OceanaGold Corporation

Notes to the Condensed Interim Consolidated Financial Statements

For the Three and Nine Months ended September 30, 2024 and 2023

(Expressed in millions of United States dollars, unless otherwise stated - unaudited)

1 NATURE OF OPERATIONS

OceanaGold Corporation (the "Company" or "OceanaGold") is domiciled in British Columbia, Canada and the registered address of the Company is Suite 1020, 400 Burrard Street, Vancouver, British Columbia, V6C 3A6, Canada. The Company's common shares trade under the symbol 'OGC' on the Toronto Stock Exchange ("TSX") in Canada and under the symbol 'OCANF' on the OTCQX market in the United States.

The Company is engaged in the exploration, development and operation of gold and gold/copper mines. OceanaGold operates four operating mines: the wholly-owned Haile Gold Mine in the United States of America; the 80%-owned Didipio Mine in the Philippines; and the wholly-owned Macraes and Waihi operations in New Zealand.

The unaudited condensed interim consolidated financial statements were approved by the Board of Directors on November 6, 2024.

2 BASIS OF PREPARATION

These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"), as applicable to the preparation of interim condensed consolidated financial statements including IAS 34. Accordingly, certain disclosures included in the annual financial statements prepared in accordance with IFRS have been condensed or omitted. These unaudited condensed interim consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements for the year ended December 31, 2023.

3 ACCOUNTING POLICIES

The accounting policies applied in the preparation of these unaudited condensed interim consolidated financial statements are consistent with those applied and disclosed in the Company's audited consolidated financial statements for the year ended December 31, 2023. The Company's interim results are not necessarily indicative of its results for a full year.

Accounting standards effective for the current period

Amendments to IAS 12: Income Taxes - International Tax Reform - Pillar Two Model Rules

The International Accounting Standards Board issued amendments to IAS 12, Income Taxes, in response to the Organization for Economic Co-operation and Development's ("OECD") Pillar Two model tax rules. The amendments provide for a mandatory temporary exception to recognizing and disclosing information about deferred tax assets and liabilities related to Pillar Two income taxes. The amendments also provide for separate disclosure of current tax related to Pillar Two income taxes, and in periods in which Pillar Two legislation is enacted or substantively enacted but not yet in effect, disclosure of known or reasonable estimable information that helps users of financial statements understand exposure to Pillar Two income taxes.

The Company has applied the mandatory temporary exception to recognizing and disclosing information relating to deferred taxes. Pillar Two legislation has been enacted or substantially enacted in certain jurisdictions in which the Company operates. The legislation will be effective for the Company's financial year beginning January 1, 2024. The Company has assessed the potential exposure of Pillar Two legislation, and has determined no current tax related to Pillar Two income taxes for the nine months ended September 30, 2024.

Amendments to IAS 1: Non-current liabilities with covenants

The amendments clarify that covenants of loan arrangements which an entity must comply with only after the reporting date would not affect classification of a liability as current or non-current at the reporting date. However, those covenants that an entity is required to comply with on or before the reporting date would affect classification as current or non-current, even if the covenant is only assessed after the entity's reporting date.

The amendments introduce additional disclosure requirements. When an entity classifies a liability arising from a loan arrangement as non-current and that liability is subject to the covenants which an entity is required to comply with within twelve months of the reporting date, the entity shall disclose information in the notes that enables users of financial statements to understand the risk that the liability could become repayable within twelve months of the reporting period, including:

- (a) the carrying amount of the liability;
- (b) information about the covenants; and

OceanaGold Corporation

Notes to the Condensed Interim Consolidated Financial Statements

(Expressed in millions of United States dollars, unless otherwise stated - unaudited)

(c) facts and circumstances, if any, that indicate the entity may have difficulty complying with the covenants. Such facts and circumstances could also include the fact that the entity would not have complied with the covenants based on its circumstances at the end of the reporting period.

The amendment is effective for annual reporting periods beginning on or after January 1, 2024. As at September 30, 2024, the Company was in full compliance with all covenant obligations under its revolving bank credit facility (Note 9).

4 CRITICAL ESTIMATES AND JUDGEMENTS

The Company makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. Areas of estimation and judgement that have the most significant effect on the amounts recognized in the financial statements are disclosed in Note 4 of the Company's consolidated financial statements for the year ended December 31, 2023.

5 TRADE AND OTHER RECEIVABLES

Revolving bank credit facility

The Company has a revolving bank credit facility (the "Facility") with seven international banks providing \$200.0 million committed plus a \$50.0 million uncommitted accordion. The Facility is secured against present and future assets, property and undertakings and has a term of 4 years, maturing on December 31, 2027. During the nine months ended September 30, 2024, the Company initially drew \$50.0 million in order to cover short-term cash requirements. The Company subsequently repaid \$100.0 million from proceeds from the sale of the Blackwater project (Note 15) and OGP public offering (Note 12), with a total amount drawn as at September 30, 2024 of \$85.0 million (December 31, 2023: \$135.0 million). Subsequent to September 30, 2024, the Company repaid an additional \$25.0 million.

As at September 30, 2024, the Company was in full compliance with all covenant obligations and has \$115.0 million (December 31, 2023: \$65.0 million) available to the Company under the Facility.

Fleet facility

In 2020, the Company entered into a \$10.0 million fleet facility arrangement for mining equipment financing, of which \$9.7 million was drawn. At September 30, 2024, there was \$3.2 million (December 31, 2023: \$4.4 million) drawn which will be fully repaid by 2025. There are no additional amounts available under the fleet facility.

Unamortized transaction costs

The Company has \$1.4 million (December 31, 2023: \$1.2 million) in capitalized costs related to the upfront fees and other costs associated with refinancing the Facility that are being amortized over the term of the Facility.

Finance costs

Interest expense and finance costs related to the debt for the three and nine months ended September 30, 2024 was \$1.8 million and \$8.7 million, respectively (September 30, 2023: \$6.0 million and \$17.0 million, respectively).

Assets pledged

As security for the Company's banking facilities, the Company's bank group has been granted real property mortgages over titles relevant to the mines in the New Zealand and United States of America (Note 18 total segment assets). They also have the ability to enter into real property and chattel mortgages in respect of the Didipio mine, and be assigned the FTAA, subject to the requirements of applicable laws. Furthermore, certain subsidiaries of the Company have granted security in favour of the bank group over their assets which include shares that they own in various other subsidiaries of the Company.

10 SHARE CAPITAL

Common share holders have the right to receive dividends as declared and, in the event of the winding up of the Company, to participate in the proceeds from the sale of all surplus assets in proportion to the number of and amounts paid up on shares held. Common shares entitle their holder to one vote, either in person or by proxy, at a meeting of the Company.

Common shares have no par value and are all fully paid. The Company has not established a maximum number for authorized shares.

OceanaGold Corporation

Notes to the Condensed Interim Consolidated Financial Statements

For the Three and Nine Months ended September 30, 2024 and 2023

(Expressed in millions of United States dollars, unless otherwise stated - unaudited)

In July 2024, the Company received approval from the TSX to buy back up to 35.5 million common shares, pursuant to a Normal Course Issuer Bid ("NCIB") in the open market through the facilities of the TSX or alternative Canadian trading systems over the next 12 months. During the period ended September 30, 2024, the Company repurchased and cancelled 3,165,400 common shares for consideration of \$7.8 million.

The Company has share rights schemes under which rights to subscribe for the Company's shares have been granted to executives and Management.

11 STOCK-BASED COMPENSATION

Performance share rights plan

The following table summarizes the outstanding rights granted under the performance share rights plan as at September 30, 2024 and December 31, 2023 and the changes during the periods then ended:

	September 30 2024	December 31 2023
	Units	Units
At January 1	16,923,449	14,118,205
Granted	8,083,093	7,705,663
Forfeited	(1,956,559)	(803,603)
Exercised	(5,875,252)	(4,096,816)
At period end	17,174,731	16,923,449
Exercisable at period end	—	—

The performance share rights outstanding at September 30, 2024 had a weighted average remaining life of 1.8 years with no exercise price.

Performance share rights granted to designated participants may from time to time vest when the Company meets target milestones for the applicable performance period, in accordance with the vesting schedule established at the time of grant by the Board. There are two components to each performance share right: a performance condition based on the Company's performance relative to peers ("TSR") and a service condition. The performance condition weighting varies according to the designated participants' job levels with vesting up to 200% of target for Executives and 300% of target for the CEO. Upon vesting, the performance share rights are payable partly in shares and partly in cash at the discretion of the Board.

In 2024, the 2021 performance rights vested at 150%. Settlement was partly in shares and partly in cash.

As a result of cash settlements, the Company has established an intention to settle the performance rights partly in cash. Accordingly, the Company has reclassified \$12.6 million related to the cash portion of its outstanding unvested performance rights as financial liabilities in Employee Benefits from Contributed Surplus during the period ended September 30, 2024.

Rights granted were priced using Monte Carlo simulation (using the Black-Scholes framework) to model the Company's future price and TSR performance against the comparator group at vesting date. Monte Carlo simulation is a procedure for randomly sampling changes in market variables in order to value derivatives. This simulation models the TSR of the comparator group jointly by taking into account the historical correlation of the returns of securities in the comparator group.

The following are the weighted average assumptions used in determining the fair value of the performance share rights granted for the period ended September 30, 2024:

	Expected Volatility	Risk-Free Interest Rate	Expected Life of Option (years)	Exercise Price (CAD)	Share Price at Grant Date (CAD)	Weighted Average Fair Value (CAD)
Dividend Yield	— %	49.99 %	3.87 %	3	\$0.00	\$2.78

Deferred Unit Plan ("DUP")

The following table summarizes the outstanding deferred units granted under the deferred unit plan as at September 30, 2024 and December 31, 2023 and the changes during the periods then ended:

	September 30 2024	December 31 2023
	Units	Units
At January 1	1,063,093	758,686
Granted	192,957	304,407
Exercised	(205,822)	–
At period end	1,050,228	1,063,093
Exercisable at period end	–	–

The fair value of the units granted under the DUP is calculated as the estimated future cash flow and it is remeasured at each reporting date and at the date of settlement. Any changes in fair value are recognized in the Condensed Interim Consolidated Statements of Income (Loss) with a corresponding increase or decrease in liability. At September 30, 2024, the fair value of the units and corresponding liability was \$3.0 million (December 31, 2023: \$2.0 million).

12 NON-CONTROLLING INTEREST

On May 13, 2024, OceanaGold Philippines, Inc. ("OGP"), a wholly owned subsidiary of the Company, completed a secondary offering and public listing (the "Offering") of 20% of the outstanding common shares of OGP on the Philippines Stock Exchange ("PSE") for net proceeds of \$95.1 million (gross proceeds of \$106.0 million less listing costs to date of \$10.9 million). OGP holds the Company's interest in the Didipio Mine and, pursuant to the terms of the renewed FTAA, was required to list at least 10% of its common shares on the PSE.

Immediately prior to the Offering, the carrying amount of the net assets of OGP was \$556.1 million, resulting in the recognition of a non-controlling interest ("NCI") of \$111.2 million and offsetting decrease in the equity attributable to the shareholders of the Company. For the period from May 13, 2024 to September 30, 2024, there was \$4.0 million of income and \$3.0 million of dividends paid attributed to the NCI resulting in a closing NCI balance of \$112.2 million at September 30, 2024.

The following is the summarized financial information of OGP as at and for the nine months ended September 30, 2024:

Current assets	\$	129.6

19 COMMITMENTS

Capital commitments

The Company has certain capital commitments principally relating to the purchase of property, plant and equipment at Macraes, Waihi and Haile, and the development of mining assets at Macraes, Waihi and Didipio.

The following table summarizes the capital commitments contracted for but not provided for as at September 30, 2024 and December 31, 2023:

	September 30 2024	December 31 2023
Purchase of property, plant and equipment	\$ 7.9	\$ 3.4
Development of mining assets	9.5	10.8
	\$ 17.4	\$ 14.2

20 RELATED PARTIES

There were no significant related party transactions during the period in addition to key management compensation which will be reported in our consolidated financial statements for the year ended December 31, 2024.

21 CONTINGENCIES

(a) A wholly owned subsidiary of the Company is party to an addendum agreement with a syndicate of original claim owners, led by Mr. J. Gonzales (the "Gonzales Group"), in respect of a portion of the FTAA area for the Didipio Mine (the "Addendum Agreement"). Certain disputed claims for payment and other obligations under the Addendum Agreement made by the Gonzales Group are subject to arbitration proceedings, which are currently suspended due to the resignation of the arbitrator.

In a complaint dated July 4, 2008, a third-party, Mr. Liggayu, disputed the terms of the Addendum Agreement and the rights of Mr. Gonzales to claim an interest in the Didipio Mine project (the "Third-Party Case"). Mr. Liggayu alleged that he is the true and beneficial owner and real-party-in-interest in respect of the Didipio mining claims, and sought to enjoin the Company from making any payments to, or in dealing with, the Gonzales Group, and instead to recognize his rights.

As of September 30, 2024, the Third-Party Case is still pending before the Regional Trial Court, and the Company has accrued \$66.3 million (\$62.5 million of royalties and \$3.8 million related to free-carried interest) pertaining to such claim.

(b) The Department of Environment and Natural Resources ("DENR"), along with a number of mining companies (including the Company), are parties to a case that began in 2008 whereby a group of NGOs and individuals challenged the constitutionality of the Philippine Mining Act (the "Mining Act"), the FTAA's and Mineral Production Sharing Agreements in the Supreme Court of the Philippines. The petitioners initiated the challenge despite the fact that the Supreme Court had upheld the constitutional validity of both the Mining Act and the FTAA's in an earlier landmark case in 2005.

The parties made various written submissions in 2009 and 2010, and there were no significant developments in the case between 2011 and 2012. In early 2013, the Supreme Court requested the parties to participate in oral debates on the matter. The case is still pending with the Supreme Court for a decision.

Notwithstanding the fact that the Supreme Court has previously upheld the constitutionality of the Mining Act and FTAA's, the Company is mindful that litigation is an inherently uncertain process and the outcome of the case may adversely affect the operation and financial position of the Company.

(c) The Company has contingent liabilities under certain contracts, guarantees and other agreements arising in the ordinary course of business on which no loss is anticipated. Bonds have been issued in favour of various New Zealand authorities (Minister for Land Information, Hauraki District Council, Waikato Regional Council and Department of Conservation) as a condition for the grant of mining and exploration privileges, water rights and/or resource consents, and rights of access for Martha mining that amount to \$45.7 million (December 31, 2023: \$45.5 million).

The Group has also issued bonds in favour of Otago Regional Council, Dunedin City Council, Waitaki District Council, West Coast Regional Council, Buller District Council and Department of Conservation in New Zealand as a condition for the grant of water rights and/or resource consents, and rights of access for the Macraes Gold Mine and the former Globe Progress Mine at

the Reefton Restoration Project which amount to approximately \$50.4 million (December 31, 2023: \$50.2 million). Cash payments on these bonds would only be paid if the Company did not meet its obligations.

(d) The mine operating permit at Haile which became final and effective during the first quarter 2015 included a schedule for estimated financial assurance of \$65.0 million over the mine life consisting of \$55.0 million in surety bonds or other mechanisms and \$10.0 million in an interest-bearing cash trust. The Company's permit was modified and updated in December 2022 with the approval of the Company's Supplemental Environmental Impact Statement application and reclamation plan. The updated permit changed the total estimated financial assurance to \$123.8 million over the mine life consisting of \$103.8 million in surety bonds and a \$20.0 million interest-bearing cash trust. The Company has satisfied its current financial assurance payment requirements by using a surety bond of \$103.0 million and has paid \$8.3 million in trust funding by September 30, 2024.

The remaining estimated financial assurance of \$12.5 million will be paid over the life of the mine with estimated assurance payments of \$1.8 million to occur in 2024. The timing and amounts of these payments could change due to a number of factors, including changes in regulatory requirements, changes in scope and timing of closure activities. The State of South Carolina in the United States of America requires financial assurance for the estimated costs of mine reclamation and closure, including groundwater quality protection programs.

The surety bond and other financial assurance must be maintained in force continuously throughout the life of the mining operation and may only be released, partially or in full, after the State of South Carolina approves its release.

(e) A wholly owned subsidiary of the Company, along with the Philippines Office of the Executive Secretary, the DENR and its Mines and Environment Bureaus, as well as several Local Government Units, are parties to a case filed in April 2024 by an NGO group and two individuals (the "Petitioners"). The Petitioners questioned the approval of the renewal of the FTAA for alleged failure to conduct prior consultation, and made generalized allegations about violations of the Environmental Compliance Certificate and human rights.

Subsequent to the filing of the petition, the Regional Trial Court of Nueva Vizcaya denied the Petitioners application for a Temporary Environmental Protection Order against the Didipio Mine. The substantive case to determine the merits of the Petitioners allegations is currently in the early stages of the Court process and awaiting scheduling of a preliminary hearing.
