Some of the comments made and information contained in our presentation will be forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements include projections of revenue, earnings, capital structure, and other financial items; statements on the plans and objectives of the Company and its management; statements of future economic performance and assumptions underlying the statements regarding the Company and its business. These are based on current information and the beliefs and expectations of the Company but are subject to various risks and uncertainties that could cause the Company's actual results to differ materially from the Company’s expectations. These include, among other things, the Company’s ability to successfully implement its business initiatives and integrate its acquisitions in each of its business segments, slowing demand for the Company’s products, changes in general economic conditions, including, unemployment, inflation or deflation, changes in tax policies, changes in energy costs, uncertain credit markets and other macro-economic conditions, the ability to maintain favorable vendor arrangements and relationships, disruptions in our vendors’ operations, competitive product, service and pricing pressures, the uncertainties and costs of litigation, as well as other risks and uncertainties described in the Company's latest SEC filings. The statements speak only as of the date on which they are made and the Company assumes no obligation to update any forward-looking statements made during this presentation or in these materials except as required by law.
