CHCT Offers a Unique Value Proposition

Attractive Market

- Long-term industry growth tailwinds continue to drive demand and increase healthcare expenditures
- Government and commercial payors are seeking a lower cost site of care to deliver healthcare more efficiently
- Significant opportunities exist to develop and acquire high quality assets at attractive yields

Strategic Vision

- Emphasis on smaller, off-market or lightly marketed transactions
- Identify needs-based, medical office, outpatient and alternate site facilities in targeted submarkets convenient to the population
- Utilize extensive relationships with healthcare providers, intermediaries and property owners to source attractive acquisitions

Disciplined Approach

- Acquisitions must meet rigorous underwriting and return requirements – no growth for the sake of growth
- Investment policy requires portfolio diversification by geography, industry segment, and tenant
- A conservative, easy to understand debt structure and balance sheet

Management Alignment

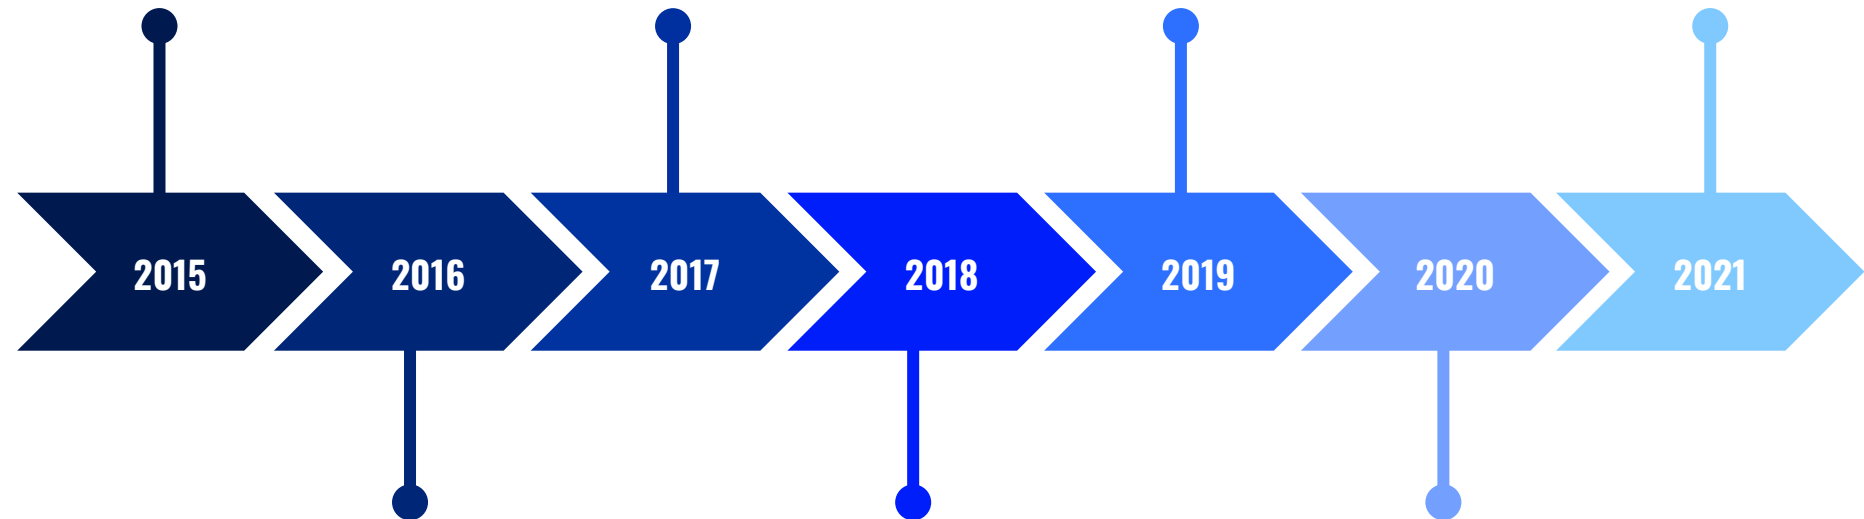

- Executive Management team with over 25 years of healthcare and/or public REIT experience on average
- The Executive Officers have elected to take ALL compensation in the form of restricted stock with 8-year cliff vesting – strong alignment of interest with shareholders
- Tim Wallace, CEO, has acquired over 318,000 of additional shares through offerings and 10b5-1 programs

Strategic Investment Model

CHCT's proprietary investment model identifies off-market properties and quality operators at attractive cap rates

1. Undervalued Asset Niche

- Acquisition focus on smaller off market or lightly marketed transactions
- Avoid acquiring properties through a competitive bidding process
- Focus on attractive properties from third-party owners or directly with healthcare providers

2. Active Asset Management

- Staggered lease maturities provide opportunity to continuously mark rental rates to market
- Utilize internal asset management team as well as in-market property liaisons to handle tenant needs

3. Portfolio Diversification

- Properties are diversified across tenant, geography, healthcare facility type and industry segment
- Internal investment guidelines limits concentration among these segments

Healthcare Industry Tailwinds

Aging U.S. Population Drives Healthcare Expenditures

Healthcare's Growing Importance

Commentary

- Healthcare spending accounted for 17.7% of US Gross Domestic Product (GDP) in 2018
 - Projected to grow from \$3.6Tn in 2018 to reach \$6.2Tn by 2028
 - Represents a 5.5% average annual growth rate and a projected 19.7% of GDP by 2028
- The U.S. 65+ age group is growing faster than the country's population
 - Grew by 34.2% during the past decade, and by 3.2% from 2018 to 2019
 - ~10,000 Baby Boomers turn 65 every day
 - By 2030, there will be over 95 million people in the U.S. aged 65+, representing ~23% of the entire population
- ~90% of adults aged 65+ have one of more chronic conditions
- ~25% of Baby Boomers expect to live past the age of 90, which will lead to an increase in medical spending
 - Per person personal health care spending for the 65+ population was \$19,098 in 2014, over 5 times higher than spending per child (\$3,749) and almost 3 times the spending per working-age person (\$7,153)

Healthcare Industry Tailwinds (cont.)

Technology, Cost, and Consumer Preference Shift Delivery of Care

Inpatient Admissions

Outpatient Visits

Commentary

- Procedures traditionally performed in acute care hospitals are increasingly moving to specialty and outpatient facilities
- Studies show that outpatient visits per 1,000 have grown 49.7% from 1995-2017, whereas inpatient admissions per 1,000 have declined 10.4%
- Shift can be linked to advances in clinical science, technology, pain management, improved medical protocols, shifting consumer preferences, limited or inefficient space in existing hospitals, and lower costs in the outpatient environment
- This continuing shift increases the need for additional outpatient facilities and smaller, more specialized hospitals and rehabilitation facilities

ESG Policies

CHCT is committed to sound ESG policies

Guidelines

Environmental

We are committed to implementing environmentally sustainable best practices for our own operations, and to assist our tenants in their efforts to address their environmental concerns. Examples include:

- Benchmarking and monitoring utility usage with the goal of improving energy efficiency and reducing waste whenever possible
- Requiring the use of LED lighting, high-efficiency HVAC units, and low flow water fixtures on all newly developed and renovated buildings
- Adding needlepoint bipolar ionization equipment to our corporate office HVAC that effectively traps viruses (including the coronavirus), mold, odors, and other pathogens

Social

We recognize the value that each of our employees brings to our clients every day and seek ways to further support and engage them. Examples include:

- All employees are eligible to receive incentive compensation in the form of cash and restricted stock based on individual and company performance
- Supporting our employees through a competitive benefits package, philanthropic, training, and education support
- Ensuring the safety and well-being of our employees and tenants

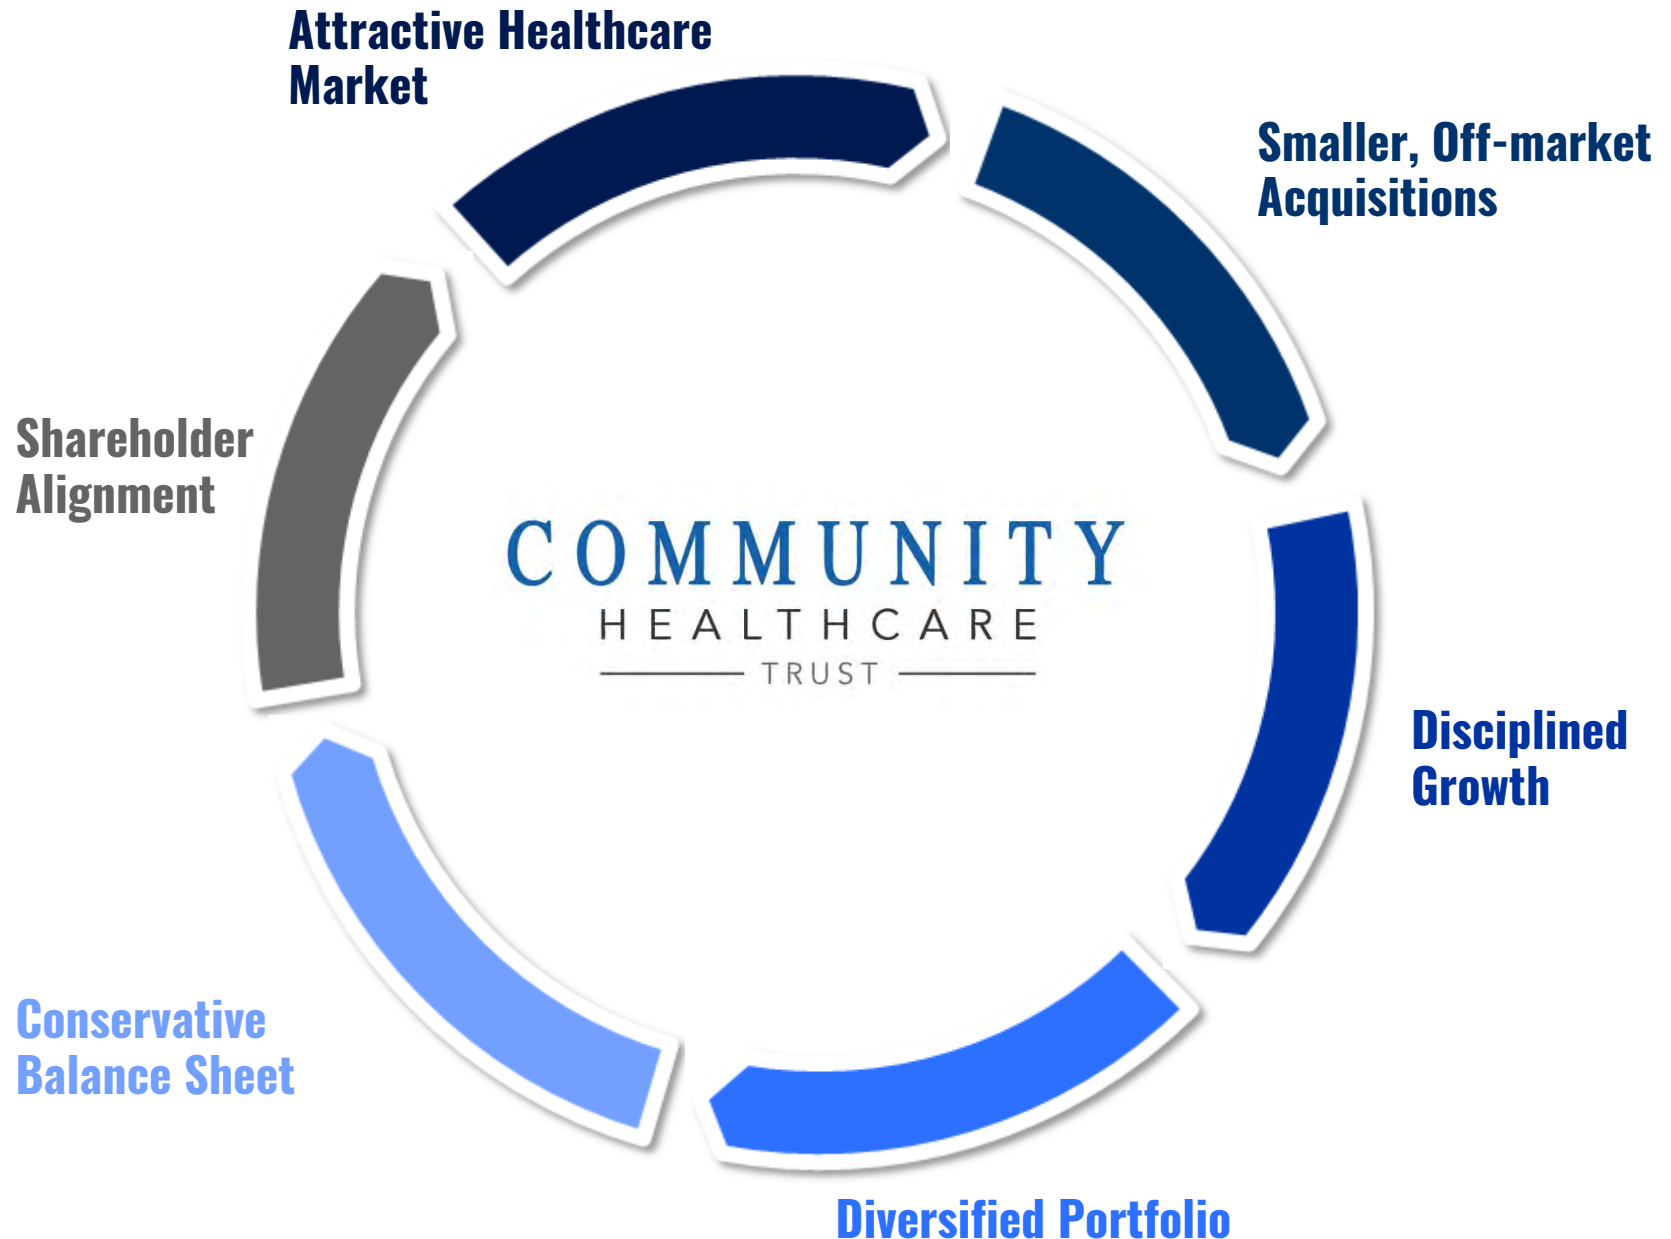

Governance

A central tenet of the Company's founders was to design a corporate governance structure that was in complete alignment with its common shareholders. Examples include:

- The Company's Investment Guidelines limit, among other things, concentration of tenant, healthcare sector, and geographic location
- Annual election for all board members, only one non-independent director, and shareholder proxy access for director nominations
- Since inception, 100% of all C-Suite compensation has been taken in restricted stock
- Annually, employees are required to attest their compliance with the Company's Code of Ethics and Business Conduct
