SAFE HARBOR

Statements in this presentation that are not historical facts are forward-looking statements that are subject to certain risks and uncertainties that could cause actual events and results to differ materially from those discussed herein. Without limiting the generality of the foregoing, words such as “may,” “will,” “expect,” “believe,” “anticipate,” “approximate,” “plan,” “intend,” “could,” “would,” “estimate,” or similar expressions are intended to identify forward-looking statements. Forward looking statements include, but are not limited to, statements about the Company’s expectations with regard to net investment income, underwriting margins and capital to support future premium growth and expansion initiatives. These statements are not guarantees of future performance and involve risks, uncertainties and assumptions that could cause the Company’s actual results to differ materially from those expressed or implied by such forward-looking statements. Such risks and uncertainties include, among other things, risks related to the possibility that actual losses may exceed reserves; the concentration of the Company’s business in coastal states, which could be impacted by hurricane losses or other significant weather-related events such as northeastern winter storms; the Company’s exposure to catastrophic weather events; increased costs of reinsurance, non-availability of reinsurance, and non-collectability of reinsurance; the Company’s failure to effectively manage its growth and integrate acquired companies; increased competition, competitive pressures, and market conditions; the Company’s failure to accurately price the risks it underwrites; the inherent uncertainty of the Company’s models and reliance on such models as a tool to evaluate risk; the failure of the Company’s claims department to effectively manage or remediate claims; low renewal rates and failure of such renewals to meet the Company’s expectations; the Company’s failure to execute its diversification strategy; failure of the Company’s information technology systems and unsuccessful development and implementation of new technologies; a lack of redundancy in the Company’s operations; the Company’s failure to attract and retain qualified employees and independent agents or loss of key personnel; the Company’s inability to generate investment income; the Company’s inability to maintain its financial stability rating; effects of emerging claim and coverage issues relating to legal, judicial, environmental and social conditions; the failure of the Company’s risk mitigation strategies or loss limitation methods; changes in regulations and the Company’s failure to meet increased regulatory requirements; and other matters described from time to time by the Company in its filings with the Securities and Exchange Commission, including, but not limited to, those set forth in its Annual Report on Form 10-K for the year ended December 31, 2020 and subsequent Quarterly Reports on Form 10-Q (or such other reports that may be filed with the SEC). The Company undertakes no obligations to update, change or revise any forward-looking statement, whether as a result of new information, additional or subsequent developments or otherwise, except as required by law.

VERTICALLY INTEGRATED STRUCTURE

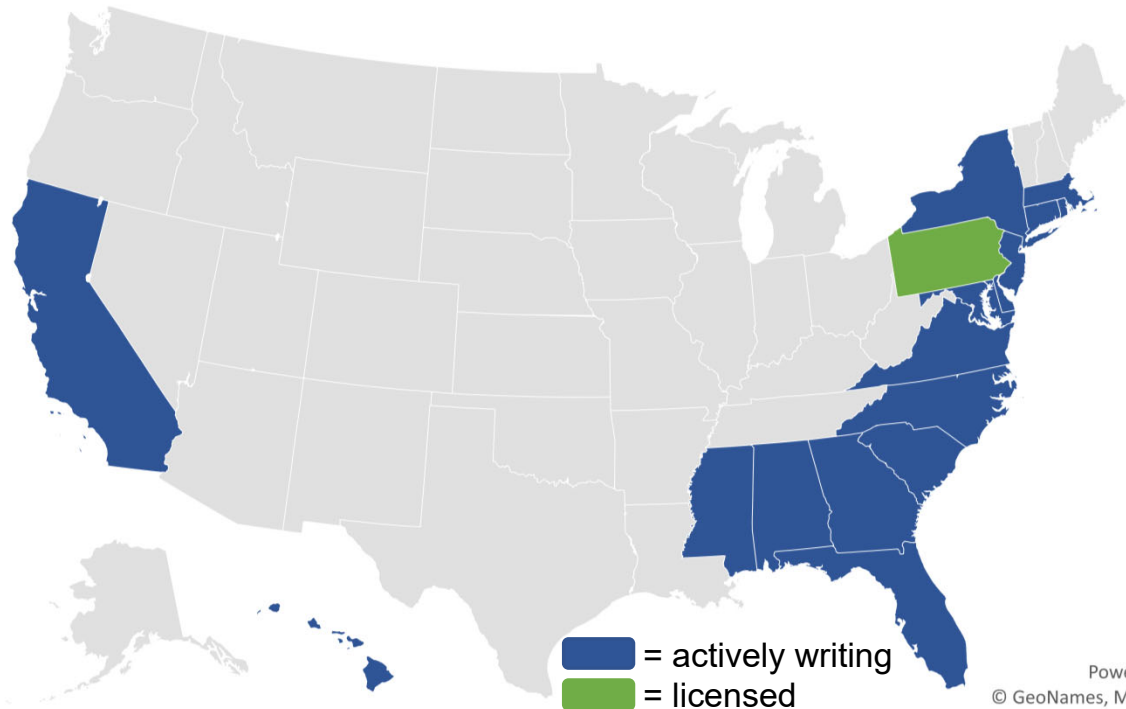

- Unique, vertically integrated structure reduces our reliance on third parties, benefiting our loss, LAE and operating expenses, while also serving as a hedge during catastrophe years.
- Vertically integrated structure reduces our earnings volatility, supporting P/E-based valuation for HRTG.
- MGA structure allows us to meet holding company capital needs (e.g., debt servicing, share repurchases, M&A, etc.)

BOOK OF BUSINESS

Heritage has \$1.2 billion of premiums in-force across three statutory insurance entities (Heritage/NBIC/Zephyr) and primarily writes personal residential (PRES) insurance. Heritage also writes commercial residential (CRES) insurance and a small amount of commercial general liability (CGL) insurance. Heritage is actively writing in sixteen states, but has licenses in seventeen.

IN-FORCE METRICS

Florida property insurance only accounts for 27% of Heritage’s property total insured value (TIV), but reflects 48% of premiums in-force – the \$540 Florida personal residential (PRES) insurance average premium per \$100,000 of TIV is more than double the \$210 non-Florida average (Florida’s more expensive policies reflect its higher hurricane and litigation risk), while the \$409,263 Florida PRES average insured value is well below the \$813,594 average for non-Florida states (property values in Florida trail those in Heritage’s northeast US states).

- 8 wholesale relationships that have access to 1,500 retail locations

Zephyr

- Relationships with 70 actively writing independent agencies
- 51% of voluntary premium is written by agents affiliated with three large agency networks

CATASTROPHE REINSURANCE PROGRAM

Heritage has a conservative 2021-2022 catastrophe reinsurance program, protecting the Company against hurricanes and severe weather events and reducing earnings volatility.

- Substantial severity and frequency protection.
- First event reinsurance tower exhaustion point of \$1.4 billion and total limit of \$2.5 billion in the southeast.
- Reinstatement premiums for all layers with a reinstatement available have been prepaid.
- Within the reinsurance tower, we have no co-participation above our regional retentions.
- First event retentions in the southeast and Hawaii of \$32.0 million, accounting for 9.3% of 4Q2021 GAAP equity (pre-tax). First event retention in the northeast of \$20.7 million, accounting for 6.0% of 4Q2021 GAAP equity (pre-tax).
- Total cost to Heritage of \$312 million, accounting for 27% of 4Q2021 premiums in-force.
- Heritage's third-party reinsurers are rated "A-" or higher by A.M. Best or S&P or are fully collateralized.

INVESTMENT PORTFOLIO

Heritage has a very conservative investment portfolio, consisting predominantly of low duration, fixed income securities. As of 4Q2021, duration was 3.9 years, in line with 3Q21 and 0.3 years above 4Q2020's 3.6 years.

VALUE PROPOSITION

Compelling financial metrics

- Currently trading at significant discount to peers, despite attractive relative ROE and income metrics
- Consistent track record of book value growth

Business model designed to reduce earnings volatility

- Vertically integrated structure provides a hedge in catastrophe years, reducing loss retention and further reducing earnings volatility, supporting use of P/E-based valuation for HRTG
- Solid reinsurance program, including lowest reinsurance retention in FL peer group as a % of equity; protects against hurricanes and other severe events, reducing earnings volatility

Growth & underwriting outlooks improving

- Organic premium growth, fueled by relationships with independent agents and auto carriers
- Diversification initiatives and recent re-underwriting and de-risking efforts should benefit underwriting margins
- Commercial residential business serves as an AoB-hedge in Florida and provides us with additional growth opportunities

Prudent capital management

- Investment grade debt rating provides easy access to capital, allowing nimble response to market opportunities as they arise
- Below-peer operating leverage = ample capital to fuel our growth
- Track record of capital return via share repurchases and regular dividend
- Successful M&A execution provides synergies and access to new markets

Management and BoD have significant skin in the game

- Significant insider ownership aligns management's and BoD's interests with shareholders
- Total insider ownership = 9% of outstanding shares

STRATEGIC INSURTECH PARTNERSHIP

Entered into a strategic partnership with Slide, a startup InsurTech P&C carrier, providing Heritage with enhanced technological capabilities and allowing for participation in the InsurTech sector's upside.

Partnership provides Heritage with the opportunity to:

- Leverage Slide's InsurTech capabilities to improve underwriting and rating decisions.
- Further capitalize on strong agency relationships by generating commission income on policies that don't meet Heritage's underwriting criteria (e.g., due to geographic concentration).
- Participate in the InsurTech sector without potentially significant capital requirements to develop similar capabilities internally.
- Based on current publicly traded InsurTech valuations, potential to generate a meaningful capital gain, which, if realized, could provide additional funds for share buybacks or debt retirement.

Terms of the partnership

Heritage will receive:

- Approximately 6% equity stake in Slide, an InsurTech P&C carrier with an estimated \$250 million post-money valuation, and warrants allowing it to purchase an additional equity interest at Slide's pre-money valuation.
 - Slide will be accounted for as an equity investment.
- Perpetual, royalty free license to certain aspects of Slide's software.

Heritage will:

- Transfer ownership (subject to regulatory approval) of Pawtucket (Heritage will retain Pawtucket's surplus), a dormant P&C carrier licensed in Rhode Island.
- Transfer ownership of First Access Insurance Group, a Florida-licensed MGA with minimal earnings.
- Provide access to historical claims and underwriting data.

PREMIUM GROWTH

Heritage has experienced significant premium growth since inception, most recently stemming from organic growth, while earlier growth stemmed from Citizens depopulation transactions and M&A.

Heritage's premium growth is unprecedented, reaching over \$1 billion of premiums in-force 8 years after the company's founding. The modest premium decline in 2018 and low premium growth in 2019 stemmed from Tri-County FL exposure reduction efforts.

UNDERWRITING PERFORMANCE (CONTINUED)

Heritage's underwriting operation has generally produced solid combined ratios.

SOLID UNDERWRITING MARGINS

CAPITAL MANAGEMENT & OPERATING LEVERAGE

Heritage has been a responsible steward of shareholder capital and currently has \$25.0 million remaining on its share repurchase authorization. Since 2015, the Company has returned \$125.5 million to shareholders through common share repurchases and dividends.

Heritage’s ratio of trailing-twelve-month (TTM) net premiums written to 4Q2021 equity is only 1.8x, which is indicative of its conservative balance sheet. Looking ahead, Heritage has adequate capital to fuel its premium growth and multi-state expansion initiatives.

Note: Debt-to-capital calculated as debt principal divided by the sum of debt principal and stockholders' equity

DIVERSIFICATION STRATEGY UNDERWAY
