### **Second Quarter 2019 Financial Results**

**Total net revenues** for the second quarter of 2019 increased by 133.2% to RMB1,872.7 million (US\$272.8 million) from RMB802.9 million in the same period of 2018, primarily due to the increase in live streaming revenues.

Live streaming revenues increased by 156.0% to RMB1,708.3 million (US\$248.8 million) in the second quarter of 2019 from RMB667.3 million in the same period of 2018, primarily due to the Company's continuing efforts to cultivate users' paying habits as well as the growth in both the number of paying users and ARPPU.

Advertising and other revenues increased by 21.2% to RMB164.4 million (US\$24.0 million) in the second quarter of 2019 from RMB135.6 million in the same period of 2018, primarily driven by the increasing integrated promotion activities during live streaming as a result of improvements in the Company's brand awareness.

**Cost of revenues** increased by 104.0% to RMB1,571.7 million (US\$228.9 million) in the second quarter of 2019 from RMB770.3 million in the same period of 2018, primarily attributable to the increase in revenue sharing fees and content costs as well as bandwidth costs.

Revenue sharing fees and content costs increased by 121.2% to RMB1,326.6 million (US\$193.2 million) in the second quarter of 2019 from RMB599.8 million in the same period of 2018, primarily due to: 1) increases in revenue sharing fees which were in line with increases in live streaming revenue, and 2) increases in content costs primarily attributable to the high-quality content created on the Company's platform as well as eSports related content investment.

Bandwidth costs increased by 15.2% to RMB153.3 million (US\$22.3 million) in the second quarter of 2019 from RMB133.0 million in the same period of 2018, primarily due to the increases in bandwidth usage necessary to support the growth of user traffic on the platform and improve the quality of live streaming video to enhance user experience, partially offset by the improved bandwidth utilization efficiency primarily attributable to the continued deployment of new technologies in content distribution.

**Gross profit** increased by 823.8% to RMB301.1 million (US\$43.9 million) in the second quarter of 2019 from RMB32.6 million in the same period of 2018. Gross margin increased to 16.1% in the second quarter of 2019 from 4.1% in the same period of 2018, primarily due to the Company's continuing improvements on monetization capabilities, bandwidth utilization through technology upgrades, and operational efficiency, which has also contributed to the development of economies of scale on the platform.

**Sales and marketing expenses** increased by 17.4% to RMB167.8 million (US\$24.4 million) in the second quarter of 2019 from RMB142.9 million in the same period of 2018, mainly attributable to greater efforts in promoting the Company's brand awareness, eSports contents and offline events.

General and administrative expenses increased by 98.4% to RMB73.3 million (US\$10.7 million) in the second quarter of 2019 from RMB37.0 million in the same period of 2018, mainly due to the significant increase in share-based compensation expenses related to the awarding of restricted shares in connection with the acquisition of Nonolive in October 2018, as well as the increase in salaries and benefits of the management team as a result of the Company's business growth.

**Other operating income, net** was RMB14.5 million (US\$2.1 million) for the second quarter of 2019, compared with RMB21.2 million in the same period of 2018.

**Income tax expenses** were nil for the second quarter of 2019 and 2018, due to the Company's cumulative net losses and the resulting tax loss carryforward.
