Mr. Jiayuan Xu, FinVolution's Chief Financial Officer, continued, "Our strong full-year financial results speak for our outstanding strategic execution throughout 2023. #### **Fourth Quarter 2023 Financial Results**

**Net revenue** for the fourth quarter of 2023 increased by 5.7% to RMB3,223.6 million (US\$454.0 million) from RMB3,050.0 million for the same period of 2022, primarily due to the increase in guarantee income.

*Loan facilitation service fees* decreased by 8.4% to RMB1,107.4 million (US\$156.0 million) for the fourth quarter of 2023 from RMB1,208.6 million for the same period of 2022. This decrease was primarily due to the decrease in service fee rates, partially offset by the increase in transaction volume.

*Post-facilitation service fees* maintained relatively stable at RMB495.4 million (US\$69.8 million) for the fourth quarter of 2023 from RMB496.4 million for the same period of 2022, as the result of the increase in outstanding loans served by the Company and the rolling impact of deferred transaction fees.

*Guarantee income* increased by 37.7% to RMB1,267.5 million (US\$178.5 million) for the fourth quarter of 2023 from RMB920.6 million for the same period of 2022. This increase was primarily due to the increased outstanding loan balance of off-balance sheet loans, higher guarantee rates and the rolling impact of deferred guarantee income. The fair value of quality assurance commitment upon loan origination is released as guarantee income systematically over the term of the loans subject to quality assurance commitment.

*Net interest income* decreased by 22.3% to RMB227.4 million (US\$32.0 million) for the fourth quarter of 2023, from RMB292.5 million for the same period of 2022, due to the decrease in loan volume and outstanding loan balances of on-balance sheet loans.

*Other revenue* decreased by 4.6% to RMB125.8 million (US\$17.7 million) for the fourth quarter of 2023 from RMB131.8 million for the same period of 2022, primarily due to the disposal of a pilot-run business.

**Sales and marketing expenses** remained relatively stable at RMB491.4 million (US\$69.2 million) for the fourth quarter of 2023, compared with RMB490.7 million for the same period of 2022, as we maintained our proactive efforts in acquiring better quality borrowers in both China and the international markets.

**Research and development expenses** decreased by 7.2% to RMB127.6 million (US\$18.0 million) for the fourth quarter of 2023 from RMB137.5 million for the same period of 2022, due to the increase in efficiency for technology development.

**Provision for accounts receivable and contract assets** decreased by 67.6% to RMB36.4 million (US\$5.1 million) for the fourth quarter of 2023 from RMB112.5 million for the same period of 2022, due to the decrease in provision from other third-party platforms.

**Provision for loans receivable** decreased by 14.6% to RMB107.6 million (US\$15.2 million) for the fourth quarter of 2023, from RMB126.0 million for the same period of 2022, primarily due to the decrease in loan volume and outstanding loan balances of on-balance sheet loans, partially offset by the rise in delinquency rate.

**Credit losses for quality assurance commitment** increased by 35.6% to RMB1,269.5 million (US\$178.8 million) for the fourth quarter of 2023 compared with RMB935.9 million for the same period of 2022. **Other income** increased by 4.8% to RMB67.6 million (US\$9.5 million) for the fourth quarter of 2023 from RMB64.5 million for the same period of 2022, mainly due to the additional gains from increased investment in investment products and interest income.

**Income tax expense** was RMB51.6 million (US\$7.3 million) for the fourth quarter of 2023, compared with RMB125.0 million for the same period of 2022. This decrease was mainly due to the decrease in pre-tax profit and the change in effective tax-rate in the fourth quarter.
