### **Non-IFRS Financial Information**

The financial information in this press release has been prepared consistently with International Accounting Standards 34, "Interim Financial Reporting". The financial information in this press release has not been audited.

Globant provides non-IFRS financial measures to complement reported IFRS results, in accordance with IAS 34 "Interim Financial Reporting". Management believes these measures help illustrate underlying trends in the company's business and uses the measures to establish budgets and operational goals, communicated internally and externally, for managing the company's business and evaluating its performance. The company anticipates that it will continue to report both IFRS and certain non-IFRS financial measures in its financial results, including non-IFRS results that exclude share-based compensation expense, depreciation and amortization, impairment of tax credits, expenses related to secondary share offering and acquisition-related charges. Because the company's non-IFRS financial measures are not calculated according to IFRS, these measures are not comparable to IFRS and may not necessarily be comparable to similarly described non-IFRS measures reported by other companies within the company's industry. Consequently, Globant's non-IFRS financial measures should not be evaluated in isolation or supplant comparable IFRS measures, but, rather, should be considered together with its unaudited interim consolidated statement of financial position as of June 30, 2018 and December 31, 2017 and its unaudited interim consolidated statement of profit or loss and other comprehensive income for the three and six months ended June 30, 2018 and 2017, prepared in accordance with IAS 34.

Globant is not providing a quantitative reconciliation of forward-looking Non-IFRS Adjusted Diluted EPS to the most directly comparable IFRS measure because it is unable to predict with reasonable certainty the ultimate outcome of certain significant items without unreasonable effort. These items include, but are not limited to, share-based compensation expense, impairment of tax credits and acquisition-related charges. These items are uncertain, depend on various factors, and could have a material impact on IFRS reported results for the guidance period.

### **Forward Looking Statements**

In addition to historical information, this release contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933, and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements include information about possible or assumed future results of our business and financial condition, as well as the results of operations, Non-IFRS results of operations and Non-IFRS earnings per share, liquidity, plans and objectives. In some cases, you can identify forward-looking statements by terminology such as "believe," "may," "estimate," "continue," "anticipate," "intend," "should," "plan," "expect," "predict," "potential," or the negative of these terms or other similar expressions. These statements include, but are not limited to, statements regarding: the persistence and intensification of competition in the IT industry; the future growth of spending in IT services outsourcing generally, application outsourcing and custom application development and offshore development services; the level of growth of demand for our services from our clients; the level of increase in revenues from our new clients; the resource utilization rates and productivity levels and the level of attrition of our IT professionals; the pricing structures we use for our client contracts; the general economic and business conditions in the locations in which we operate; the levels of our concentration of revenues by vertical, geography, by client and by type of contract in the future; the continuity of tax incentives available for software companies with operations in Argentina; Argentina's regulations on proceeds from the export of services; our expectation that we will be able to integrate and manage the companies we acquire and that our acquisitions will yield the benefits we envision; the demands we expect our rapid growth to place on our management and infrastructure; the sufficiency of our current cash, cash flow from operations, and lines of credit to meet our anticipated cash needs; the high proportion of our cost of services comprised of personnel salaries; and other factors discussed under the heading "Risk Factors" in our most recent Form 20-F filed with the Securities and Exchange Commission.

These forward-looking statements involve various risks and uncertainties. Although the registrant believes that its expectations expressed in these forward-looking statements are reasonable, its expectations may turn out to be incorrect. The registrant's actual results could be materially different from its expectations. In light of the risks and uncertainties described above, the estimates and forward-looking statements discussed might not occur, and the registrant's future results and its performance may differ materially from those expressed in these forward-looking statements due to, inclusive, but not limited to, the factors mentioned above.
