

2Q 19 EARNINGS PRESENTATION

July 18, 2019

IMPORTANT CAUTIONARY STATEMENT

This presentation should be read in conjunction with the financial statements, notes and other information contained in the Company's 2018 Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, and Current Reports on Form 8-K.

Non-GAAP Financial Measures

This presentation includes non-GAAP financial measures to describe SunTrust's performance. The reconciliations of those measures to GAAP measures are provided within or in the appendix of this presentation beginning on slide 21.

In this presentation, consistent with Securities and Exchange Commission Industry Guide 3, the Company presents total revenue, net interest income, net interest margin, and efficiency ratios on a fully taxable equivalent ("FTE") and annualized basis. The FTE basis adjusts for the tax-favored status of net interest income from certain loans and investments using applicable federal and state income tax rates to increase tax-exempt interest income to a taxable-equivalent basis. The Company believes this measure to be the preferred industry measurement of net interest income, and it enhances comparability of net interest income arising from taxable and tax-exempt sources. Total revenue-FTE equals net interest income-FTE plus noninterest income.

The Company presents the following additional non-GAAP measures because many investors find them useful. Specifically:

- The Company presents certain capital information on a tangible basis, including tangible equity, tangible common equity, tangible book value per share, and return on average tangible common equity. These measures exclude the after-tax impact of purchase accounting intangible assets. The Company believes these measures are useful to investors because, by removing the effect of intangible assets that result from merger and acquisition activity (the level of which may vary from company to company), it allows investors to more easily compare the Company's capital adequacy to other companies in the industry. These measures are used by management to analyze the capital adequacy and profitability of the Company.
- Similarly, the Company presents Efficiency ratio-FTE, Tangible efficiency ratio-FTE, Adjusted efficiency ratio-FTE and Adjusted tangible efficiency ratio-FTE. The efficiency ratio is computed by dividing Noninterest expense by Total revenue. Efficiency ratio-FTE is computed by dividing Noninterest expense by Total revenue-FTE. Tangible efficiency ratio-FTE excludes the amortization related to intangible assets and certain tax credits. The Company believes this measure is useful to investors because, by removing the impact of amortization (the level of which may vary from company to company), it allows investors to more easily compare the Company's efficiency to other companies in the industry. Adjusted efficiency ratio-FTE and adjusted tangible efficiency ratio-FTE remove the impacts of income or expense items that are material and potentially non-recurring from the calculation of Efficiency ratio-FTE and Tangible efficiency ratio-FTE, respectively. The Company believes these measures are useful to investors because they are more reflective of normalized operations as they reflect results that are primarily client relationship and client transaction driven. These measures are utilized by management to assess the efficiency of the Company and its lines of business.
- The Company presents the Basel III Common Equity Tier 1 (CET1) ratio, on a fully phased-in basis on slide 15. For December 31, 2017 and prior, fully-phased-in ratios considered a 250% risk-weighting for MSRs and deduction from capital of certain carryforward DTAs, the overfunded pension asset, and other intangible assets. For March 31, 2018 and later, the fully-phased-in ratio considers a 250% risk-weighting for MSRs, as contemplated in the FRB's 'Simplifications' NPR. The Company believes this measure is useful to investors who wish to understand the impact of potential future regulatory requirements.

Important Cautionary Note about Forward-Looking Statements

This presentation contains forward-looking statements. Statements regarding (i) future levels of net interest margin, deposit betas, mortgage-related fee income, merger-related costs, effective income tax rates, efficiency ratios (including after the proposed merger with BB&T), net charge-off ratio, ALLL ratio, provision expense, deposit costs and capital ratios, (ii) the income statement impact of the sale of certain TDR portfolios in April 2019 and repositioning of a portion of the Company's securities portfolio, (iii) the benefits and effects of our proposed merger with BB&T, including the future earnings potential of the combined company, the cost synergies to be achieved, the capacity to invest in technology, talent, innovation and communities, and the profile and stature of the combined company's retail and private wealth businesses, (iv) the financial performance of SunTrust over the next 1-2 quarters, (v) increases in our common share dividend, (vi) future economic conditions, and (vii) the optimism of clients about the economy and their commitments to making ongoing investments are forward-looking statements. These statements often include the words "believes," "expects," "anticipates," "estimates," "intends," "forecast," "goals," "plans," "targets," "initiatives," "opportunity," "focus," "potentially," "probably," "projects," "outlook," or similar expressions or future conditional verbs such as "may," "will," "should," "would," and "could". Forward-looking statements are based on the current beliefs and expectations of management and on information currently available to management. Such statements speak as of the date of this presentation, and we do not assume any obligation to update such statements or to update the reasons why actual results could differ from those contained in such statements in light of new information or future events.

Forward-looking statements are subject to significant risks and uncertainties. Investors are cautioned against placing undue reliance on such statements. Actual results may differ materially from those set forth in the forward-looking statements. Factors that could cause actual results to differ materially from those described in the forward-looking statements can be found in Part I, Item 1A., "Risk Factors," in our Annual Report on Form 10-K for the year ended December 31, 2018 and in other periodic reports that we file with the SEC. Those factors include: failure to complete the merger with BB&T (the "Merger") could negatively impact our stock price and our future business and financial results; we will be subject to uncertainties while the Merger is pending, which could adversely affect our business; the Merger Agreement may be terminated in accordance with its terms and the Merger may not be completed; because the market price of BB&T Common Stock may fluctuate, our shareholders cannot be certain of the precise value of the merger consideration they may receive in the Merger; our ability to complete the Merger is subject to the receipt of approval from various federal and state regulatory agencies, which may impose conditions that could adversely affect us or cause the Merger to be abandoned; shareholder litigation could prevent or delay the closing of the proposed Merger or otherwise negatively impact our business and operations; current or future legislation or regulation could require us to change our business practices, reduce revenue, impose additional costs, or otherwise adversely affect business operations or competitiveness; we are subject to stringent capital adequacy and liquidity requirements and our failure to meet these would adversely affect our financial condition; the monetary and fiscal policies of the federal government and its agencies could have a material adverse effect on our earnings; our financial results have been, and may continue to be, materially affected by general economic conditions, and a deterioration of economic conditions or of the financial markets may materially adversely affect our lending activity and other businesses, as well as our financial condition and results; changes in market interest rates or capital markets could adversely affect our revenue and expenses, the value of assets and obligations, as well as the availability and cost of capital and liquidity; interest rates on our outstanding and future financial instruments might be subject to change based on regulatory developments, which could adversely affect our revenue, expenses, and the value of those financial instruments; our earnings may be affected by volatility in mortgage production and servicing revenues, and by changes in carrying values of our servicing assets and mortgages held for sale due to changes in interest rates; disruptions in our ability to access global capital markets and other sources of wholesale funding may adversely affect our capital resources and liquidity; we are subject to credit risk; we may have more credit risk and higher credit losses to the extent that our loans are concentrated by loan type, industry segment, borrower type, or location of the borrower or collateral; we rely on the mortgage secondary market and GSEs for some of our liquidity; loss of customer deposits could increase our funding costs; any reduction in our credit rating could increase the cost of our funding from the capital markets; we are subject to litigation, and our expenses related to this litigation may adversely affect our results; we may incur fines, penalties and other negative consequences from regulatory violations, possibly even inadvertent or unintentional violations; we are subject to certain risks related to originating and selling mortgages and may be required to repurchase mortgage loans or indemnify mortgage loan purchasers as a result of breaches of representations and warranties, or borrower fraud, and this could harm our liquidity, results of operations, and financial condition; we face risks as a servicer of loans; consumers and small businesses may decide not to use banks to complete their financial transactions, which could affect our revenue; we have businesses other than banking which subject us to a variety of risks; negative public opinion could damage our reputation and adversely impact business and revenues; we may face more intense scrutiny of our sales, training, and incentive compensation practices; we rely on other companies to provide key components of our business infrastructure; competition in the financial services industry is intense and we could lose business or suffer margin declines as a result; we continually encounter technological change and must effectively develop and implement new technology; maintaining or increasing market share depends on market acceptance and regulatory approval of new products and services; we have in the past and may in the future pursue acquisitions, which could affect costs and from which we may not be able to realize anticipated benefits; we depend on the expertise of key personnel, and if these individuals leave or change their roles without effective replacements, operations may suffer; we may not be able to hire or retain additional qualified personnel and recruiting and compensation costs may increase as a result of changes in the marketplace, both of which may increase costs and reduce profitability and may adversely impact our ability to implement our business strategies; our framework for managing risks may not be effective in mitigating risk and loss to us; our controls and procedures may not prevent or detect all errors or acts of fraud; we are at risk of increased losses from fraud; our operational or communications systems or infrastructure may fail or may be the subject of a breach or cyber-attack that, if successful, could adversely affect our business or disrupt business continuity; a disruption, breach, or failure in the operational systems or infrastructure of our third party vendors or other service providers, including as a result of cyber-attacks, could adversely affect our business; natural disasters and other catastrophic events could have a material adverse impact on our operations or our financial condition and results; the soundness of other financial institutions could adversely affect us; we depend on the accuracy and completeness of information about clients and counterparties; our accounting policies and processes are critical to how we report our financial condition and results of operation, and they require management to make estimates about matters that are uncertain; depressed market values for our stock and adverse economic conditions sustained over a period of time may require us to write down all or some portion of our goodwill; our stock price can be volatile; we might not pay dividends on our stock; our ability to receive dividends from our subsidiaries or other investments could affect our liquidity and ability to pay dividends; and certain banking laws and certain provisions of our articles of incorporation may have an anti-takeover effect.

IMPORTANT CAUTIONARY STATEMENT (CONT.)

Additional Information about the Merger and Where to Find It

In connection with the proposed merger with SunTrust, BB&T has filed with the SEC a registration statement on Form S-4 to register the shares of BB&T's capital stock to be issued in connection with the merger, as amended on May 7, 2019, June 14, 2019 and June 19, 2019. The registration statement was declared effective by the SEC on June 19, 2019. The registration statement includes a joint proxy statement/prospectus. BB&T and SunTrust commenced mailing the definitive joint proxy statement/prospectus to shareholders on or about June 27, 2019.

INVESTORS AND SECURITY HOLDERS ARE URGED TO READ THE REGISTRATION STATEMENT ON FORM S-4, THE JOINT PROXY STATEMENT/PROSPECTUS INCLUDED WITHIN THE REGISTRATION STATEMENT ON FORM S-4 AND ANY OTHER RELEVANT DOCUMENTS FILED OR TO BE FILED WITH THE SEC IN CONNECTION WITH THE PROPOSED TRANSACTION BECAUSE THESE DOCUMENTS DO AND WILL CONTAIN IMPORTANT INFORMATION ABOUT BB&T, SUNTRUST AND THE PROPOSED TRANSACTION.

Investors and security holders may obtain copies of these documents free of charge through the website maintained by the SEC at www.sec.gov or from BB&T at its website, www.bbt.com, or from SunTrust at its website, www.suntrust.com. Documents filed with the SEC by BB&T will be available free of charge by accessing BB&T's website at <http://bbt.com/> under the tab "About BB&T" and then under the heading "Investor Relations" or, alternatively, by directing a request by telephone or mail to BB&T Corporation, 200 West Second Street, Winston-Salem, North Carolina 27101, (336) 733-3065, and documents filed with the SEC by SunTrust will be available free of charge by accessing SunTrust's website at <http://suntrust.com/> under the tab "Investor Relations," and then under the heading "Regulatory & Legal" or, alternatively, by directing a request by telephone or mail to SunTrust Banks, Inc., 303 Peachtree Street, N.E., Atlanta, Georgia 30308, (877) 930-8971.

Participants in the Solicitation

BB&T, SunTrust and certain of their respective directors and executive officers may be deemed to be participants in the solicitation of proxies from the shareholders of BB&T and SunTrust in connection with the proposed transaction under the rules of the SEC. Certain information regarding the interests of these participants and a description of their direct and indirect interests, by security holdings or otherwise, are included in the joint proxy statement/prospectus regarding the proposed transaction and will be included in other relevant materials to be filed with the SEC when they become available. Additional information about BB&T, and its directors and executive officers, may be found in the definitive proxy statement of BB&T relating to its 2019 Annual Meeting of Shareholders filed with the SEC on March 19, 2019, and other documents filed by BB&T with the SEC. Additional information about SunTrust, and its directors and executive officers, may be found in the definitive proxy statement of SunTrust relating to its 2019 Annual Meeting of Shareholders filed with the SEC on March 8, 2019, and other documents filed by SunTrust with the SEC. These documents can be obtained free of charge from the sources described above.

2Q 19 & YTD EPS OVERVIEW¹

Quarterly & YoY Trends

Merger-Related Impacts

Strong, Consistent Earnings Power

- Reported EPS of \$1.48, up 19%
 - Includes \$0.07 of discrete tax benefits and \$0.03 of merger-related impacts
 - Excluding merger-related impacts, EPS up 14% as a result of higher noninterest income and lower provision expense

Continued Improvements in Profitability

- Continued focus on disciplined expense management
 - 2Q 19 reported efficiency ratio: 63.4%; adjusted tangible efficiency ratio (TER): 59.0%²
 - 50 bps improvement in 1H 19 adjusted TER relative to 1H 18
- Strong returns: ROE of 11.5%, ROTCE of 15.7%³

Asset Quality & Capital Remain Strengths

- NCO ratio: 0.22% | NPL ratio: 0.34%
 - Strong asset quality performance reflects favorable operating environment and consistent underwriting discipline
- 9.2% Basel III CET1 ratio
 - Share repurchases suspended until proposed merger with BB&T closes

1. All commentary reflects sequential (1Q 19 to 2Q 19) trends, unless otherwise noted. Total revenue, net interest income, efficiency ratio, and tangible efficiency ratio are reported on a fully-taxable equivalent (FTE) basis.

Please refer to slide 21 of this presentation and page 22 of the earnings press release for GAAP reconciliations

2. Please refer to slide 21 for GAAP reconciliations

3. Please refer to page 22 of the earnings press release for GAAP reconciliations

NET INTEREST INCOME¹

Net interest margin impacted by higher funding costs and lower rates

(\$ in millions)

Prior Quarter Variance

- Net interest income (FTE) decreased \$10 million as strong loan growth was offset by net interest margin pressure
- Net interest margin (FTE) down 11 bps, primarily driven by:
 - Declines in short-term and long-term interest rates (negatively impacted earning asset yields)
 - Continued increase in deposit costs (though moderating relative to prior quarters)
 - Higher wholesale funding (loan growth exceeded deposit growth)

Prior Year Variance

- Net interest income (FTE) increased \$47 million, or 3%
 - Driven by 9% performing loan growth, partially offset by a lower net interest margin

1. On this slide, net interest income is reported both on an unadjusted and fully taxable-equivalent ("FTE") basis. The FTE basis adjusts for the tax-favored status of income from certain loans and investments. SunTrust believes this measure to be the preferred industry measurement of net interest income and provides relevant comparison between taxable and non-taxable amounts. Net interest margin (FTE) is calculated as net interest income (FTE) divided by average earning assets (on an annualized basis). Please refer to page 22 of the earnings press release for a reconciliation of net interest margin to net interest margin (FTE)

2. Please refer to slide 21 for a reconciliation of net interest income to net interest income (FTE)

NONINTEREST INCOME

Noninterest income up 5% QoQ (excluding non-core items)

(\$ in millions)

Prior Quarter Variance

- Excluding non-core items, noninterest income increased \$36 million, or 5%, driven by strength in commercial real estate-related income and higher investment banking income
- 2Q 19 included several discrete items:
 - \$205 million insurance settlement from financial crisis-related claims, used to make a charitable contribution to SunTrust Foundation
 - \$44 million gain related to the sale of accruing TDR portfolio (*other noninterest income*); offset by \$42 million loss related to a securities portfolio repositioning (*net securities losses*)

Prior Year Variance

- Excluding non-core items, noninterest income decreased \$9 million, or 1%, due to lower investment banking income

1. Non-core item refers to \$205 million insurance settlement from financial crisis-related claims in 2Q 19. Please refer to slide 21 for a reconciliation of reported noninterest income to adjusted noninterest income

NONINTEREST EXPENSE

Continued focus on disciplined expense management

(\$ in millions)

Prior Quarter Variance

- Excluding non-core items, expenses decreased \$25 million, or 2%, driven by lower operating losses and a decrease in branch closure-related costs (*other noninterest expense*)
- 2Q 19 included \$205 million charitable contribution to SunTrust Foundation (offsetting insurance settlement) and \$14 million in merger-related impacts
 - In addition to \$8 million of specific merger-related costs, there were \$6 million of other merger-related expenses (primarily consulting fees in *other noninterest expense*)

Prior Year Variance

- Excluding non-core items, expenses increased \$29 million, or 2%, driven by higher compensation expense and ongoing investments in technology

1. Non-core items refers to \$60 million pension settlement charge in 4Q 18, \$45 million of merger-related impacts in 1Q 19, \$205 million insurance settlement related to financial crisis-related claims in 2Q 19, and \$14 million of merger-related impacts in 2Q19. Please refer to slide 21 for a reconciliation of reported noninterest expense to adjusted noninterest expense

EFFICIENCY RATIO & TANGIBLE EFFICIENCY RATIO¹

- ✓ Delivered 50 basis points improvement in 1H 19 adjusted TER compared to 1H 18
- ✓ On track to achieve standalone medium-term TER Target
- ✓ Proposed merger of equals with BB&T provides significantly more opportunity

5-Quarter Trends

Annual Trends

■ Efficiency Ratio (FTE) ■ Tangible Efficiency Ratio (FTE)

1. The efficiency ratio and tangible efficiency ratio are reported on fully taxable-equivalent ("FTE") basis. The FTE basis adjusts net interest income for the tax-favored status of income from certain loans and investments. Unadjusted net interest income can be found on slide 5. Please refer to slide 21 for the reconciliation to the GAAP efficiency ratio
 2. 2012, 2013, 2014, 2017, 2018, 4Q 18, 1Q 19, and 2Q 19 values represent the adjusted efficiency ratio and adjusted tangible efficiency ratio. Adjusted figures are intended to provide management and investors information on trends that are more comparable across periods and potentially more comparable across institutions. Please refer to slide 21 for reconciliations related to the GAAP efficiency ratio

CREDIT QUALITY

Asset quality continues to be very strong

(\$ in millions)

Net Charge-offs

Nonperforming Loans

▪ NCO and NPL ratios remain well below historical averages; reflects favorable operating environment and consistent underwriting discipline

■ NCOs ◆ Total NCO Ratio (annualized)

■ NPLs ◆ Total NPL Ratio

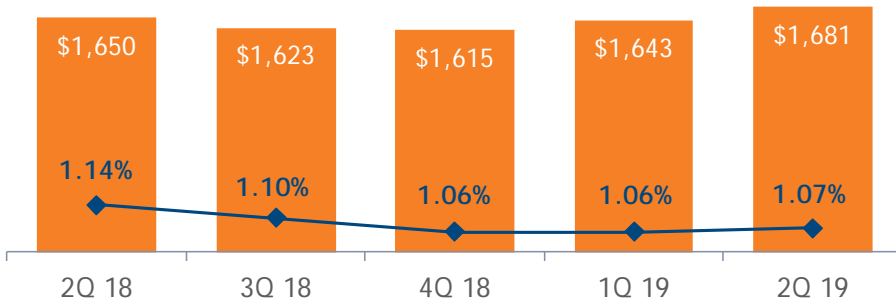

Allowance for Loan and Lease Losses (ALLL)

Provision for Credit Losses

▪ Sequential decrease in provision driven by slower loan growth and lower net charge-offs; YoY increase driven by 5 bp point decline in ALLL ratio in 2Q 18

■ ALLL ◆ ALLL Ratio

BALANCE SHEET

(\$ in billions)

Average Performing Loans

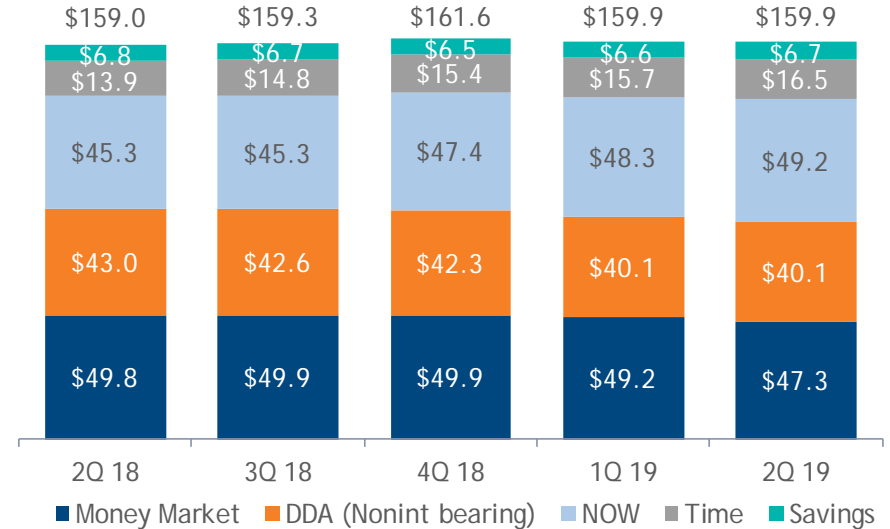

Prior Quarter Variance

- Average performing loans up 1%, driven by growth in commercial and consumer
 - C&I up 1% | CRE up 9% | consumer direct up 6% | consumer indirect up 3%

Prior Year Variance

- Average performing loans up 9%, driven by growth in C&I, CRE, and consumer, partially offset by declines in home equity and commercial construction

Average Client Deposits

Prior Quarter Variance

- Average client deposits stable
- Interest-bearing deposit costs up 6 bps
 - Compares to 1Q 19 increase of 9 bps and 4Q 18 increase of 10 bps

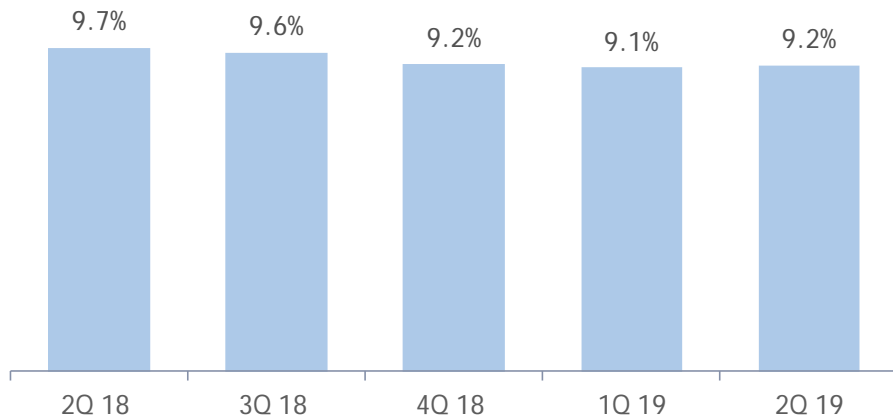

Prior Year Variance

- Average client deposits up 1%; mix shift towards higher cost deposits
 - \$2.6 billion increase in time deposits and \$3.8 billion increase in NOW accounts largely offset by declines in noninterest bearing deposits and money market

Note: Totals may not foot due to rounding

Key Highlights

- Solid balance sheet growth, ongoing improvements in efficiency, and strong asset quality drive strong bottom-line results
 - 2Q 19 results include \$44 million gain related to the sale of accruing TDR portfolio. Excluding this, total revenue stable sequentially and up 3% YoY
 - Strength in mortgage production income more than offset by pressures on mortgage servicing income (hedge performance, decay expense)
 - AUM up 4% YoY
- Balance sheet growth improves the Company's overall loan mix and provides attractive funding
 - 6% loan growth driven by investments in digital lending (LightStream and point of sale partnerships), indirect auto, and mortgage
 - Deposit growth driven by targeted offers (primarily CDs)
- Continued core efficiency progress creates capacity for investments in digital capabilities
 - Branches down 6%
 - Named 'leader' in Javelin 2019 Online Banking Scorecard ('money movement' category) for the fourth consecutive year
 - SmartGUIDE (digital mortgage application) adoption: 88%

1. In accordance with updated GAAP, amortization of affordable housing investments were reclassified and are now presented in provision for income taxes for 2013. Previously, the amortization was presented in other noninterest expense. Adjusted revenue and expenses are provided as they remove certain items that are material and potentially non-recurring. Adjusted figures are intended to provide management and investors information on trends that are more comparable across periods and potentially more comparable across institutions

2. Represents adjusted noninterest expense / adjusted revenue-FTE. Adjusted tangible efficiency ratio excludes amortization expense, the impact of which is (0.73%), (0.82%), (0.92%), (0.64%), (0.72%), (0.50%), (0.50%), (0.28%), (0.30%), (0.49%), (0.56%), (0.82%), (0.78%) for 2Q 18, 3Q 18, 4Q 18, 1Q 19, 2Q 19, 2011, 2012, 2013, 2014, 2015, 2016, 2017, and 2018 respectively
