ITEM 8.01 OTHER EVENTS

On April 12, 2021, the United States Securities and Exchange Commission (the “SEC”) issued a statement (the “Statement”)¹ discussing the accounting implications of certain terms that are common in warrants issued by a publicly-held special purpose acquisition company (“SPAC”).

Rimini Street, Inc. (the “Company”) became public in October 2017 through a merger with GP Investments Acquisition Corp. (“GPIA”), a SPAC, and certain warrants were issued in connection with the transaction. Currently, there are outstanding warrants to purchase approximately 6.1 million shares of the Company’s common stock, par value \$0.0001 per share (the “Common Stock”), at \$11.50 per share (the “GP Sponsor Private Placement Warrants”), which were sold in a private placement transaction in May 2015 to GPIC, Ltd. (the “GP Sponsor”) by GPIA, contemporaneously with GPIA’s initial public offering. The GP Sponsor Private Placement Warrants expire in October 2022, may be exercised by cashless transaction, and are currently 100% owned by the GP Sponsor.

Promptly following issuance of the Statement, Company management, in consultation with the Audit Committee of the Company’s Board of Directors (the “Audit Committee”), evaluated the terms of the warrants issued in connection with the SPAC transaction and the accounting treatment for those warrants. The Company concluded that – based on the Statement – the GP Sponsor Private Placement Warrant terms include provisions that preclude these warrants from being classified as components of equity, and, instead, should be classified as non-cash liabilities in the Company’s financial statements. Under this accounting treatment, the Company is required to measure the fair value of the GP Sponsor Private Placement Warrants at the end of each reporting period and recognize changes in the fair value from the prior period in the Company’s operating results for the current period. Once the warrants are either exercised or expire, the non-cash liability will be settled, and any remaining balance will be recorded as a non-cash gain. The warrants are currently out-of-the-money and valued through the Black Scholes pricing model.

The Company further determined that the previous accounting treatment of the GP Sponsor Private Placement Warrants resulted in immaterial misstatements in the Company’s consolidated financial statements included in its Annual Report on Form 10-K for the fiscal year ending December 31, 2020, as filed with the SEC on March 3, 2021 (the “2020 Form 10-K”). The Company’s audited consolidated financial statements included in its 2020 Form 10-K continue to present fairly, in all material respects, the financial position of the Company as of December 31, 2020 and December 31, 2019, and the results of its operations and its cash flows for each of the years in the three-year period ended December 31, 2020, in conformity with U.S. generally accepted accounting principles. KPMG’s opinion on the Company’s audited consolidated financial statements remains unchanged.

With respect to internal control over financial reporting, the Company re-evaluated its internal controls surrounding its accounting for the GP Sponsor Private Placement Warrants and determined that a control deficiency existed such that the possibility of a material misstatement in the Company’s consolidated financial statements would not have been prevented or detected on a timely basis.

Accordingly, as a result of this deficiency identified as a result of Company management’s determination that the previous accounting treatment for the GP Sponsor Private Placement Warrants was incorrect, on April 29, 2021, Company management determined that it had a material weakness in internal control over financial reporting as of December 31, 2020 and communicated this fact to both the Audit Committee and KPMG. Due to this material weakness, reliance should not be placed on Management’s Report on Internal Control over Financial Reporting or KPMG’s opinion on internal controls included in the 2020 Form 10-K.

The Company intends to file an amendment to its 2020 Form 10-K to appropriately revise Management’s Report on Internal Control over Financial Reporting and Evaluation of Disclosure Controls and Procedures and to include KPMG’s

revised report on Internal Control over Financial Reporting as of December 31, 2020. These changes will have no material impact on the consolidated financial statements for the fiscal year ended December 31, 2020, which can still be relied upon.

To remediate the material weakness, the Company is in the process of further evaluating and implementing certain changes to its internal controls.

The Audit Committee has discussed the matters disclosed in this Item 8.01 with KPMG and Company management.

In order to provide Company management sufficient time to complete and file an amendment to its 2020 Form 10-K and make corresponding updates to its unfiled Quarterly Report on Form 10-Q for the quarter ended March 31, 2021 (the “First Quarter Form 10-Q”), the Company has changed its planned Earnings Call date from May 5, 2021 to May 10, 2021. The Company plans to file an Amended 2020 Form 10-K and the First Quarter Form 10-Q on or before May 10, 2021, which is within the applicable filing deadline for quarterly reports.
