#### **Forward-Looking Statements**

Statements in this Supplemental Information document that are not historical facts are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 and involve a number of risks and uncertainties that could cause actual results to differ materially from those contemplated by the relevant forward-looking statements. These forward-looking statements include, but are not limited to, statements regarding possible or assumed future results of operations, business strategies, growth opportunities and competitive positions, as well as the rapidly changing challenges with, and the Company's plans and responses to, the coronavirus 2019 ("COVID-19") pandemic and related economic disruptions. Such forward-looking statements speak only as of the date the statements were made and are not guarantees of future performance. Forward-looking statements are subject to a number of risks, uncertainties, assumptions and other factors that could cause actual results and the timing of certain events to differ materially from those expressed in or implied by the forward-looking statements. These factors include, but are not limited to, prevailing market conditions and other factors related to the Company's REIT status and the Company's business, risks associated with COVID-19 and its impact on the Company's businesses, results of operations, liquidity and financial condition, the evaluation of alternatives by the Company related to its materials and construction business and by the Company's joint venture related to the development of Kukui'ula, and the risk factors discussed in the Company's most recent Form 10-K, Form 10-Q and other filings with the Securities and Exchange Commission ("SEC"). The information in this Supplemental Information document should be evaluated in light of these important risk factors. We do not undertake any obligation to update the Company's forward-looking statements.

#### **Basis of Presentation**

The information contained in this Supplemental Information document does not purport to disclose all items required by accounting principles generally accepted in the United States of America (GAAP).

## **Company Overview**

## Alexander & Baldwin, Inc.

### Company Overview

#### Company Profile

---

Alexander & Baldwin, Inc. ("A&B" or the "Company") is a fully integrated real estate investment trust ("REIT") headquartered in Honolulu, Hawai'i. The Company has a history of over 150 years of being an integral piece of Hawai'i and its economy making it uniquely qualified to create value for shareholders through a strategy focused on asset management and growth primarily in its commercial real estate holdings in Hawai'i.

The Company operates in three reportable segments: Commercial Real Estate ("CRE"); Land Operations; and Materials & Construction ("M&C") and is composed of the following as of March 31, 2021:

- A commercial real estate portfolio composed of 3.9 million square feet of improved properties and 152.0 acres of ground leases throughout the Hawaiian islands, including 2.5 million square feet of largely grocery/drugstore-anchored retail centers;
- Approximately 28,000 acres of landholdings across its three segments, including development-for-hold and development-for-sale activities in select Hawai'i locations; and
- Materials & Construction operations primarily through its wholly owned subsidiary, Grace Pacific LLC ("Grace Pacific").

Throughout this Supplemental Information document, references to "we," "our," "us" and "our Company" refer to Alexander & Baldwin, Inc., together with its consolidated subsidiaries.

### Company Overview

#### Glossary of Terms

---

<b>ABR</b>	Annualized Base Rent ("ABR") is the current month's contractual base rent multiplied by 12. Base rent is presented without consideration of percentage rent that may, in some cases, be significant.
<b>Backlog</b>	Backlog represents the total amount of revenue that Grace Pacific and Maui Paving, LLC, a 50-percent-owned unconsolidated affiliate, expect to realize on contracts awarded. Backlog primarily consists of asphalt paving and, to a lesser extent, Grace Pacific's consolidated revenue from its construction-and traffic control-related products. Backlog includes estimated revenue from the remaining portion of contracts not yet completed, as well as revenue from approved change orders. The length of time that projects remain in backlog can span from a few days for a small volume of work to 36 months for large paving contracts and contracts performed in phases. This amount includes opportunity backlog consisting of government contracts in which Grace Pacific has been confirmed to be the lowest bidder and formal communication of the award is perfunctory at the time of this disclosure. Circumstances outside the Company's control such as procurement or technical protests may arise that prevent the finalization of such contracts.
<b>Comparable Lease</b>	Comparable Leases are either renewals (executed for the same units) or new leases (executed for units that have been vacated in the previous 12 months) for comparable space and comparable lease terms. Expansions, contractions and strategic short-term renewals are excluded from the Comparable Lease pool.
<b>CRE Portfolio</b>	Composed of (1) retail, industrial and office improved properties subject to operating leases ("Improved Portfolio") and (2) assets subject to ground leases ("Ground Leases") within the CRE segment.
<b>Debt-service Coverage Ratio</b>	The ratio of Consolidated Adjusted EBITDA to the sum of debt service – which includes interest expense, principal payments for financing leases and term debt, as well as principal amortization of mortgage debt, but excludes balloon payments – for the trailing twelve months.
<b>EBITDA</b>	<p>Earnings Before Interest, Taxes, Depreciation and Amortization ("EBITDA") is calculated on a consolidated basis ("Consolidated EBITDA") by adjusting the Company's consolidated net income (loss) to exclude the impact of interest expense, income taxes and depreciation and amortization.</p> <p>EBITDA is calculated for each segment ("Segment EBITDA" or "Commercial Real Estate EBITDA," "Land Operations EBITDA" and "Materials &amp; Construction EBITDA") by adjusting segment operating profit (which excludes interest expense and income taxes) to add back depreciation and amortization recorded at the respective segment.</p>
<b>FFO</b>	<p>Funds From Operations ("FFO") is presented by the Company as a widely used non-GAAP measure of operating performance for real estate companies. FFO is defined by the National Association of Real Estate Investment Trusts ("Nareit") December 2018 Financial Standards White Paper as follows: net income (calculated in accordance with GAAP), excluding (1) depreciation and amortization related to real estate, (2) gains and losses from the sale of certain real estate assets, (3) gains and losses from change in control and (4) impairment write-downs of certain real estate assets and investments in entities when the impairment is directly attributable to decreases in the value of depreciable real estate held by the entity. The Company presents different forms of FFO:</p> <ul style="list-style-type: none"><li>• "Core FFO" represents a non-GAAP measure relevant to the operating performance of the Company's commercial real estate business (i.e., its core business). Core FFO is calculated by adjusting CRE operating profit to exclude items noted above (i.e., depreciation and amortization related to real estate included in CRE operating profit) and to make further adjustments to include expenses not included in CRE operating profit but that are necessary to accurately reflect the operating performance of its core business (i.e., corporate expenses and interest expense attributable to this core business) or to exclude items that are non-recurring, infrequent, unusual and unrelated to the core business operating performance (i.e., not likely to recur within two years or has not occurred within the prior two years).</li><li>• FFO represents the Nareit-defined non-GAAP measure for the operating performance of the Company as a whole. The Company's calculation refers to net income (loss) available to A&amp;B common shareholders as its starting point in the calculation of FFO.</li></ul> <p>The Company presents both non-GAAP measures and reconciles each to the most directly-comparable GAAP measure as well as reconciling FFO to Core FFO. The Company's FFO and Core FFO may not be comparable to FFO non-GAAP measures reported by other REITs. These other REITs may not define the term in accordance with the current Nareit definition or may interpret the current Nareit definition differently.</p>
<b>GAAP</b>	Generally accepted accounting principles in the United States of America.
<b>GLA</b>	Gross leaseable area ("GLA") measured in square feet ("SF"). GLA is periodically adjusted based on remeasurement or reconfiguration of space and may change period over period for these remeasurements.
<b>Maintenance Capital Expenditures</b>	As it relates to CRE segment capital expenditures (i.e., capitalizable costs on a cash basis), expenditures necessary to maintain building value, the current income stream and position in the market. Such expenditures may include building/area improvements and tenant space improvements.

<b>Net Debt</b>	Net Debt is calculated by adjusting the Company's total debt to its notional amount (by excluding unamortized premium, discount and capitalized loan fees) and by subtracting cash and cash equivalents recorded in the Company's consolidated balance sheets.
<b>NOI</b>	Net Operating Income ("NOI") represents total Commercial Real Estate contract-based operating revenue that is realizable (i.e., assuming collectability is deemed probable) less the direct property-related operating expenses paid or payable in cash. The calculation of NOI excludes the impact of depreciation and amortization (e.g., depreciation related to capitalized costs for improved properties, other capital expenditures for building/area improvements and tenant space improvements, as well as amortization of leasing commissions); straight-line lease adjustments (including amortization of lease incentives); amortization of favorable/unfavorable lease assets/liabilities; lease termination income; interest and other income (expense), net; selling, general, administrative and other expenses (not directly associated with the property); and impairment of commercial real estate assets.
<b>Occupancy</b>	<p>The Company has historically (through the period ended December 31, 2020) reported occupancy on a physical basis (i.e., based on timing of when the lessee has physical access to the space, henceforth, "Physical Occupancy"). Beginning in the period ended March 31, 2021, to provide additional transparency regarding the status of the spaces available in its improved properties, the Company presents two different types of occupancy ("Leased Occupancy" and "Economic Occupancy").</p> <p>The Leased Occupancy percentage calculates the square footage leased (i.e., the space has been committed to by a lessee under a signed lease agreement) as a percentage of total available improved property space as of the end of the period reported.</p> <p>The Economic Occupancy percentage calculates the square footage under leases for which the lessee is contractually obligated to make lease-related payments (i.e., subsequent to the rent commencement date) to total available improved property space as of the end of the period reported.</p>
<b>Rent Spread</b>	Percentage change in ABR in the first year of a signed lease relative to the ABR in the last year of the prior lease.
<b>Same-Store</b>	The Company reports NOI and Occupancy on a Same-Store basis, which includes the results of properties that were owned and operated for the entirety of the prior calendar year and current reporting period, year-to-date. The Same-Store pool excludes properties under development or redevelopment and also excludes properties acquired or sold during either of the comparable reporting periods. While there is management judgment involved in classifications, new developments and redevelopments are moved into the Same-Store pool after one full calendar year of stabilized operation. Properties included in held for sale are excluded from Same-Store.
<b>Segment (or Consolidated) Adjusted EBITDA</b>	Segment Adjusted EBITDA (or Consolidated Adjusted EBITDA) is calculated by adjusting Segment EBITDA (or Consolidated EBITDA) for items identified as non-recurring, infrequent or unusual that are not expected to recur in the segment's normal operations (or in the Company's core business). Segment Adjusted EBITDA may also be referred to as CRE Adjusted EBITDA, Land Operations Adjusted EBITDA or M&C Adjusted EBITDA (when applicable). In addition to the aforementioned adjustments, the Company further adjusts Materials & Construction EBITDA to exclude income attributable to noncontrolling interests as presented in its consolidated statements of operations to arrive at M&C Adjusted EBITDA.
<b>Stabilization</b>	New developments and redevelopments are generally considered stabilized upon the initial attainment of 90% occupancy.
<b>Straight-line Rent</b>	Non-cash revenue related to a GAAP requirement to average tenant rents over the life of the lease, regardless of the actual cash collected in the reporting period.
<b>TTM</b>	Trailing twelve months.
<b>Year Built</b>	Year of most recent repositioning/redevelopment or year built if no repositioning/redevelopment has occurred.

## Alexander & Baldwin, Inc.

### Company Overview

#### Statement on Management's Use of Non-GAAP Financial Measures

---

The Company presents the following non-GAAP financial measures in this Supplemental Information document:

- Consolidated EBITDA
- Consolidated Adjusted EBITDA
- FFO
- Core FFO
- Commercial Real Estate NOI and Same-Store NOI
- Commercial Real Estate EBITDA
- Land Operations EBITDA
- Materials & Construction EBITDA and M&C Adjusted EBITDA

The Company uses non-GAAP measures when evaluating operating performance because management believes that they provide additional insight into the Company's and segments' core operating results, and/or the underlying business trends affecting performance on a consistent and comparable basis from period to period. These measures generally are provided to investors as an additional means of evaluating the performance of ongoing core operations. The non-GAAP financial information presented herein should be considered supplemental to, and not as a substitute for or superior to, financial measures calculated in accordance with GAAP.

The Company may report various forms of EBITDA (e.g., Segment EBITDA — also referred to as Commercial Real Estate EBITDA, Land Operations EBITDA and Materials & Construction EBITDA — and Consolidated EBITDA) as non-GAAP measures used by the Company in evaluating the segments' and Company's operating performance on a consistent and comparable basis from period to period. The Company provides this information to investors as an additional means of evaluating the performance of the segments' and Company's ongoing operations.

The Company also adjusts Segment EBITDA or Consolidated EBITDA to arrive at Segment Adjusted EBITDA or Consolidated Adjusted EBITDA for items identified as non-recurring, infrequent or unusual that are not expected to recur in the segment's normal operations (or in the Company's core business). Segment Adjusted EBITDA may also be referred to as CRE Adjusted EBITDA, Land Operations Adjusted EBITDA or M&C Adjusted EBITDA (when applicable). In addition to the aforementioned adjustments, the Company further adjusts Materials & Construction EBITDA to exclude income attributable to noncontrolling interests as presented in its consolidated statements of operations to arrive at M&C Adjusted EBITDA.

As illustrative examples, the Company has historically identified non-cash long-lived asset impairments recorded in different businesses within the M&C segment and the other-than-temporary impairment related to the Company's main land development joint venture in Kukui'ula as non-recurring, infrequent or unusual items that are not expected to recur in the segment's normal operations (or in the Company's core business). By excluding these items from Segment EBITDA and Consolidated EBITDA to arrive at Segment Adjusted EBITDA or Consolidated Adjusted EBITDA, the Company believes it provides meaningful supplemental information about its core operating performance and facilitates comparisons to historical operating results. Such non-GAAP measures should not be viewed as a substitute for, or superior to, financial measures calculated in accordance with GAAP.

FFO is presented by the Company as a widely used non-GAAP measure of operating performance for real estate companies. The Company believes that, subject to the following limitations, FFO provides a supplemental measure to net income (calculated in accordance with GAAP) for comparing its performance and operations to those of other REITs. FFO does not represent an alternative to net income calculated in accordance with GAAP. In addition, FFO does not represent cash generated from operating activities in accordance with GAAP, nor does it represent cash available to pay distributions and should not be considered as an alternative to cash flow from operating activities, determined in accordance with GAAP, as a measure of the Company's liquidity. The Company presents different forms of FFO:

- Core FFO represents a non-GAAP measure relevant to the operating performance of the Company's commercial real estate business (i.e., its core business). Core FFO is calculated by adjusting CRE operating profit to exclude items in a manner consistent with FFO (i.e., depreciation and amortization related to real estate included in CRE operating profit) and to make further adjustments to include expenses not included in CRE operating profit but that are necessary to accurately reflect the operating performance of its core business (i.e., corporate expenses and interest expense attributable to this core business) or to exclude items that are non-recurring, infrequent, unusual and unrelated to the core business operating performance (i.e., not likely to recur within two years or has not occurred within the prior two years). The Company believes such adjustments facilitate the comparable measurement of the Company's core operating performance over time. The Company believes that Core FFO, which is a supplemental non-GAAP financial measure, provides an additional and useful means to assess and compare the operating performance of REITs.
- FFO represents the Nareit-defined non-GAAP measure for the operating performance of the Company as a whole. The Company's calculation refers to net income (loss) available to A&B common shareholders as its starting point in the calculation of FFO.

The Company presents both non-GAAP measures and reconciles each to the most directly-comparable GAAP measure as well as reconciling FFO to Core FFO. The Company's FFO and Core FFO may not be comparable to FFO non-GAAP measures reported by other REITs. These other REITs may not define the term in accordance with the current Nareit definition or may interpret the current Nareit definition differently.

NOI is a non-GAAP measure used internally in evaluating the unlevered performance of the Company's Commercial Real Estate portfolio. The Company believes NOI provides useful information to investors regarding the Company's financial condition and results of operations because it reflects only the contract-based income and cash-based expense items that are incurred at the property level. When compared across periods, NOI can be used to determine trends in earnings of the Company's properties as this measure is not affected by non-contract-based revenue (e.g., straight-line lease adjustments required under GAAP); by non-cash expense recognition items (e.g., the impact of depreciation and amortization expense or impairments); or by other expenses or gains or losses that do not directly relate to the Company's ownership and operations of the properties (e.g., indirect selling, general, administrative and other expenses, as well as lease termination income). The Company believes the exclusion of these items from operating profit (loss) is useful because the resulting measure captures the contract-based revenue that is realizable (i.e., assuming collectability is deemed probable) and the direct property-related expenses paid or payable in cash that are incurred in operating the Company's Commercial Real Estate portfolio, as well as trends in occupancy rates, rental rates and operating costs. NOI should not be viewed as a substitute for, or superior to, financial measures calculated in accordance with GAAP.

The Company reports NOI and Occupancy on a Same-Store basis, which includes the results of properties that were owned and operated for the entirety of the prior calendar year and current reporting period, year-to-date. The Company believes that reporting on a Same-Store basis provides investors with additional information regarding the operating performance of comparable assets separate from other factors (such as the effect of developments, redevelopments, acquisitions or dispositions).

The calculations of these financial measures are described in the Glossary of Terms of this Supplemental Information document. To emphasize, the Company's methods of calculating non-GAAP measures may differ from methods employed by other companies and thus may not be comparable to such other companies.

Required reconciliations of these non-GAAP financial measures to the most directly comparable financial measure calculated and presented in accordance with GAAP are set forth in the following tables of this Supplemental Information document:

- Refer to Table 7 – Consolidated Metrics for a reconciliation of consolidated net income to Consolidated EBITDA and Consolidated Adjusted EBITDA, a reconciliation of consolidated net income (loss) available to A&B common shareholders to FFO and Core FFO, as well as a reconciliation of Commercial Real Estate operating profit to Core FFO.
- Refer to Table 8 – CRE Metrics for a reconciliation of Commercial Real Estate operating profit to NOI and Same-Store NOI and a reconciliation of Commercial Real Estate operating profit to Commercial Real Estate EBITDA.
- Refer to Table 18 – Statement of Operating Profit and EBITDA for a reconciliation of Land Operations operating profit to Land Operations EBITDA.
- Refer to Table 21 – Statement of Operating Profit, EBITDA and Adjusted EBITDA for a reconciliation of Materials & Construction operating profit to Materials & Construction EBITDA and M&C Adjusted EBITDA.

<b>Net Income (Loss)</b>	<b>9.9</b>	<b>5.6</b>
Loss (income) attributable to noncontrolling interest	—	0.6
<b>Net Income (Loss) Attributable to A&amp;B Shareholders</b>	<b>\$ 9.9</b>	<b>\$ 6.2</b>

<sup>1</sup>As described in the Company's other filings with the SEC, during the current year, the Company changed the composition of its reportable segments which caused reported amounts (i.e., revenue and operating profit) in the historical period to be reclassified from Land Operations to Materials & Construction. All comparable information for the historical periods has been restated to reflect the impact of these changes.

<sup>2</sup> Commercial Real Estate segment operating profit (loss) includes intersegment operating revenue, primarily from the Materials & Construction segment, and is eliminated in the consolidated results of operations.

<sup>3</sup> Land Operations segment operating profit (loss) includes equity in earnings (losses) from the Company's various real estate joint ventures and non-cash reductions related to the Company's solar tax equity investments.

	<b>March 31, 2021</b>	<b>December 31, 2020</b>
<b>Accounts receivable and contracts retention, net by segment:</b>		
Commercial Real Estate	\$ 3.0	\$ 5.4
Land Operations	0.9	0.8
Materials & Construction	29.3	37.3
<b>Total</b>	<b>\$ 33.2</b>	<b>\$ 43.5</b>

	<b>March 31, 2021</b>	<b>December 31, 2020</b>
<b>Identifiable Assets:</b>

<sup>1</sup> Per Glossary of Terms, Comparable Leases are either renewals (executed for the same units) or new leases (executed for units that have been vacated in the previous 12 months) for comparable space and comparable lease terms. Expansions, contractions and strategic short-term renewals are excluded from the Comparable Lease pool.

<sup>2</sup> Rent Spread is calculated for Comparable Leases, a subset of the total population of leases for the period presented.

<sup>3</sup> During the third quarter of 2020, fourth quarter of 2020 and first quarter of 2021, there were 35, 21 and 15 COVID-related lease modification extensions included in the totals herein (generally shorter-term, in nature), respectively. Note that, by definition, only extensions that cover comparable space and comparable lease terms are included in the Comparable Lease pool.

	<b>Three Months Ended March 31,</b>		<b>TTM March 31,</b>
	<b>2021</b>	<b>2020</b>	<b>2021</b>
<b>Land Operations Operating Profit (Loss)<sup>2</sup></b>	\$ 11.4	\$ 4.5	\$ 22.3
Land Operations depreciation and amortization	0.3	0.4	1.4
<b>Land Operations EBITDA</b>	\$ 11.7	\$ 4.9	\$ 23.7

<sup>1</sup> Other operating revenue includes revenue related to trucking, renewable energy and diversified agriculture.

<sup>2</sup> As described in the Company's other filings with the SEC, during the current year, the Company changed the composition of its reportable segments which caused reported amounts (i.e., revenue and operating profit) in the historical period to be reclassified from Land Operations to Materials & Construction. All comparable information for the historical periods has been restated to reflect the impact of these changes.

<sup>3</sup> Includes intersegment operating charges primarily from CRE that are eliminated in the consolidated results of operations.

Table 19 – Key Active Development-for-sale Projects and Investments

As of March 31, 2021

(dollars in millions, except per square foot and per unit amounts; unaudited)

Project	Location	Product Type	Est. Economic Interest <sup>1</sup>	Planned Units or Saleable Acres	Avg Size of Remaining Units (SF) or Lots (Acres)	Units / Acres Closed	Unit / Acres Remaining	Target Sales Price per SF / per Unit for Remaining	Est. Total Project Cost / Investment Cost <sup>2</sup>	A&B Projected Capital Commitment <sup>3</sup>	Total Project Costs Incurred to Date	A&B Gross Investment (Life to Date)	A&B Net Book Value	Construction Timing		Sales Closing Timing	
														Start / Est. Start	Est. Substantial Completion	Start / Est. Start	Est. End
Maui Business Park (Phase II)	Kahului, Maui	Light industrial lots	100%	116.7 acres	1.2 acres	50.1 acres	66.6 acres	\$38-\$60 per SF	\$ 90	N/A	\$ 73	\$ 73	\$ 33	2011	2021	2012	2030+
Kukui'ula	Poipu, Kauai	Resort residential	75% +/- 5%	1,425 units	N/A	388 units*	1,037 units	\$1.6M per unit	\$ 1,071	\$ 343	\$ 656	\$ 323	\$ 110	2006	2041	2006	2042
Other Kukui'ula Related Investments <sup>4</sup>	Poipu, Kauai	Resort residential	75% +/- 5%	58 units	N/A	52 units	6 units	\$2.3M per unit	\$ 102	\$ 53	\$ 80	\$ 52	\$ 14	2012	2018	2013	2022

\* For context, during the first quarter of 2021, a large parcel of land was sold by the joint venture as part of a bulk sale transaction to a third-party developer which represented 150 of the units contemplated in the total project.

<sup>1</sup> Estimated economic interest represents the Company's estimated share of distributions after return of capital contributions based on current forecasts of sales activity. Actual results could differ materially from projected results due to the timing of expected sales, increases or decreases in estimated sales prices or costs and other factors. As a result, estimated economic interests are subject to change. Further, as it relates to certain of our joint venture projects, information disclosed herein is obtained from our joint venture partners, who maintain the books and records of the related ventures.

<sup>2</sup> Includes land cost at book value, including capitalized interest, but excluding sales commissions and closing costs.

<sup>3</sup> Includes land cost at contribution value and total expected A&B capital to be contributed. The estimate includes due diligence costs and capitalized interest, but excludes capital projected to be contributed by equity partners, third-party debt, and amounts expected to be funded from project cash flows and/or buyer deposits.

<sup>4</sup> Includes two joint venture investments in vertical construction, development-for-sale projects at Kukui'ula, as well as notes receivable from a Kukui'ula development-for-sale project.
