Forward-Looking Statements

Statements in this Supplement Update that are not historical facts are “forward-looking statements,” within the meaning of the Private Securities Litigation Reform Act of 1995, that involve a number of risks and uncertainties that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement. These forward-looking statements are not guarantees of future performance. This Supplement Update should be read in conjunction with pages 19-32 of Alexander & Baldwin, Inc.’s 2013 Form 10-K and other filings with the SEC through the date of this Supplement Update, which identify important factors that could affect the forward-looking statements in this Supplement Update. We do not undertake any obligation to update our forward-looking statements.

Basis of Presentation

The information contained in this Supplement Update does not purport to disclose all items required by accounting principles generally accepted in the United States of America (GAAP). The information contained in this Supplement Update is unaudited and should be read in conjunction with Alexander & Baldwin, Inc.’s Real Estate Supplement as of and for the years ended December 31, 2013 and 2012, its 2013 Form 10-K and other filings with the SEC through the date of this Supplement Update.

Commercial Portfolio Acquisitions and Dispositions

In 2013, the Company completed a number of significant commercial property acquisitions and dispositions in connection with the migration of its Mainland portfolio to Hawaii. The largest acquisition, which closed on December 20, 2013, consisted of retail, industrial and ground leased properties primarily located in Kailua, Oahu for \$373 million. For purposes of this Supplement Update, information about the acquired portfolio is reported in five categories:

- Kailua Industrial/Other
- Kailua Grocery Anchored
- Kailua Retail Other
- Kailua ground leases
- Other Oahu ground leases

The acquisition was primarily funded by 1031 proceeds generated by the sale of six Mainland commercial properties, sales proceeds from Maui Mall, other 1031 proceeds, and reverse 1031 proceeds from commercial property and non-core land sales completed subsequent to the December 20 acquisition.

In addition to the December 20 acquisition, in 2013 the Company acquired three retail assets in Hawaii, with over 630,000 square feet (primarily on Oahu), for approximately \$191 million. The Company also assumed control of The Shops at Kukui'ula, a 78,900 square-foot retail center on Kauai.

Due to the significant changes to the Company's commercial portfolio from acquisitions and dispositions, historical leasing NOI may not be indicative of future results.

See Table 15 for additional information on the Company's commercial property acquisitions and dispositions in 2014 and 2013.

Note: See page 9 for a statement on the Company's use of non-GAAP financial measures and a reconciliation of Leasing operating profit to Real Estate Leasing NOI and Real Estate Leasing same store NOI.

Statement on Management's Use of Non-GAAP Financial Measures

Net operating income (NOI) is a non-GAAP measure derived from real estate revenues (determined in accordance with GAAP, less straight-line rental adjustments) minus property operating expenses (determined in accordance with GAAP). NOI does not have any standardized meaning prescribed by GAAP, and therefore, may differ from definitions of NOI used by other companies. NOI should not be considered as an alternative to net income (determined in accordance with GAAP) as an indicator of the Company's financial performance, or as an alternative to cash flow from operating activities as a measure of the Company's liquidity. NOI is commonly used as a measure of operating performance because it is an indicator of the return on property investment, and provides a method of comparing property performance over time. NOI excludes general and administrative expenses, straight-line rental adjustments, interest income, interest expense, depreciation and amortization, and gains on sales of interests in real estate. The Company believes that the Real Estate Leasing segment's operating profit after discontinued operations is the most directly comparable GAAP measurement to NOI. A reconciliation of Real Estate Leasing operating profit to Real Estate Leasing segment NOI and same store NOI is as follows:

TABLE 14

RECONCILIATION OF REAL ESTATE OPERATING PROFIT TO NOI AND SAME STORE NOI (NON-GAAP)
