

# SECOND QUARTER 2022

## Financial Supplement

In this presentation (1) "CatchMark" refers to CatchMark Timber Trust, Inc., a Maryland corporation that has elected to be taxed as a real estate investment trust (NYSE: CTT), (2) "Triple T" refers to TexMark Timber Treasury, L.P., a Delaware limited partnership that is a joint venture that was managed by CatchMark and in which CatchMark held a common limited partnership interest through October 14, 2021, and (3) "Dawsonville Bluffs" refers to Dawsonville Bluffs, LLC, a Delaware limited liability company that is a joint venture managed by CatchMark and in which CatchMark holds a 50% limited liability company interest.

## **Forward-Looking Statements**

This presentation contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, as amended. Such forward-looking statements can generally be identified by our use of forward-looking terminology such as "may," "will," "expect," "intend," "anticipate," "estimate," "believe," "continue," or other similar words. However, the absence of these or similar words or expressions does not mean that a statement is not forward-looking. Forward-looking statements are not guarantees of performance and are based on certain assumptions, discuss future expectations, describe plans and strategies, contain projections of results of operations or of financial condition or state other forward-looking information. Forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from our historical experience and our present expectations, including, but not limited to: (i) the supply of timberlands available for acquisition that meet our investment criteria may be less than we currently anticipate; (ii) we may be unsuccessful in winning bids for timberland that are sold through an auction process; (iii) we may not be able to access external sources of capital at attractive rates or at all; (iv) potential increases in interest rates could have a negative impact on our business; (v) timber prices may not increase at the rate we currently anticipate or could decline, which would negatively impact our revenues; (vi) we may not generate the harvest volumes from our timberlands that we currently anticipate; (vii) the demand for our timber may not increase at the rate we currently anticipate or could decline due to changes in general economic and business conditions in the geographic regions where our timberlands are located, including as a result of the COVID-19 pandemic and the measures taken as a response thereto; (viii) a downturn in the real estate market, including decreases in demand and valuations, may adversely impact our ability to generate income and cash flow from sales of higher-and-better use properties; (ix) we may not be able to make large dispositions of timberland in capital recycling transactions at prices that are attractive to us or at all; (x) our dividends are not guaranteed and are subject to change; (xi) the markets for carbon sequestration credits, wetlands mitigation banking and solar projects are still developing and we maybe unsuccessful in generating the revenues from environmental initiatives that we currently expect or in the timeframe anticipated; (xii) our share repurchase program may not be successful in improving stockholder value over the long-term; (xiii) our joint venture strategy may not enable us to access non-dilutive capital and enhance our ability to make acquisitions; and (xiv) the factors described in Part I, Item 1A. Risk Factors of our Annual Report on Form 10-K for the fiscal year ended December 31, 2021, Part II, Item 1A. Risk Factors of our Quarterly Report on Form 10-Q for the period ended June 30, 2022, and our other filings with Securities and Exchange Commission. Accordingly, readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this presentation. We undertake no obligation to update our forward-looking statements, except as required by law.

# **FINANCIAL AND OPERATING INFORMATION**

# FINANCIAL HIGHLIGHTS

(in thousands, except per-share data)

| Results of Operations   | Q2 2022   | Q1 2022  | Q2 2021  | 2022 YTD  | 2021 YTD |
|---|-----------|----------|----------|-----------|----------|
| Revenues  | \$24,559  | \$26,942 | \$31,940 | \$51,501  | \$59,626 |
| Income (loss) before unconsolidated joint ventures and income taxes | \$(4,819) | \$2,694  | \$1,704  | \$(2,125) | \$539    |
| Net income (loss)   | \$(4,559) | \$3,184  | \$1,753  | \$(1,375) | \$1,202  |
| Net income (loss) attributable to common stockholders               | \$(4,548) | \$3,176  | \$1,749  | \$(1,372) | \$1,199  |
| Net income (loss) per common share – diluted                        | \$(0.09)  | \$0.07   | \$0.04   | \$(0.03)  | \$0.02   |
| Adjusted EBITDA <sup>1</sup>  | \$13,673  | \$14,846 | \$17,577 | \$28,519  | \$30,514 |
| Weighted-average common shares outstanding - diluted                | 48,522    | 48,479   | 48,421   | 48,501    | 48,398   |

| Revolving line of credit               | \$35,000  | \$35,000   |
| Acquisition facilities                 | 218,619   | 218,619    |
|  | \$253,619 | \$253,619  |

1. Adjusted EBITDA is a non-GAAP measure. See Appendix for our definition of Adjusted EBITDA and reconciliation of net income (loss) to Adjusted EBITDA.

2. Debt is gross of deferred financing costs.

3. Enterprise value is based on equity market capitalization as of the last trading day of the respective period plus net debt.

4. Cash Available for Distribution is a non-GAAP measure. See Appendix for our definition of Cash Available for Distribution for a reconciliation of Cash Provided by Operating Activities to Cash Available for Distribution.

# ADJUSTED EBITDA BY SEGMENT

\* Excludes large dispositions unless noted otherwise.

1. Calculated using average fee acres owned during the respective period.
2. Excludes value of timber reservations.
3. Stocking refers to merchantable timber inventory per acre. CatchMark considers 15-year or older pine as merchantable.
4. Represents timber reservations added in respective period related to land sold and lease terminations.

## Significant Reduction in Leverage

## Credit Facilities and Maturity Schedule<sup>7</sup>

1. Calculated using trailing twelve-month Adjusted EBITDA divided by trailing twelve-month cash paid for interest as of 6/30/2022. This calculation differs from the calculation of the fixed charge ratio covenant under our credit facilities and should not be viewed as an indication of compliance with such covenant.

2. Net debt equals outstanding borrowings net of cash on hand as of 6/30/2022.

3. Trailing twelve-month Adjusted EBITDA as of 6/30/2022.

4. Adjusted EBITDA is a non-GAAP measure. See Appendix for the reconciliation of net income (loss) to Adjusted EBITDA.

5. Enterprise value is based on equity market capitalization as of 6/30/2022 plus net debt.

6. After consideration of effects of interest rate swaps and patronage refund as of 6/30/2022.

7. As of 6/30/2022.

# APPENDIX

# DEFINITIONS OF NON-GAAP MEASURES

**Adjusted EBITDA:** Earnings before Interest, Taxes, Depletion, and Amortization (“EBITDA”) is a non-GAAP measure of operating performance. EBITDA is defined by the SEC however, we have excluded certain other expenses which we believe are not indicative of the ongoing operating results of our timberland portfolio, and we refer to this measure as Adjusted EBITDA. As such, our Adjusted EBITDA may not be comparable to similarly titled measures reported by other companies and should not be considered in isolation or as an alternative to, or substitute for net income, cash from operations, or other financial statement data presented in our consolidated financial statements as indicators of our operating performance. Due to the significant amount of timber assets subject to depletion, significant income (losses) from unconsolidated joint ventures based on HLBV, and the significant amount of financing subject to interest and amortization expense, management considers Adjusted EBITDA to be an important measure of our financial performance. Adjusted EBITDA has limitations as an analytical tool and should not be considered in isolation or as a substitute for analysis of our results as reported under U.S. GAAP. Some of the limitations are:

- Adjusted EBITDA does not reflect our capital expenditures, or our future requirements for capital expenditures;
- Adjusted EBITDA does not reflect changes in, or our interest expense or the cash requirements necessary to service interest or principal payments on, our debt; and
- Although depletion is a non-cash charge, we will incur expenses to replace the timber being depleted in the future, and Adjusted EBITDA does not reflect all cash requirements for such expenses.
- Although HLBV income and losses are primarily hypothetical and non-cash in nature, Adjusted EBITDA does not reflect cash income or losses from unconsolidated joint ventures for which we use the HLBV method of accounting to determine our equity in earnings.
- Adjusted EBITDA does not reflect the cash requirements necessary to fund post-employment benefits or transaction costs related to acquisitions, investments, joint ventures or new business initiatives, which may be substantial.

Due to these limitations, Adjusted EBITDA should not be considered as a measure of discretionary cash available to us to invest in the growth of our business. Our credit agreement contains a minimum debt service coverage ratio based, in part, on Adjusted EBITDA since this measure is representative of adjusted income available for interest payments.

**Cash Available for Distribution (CAD):** Cash provided by operating activities adjusted for capital expenditures (excluding timberland acquisitions), working capital changes, cash distributions from unconsolidated joint ventures and certain cash expenditures that management believes do not directly reflect the core business operations of our timberland portfolio on an on-going basis, including costs required to be expensed by GAAP related to acquisitions, transactions, joint ventures or new business activities. See page 6 for a reconciliation of Cash Provided by Operating Activities to Cash Available for Distribution.

- For the purpose of the above reconciliation, amortization includes amortization of deferred financing costs, amortization of operating lease assets and liabilities, amortization of intangible lease assets, and amortization of mainline road costs, which are included in either interest expense, land rent expense, or other operating expenses in the accompanying consolidated statements of operations.
- Reflects our share of depletion, amortization, and basis of timberland and mitigation credits sold of the unconsolidated Dawsonville Bluffs Joint Venture.
- Includes non-cash basis of timber and timberland assets written-off related to timberland sold, terminations of timberland leases and casualty losses.
- Large dispositions are sales of blocks of timberland properties in one or several transactions with the objective to generate proceeds to fund capital allocation priorities. Large dispositions may or may not have a higher or better use than timber production or result in a price premium above the land's timber production value. Such dispositions are infrequent in nature, are not part of core operations, and would cause material variances in comparative results if not reported separately.
- Reflects merger-related legal fees, consulting fees and other professional fees required to be expensed by GAAP that management believes do not directly reflect the core business operations of our timberland portfolio on an on-going basis.
- Reflects one-time, non-recurring post-employment benefits associated with the retirement of our former CEO, including severance pay, payroll taxes, professional fees, and accrued dividend equivalents paid in installments over agreed-upon periods of time.
- Includes certain cash expenses paid, or reimbursement received, that management believes do not directly reflect the core business operations of our timberland portfolio on an on-going basis, including post-employment benefits and costs required to be expensed by GAAP related to acquisitions, transactions, joint ventures or new business initiatives.

1. After excluding 80,700 tons harvested in Louisiana and Texas, which represents merchantable timber reserved after the disposition of CatchMark's Southwest portfolio in late 2018, U.S. South productivity in 2020 would have been 5.3 tons per acre per year.
2. Acquisitions amounts are exclusive of transaction costs.
3. Stocking refers to merchantable timber inventory per acre. CatchMark considers 15-year or older pine as merchantable in the U.S. South.
4. Calculated using average fee acres owned during respective period.
5. Excludes value of timber reservations.
6. Includes volumes from large dispositions.
