FORWARD-LOOKING STATEMENTS

This presentation contains statements and depictions that constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, as amended, including, without limitation, with respect to future earnings, adjusted EBITDA, timing of real estate sales, log and wood product sales volumes and realizations, log export volumes, and wood products operating rates. Forward-looking statements may be identified by our use of certain words in such statements, including without limitation words such as “anticipate,” “believe,” “continue,” “continued,” “could,” “forecast,” “estimate,” “outlook,” “goal,” “will,” “plan,” “expect,” “target,” “would” and similar words and terms and phrases using such terms and words, while depictions that constitute forward-looking statements may be identified by graphs, charts or other illustrations indicating expected or predicted occurrences of events, conditions, performance or achievements at a future date or during future time periods. We may refer to assumptions, goals or targets, or we may reference expected performance through, or events to occur by or at, a future date, and such references may also constitute forward-looking statements. Forward-looking statements are based on management’s current expectations and assumptions concerning future events, and are inherently subject to uncertainties and factors relating to our operations and business environment that are difficult to predict and often beyond the company’s control. These and other factors could cause one or more of our expectations to be unmet, one or more of our assumptions to be materially inaccurate or actual results to differ materially from those expressed or implied in our forward-looking statements. Such factors include, without limitation: our ability to successfully execute our performance plans, including cost reductions and other operational excellence initiatives; the effect of general economic conditions, including employment rates, housing starts, interest rate levels, availability of financing for home mortgages and the strength of the U.S. dollar; restrictions on international trade, tariffs imposed on imports or exports; market demand for our products, including demand for our timberland properties with higher and better uses, which in turn is related to the strength of various U.S. business segments and U.S. and international economic conditions; domestic and foreign competition; raw material prices; energy prices; the effect of weather; the risk of loss from fires, floods, windstorms, hurricanes, pest infestation and other natural disasters; transportation availability and costs; federal tax policies; the effect of forestry, land use, environmental and other governmental regulations; legal proceedings; performance of pension fund investments and related derivatives; the effect of timing of retirements and changes in market price of our common stock on charges for share-based compensation; changes in accounting principles; and other factors described in filings we make from time to time with the Securities and Exchange Commission, including without limitation the risk factors described in our annual report on Form 10-K. There is no guarantee that any of the anticipated events or results articulated in this presentation will occur or, if they occur, what effect they will have on the company’s results of operations or financial condition. The forward-looking statements contained herein apply only as of the date of this presentation and we do not undertake any obligation to update these forward-looking statements. Nothing on our website is intended to be included or incorporated by reference into, or made a part of, this presentation.

Also included in this presentation are certain non-GAAP financial measures, which management believes complement the financial information presented in accordance with U.S. generally accepted accounting principles. Management believes such non-GAAP measures may be useful to investors. Our non-GAAP financial measures may not be comparable to similarly named or captioned non-GAAP financial measures of other companies due to potential inconsistencies in how such measures are calculated. A reconciliation of each presented non-GAAP measure to its most directly comparable GAAP measure is provided in the appendices to this presentation.

1. Our definition of Adjusted EBITDA and a reconciliation to GAAP are set forth on Chart 16.
2. Includes R&D expenses; other operating (costs) income, net; non-operating pension and other postretirement benefit costs; and interest income and other. Interest income and other includes approximately $9 million and $8 million of income from SPE investments in fourth quarter 2018 and first quarter 2019, respectively.
3. Interest expense is net of capitalized interest and includes approximately $7 million and $4 million on SPE notes in fourth quarter 2018 and first quarter 2019, respectively.
4. An explanation of special items and a reconciliation to GAAP are set forth on Chart 2. Income taxes attributable to special items are included in Special items, after-tax.

1. During fourth quarter 2018, we recorded a $152 million after-tax ($200 million pretax) noncash settlement charge related to our U.S. qualified pension plan lump sum offer. During first quarter 2019, we recorded a $345 million after-tax ($455 million pretax) noncash settlement charge related to the transfer of pension assets and liabilities through the purchase of a group annuity contract.
Our definition of Adjusted EBITDA and a reconciliation to GAAP are set forth on Chart 16, Chart 17, Chart 18, and Chart 19.

Total Company Adjusted EBITDA includes Timberlands; Real Estate, Energy & Natural Resources; Wood Products and Unallocated.

1. Our definition of Adjusted EBITDA includes Timberlands; Real Estate, Energy & Natural Resources; Wood Products and Unallocated.
# TIMBERLANDS SEGMENT

## 1st Quarter Notes

- Lower average log sales realizations in the West
- Seasonally lower Western export sales volumes
- Lower Western costs, primarily road and forestry spending
- Higher average Southern log sales realizations and seasonally lower fee harvest volumes

1. Our definition of Adjusted EBITDA and a reconciliation to GAAP are set forth on Chart 17.
2. In January 2019, we changed the way we report our Canadian Forestlands operations, which are primarily operated to supply Weyerhaeuser’s Canadian Wood Products manufacturing facilities. As a result, we no longer report related intersegment sales in the Timberlands segment and we will now record the minimal associated third-party log sales in the Wood Products segment. These collective transactions did not contribute any earnings to the Timberlands segment. We have conformed prior period presentation with the current period.
3. Other (income) expense, net includes: R&D expenses and other operating (costs) income, net.
4. Adjusted EBITDA divided by total sales.
5. Contribution to earnings divided by total sales.
SALES VOLUMES, REALIZATIONS AND EXPORT REVENUE

3rd-Party Log Sales and Realizations - West

### 1st Quarter Notes

- Significantly lower log and fiber costs
- Seasonally higher operating rates and improved manufacturing costs
- Lower average sales realizations for OSB

1. Adjusted EBITDA for Wood Products businesses include earnings on internal sales, primarily from the manufacturing businesses to Distribution. These sales occur at market price. Our definition of Adjusted EBITDA and a reconciliation to GAAP are set forth on Chart 19.

2. In January 2019, we changed the way we report our Canadian Forestlands operations, which are primarily operated to supply Weyerhaeuser’s Canadian Wood Products manufacturing facilities. As a result, we will now record the minimal associated third-party log sales in the Wood Products segment. These transactions do not contribute any earnings to the Wood Products segment. We have conformed prior period presentation with the current period.

3. Other (income) expense, net includes: R&D expenses and other operating costs (income), net.

4. Adjusted EBITDA divided by total sales.

5. Contribution to earnings divided by total sales.
Sales volumes include sales of internally produced products and products purchased for resale primarily through our Distribution business. These sales occur at market price.

**Contribution to Earnings (Loss) Before Special Items** $ (7) $ (55)

**Special items, pretax** (187) (475)

**Contribution to Earnings (Loss)** $ (194) $ (530)

**Adjusted EBITDA$4** $ 2 $ (49)

---

1. Unallocated items are gains or charges not related to or allocated to an individual operating segment.
2. These amounts exclude pension settlement charges, which are reported in Special items, pretax.
3. Fourth quarter 2018 excludes the gain on sale of a nonstrategic asset attributable to special items. This is included in Special items, pretax.
4. Our definition of Adjusted EBITDA and a reconciliation to GAAP are set forth on Chart 20.
5. Costs of sales is composed primarily of elimination of intersegment profit in inventory and LIFO and incentive compensation.
6. G&A expense is comprised primarily of share-based compensation; pension service costs; corporate function expenses; and incentive compensation.
KEY FINANCIAL METRICS ($ Millions) | 2018 | 2019
---|---|---
Ending Cash Balance | $334 | $259
Total Debt | $6,344 | $6,401
Net Debt to Adjusted EBITDA (LTM) | 3.0 | 3.3
Net Debt to Enterprise Value | 27% | 24%

1. Total debt includes $425 million and $245 million of borrowings on our line of credit in fourth quarter 2018 and first quarter 2019, respectively.
2. LTM = last twelve months. A reconciliation to GAAP is set forth on Chart 21.
3. Total debt, net of cash and equivalents, divided by enterprise value. Enterprise value is defined as total debt, net of cash and equivalents, plus market capitalization as of the end of the quarter.

Scheduled Debt Maturities as of March 31, 2019

<table>
<thead>
<tr>
<th>($ Millions)</th>

1. Adjusted EBITDA is a non-GAAP measure that management uses to evaluate the performance of the company. Adjusted EBITDA, as we define it, is operating income adjusted for depreciation, depletion, amortization, basis of real estate sold and special items. Adjusted EBITDA should not be considered in isolation from and is not intended to represent an alternative to our GAAP results.

2. The income tax effects of special items can be found in a reconciliation set forth in Chart 2.

</table>

---

1. LTM = last twelve months.
2. Net debt to adjusted EBITDA is a non-GAAP measure that management uses to evaluate the performance of the company. Net debt to adjusted EBITDA, as we define it, is long-term debt and borrowings on line of credit, net of cash and equivalents divided by the last twelve months of Adjusted EBITDA. See Chart 16 for our definition of Adjusted EBITDA.
3. Total debt also includes $425 million and $245 million of borrowings on our line of credit in fourth quarter 2018 and first quarter 2019, respectively.
4. The income tax effects of special items can be found in a reconciliation set forth in Chart 2.
