled to report strong operating income and net profit for the quarter. Our robust operational performance demonstrates the effectiveness of our business model and strategic transformation.
