Mr. Tiezheng Li, Chief Executive Officer of FinVolution, commented, "During the third quarter of 2023, total transaction volume reached RMB51.3 billion, representing a year-over-year increase of 12.7%, while our total outstanding loan balance reached RMB65.9 billion, representing a year-over-year increase of 9.3%.

"Our tactical approach of maintaining progressive growth in the China market while pursuing faster growth in the international markets has proven very effective under the uneven macro conditions in the markets where we operate. During the third quarter, international transaction volume reached RMB2.21 billion, representing a year-over-year increase of 99.1%, while outstanding loan balance reached RMB1.29 billion, rising 101.6% year-over-year. The increased international transaction volume and outstanding loan balance contributed the growth of our international revenue to RMB584.8 million, up 67.3% year-over-year and contribute 18.3% of total revenue in the quarter," concluded Mr. Li.

Mr. Jiayuan Xu, FinVolution's Chief Financial Officer, continued, "We are encouraged by the financial results we achieved in the third quarter. Net revenue for the third quarter reached RMB3,197.5 million (US\$438.3 million), representing a year-over-year increase of 7.6%. Our total liquidity position as of the end of September 2023 reached RMB8,525.2 million (US\$1,168.5 million), representing a year-over-year increase of 58.2% and a sequential increase of 4.0%."

"Moreover, through our annual dividend policy and share repurchase policy, we have consistently optimized the returns for our shareholders. During the first nine months of 2023, we deployed approximately US\$65.9 million to repurchase our stock, reflecting our strong commitment to enhancing shareholders value," concluded Mr. Xu.

Third Quarter 2023 Financial Results

Net revenue for the third quarter of 2023 increased by 7.6% to RMB3,197.5 million (US\$438.3 million) from RMB2,971.4 million for the same period of 2022, primarily due to the increase in guarantee income and post-loan facilitation service fees.

Loan facilitation service fees decreased by 3.3% to RMB1,129.8 million (US\$154.8 million) for the third quarter of 2023 from RMB1,168.7 million for the same period of 2022. This decrease was primarily due to the decrease in service fee rates, partially offset by the increase in transaction volume.

Post-facilitation service fees increased by 1.3% to RMB498.9 million (US\$68.4 million) for the third quarter of 2023 from RMB492.3 million for the same period of 2022, primarily due to the increase in outstanding loans served by the Company and the rolling impact of deferred transaction fees.

Guarantee income increased by 40.1% to RMB1,152.0 million (US\$157.9 million) for the third quarter of 2023 from RMB822.2 million for the same period of 2022. This increase was primarily due to the increased outstanding loan balance of off-balance sheet loans and the rolling impact of deferred guarantee income. The fair value of quality assurance commitment upon loan origination is released as guarantee income systematically over the term of the loans subject to quality assurance commitment.

Net interest income decreased by 17.1% to RMB273.3 million (US\$37.5 million) for the third quarter of 2023, from RMB329.6 million for the same period of 2022, primarily due to the decrease in transaction volume of consolidated trust accounts.

Other revenue decreased by 9.6% to RMB143.5 million (US\$19.7 million) for the third quarter of 2023 from RMB158.7 million for the same period of 2022, primarily due to the disposal of a pilot-run business.

Origination, servicing expenses and other costs of revenue increased by 5.1% to RMB520.0 million (US\$71.3 million) for the third quarter of 2023 from RMB495.0 million for the same period of 2022, primarily due to the increase in facilitation costs and loan collection expenses as a result of higher transaction volume.

Sales and marketing expenses remained relatively stable at RMB530.1 million (US\$72.7 million) for the third quarter of 2023, compared with RMB535.2 million for the same period of 2022, as a result of our proactive efforts for acquiring more new borrowers in both China and the international markets.

Research and development expenses increased by 5.6% to RMB132.6 million (US\$18.2 million) for the third quarter of 2023 from RMB125.6 million for the same period of 2022, due to the increase in investments for technology development.

General and administrative expenses decreased by 1.8% to RMB98.6 million (US\$13.5 million) for the third quarter of 2023 from RMB100.4 million for the same period of 2022, primarily due to the increase in operating efficiency.

Provision for accounts receivable and contract assets decreased by 21.6% to RMB86.9 million (US\$11.9 million) for the third quarter of 2023 from RMB110.9 million for the same period of 2022, primarily due to the decrease in provision from other third-party platform.

Provision for loans receivable increased by 34.7% to RMB176.8 million (US\$24.2 million) for the third quarter of 2023, from RMB131.3 million for the same period of 2022, primarily due to the increase in loan volume and outstanding loan balances in the international markets.

Credit losses for quality assurance commitment increased by 35.2% to RMB1099.2 million (US\$150.7 million) for the third quarter of 2023 compared with RMB813.2 million for the same period of 2022. The increase was primarily due to the increases in loan volume and outstanding loan balances in both China and the international markets.

Operating profit decreased by 16.1% to RMB553.4 million (US\$75.8 million) for the third quarter of 2023 from RMB659.8 million for the same period of 2022.

Non-GAAP adjusted operating income, which excludes share-based compensation expenses before tax, was RMB583.8 million (US\$80.0 million) for the third quarter of 2023, representing a decrease of 14.5% from RMB683.0 million for the same period of 2022.

Other income increased by 113.0% to RMB124.4 million (US\$17.0 million) for the third quarter of 2023 from RMB58.4 million for the same period of 2022, mainly due to the additional gains from increased investment in investment products as well as government subsidies.

Income tax expense was RMB103.1 million (US\$14.1 million) for the third quarter of 2023, compared with RMB112.7 million for the same period of 2022. This decrease was mainly due to the decrease in pre-tax profit for the third quarter.

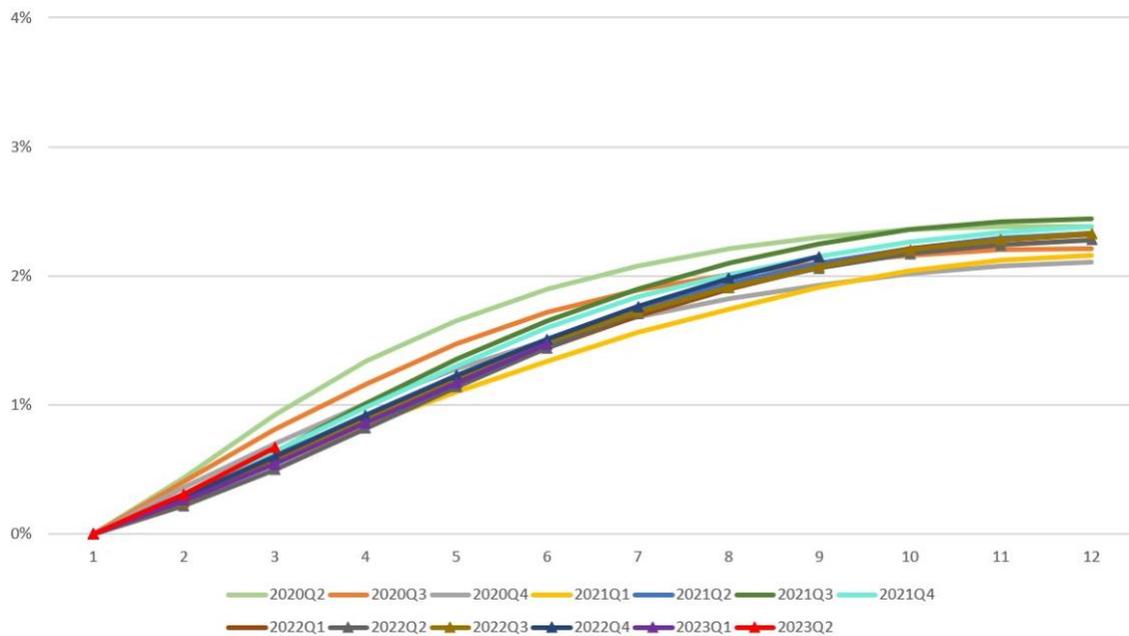

Net profit was RMB574.7 million (US\$78.8 million) for the third quarter of 2023, compared with RMB605.5 million for the same period of 2022.

Net profit attributable to ordinary shareholders of the Company was RMB566.0 million (US\$77.6 million) for the third quarter of 2023, compared with RMB599.0 million for the same period of 2022.

Diluted net profit per ADS was RMB2.05 (US\$0.28) and **diluted net profit per share** was RMB0.41 (US\$0.06) for the third quarter of 2023, which remained unchanged compared with the same period of 2022. **Non-GAAP diluted net profit per ADS** was RMB2.16 (US\$0.30) and **non-GAAP diluted net profit per share** was RMB0.43 (US\$0.06) for the third quarter of 2023, an increase of 1.4% compared with the same period of 2022. Each ADS represents five Class A ordinary shares of the Company.

As of September 30, 2023, the Company had cash and cash equivalents of RMB5,700.7 million (US\$781.3 million) and short-term investments, mainly in wealth management products and term deposit, of RMB2,824.5 million (US\$387.1 million).

The following chart and table display the historical cumulative 30-day plus past due delinquency rates by loan origination vintage in China’s Mainland for all loan products facilitated through the Company’s online platform as of September 30, 2023:

Shares Repurchase Update

On August 28, 2023, the board of directors of the Company approved the Company's third repurchase program, which allows the Company to repurchase its own Class A ordinary shares in the form of ADSs with an aggregate value of up to US\$150 million, effective from August 29, 2023 until August 29, 2025.

During the first nine months of 2023, the Company deployed a total of US\$65.9 million to repurchase its own Class A ordinary shares in the form of ADSs in the market. As of September 30, 2023, in combination with the Company's historical and existing share repurchase programs, the Company had cumulatively repurchased its own Class A ordinary shares in the form of ADSs with a total aggregate value of approximately US\$248.2 million.

Use of Non-GAAP Financial Measures

We use non-GAAP adjusted operating income, non-GAAP operating margin, non-GAAP net profit, non-GAAP net profit attributable to FinVolution Group, and non-GAAP basic and diluted net profit per share and per ADS which are non-GAAP financial measures, in evaluating our operating results and for financial and operational decision-making purposes. We believe that these non-GAAP financial measures help identify underlying trends in our business by excluding the impact of share-based compensation expenses and expected discretionary measures. We believe that non-GAAP financial measures provide useful information about our operating results, enhance the overall understanding of our past performance and future prospects and allow for greater visibility with respect to key metrics used by our management in its financial and operational decision-making.

Non-GAAP adjusted operating income, non-GAAP operating margin, non-GAAP net profit, non-GAAP net profit attributable to FinVolution Group, and non-GAAP basic and diluted net profit per share and per ADS are not defined under U.S. GAAP and are not presented in accordance with U.S. GAAP. These non-GAAP financial measures have limitations as analytical tool, and when assessing our operating performance, cash flows or our liquidity, investors should not consider it in isolation, or as a substitute for net income, cash flows provided by operating activities or other consolidated statements of operation and cash flow data prepared in accordance with U.S. GAAP. The Company encourages investors and others to review our financial information in its entirety and not rely on a single financial measure.

For more information on this non-GAAP financial measure, please see the table captioned “Reconciliations of GAAP and Non-GAAP results” set forth at the end of this press release.
