### **Non-IFRS Financial Measures**

While the financial figures included in this press release have been computed in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") applicable to interim periods for the fourth quarter and applicable to financial statements for the full year, this announcement does not contain sufficient information to constitute an interim financial report as defined in International Accounting Standards 34, "Interim Financial Reporting" nor a financial statement as defined by International Accounting Standards 1 "Presentation of Financial Statements". The financial information in this press release has not been audited.

Globant provides non-IFRS financial measures in addition to reported IFRS results prepared in accordance with IFRS. Management believes these measures help illustrate underlying trends in the company's business and uses the non-IFRS financial measures to establish budgets and operational goals, communicated internally and externally, for managing the company's business and evaluating its performance. The company anticipates that it will continue to report both IFRS and certain non-IFRS financial measures in its financial results, including non-IFRS measures that exclude share-based compensation expense, depreciation and amortization, impairment of assets and acquisition-related charges. Because the company's non-IFRS financial measures are not calculated according to IFRS, these measures are not comparable to IFRS and may not necessarily be comparable to similarly described non-IFRS measures reported by other companies within the company's industry. Consequently, Globant's non-IFRS financial measures should not be evaluated in isolation or supplant comparable IFRS measures, but, rather, should be considered together with its unaudited consolidated statement of financial position as of December 31, 2019 and December 31, 2018 and its unaudited consolidated statement of profit or loss and other comprehensive income for the three years ended December 31, 2019, prepared in accordance with IFRS issued by IASB.

Globant is not providing a quantitative reconciliation of forward-looking Non-IFRS Adjusted Profit from Operations Margin or Non-IFRS Adjusted Diluted EPS to the most directly comparable IFRS measure because it is unable to predict with reasonable certainty the ultimate outcome of certain significant items without unreasonable effort. These items include, but are not limited to, share-based compensation expense, impairment of assets and acquisition-related charges. These items are uncertain, depend on various factors, and could have a material impact on IFRS reported results for the guidance period.

### **Forward Looking Statements**

In addition to historical information, this release contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. In some cases, you can identify forward-looking statements by terminology such as "believe," "may," "will," "estimate," "continue," "anticipate," "intend," "should," "plan," "expect," "predict," "potential," or the negative of these terms or other similar expressions. These statements include, but are not limited to, statements regarding our future financial and operating performance, including our outlook and guidance, and our strategies, priorities and business plans. Our expectations and beliefs regarding these matters may not materialize, and actual results in future periods are subject to risks and uncertainties that could cause actual results to differ materially from those projected. Factors that could impact our actual results include: our ability to maintain current resource utilization rates and productivity levels; our ability to manage attrition and attract and retain highly-skilled IT professionals; our ability to accurately price our client contracts; our ability to achieve our anticipated growth; our ability to effectively manage our rapid growth; our

ability to retain our senior management team and other key employees; our ability to continue to innovate and remain at the forefront of emerging technologies and related market trends; our ability to retain our business relationships and client contracts; our ability to manage the impact of global adverse economic conditions; our ability to manage uncertainty concerning the instability in the current economic, political and social environment in Latin America; and other factors discussed under the heading "Risk Factors" in our most recent Form 20-F filed with the U.S. Securities and Exchange Commission.

Because of these uncertainties, you should not make any investment decisions based on our estimates and forward-looking statements. Except as required by law, we undertake no obligation to publicly update any forward-looking statements for any reason after the date of this press release whether as a result of new information, future events or otherwise.
