Q3 2023 Operating Adjusted EBITDA Guidance

• Operating adjusted EBITDA⁽²⁾ of at least \$105 million

"B. Riley Financial is experiencing strong momentum, and we believe our preliminary second quarter results and outlook demonstrate the ongoing successful execution of our platform strategy," said **Bryant Riley, Chairman and Co-Chief Executive Officer of B. Riley Financial**. "We are seeing positive trends across our businesses. Capital markets and retail liquidation activity is steadily increasing as a function of market tailwinds in our historically episodic segments. Demand for our consulting and appraisal services is at record levels, and our communications and consumer segments continue to perform as a stable source of earnings and cash flow."

"Investment banking during the month of July has already exceeded our results for all of the second quarter. To the extent that this recent momentum continues, Operating Adjusted EBITDA will meaningfully exceed our \$105 million estimate," said Riley. "We expect to have over \$500 million of immediate liquidity with current cash on hand, anticipated proceeds from our concurrently announced equity offering, and a new upsized credit facility which we expect to finalize shortly. We plan to use this capital to go on offense in pursuit of opportunities presented by this increased activity in our investment banking business, as well as other opportunities that we see across our B. Riley platform."

Total cash and investments⁽³⁾ is estimated to be approximately \$1.9 billion as of June 30, 2023. Total debt, net of cash and investments, is expected to be approximately \$406 million as of June 30, 2023.

Note Regarding Use of Non-GAAP Financial Measures

Certain of the information set forth herein, including operating revenues, adjusted EBITDA, operating adjusted EBITDA and total debt, net of cash and investments may be considered non-GAAP financial measures. B. Riley Financial believes this information is useful to investors because it provides a basis for measuring the Company's available capital resources, the operating performance of its business and revenues and cash flow, (i) excluding in the case of operating revenues, trading income (losses) and fair value adjustments on loans, (ii) excluding in the case of adjusted EBITDA, net interest expense, provisions for or benefit from income taxes, depreciation, amortization, restructuring charge, gain on extinguishment of loans, impairment of trade names, stock-based compensation and transaction related and other expenses, (iii) excluding in the case of operating adjusted EBITDA, the aforementioned adjustments for adjusted EBITDA as well as trading income (losses) and fair value adjustments on loans, realized and unrealized gains (losses) on investments and fair value adjustments and other investment related expenses and (iv) including in the case of total cash and investments, cash and cash equivalents, restricted cash, due from clearing brokers net of due to clearing brokers, securities and other investments owned, at fair value net of (a) securities sold not yet purchased and (b) noncontrolling interest related to investments, advances against customer contracts, loans receivable, at fair value net of loan participations sold, and other investments reported in prepaid and other assets, that would normally be included in the most directly comparable measures calculated and presented in accordance with Generally Accepted Accounting Principles ("GAAP"). In addition, our management uses these non-GAAP financial measures along with the most directly comparable GAAP financial measures in evaluating the Company's operating performance, management compensation, capital resources, and cash flow. Non-GAAP financial measures should not be considered in isolation from, or as a substitute for, financial information presented in compliance with GAAP, and non-financial measures as reported by the Company may not be comparable to similarly titled amounts reported by other companies.

The Company has not provided guidance for a comparable GAAP measure or a quantitative reconciliation of its forecast for Operating Adjusted EBITDA in the third quarter of 2023 to the most directly comparable GAAP measure because it is unable to determine with reasonable certainty the ultimate outcome of certain significant items necessary to calculate such measure without unreasonable effort. These items include, but are not limited to, final calculation of investment gains (losses), defined as trading income (losses) and fair value adjustments on loans. Notwithstanding this limitation, as noted above, the Company estimates Operating Adjusted EBITDA⁽²⁾ of at least \$105 million in the third quarter of 2023. These items are uncertain, depend

on various factors, and could have a material impact on the GAAP reported results for the period.
