Note: (1) Fiscal year ended March 31. (2) "GMV" refers to gross merchandise volume, which is the total value of confirmed orders placed with us and sold through distribution model or drop shipping model where we act as a principal in the transaction regardless of whether the products are delivered or returned, calculated based on the listed prices of the ordered products without taking into consideration any discounts. The total GMV amount (i) includes GMV of products sold by Xingmu, (ii) excludes products sold through consignment model and (iii) excludes the value of services offered by us. GMV is subject to future adjustments (such as refunds) and represents only one measure of the Company's performance and should not be relied on as an indicator of our financial results, which depend on a variety of factors. (3) Adj EBITDA is a Non-GAAP financial measurement. Please refer to "Reconciliation of GAAP and Non-GAAP Results" in our earnings release.
