BACKGROUND

Chipotle is committed to sourcing the very best ingredients that are grown, raised, and harvested with respect for people, animals, and the land. We work to create and celebrate integrity in all aspects of our business, including how workers are valued and the way crops are grown, animals are treated, and the environment is impacted.

Our best business success is achieved by honoring and empowering our restaurant managers and crew members. Chipotle strives to grow and earn profits ethically by balancing social, environmental, and financial commitments to shareholders, customers, employees, and the public. We seek out suppliers who share and champion our core values, and act with honesty and integrity. We also envision that our suppliers are always getting better, and helping us improve the meals we serve to customers.

We are committed to complying with the law and maintaining the highest standards of honesty, integrity, and conduct. Chipotle also requires that its suppliers comply with basic principles and regulations that protect, and respect, workers, animals, and the land. We proudly do business with suppliers who expect to, and do, uphold the same principles.

Notable material and findings about our supply chain can be found in Chipotle’s Sustainability Report at Chipotle.com/Sustainability.

FOOD WITH INTEGRITY (FWI)
As part of our FWI commitment, we require our suppliers to certify, through a separate certification process, to the following:

Responsibly Raised Meats:
All animals have been responsibly raised, which means that they’re treated humanely from birth to slaughter, fed a vegetarian diet and never given added hormones or sub-therapeutic antibiotics.

rBGH Free:
100% of the milk in our sour cream, cheese and queso comes from cows that have never been treated with rBGH (Recombinant Bovine Growth Hormone).

Outdoor-Raised Dairy:
Dairy cows have had daily access to the outdoors, are fed an all-vegetarian diet and have never been given sub-therapeutic antibiotics or added hormones.

GMO Free:
All ingredients sold to us are non-GMO (however some beverages may contain GMO ingredients, much of the meat and dairy comes from animals fed at least some GMO grain).

All ingredients and processes must comply with our FSQA requirements.

All ingredients must be traceable, with transparency covering point of origin, growing, handling, and harvesting practices.

Certifications will be sent separately from this Code of Conduct.

We also strongly prefer (but do not require) that our suppliers comply with the following aspirational attributes, when possible.

Organic:
Produce should be grown organically as per USDA Organic Certification.

Local:
Food should be sourced from within 350 miles of a distribution center. The majority of our restaurants are located within 80 miles of a distribution center.

Farmers:
Farmers should raise their animals and crops with respect for the long-term health of the land and community.
