Beijing, China – November 7, 2010 – Hollysys Automation Technologies, Ltd. (NASDAQ: HOLI) (“Hollysys” or the “Company”), a leading provider of automation and control technologies and applications in China, today announced its unaudited financial results for its fiscal 2011 first quarter ended September 30, 2010 (see attached tables).

Dr. Changli Wang, Chairman and CEO of Hollysys, stated, “We are pleased to report the fiscal 2011 first quarter with solid operational performance. I would like to discuss some of the key events that took place during this quarter.”

Hollysys Automation Technologies, Ltd
November 8, 2010

Page 2

In this quarter, we continue to make strides in industrial automation, especially in PLC business expansion and DCS application in clean energy. By working more closely with power equipment suppliers, Hollysys is winning more contracts from international market through EPC. We are seeing tangible financial and operation results of increased R&D investment by pushing out newly developed products to the market, which in turn enhances Hollysys' marketing capability and brand-name recognition as a total-solution provider."

"During this quarter, we announced contract and bidding wins of 4 high-speed rail lines with an aggregated contract value of \$32.6 million and total length of 1290 kilometers. It is the quality of our products, brand-name recognition, and speed to delivery under a tight schedule that played an important role in winning these projects. As China's 12th five-year plan is being formulated with a much more expedited high-speed rail roll-out plan by the end of 2015, Hollysys will continue to leverage on its core competency to take its leading share in China's high-speed rail build-out.

Dr. Wang continued, "I'd also like to take note of the exciting nuclear automation breakthrough achieved by our nuclear joint venture with China Guangdong Nuclear Power Holding Co., Ltd. Our nuclear JV has successfully completed the development of its proprietary nuclear island automation and control system, which is scheduled to be commercialized within the next two to three years. This achievement is another testament of our leading position in China's nuclear automation and control market. Hollysys, together with its nuclear JV, will take their leading share in China's aggressive nuclear build-out.

Operational Results Analysis for the three months ended September 30, 2010

For the three months ended September 30, 2010, total revenues increased by 59.3% to \$60.8 million, from \$38.2 million in the comparable prior fiscal year period. Of the total revenues, revenue from integrated contracts increased by 59.9% to \$57.4 million, compared to \$35.9 million for the same period of the prior year. The Company's integrated contract revenue by segment was as followings:

- \$31.0million, or 54.0%, related to Industrial Automation & Control, representing a 27.8% segment revenue growth year-over-year;
- Rail and Subway was \$25.3 million, or 44.1%, representing a 186.2% increase year over year; of which \$10.3 million, or 18.0%, was from Rail Signaling and Control projects, and \$15.0 million, or 26.1%, was from Subway Automation and Control; and
- \$1.1 million, or 1.9%, related to Nuclear Plant Control projects and miscellaneous, compared to \$2.8 million year-over-year.

As a percentage of total revenues, overall gross margin was 34.8% for the three months ended September 30, 2010, as compared to 37.2% for the same period of last year. The gross margin for integrated contracts and product sales were 33.6% and 55.6% for the three months ended September 30, 2010, as compared to 34.3% and 82.8% for the same period of last year respectively.

For the three months ended September 30, 2010, selling expenses were \$3.6 million, compared to \$2.7 million year over year, increased by \$0.9 million, or 31.0%, which was mainly due to the Company's expanded sales network and increased selling expenses. As a percentage of total revenues, selling expenses were 5.9% and 7.1% for the three months ended September 30, 2010 and 2009, respectively.

General and administrative expenses, excluding non-cash stock-based compensation expense, were \$3.8 million for the quarter ended September 30, 2010, representing an increase of \$1.4 million, or 55.4%, as compared to \$2.4 million for the prior year period, mainly due to an increase of \$0.6 million in bad debt allowance and other expenses. As a percentage of total revenues, G&A expenses were 6.2% and 6.4% for the three months ended September 30, 2010 and 2009, respectively. Including the non-cash stock-based compensation cost of \$131,000, general and administrative expenses were 3.9 million and 2.6 million for the quarter ended September 30, 2010 and 2009, respectively.

Research and development expenses were \$4.3 million for the three months ended September 30, 2010, compared to \$2.9 million for the same period of last year, increased by \$1.4 million, or 51.6%, mainly due to the Company's increased R&D activities. As a percentage of total revenue, R&D expenses were 7.1% and 7.5% for three months ended September 30, 2010 and 2009, respectively.

For the quarter ended September 30, 2010, the other income amounted to \$1.5 million, of which \$1.4 million was contributed by the gain on disposal of 29% interest in HollySys Information Technology Co. Ltd. which Hollysys will continue to own 20% after the transaction.

The share of net losses from equity investees were \$0.4 million for the three months ended September 30, 2010, of which, a loss of \$0.7 million was from Beijing Techenergy Ltd., the 50/50 joint venture between Hollysys and China Guangdong Nuclear Power Corp. that mainly engages in providing automation and control products and services to China's nuclear industry.

For the three months ended September 30, 2010, the non-GAAP net income excluding non-cash stock compensation cost was \$10.4 million, or \$0.19 per diluted share based on 55 million shares outstanding. This represents an increase of \$3.8 million, or 56.7%, over the \$6.6 million, or \$0.13 per share based on 50 million shares outstanding, reported in the prior year period. On a GAAP basis, net income attributable to Hollysys was \$10.3 million, or \$0.19 per diluted share representing an increase of \$3.8 million, or 57.9%, over the \$6.5 million, or \$0.13 per share reported in the prior year period.
