# FORWARD-LOOKING STATEMENTS

---

This presentation contains forward-looking statements, such as projected net sales, operating results, earnings, and cash flows that are subject to risks and uncertainties that could cause actual results to differ materially from future results expressed or implied by those forward-looking statements. The risks, uncertainties, important factors, and assumptions listed and discussed in this presentation, which could cause actual results to differ materially from those expressed, include: the impact of the COVID-19 pandemic on the Company's business, industry, suppliers, customers, consumers, employees, and communities; disruptions or inefficiencies in the Company's operations or supply chain, including any impact caused by product recalls (including the recent *Jif*<sup>®</sup> peanut butter product recall), political instability, terrorism, armed hostilities (including the ongoing conflict between Russia and Ukraine), extreme weather conditions, natural disasters, pandemics (including the COVID-19 pandemic), work stoppages or labor shortages (including the potential national rail strike), or other calamities; risks related to the availability, and cost inflation in, supply chain inputs, including labor, raw materials, commodities, packaging, and transportation; the impact of food security concerns involving either the Company's products or its competitors' products, including product recalls; risks associated with derivative and purchasing strategies the Company employs to manage commodity pricing and interest rate risks; the availability of reliable transportation on acceptable terms, including any impact of the COVID-19 pandemic; the ability to achieve cost savings related to restructuring and cost management programs in the amounts and within the time frames currently anticipated; the ability to generate sufficient cash flow to continue operating under the Company's capital deployment model, including capital expenditures, debt repayment, dividend payments, and share repurchases; the ability to implement and realize the full benefit of price changes, and the impact of the timing of the price changes to profits and cash flow in a particular period; the success and cost of marketing and sales programs and strategies intended to promote growth in the Company's businesses, including product innovation; general competitive activity in the market, including competitors' pricing practices and promotional spending levels; the Company's ability to attract and retain key talent; the concentration of certain of the Company's businesses with key customers and suppliers, including single-source suppliers of certain key raw materials and finished goods, and the Company's ability to manage and maintain key relationships; impairments in the carrying value of goodwill, other intangible assets, or other long-lived assets or changes in the useful lives of other intangible assets or other long-lived assets; the impact of new or changes to existing governmental laws and regulations and their application; the outcome of tax examinations, changes in tax laws, and other tax matters; a disruption, failure, or security breach of the Company or their suppliers' information technology systems, including ransomware attacks; foreign currency exchange rate and interest rate fluctuations; and risks related to other factors described under "Risk Factors" in other reports and statements filed with the Securities and Exchange Commission, including the Company's most recent Annual Report on Form 10-K. The Company undertakes no obligation to update or revise these forward-looking statements, which speak only as of the date made, to reflect new events or circumstances.

# NON-GAAP FINANCIAL MEASURES

---

The Company uses non-GAAP financial measures, including: net sales excluding divestitures and foreign currency exchange; adjusted gross profit; adjusted operating income; adjusted income; adjusted earnings per share; earnings before interest, taxes, depreciation, amortization, and impairment charges related to intangible assets (“EBITDA (as adjusted)”); and free cash flow, as key measures for purposes of evaluating performance internally. The Company believes that investors' understanding of its performance is enhanced by disclosing these performance measures. Furthermore, these non-GAAP financial measures are used by management in preparation of the annual budget and for the monthly analyses of its operating results. The Board of Directors also utilizes certain non-GAAP financial measures as components for measuring performance for incentive compensation purposes.

Non-GAAP financial measures exclude certain items affecting comparability that can significantly affect the year-over-year assessment of operating results, which include amortization expense and impairment charges related to intangible assets; certain divestiture, acquisition, integration, and restructuring costs (“special project costs”); gains and losses on divestitures; the net change in cumulative unallocated gains and losses on commodity and foreign currency exchange derivative activities (“change in net cumulative unallocated derivative gains and losses”); and other one-time items that do not directly reflect ongoing operating results. Income taxes, as adjusted is calculated using an adjusted effective income tax rate that is applied to adjusted income before income taxes and reflects the exclusion of the previously discussed items, as well as any adjustments for one-time tax related activities, when they occur. While this adjusted effective income tax rate does not generally differ materially from the GAAP effective income tax rate, certain exclusions from non-GAAP results can significantly impact the adjusted effective income tax rate.

These non-GAAP financial measures are not intended to replace the presentation of financial results in accordance with U.S. GAAP. Rather, the presentation of these non-GAAP financial measures supplements other metrics used by management to internally evaluate its businesses and facilitate the comparison of past and present operations and liquidity. These non-GAAP financial measures may not be comparable to similar measures used by other companies and may exclude certain nondiscretionary expenses and cash payments. A reconciliation of certain non-GAAP financial measures to the comparable GAAP financial measure for the current and prior year periods is included in the “Unaudited Non-GAAP Financial Measures” tables. The Company has also provided a reconciliation of non-GAAP financial measures for its fiscal 2023 outlook.
