Mr. Hao Liang, Boqii's Founder, Chairman and Chief Executive Officer commented: "In October 2020, Boqii successfully completed its IPO on the NYSE and became the first publicly traded pet-focused platform company in China, which marked a significant milestone not only for Boqii but also for the whole pet industry in China. As a newly public company, Boqii generated a strong quarter with solid operational and financial growth. Year on year quarterly GMV grew by 70% to RMB563.3 million while active buyers grew by 15% to 1.3 million. These solid results demonstrated our strong brand recognition, robust distribution capabilities as well as the greater user engagement in our community. Going forward, we will continue to innovate with a keen focus on delivering a seamless user experience, with our mission to empower the pet ecosystem and instill love and trust into pet parenting."

Mr. Liang continued: "In August, we started the 'Pet Hundred-Million Yuan Sales Club', an established strategic partnership with JD.com aiming to generate hundred-million sales in year 2020 from our products and online stores, and promote the iterative upgrade of both parties' operating systems. In September, we signed another strategic cooperation agreement with China Animal Husbandry Group to provide products and solutions for pet health. We are planning to develop more partnerships with other renowned platforms and large corporations to deliver best solutions and enhance our value proposition for fast-growing demand in the pet industry. We also recorded strong sales recently during the Singles' Day Global Shopping Festival. Over the 11-day period from November 1 to November 11, we generated a total GMV of RMB 244.5 million, a 39.97% increase from last year Singles' Day Shopping Festival."

Ms. Yingzhi (Lisa) Tang, Boqii's Co-Founder, Co-CEO and CFO commented: "We generated healthy revenue growth of 34.3% year-over-year during this quarter. Most notably, the percentage of revenue we generated from Boqii Mall reached 41.2%, significantly increasing from 29.0% in the same quarter of last fiscal year. We remain committed to developing Boqii Mall, and this result reflects our effort to provide a better user experience and product selection on our platform. We will invest heavily in technology, optimize our content and product offerings to drive impulse purchases and meet strong user demand."

^[1] EBITDA refers to net loss excluding income tax expenses, interest expense, interest income, depreciation and amortization expenses, but including all the professional expenses in relation to initial public offering. EBITDA is a Non-GAAP financial measurement. Please refer to "Reconciliation of GAAP and Non-GAAP Results."

^[2] GMV refers to gross merchandise volume, which is the total value of confirmed orders placed with us and sold through distribution model or drop shipping model where we act as a principal in the transaction regardless of whether the products are delivered or returned, calculated based on the listed prices of the ordered products without taking into consideration any discounts. The total GMV amount (i) includes GMV of products sold by Xingmu, (ii) excludes products sold through consignment model and (iii) excludes the value of services offered by us. GMV is subject to future adjustments (such as refunds) and represents only one measure of the Company's performance and should not be relied on as an indicator of our financial results, which depend on a variety of factors.

Fiscal Second Quarter Financial Results

Total revenues were RMB229.2million (US\$33.8 million), representing an increase of 34.3% from RMB170.6 million in the same quarter of fiscal year 2019. The increase was primarily due to more revenue generated from Boqii Mall, which represented 41.2% of our total revenue versus 29.0% in the same quarter of fiscal year 2020.

Revenues (in RMB million)	2020 Sep. Quarter	2019 Sep. Quarter	% change YoY
Revenues from product sales	227.9	169.7	+34.3%
· Boqii Mall	94.4	49.5	+90.8%
· Third party e-commerce platforms	133.5	120.2	+11.1%
Revenues from online marketing and information services	1.3	0.9	+43.8%

Gross profit was RMB42.6 million (US\$6.3 million), an increase of 15.5% from RMB36.9 million in the same quarter of fiscal year 2020.

Gross margin was 18.6%, a decrease of 304 basis points from 21.6% in the same quarter of fiscal year 2020. The decrease in gross margin was mainly due to the increased contribution of revenue from Boqii Mall, where we offer more favorable pricing to our valued users.

Operating expenses were RMB77.1 million, an increase of 12.9% from RMB 68.3 million in the same quarter of fiscal year 2020. Operating expenses as a percentage of total revenues was 33.6%, compared to 40.0% in the same quarter of fiscal year 2020.

- **Fulfillment Expenses** were RMB29.0 million, an increase of 18.1% from RMB 24.6 million in the same quarter of fiscal year 2020. Fulfillment expenses as a percentage of total revenues were 12.7 %, compared to 14.4% in the same quarter of fiscal year 2020. The decrease was mainly due to: (i) the improved utilization of warehouses by adjusting inventory mix; (ii) relocation of warehouses across China in a more cost-efficient method; and (iii) lower delivery service prices through renegotiation with third-party delivery service providers.
- **Sales and marketing expenses** were RMB31.3 million, a decrease of 5.3% from RMB 33.1 million in the same quarter of fiscal year 2020. Sales and marketing expenses as a percentage of total revenue were 13.7%, compared to 19.4% in the same quarter of fiscal year 2020. The decrease was mainly due to lower customer acquisition costs and more cost-efficient customer services.
- **General and administrative expenses** were RMB16.7 million, an increase of 57.7% from RMB 10.6 million in the same quarter of fiscal year 2020. General and administrative expenses as a percentage of total revenue were 7.3%, compared to 6.2% in the same quarter of fiscal year 2020. The increase was primary due to professional expenses incurred for the initial public offering, as well as increased employee salaries and benefits.

Operating loss was RMB34.2 million (US\$5.0 million), an increase of 9.0% compared to RMB31.4 million in the same quarter of fiscal year 2020.

EBITDA was a loss of RMB23.4 million (US\$3.4 million), representing a 23.5% improvement from a loss of RMB30.6 million in the same quarter of fiscal year 2020.

EBITDA margin increased 772 basis points to (10.2%), compared to (17.9%) in the same quarter of fiscal 2020.

Net loss was RMB27.5million (US\$4.0million), compared to net loss of RMB43.5 million in the same quarter of fiscal year 2020.

Diluted net loss per share was RMB3.06 (US\$0.50), compared to diluted net loss per share of RMB3.98 in the same quarter of fiscal year 2020.

Non-GAAP Financial Measures

The Company uses non-GAAP financial measures, namely adjusted net loss, EBITDA and EBITDA margin, in evaluating its operating results and for financial and operational decision-making purposes. The Company defines (i) adjusted net loss as net loss excluding fair value change of derivative liabilities, (ii) EBITDA as net loss excluding income tax expenses, interest expense, interest income, depreciation and amortization expenses, and (iii) EBITDA margin as EBITDA as a percentage of total revenues.
