

**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549**

FORM 10-Q

**Quarterly Report Pursuant to Section 13 or 15(d)
of the Securities Exchange Act of 1934**

For the quarterly period ended: June 30, 2021

Commission File Number: 1-10853

TRUIST FINANCIAL CORPORATION

(Exact name of registrant as specified in its charter)

North Carolina

(State or other jurisdiction of incorporation or organization)

56-0939887

(I.R.S. Employer Identification No.)

214 North Tryon Street

Charlotte, North Carolina

(Address of principal executive offices)

28202

(Zip Code)

Registrant's telephone number, including area code:

(336) 733-2000

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol	Name of each exchange on which registered
Common Stock, \$5 par value	TFC	New York Stock Exchange
Depository Shares each representing 1/4,000th interest in a share of Series I Perpetual Preferred Stock	TFC.PI	New York Stock Exchange
5.853% Fixed-to-Floating Rate Normal Preferred Purchase Securities each representing 1/100th interest in a share of Series J Perpetual Preferred Stock	TFC.PJ	New York Stock Exchange
Depository Shares each representing 1/1,000th interest in a share of Series O Non-Cumulative Perpetual Preferred Stock	TFC.PO	New York Stock Exchange
Depository Shares each representing 1/1,000th interest in a share of Series R Non-Cumulative Perpetual Preferred Stock	TFC.PR	New York Stock Exchange

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	<input checked="" type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/>	Smaller reporting company	<input type="checkbox"/>
		Emerging growth company	<input type="checkbox"/>

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

At July 31, 2021, 1,334,830,560 shares of the registrant's common stock, \$5 par value, were outstanding.

Item 6.	Exhibits	70

Glossary of Defined Terms

The following terms may be used throughout this report, including the consolidated financial statements and related notes.

Term	Definition
ACL	Allowance for credit losses
AFS	Available-for-sale
Agency MBS	Mortgage-backed securities issued by a U.S. government agency or GSE
ALLL	Allowance for loan and lease losses
ARRC	Alternative Reference Rates Committee of the FRB and the Federal Reserve Bank of New York
AOCI	Accumulated other comprehensive income (loss)
BB&T	BB&T Corporation and subsidiaries (changed to "Truist Financial Corporation" effective with the Merger)
Board	Truist's Board of Directors
C&CB	Corporate and Commercial Banking, an operating segment
CARES Act	The Coronavirus Aid, Relief, and Economic Security Act
CB&W	Consumer Banking and Wealth, an operating segment
CCAR	Comprehensive Capital Analysis and Review
CDI	Core deposit intangible
CECL	Current expected credit loss model
CEO	Chief Executive Officer
CFO	Chief Financial Officer
CET1	Common equity tier 1
Company	Truist Financial Corporation and its subsidiaries (interchangeable with "Truist" below), formerly BB&T Corporation
COVID-19	Coronavirus disease 2019
CRA	Community Reinvestment Act of 1977
CRE	Commercial real estate
CRO	Chief Risk Officer
CVA	Credit valuation adjustment
EPS	Earnings per common share
EVE	Economic value of equity
FDIC	Federal Deposit Insurance Corporation
FHLB	Federal Home Loan Bank
FHLMC	Federal Home Loan Mortgage Corporation
FNMA	Federal National Mortgage Association
FRB	Board of Governors of the Federal Reserve System
FTE	Full-time equivalent employee
GAAP	Accounting principles generally accepted in the United States of America
GDP	Gross Domestic Product
Grandbridge	Grandbridge Real Estate Capital, LLC
GSE	U.S. government-sponsored enterprise
HFI	Held for investment
IH	Insurance Holdings, an operating segment
LCR	Liquidity Coverage Ratio
LHFS	Loans held for sale
LIBOR	London Interbank Offered Rate
Market Risk Rule	Market risk capital requirements issued jointly by the OCC, U.S. Treasury, FRB, and FDIC
MBS	Mortgage-backed securities
MD&A	Management's Discussion and Analysis of Financial Condition and Results of Operations
Merger	Merger of BB&T and SunTrust effective December 6, 2019
MRM	Model Risk Management
MSR	Mortgage servicing right
NA	Not applicable
NIM	Net interest margin, computed on a TE basis
NM	Not meaningful
NPA	Nonperforming asset
NPL	Nonperforming loan
OAS	Option adjusted spread
OCC	Office of the Comptroller of the Currency
OCI	Other comprehensive income (loss)

Term	Definition
OPEB	Other post-employment benefit
OREO	Other real estate owned
OT&C	Other, Treasury and Corporate
Parent Company	Truist Financial Corporation, the parent company of Truist Bank and other subsidiaries
PCD	Purchased credit deteriorated loans
PCI	Purchased credit impaired loans
PPP	Paycheck Protection Program, established by the CARES Act
Re-REMICs	Re-securitizations of Real Estate Mortgage Investment Conduits
ROU assets	Right-of-use assets
RUFC	Reserve for unfunded lending commitments
SBIC	Small Business Investment Company
SCB	Stress Capital Buffer
SOFR	Secured Overnight Financing Rate
SunTrust	SunTrust Banks, Inc.
TDR	Troubled debt restructuring
TE	Taxable-equivalent
TRS	Total Return Swap
Truist	Truist Financial Corporation and its subsidiaries (interchangeable with the "Company" above), formerly BB&T Corporation
Truist Bank	Truist Bank, formerly Branch Banking and Trust Company
U.S.	United States of America
U.S. Treasury	United States Department of the Treasury
UPB	Unpaid principal balance
VaR	Value-at-risk
VIE	Variable interest entity

Forward-Looking Statements

This Quarterly Report on Form 10-Q contains “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995, regarding the financial condition, results of operations, business plans and the future performance of Truist. Words such as “anticipates,” “believes,” “estimates,” “expects,” “forecasts,” “intends,” “plans,” “projects,” “may,” “will,” “should,” “would,” “could,” and other similar expressions are intended to identify these forward-looking statements.

Forward-looking statements are not based on historical facts but instead represent management’s expectations and assumptions regarding Truist’s business, the economy, and other future conditions. Such statements involve inherent uncertainties, risks, and changes in circumstances that are difficult to predict. As such, Truist’s actual results may differ materially from those contemplated by forward-looking statements. While there can be no assurance that any list of risks and uncertainties or risk factors is complete, important factors that could cause actual results to differ materially from those contemplated by forward-looking statements include the following, without limitation, as well as the risks and uncertainties more fully discussed in Part I, Item 1A-Risk Factors in Truist’s Form 10-K for the year ended December 31, 2020:

- risks and uncertainties relating to the Merger of heritage BB&T and heritage SunTrust, including the ability to successfully integrate the companies or to realize the anticipated benefits of the Merger;
- expenses relating to the Merger and integration of heritage BB&T and heritage SunTrust;
- deposit attrition, client loss or revenue loss following completed mergers or acquisitions may be greater than anticipated;
- the COVID-19 pandemic disrupted the global economy and adversely impacted Truist’s financial condition and results of operations, including through increased expenses, reduced fee income and net interest margin, and increases in the allowance for credit losses; although conditions have improved in the U.S., a worsening of the pandemic, whether due to new variants of the coronavirus or others factors, could reintroduce or prolong these negative impacts and also adversely affect Truist’s capital and liquidity position or cost of capital, impair the ability of borrowers to repay outstanding loans, cause an outflow of deposits, and impair goodwill or other assets;
- Truist is subject to credit risk by lending or committing to lend money, and may have more credit risk and higher credit losses to the extent that loans are concentrated by loan type, industry segment, borrower type or location of the borrower or collateral;
- changes in the interest rate environment, including the replacement of LIBOR as an interest rate benchmark and potentially negative interest rates, which could adversely affect Truist’s revenue and expenses, the value of assets and obligations, and the availability and cost of capital, cash flows, and liquidity;
- inability to access short-term funding or liquidity, loss of client deposits or changes in Truist’s credit ratings, which could increase the cost of funding or limit access to capital markets;
- risk management oversight functions may not identify or address risks adequately, and management may not be able to effectively manage credit risk;
- risks resulting from the extensive use of models in Truist’s business, which may impact decisions made by management and regulators;
- failure to execute on strategic or operational plans, including the ability to successfully complete or integrate mergers and acquisitions;
- increased competition, including from (i) new or existing competitors that could have greater financial resources or be subject to different regulatory standards, and (ii) products and services offered by non-bank financial technology companies, may reduce Truist’s client base, cause Truist to lower prices for its products and services in order to maintain market share or otherwise adversely impact Truist’s businesses or results of operations;
- failure to maintain or enhance Truist’s competitive position with respect to new products, services and technology, whether it fails to anticipate client expectations or because its technological developments fail to perform as desired or do not achieve market acceptance or regulatory approval or for other reasons, may cause Truist to lose market share or incur additional expense;
- negative public opinion, which could damage Truist’s reputation;
- increased scrutiny regarding Truist’s consumer sales practices, training practices, incentive compensation design, and governance;
- regulatory matters, litigation or other legal actions, which may result in, among other things, costs, fines, penalties, restrictions on Truist’s business activities, reputational harm, negative publicity, or other adverse consequences;
- evolving legislative, accounting and regulatory standards, including with respect to capital and liquidity requirements, and results of regulatory examinations may adversely affect Truist’s financial condition and results of operations;
- the monetary and fiscal policies of the federal government and its agencies could have a material adverse effect on profitability;
- accounting policies and processes require management to make estimates about matters that are uncertain, including the potential write down to goodwill if there is an elongated period of decline in market value for Truist’s stock and adverse economic conditions are sustained over a period of time;
- general economic or business conditions, either globally, nationally or regionally, may be less favorable than expected, and instability in global geopolitical matters or volatility in financial markets could result in, among other things, slower deposit or asset growth, a deterioration in credit quality, or a reduced demand for credit, insurance, or other services;
- risks related to originating and selling mortgages, including repurchase and indemnity demands from purchasers related to representations and warranties on loans sold, which could result in an increase in the amount of losses for loan repurchases;
- risks relating to Truist’s role as a loan servicer, including an increase in the scope or costs of the services Truist is required to perform, without any corresponding increase in servicing fees or a breach of Truist’s obligations as servicer;
- Truist’s success depends on hiring and retaining key personnel, and if these individuals leave or change roles without effective replacements, Truist’s operations and integration activities could be adversely impacted, which could be exacerbated as Truist continues to integrate the management teams of heritage BB&T and heritage SunTrust;
- fraud or misconduct by internal or external parties, which Truist may not be able to prevent, detect, or mitigate;
- security risks, including denial of service attacks, hacking, social engineering attacks targeting Truist’s teammates and clients, malware intrusion, data corruption attempts, system breaches, cyber attacks, identity theft, ransomware attacks, and physical security risks, such as natural disasters, environmental conditions, and intentional acts of destruction, could result in the disclosure of confidential information, adversely affect Truist’s business or reputation or create significant legal or financial exposure; and
- widespread outages of operational, communication, or other systems, whether internal or provided by third parties, natural or other disasters (including acts of terrorism and pandemics), and the effects of climate change could have an adverse effect on Truist’s financial condition and results of operations, lead to material disruption of Truist’s operations or the ability or willingness of clients to access Truist’s products and services.

Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date they are made. Except to the extent required by applicable law or regulation, Truist undertakes no obligation to revise or update any forward-looking statements.

ITEM 1. FINANCIAL STATEMENTS

CONSOLIDATED BALANCE SHEETS TRUIST FINANCIAL CORPORATION AND SUBSIDIARIES

Unaudited (Dollars in millions, except per share data, shares in thousands)	June 30, 2021	December 31, 2020

Supplemental Disclosure of Cash Flow Information:		
Net cash paid (received) during the period for:		
Interest expense	\$ 461	\$ 1,292
Income taxes	579	72

The accompanying notes are an integral part of these consolidated financial statements.

NOTE 1. Basis of Presentation

General

See the Glossary of Defined Terms at the beginning of this Report for terms used herein. These consolidated financial statements and notes are presented in accordance with the instructions for Form 10-Q, and, therefore, do not include all information and notes necessary for a complete presentation of financial position, results of operations, and cash flow activity required in accordance with GAAP. In the opinion of management, all normal recurring adjustments necessary for a fair statement of the consolidated financial position and consolidated results of operations have been made. The year-end consolidated balance sheet data was derived from audited annual financial statements but does not contain all of the footnote disclosures from the annual financial statements. The information contained in the financial statements and notes included in the Annual Report on Form 10-K for the year ended December 31, 2020 should be referred to in connection with these unaudited interim consolidated financial statements. There were no significant changes to the Company's accounting policies from those disclosed in the Annual Report on Form 10-K for the year ended December 31, 2020 that could have a material effect on the Company's financial statements.

Reclassifications

Certain amounts reported in prior periods' consolidated financial statements have been reclassified to conform to the current presentation.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements, and the reported amounts of revenues and expenses. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change include the determination of the ACL; determination of fair value for financial instruments; valuation of MSRs; goodwill, intangible assets and other purchase accounting related adjustments; benefit plan obligations and expenses; and tax assets, liabilities, and expense.

Changes in Accounting Principles and Effects of New Accounting Pronouncements

There were no standards adopted during the current year that had a material effect on the Company's financial statements, and no standards not yet adopted by the Company that are expected to have a material effect on the Company's financial statements.

NOTE 2. Securities Financing Activities

Securities purchased under resale agreements are primarily collateralized by U.S. government or agency securities and are carried at the amounts at which the securities will be subsequently sold, plus accrued interest. Securities borrowed are primarily collateralized by corporate securities. The Company borrows securities and purchases securities under agreements to resell as part of its securities financing activities. On the acquisition date of these securities, the Company and the related counterparty agree on the amount of collateral required to secure the principal amount loaned under these arrangements. The Company monitors collateral values daily and calls for additional collateral to be provided as warranted under the respective agreements. At June 30, 2021 and December 31, 2020, the total market value of collateral held was \$1.2 billion and \$1.7 billion, of which amounts repledged were immaterial at June 30, 2021 and December 31, 2020. The following table presents securities borrowed or purchased under resale agreements:

(Dollars in millions)	Jun 30, 2021	Dec 31, 2020
Securities purchased under resale agreements	\$ 578	\$ 1,158
Securities borrowed	664	587
Total securities borrowed or purchased under resale agreements	\$ 1,242	\$ 1,745

For securities sold under agreements to repurchase, the Company would be obligated to provide additional collateral in the event of a significant decline in fair value of the collateral pledged. This risk is managed by monitoring the liquidity and credit quality of the collateral, as well as the maturity profile of the transactions. Refer to "Note 13. Commitments and Contingencies" for additional information related to pledged securities. The following table presents the Company's related activity, by collateral type and remaining contractual maturity:

(Dollars in millions)	June 30, 2021			December 31, 2020		
	Overnight and Continuous	Up to 30 days	Total	Overnight and Continuous	Up to 30 days	Total
	U.S. Treasury	\$ 1,161	\$ —	\$ 1,161	\$ 305	\$ 31
GSE	19	6	25	45	9	54
Agency MBS - residential	545	181	726	442	6	448
Corporate and other debt securities	263	77	340	204	179	383
Total securities sold under agreements to repurchase	\$ 1,988	\$ 264	\$ 2,252	\$ 996	\$ 225	\$ 1,221

There were no securities financing transactions subject to legally enforceable master netting arrangements that were eligible for balance sheet netting for the periods presented.

NOTE 3. Investment Securities

The following tables summarize the Company's AFS securities:

June 30, 2021 (Dollars in millions)	Amortized Cost	Gross Unrealized		Fair Value
		Gains	Losses	
AFS securities:				
U.S. Treasury	\$ 9,670	\$ 34	\$ 16	\$ 9,688
GSE	1,845	56	—	1,901
Agency MBS - residential	124,464	1,167	1,534	124,097

Other	34	—	—	34
Total AFS securities	\$ 118,618	\$ 2,196	\$ 26	\$ 120,788

Certain securities issued by FNMA and FHLMC exceeded 10% of shareholders' equity at June 30, 2021. The FNMA investments had total amortized cost and fair value of \$37.6 billion and \$37.4 billion, respectively. The FHLMC investments had total amortized cost and fair value of \$41.4 billion and \$41.1 billion, respectively.

The amortized cost and estimated fair value of the securities portfolio by contractual maturity are shown in the following table. The expected life of MBS may differ from contractual maturities because borrowers may have the right to prepay their obligations with or without penalties.

June 30, 2021 (Dollars in millions)	Amortized Cost					Fair Value				
	Due in one year or less	Due after one year through five years	Due after five years through ten years	Due after ten years	Total	Due in one year or less	Due after one year through five years	Due after five years through ten years	Due after ten years	Total

Total AFS securities	\$ 634	\$ 9,967	\$ 1,449	\$128,072	\$140,122	\$ 639	\$ 10,028	\$ 1,484	\$127,728	\$139,879

The following tables present the fair values and gross unrealized losses of investments based on the length of time that individual securities have been in a continuous unrealized loss position:

June 30, 2021 (Dollars in millions)	Less than 12 months		12 months or more		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
AFS securities:						
U.S. Treasury	\$ 3,753	\$ 16	\$ —	\$ —	\$ 3,753	\$ 16
GSE	10	—	—	—	10	—
Agency MBS - residential	70,027	1,533	123	1	70,150	1,534
Agency MBS - commercial	2,177	29	1	—	2,178	29
States and political subdivisions	10	—	22	1	32	1
Non-agency MBS	203	—	—	—	203	—
Total	\$ 76,180	\$ 1,578	\$ 146	\$ 2	\$ 76,326	\$ 1,580

December 31, 2020 (Dollars in millions)	Less than 12 months		12 months or more		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
AFS securities:						
U.S. Treasury	\$ 17	\$ —	\$ —	\$ —	\$ 17	\$ —
Agency MBS - residential	4,028	21	203	2	4,231	23
Agency MBS - commercial	463	2	4	—	467	2
States and political subdivisions	20	—	32	1	52	1
Other	6	—	—	—	6	—
Total	\$ 4,534	\$ 23	\$ 239	\$ 3	\$ 4,773	\$ 26

At June 30, 2021 and December 31, 2020, no ACL was established for AFS securities. Substantially all of the unrealized losses on the securities portfolio were the result of changes in market interest rates compared to the date the securities were acquired rather than the credit quality of the issuers or underlying loans.

The following table presents gross securities gains and losses recognized in earnings:

(Dollars in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Gross realized gains	\$ —	\$ 300	\$ —	\$ 300
Gross realized losses	—	—	—	(2)
Securities gains (losses), net	\$ —	\$ 300	\$ —	\$ 298

NOTE 4. Loans and ACL

The following tables present loans and leases HFI by aging category. Government guaranteed loans are not placed on nonaccrual status regardless of delinquency because collection of principal and interest is reasonably assured. The past due status of loans that received a deferral under the CARES Act is generally frozen during the deferral period. In certain limited circumstances, accommodation programs result in the delinquency status being reset to current.

June 30, 2021 (Dollars in millions)	Accruing			Nonperforming	Total

(1) Balance is prior to the adoption of CECL.

(2) Includes the adoption of CECL, the ALLL for PCD acquisitions, and other activity.

The commercial ALLL decreased \$444 million and \$545 million for the three and six months ended June 30, 2021, respectively. The decreases for both the three and six month periods are due to an improving economic outlook and lower loan balances.

The consumer ALLL decreased \$103 million and \$177 million for the three and six months ended June 30, 2021, respectively. The decrease for the three-month period reflects an improving economic outlook. The decrease for the six-month period reflects an improving economic outlook and lower loan balances primarily in the mortgage portfolio.

The RUFC decreased \$34 million and \$49 million for the three and six months ended June 30, 2021, respectively. The decreases reflect an improving economic outlook.

The quantitative models have been designed to estimate losses using macro-economic forecasts over a reasonable and supportable forecast period of two years, followed by a reversion to long-term historical loss conditions over a one-year period. These macro-economic forecasts include a number of key economic variables utilized in loss forecasting that include, but are not limited to, unemployment trends, US real GDP, corporate credit spreads, rental rates, property values, the primary 30-year mortgage rate, home price indices, and used car prices.

The primary economic forecast incorporates a third-party baseline forecast that is adjusted to reflect Truist's interest rate outlook. Management also considered multiple third-party macro-economic forecasts that reflected a range of possible outcomes in order to capture uncertainty in the economic environment. The economic forecast shaping the ACL estimate at June 30, 2021 included GDP growth in the high single digits through 2021, then slowing to the low single digits in 2022, and an improving unemployment rate to the mid-single-digits through the end of 2021 followed by continued improvement through the remainder of the reasonable and supportable period.

Quantitative models have certain limitations with respect to estimating expected losses, particularly in times of rapidly changing macro-economic conditions and forecasts. As a result, management believes that the qualitative component of the ACL, which incorporates management's expert judgment related to expected future credit losses, will continue to be an important component of the ACL for the foreseeable future. The June 30, 2021 ACL estimate includes adjustments to address risks not captured by the loss forecasting models including imprecision in future economic forecasts, uncertainty around the return of consumer and business confidence once stimulus ceases, and the impact of government relief programs and client accommodations on expected losses.

PCD Loan Activity

For PCD loans, the initial estimate of expected credit losses is recognized in the ALLL on the date of acquisition using the same methodology as other loans held for investment. The following table provides a summary of purchased student loans with credit deterioration at acquisition:

Six Months Ended June 30, 2021

(Dollars in millions)	
Par value	\$ 196
ALLL at acquisition	(3)
Non-credit premium (discount)	1
Purchase price	\$ 194

NPA's

The following table provides a summary of nonperforming loans, excluding LHFS. Interest income recognized on nonperforming loans HFI was immaterial for the six months ended June 30, 2021 and 2020, respectively.

(Dollars in millions)	June 30, 2021		December 31, 2020	
	Recorded Investment		Recorded Investment	
	Without an ALLL	With an ALLL	Without an ALLL	With an ALLL

Indirect other	7	6
Student	13	5
Credit card	32	37
Total performing TDRs	1,501	1,361
Nonperforming TDRs	190	164
Total TDRs	\$ 1,691	\$ 1,525
ALLL attributable to TDRs	\$ 131	\$ 132

The primary type of modification for newly designated TDRs is summarized in the tables below. New TDR balances represent the recorded investment at the end of the quarter in which the modification was made. The prior quarter balance represents recorded investment at the beginning of the quarter in which the modification was made. Rate modifications consist of TDRs made with below market interest rates, including those that also have modifications of loan structures.

Student	—	3	3	—	—	4	4	—
Credit card	8	—	7	3	18	—	17	6
Re-modification of previously designated TDRs	8	5			26	6		

Charge-offs and forgiveness of principal and interest for TDRs were immaterial for all periods presented.

The re-default balance for modifications that had been classified as TDRs during the previous 12 months that experienced a payment default was immaterial for the three and six months ended June 30, 2021 and 2020. Payment default is defined as movement of the TDR to nonperforming status, foreclosure, or charge-off, whichever occurs first.

Unearned Income, Discounts and Net Deferred Loan Fees and Costs

The following table presents additional information about loans and leases:

(Dollars in millions)	Jun 30, 2021	Dec 31, 2020
Unearned income, discounts and net deferred loan fees and costs	\$ 1,558	\$ 2,219

NOTE 5. Goodwill and Other Intangible Assets

The Company performed a qualitative assessment of current events and circumstances, including macroeconomic and market factors, industry and banking sector events, Truist specific performance indicators, and a comparison of management's forecast and assumptions to those used in its October 1, 2020 quantitative impairment test, concluding that it was not more-likely-than-not that the fair value of one or more of its reporting units is below its respective carrying amount as of June 30, 2021, and therefore no triggering event occurred that required a quantitative goodwill impairment test. See "Note 1. Basis of Presentation" and "Note 7. Goodwill and Other Intangible Assets" in Truist's Annual Report on Form 10-K for the year ended December 31, 2020 for additional information.

The changes in the carrying amount of goodwill attributable to operating segments are reflected in the table below. The adjustments for 2021 to CB&W reflect the divestiture of certain businesses. Refer to "Note 17. Operating Segments" for additional information on segments.

(Dollars in millions)	CB&W	C&CB	IH	Total
Goodwill, January 1, 2020	\$ 14,040	\$ 8,125	\$ 1,989	\$ 24,154
Mergers and acquisitions	—	—	450	450
Adjustments and other	1,801	(1,958)	—	(157)
Goodwill, December 31, 2020	15,841	6,167	2,439	24,447
Mergers and acquisitions	—	—	13	13
Adjustments and other	(124)	8	30	(86)
Goodwill, June 30, 2021	\$ 15,717	\$ 6,175	\$ 2,482	\$ 24,374

The following table, which excludes fully amortized intangibles, presents information for identifiable intangible assets:

(Dollars in millions)	June 30, 2021			December 31, 2020		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
CDI	\$ 2,600	\$ (1,041)	\$ 1,559	\$ 2,600	\$ (852)	\$ 1,748
Other, primarily client relationship intangibles	2,140	(1,034)	1,106	2,217	(981)	1,236
Total	\$ 4,740	\$ (2,075)	\$ 2,665	\$ 4,817	\$ (1,833)	\$ 2,984

Subsequent Event

On July 1, 2021, Truist acquired Constellation Affiliated Partners, which resulted in approximately \$900 million of goodwill and identifiable intangible assets in the IH segment.

NOTE 6. Loan Servicing

The Company acquires servicing rights, and retains servicing rights related to certain of its sales or securitizations of residential mortgages and commercial loans. Servicing rights on residential and commercial mortgages are capitalized by the Company as MSR on the Consolidated Balance Sheets. Income earned by the Company on its residential MSR is derived primarily from contractually specified mortgage servicing fees and late fees, net of curtailment costs. Income earned by the Company on its commercial mortgage servicing rights is derived primarily from contractually specified servicing fees and other ancillary fees.

Residential Mortgage Activities

The following tables summarize residential mortgage servicing activities:

(Dollars in millions)	Jun 30, 2021	Dec 31, 2020
UPB of residential mortgage loan servicing portfolio	\$ 224,035	\$ 239,034
UPB of residential mortgage loans serviced for others, primarily agency conforming fixed rate	178,004	188,341
Mortgage loans sold with recourse	287	328
Maximum recourse exposure from mortgage loans sold with recourse liability	179	201
Indemnification, recourse and repurchase reserves	89	93
As of / For the Six Months Ended June 30,		
(Dollars in millions)	2021	2020
UPB of residential mortgage loans sold from LHFS	\$ 22,020	\$ 22,502
Pre-tax gains recognized on mortgage loans sold and held for sale	223	510
Servicing fees recognized from mortgage loans serviced for others	280	328
Approximate weighted average servicing fee on the outstanding balance of residential mortgage loans serviced for others	0.31 %	0.32 %
Weighted average interest rate on mortgage loans serviced for others	3.66	3.98

The following table presents a roll forward of the carrying value of residential MSRs recorded at fair value:

Six Months Ended June 30, (Dollars in millions)	2021	2020
Residential MSRs, carrying value, January 1	\$ 1,778	\$ 2,371
Additions	399	311
Change in fair value due to changes in valuation inputs or assumptions:		
Prepayment speeds	20	(557)
OAS	153	52
Servicing costs	—	—
Realization of expected net servicing cash flows, passage of time and other	(387)	(324)
Residential MSRs, carrying value, June 30	\$ 1,963	\$ 1,853

In July 2021, Truist acquired a residential mortgage servicing portfolio with approximately \$25 billion in unpaid principal with a fair value of approximately \$275 million.

The sensitivity of the fair value of the Company's residential MSRs to changes in key assumptions is presented in the following table:

(Dollars in millions)	June 30, 2021			December 31, 2020		
	Range		Weighted Average	Range		Weighted Average
	Min	Max		Min	Max	
Prepayment speed	13.5 %	15.7 %	14.1 %	12.8 %	30.8 %	15.4 %
Effect on fair value of a 10% increase			\$ (96)			\$ (89)
Effect on fair value of a 20% increase			(183)			(171)
OAS	3.3 %	9.4 %	5.1 %	3.5 %	13.7 %	7.3 %
Effect on fair value of a 10% increase			\$ (40)			\$ (45)
Effect on fair value of a 20% increase			(78)			(88)
Composition of loans serviced for others:						
Fixed-rate residential mortgage loans			99.0 %			98.8 %
Adjustable-rate residential mortgage loans			1.0			1.2
Total			100.0 %			100.0 %
Weighted average life			5.1 years			4.8 years

The sensitivity calculations above are hypothetical and should not be considered to be predictive of future performance. As indicated, changes in fair value based on adverse changes in assumptions generally cannot be extrapolated because the relationship of the change in assumption to the change in fair value may not be linear. Also, in the above table, the effect of an adverse variation in one assumption on the fair value of the MSRs is calculated without changing any other assumption; while in reality, changes in one factor may result in changes in another, which may magnify or counteract the effect of the change. See "Note 14. Fair Value Disclosures" for additional information on the valuation techniques used.

Commercial Mortgage Activities

The following table summarizes commercial mortgage servicing activities for the periods presented:

(Dollars in millions)	Jun 30, 2021	Dec 31, 2020
UPB of CRE mortgages serviced for others	\$ 37,626	\$ 36,670
CRE mortgages serviced for others covered by recourse provisions	9,813	9,019
Maximum recourse exposure from CRE mortgages sold with recourse liability	2,824	2,624
Recorded reserves related to recourse exposure	19	18
CRE mortgages originated during the year-to-date period	3,103	6,739
Commercial MSRs at fair value	268	245

NOTE 7. Other Assets and Liabilities

Lessee Operating and Finance Leases

The Company leases certain assets, consisting primarily of real estate, and assesses at contract inception whether a contract is, or contains, a lease. The following tables present additional information on leases, excluding leases related to the lease financing businesses:

(Dollars in millions)	June 30, 2021		December 31, 2020	
	Operating Leases	Finance Leases	Operating Leases	Finance Leases
ROU assets	\$ 1,233	\$ 27	\$ 1,333	\$ 36
Lease liabilities	1,742	33	1,896	42
Weighted average remaining term	6.7 years	6.5 years	6.9 years	6.3 years
Weighted average discount rate	2.4 %	3.6 %	2.4 %	4.8 %

(Dollars in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Operating lease costs	\$ 85	\$ 97	\$ 170	\$ 193

Lessor Operating Leases

The Company's two primary lessor businesses are equipment financing and structured real estate with income recorded in Operating lease income on the Consolidated Statements of Income.

The following table presents a summary of assets under operating leases and activity related to assets under operating leases. This table excludes subleases on assets included in premises and equipment.

(Dollars in millions)	Jun 30, 2021	Dec 31, 2020
Assets held under operating leases (1)	\$ 1,952	\$ 2,144
Accumulated depreciation	(436)	(517)
Net	\$ 1,516	\$ 1,627

(1) Includes certain land parcels subject to operating leases that have indefinite lives.

The carrying value of assets previously under operating leases was immaterial.

Bank-Owned Life Insurance

Bank-owned life insurance consists of life insurance policies held on certain teammates for which the Company is the beneficiary. These policies provide the Company an efficient form of funding for retirement and other employee benefits costs. The carrying value of bank-owned life insurance was \$6.5 billion at June 30, 2021 and December 31, 2020.

NOTE 8. Borrowings

The following table presents a summary of short-term borrowings:

(Dollars in millions)	Jun 30, 2021	Dec 31, 2020
Federal funds purchased	\$ 10	\$ 79
Securities sold under agreements to repurchase	2,252	1,221
FHLB advances	1,125	2,649
Collateral in excess of derivative exposures	413	385
Master notes	632	621
Other short-term borrowings	1,220	1,137
Total short-term borrowings	\$ 5,652	\$ 6,092

The following table presents a summary of long-term debt:

(Dollars in millions)	Jun 30, 2021	Dec 31, 2020
Truist Financial Corporation:		
Fixed rate senior notes	\$ 14,902	\$ 15,984
Floating rate senior notes	1,349	900
Fixed rate subordinated notes	1,272	1,283
Capital notes	618	615
Structured notes (1)	110	108
Truist Bank:		
Fixed rate senior notes	11,136	11,907
Floating rate senior notes	1,450	1,567
Fixed rate subordinated notes	5,113	5,142
FHLB advances	871	878
Other long-term debt (2)	1,148	1,014
Nonbank subsidiaries:		
Other long-term debt (3)	—	199
Total long-term debt	\$ 37,969	\$ 39,597

- (1) Consist of notes with various terms that include fixed or floating rate interest or returns that are linked to an equity index.
- (2) Includes debt associated with finance leases, tax credit investments, and other.
- (3) Includes debt associated with structured real estate leases.

The Company does not consolidate certain wholly-owned trusts which were formed for the sole purpose of issuing trust preferred securities. The proceeds from the trust preferred securities issuances were invested in capital notes of the Parent Company. The Parent Company's obligations constitute a full and unconditional guarantee of the trust preferred securities.

NOTE 9. Shareholders' Equity

Common Stock

The following table presents the dividends declared per share of common stock:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Cash dividends declared per share	\$ 0.45	\$ 0.45	\$ 0.90	\$ 0.90

Share Repurchase Activity

In December 2020, Truist announced the Board of Directors had authorized the repurchase of up to \$2.0 billion of common stock beginning in the first quarter of 2021 to optimize Truist's capital position. For the six months ended June 30, 2021, the Company repurchased \$1.1 billion of common stock, which represented 19.8 million shares. Repurchased shares revert to the status of authorized and unissued shares upon repurchase. At June 30, 2021, Truist had remaining authorization to repurchase \$884 million of common stock under the Board approved repurchase plan. Effective July 1, 2021, the Board of Directors increased the previous repurchase authority to \$4.2 billion of the Company's common stock through September 30, 2022, of which, the Company has \$3.1 billion remaining.

Preferred Stock

During the first quarter of 2021, the Company redeemed all 18,000 outstanding shares of its perpetual preferred stock series F and the corresponding depositary shares representing fractional interests in such series for \$450 million, and all 20,000 outstanding shares of its perpetual preferred stock series G and the corresponding depositary shares representing fractional interests in such series for \$500 million.

During the second quarter of 2021, the Company redeemed all 18,600 outstanding shares of its perpetual preferred stock series H and the corresponding depositary shares representing fractional interests in such series for \$465 million.

NOTE 10. AOCI

AOCI includes the after-tax change in unrecognized net costs related to defined benefit pension and OPEB plans as well as unrealized gains and losses on cash flow hedges and AFS securities.

Three Months Ended June 30, 2021 and 2020 (Dollars in millions)	Pension and OPEB Costs	Cash Flow Hedges	AFS Securities	Other, net	Total
AOCI balance, April 1, 2020	\$ (1,107)	\$ (90)	\$ 2,101	\$ (6)	\$ 898

NOTE 11. Income Taxes

For the three months ended June 30, 2021 and 2020, the provision for income taxes was \$415 million and \$191 million, respectively, representing effective tax rates of 20.0% and 16.6%, respectively. For the six months ended June 30, 2021 and 2020, the provision for income taxes was \$766 million and \$415 million, respectively, representing effective tax rates of 19.7% and 17.0%, respectively. The higher effective tax rate for the three and six months ended June 30, 2021 was primarily due to higher pre-tax income and a decrease in discrete tax benefits. The Company calculated the provision for income taxes by applying the estimated annual effective tax rate to year-to-date pre-tax income and adjusting for discrete items that occurred during the period.

NOTE 12. Benefit Plans

The components of net periodic benefit cost for defined benefit pension plans are summarized in the following table:

(Dollars in millions)	Income Statement Location	Three Months Ended June 30,		Six Months Ended June 30,	
		2021	2020	2021	2020
Service cost	Personnel expense	\$ 157	\$ 118	\$ 315	\$ 236
Interest cost	Other expense	80	78	159	156
Estimated return on plan assets	Other expense	(249)	(217)	(498)	(433)
Amortization and other	Other expense	9	19	17	38
Net periodic (benefit) cost		\$ (3)	\$ (2)	\$ (7)	\$ (3)

Truist makes contributions to the qualified pension plans in amounts between the minimum required for funding and the maximum deductible for federal income tax purposes. Discretionary contributions totaling \$387 million were made to the Truist pension plan during the six months ended June 30, 2021. There are no required contributions for the remainder of 2021.

NOTE 13. Commitments and Contingencies

Truist utilizes a variety of financial instruments to meet the financing needs of clients and to mitigate exposure to risks. These financial instruments include commitments to extend credit, letters of credit and financial guarantees and derivatives. Truist also has commitments to fund certain affordable housing investments and contingent liabilities related to certain sold loans.

Tax Credit and Certain Equity Investments

The Company invests in certain affordable housing projects throughout its market area as a means of supporting local communities. Truist receives tax credits related to these investments, for which the Company typically acts as a limited partner and therefore does not exert control over the operating or financial policies of the partnerships. The following table summarizes certain tax credit and certain equity investments:

(Dollars in millions)	Balance Sheet Location	Jun 30, 2021	Dec 31, 2020
Investments in affordable housing projects:			
Carrying amount	Other assets	\$ 3,881	\$ 3,823
Amount of future funding commitments included in carrying amount	Other liabilities	1,099	1,057
Lending exposure	NA	487	546
Renewable energy investments:			
Carrying amount	Other assets	216	167
Amount of future funding commitments not included in carrying amount	NA	147	76
Private equity and certain other equity method investments:			
Carrying amount	Other assets	1,628	1,574
Amount of future funding commitments not included in carrying amount	NA	450	471

The following table presents a summary of tax credits and amortization associated with the Company's tax credit investment activity:

(Dollars in millions)	Income Statement Location	Three Months Ended June 30,		Six Months Ended June 30,	
		2021	2020	2021	2020
Tax credits:					
Investments in affordable housing projects	Provision for income taxes	\$ 119	\$ 114	\$ 239	\$ 231
Other community development investments	Provision for income taxes	23	22	46	45
Renewable energy investments	NA (1)	21	102	60	102
Amortization and other changes in carrying amount:					
Investments in affordable housing projects	Provision for income taxes	\$ 117	\$ 116	\$ 236	\$ 227
Other community development investments	Other noninterest income	19	19	38	38
Renewable energy investments	Other noninterest income	2	2	2	2

(1) Tax credits received for these investments are recorded as a reduction to the carrying value of these investments.

Letters of Credit and Financial Guarantees

In the normal course of business, Truist utilizes certain financial instruments to meet the financing needs of clients and to mitigate exposure to risks. Such financial instruments include commitments to extend credit and certain contractual agreements, including standby letters of credit and financial guarantee arrangements.

The following is a summary of selected notional amounts of off-balance sheet financial instruments:

(Dollars in millions)	June 30, 2021	December 31, 2020
Commitments to extend, originate, or purchase credit	\$ 200,626	\$ 186,731
Residential mortgage loans sold with recourse	287	328
CRE mortgages serviced for others covered by recourse provisions	9,813	9,019
Letters of credit	5,120	5,066

Total Return Swaps

The Company facilitates matched book TRS transactions on behalf of clients, whereby a VIE purchases reference assets identified by a client and the Company enters into a TRS with the VIE, with a mirror-image TRS facing the client. The Company provides senior financing to the VIE in the form of demand notes to fund the purchase of the reference assets. Reference assets are typically fixed income instruments primarily composed of syndicated bank loans. The TRS contracts pass through interest and other cash flows on the reference assets to the third party clients, along with exposing those clients to decreases in value on the assets and providing them with the rights to appreciation on the assets. The terms of the TRS contracts require the third parties to post initial margin collateral, as well as ongoing margin as the fair values of the underlying reference assets change.

The Company concluded that the associated VIEs should be consolidated because the Company has (i) the power to direct the activities that most significantly impact the economic performance of the VIE and (ii) the obligation to absorb losses and the right to receive benefits, that could potentially be significant. At June 30, 2021, the Company's Consolidated Balance Sheet reflected \$1.6 billion of assets and \$175 million of other liabilities of the VIEs. At December 31, 2020, the Company's Consolidated Balance Sheet reflected \$1.3 billion of assets and \$41 million of other liabilities of the VIEs. VIE assets include trading loans and bonds totaling \$1.5 billion and \$1.3 billion at June 30, 2021 and December 31, 2020, respectively. The activities of the VIEs are restricted to buying and selling the reference assets and the risks/benefits of any such assets owned by the VIEs are passed to the third party clients via the TRS contracts. For additional information on TRS contracts and the related VIEs, see "Note 15. Derivative Financial Instruments."

Pledged Assets

Certain assets were pledged to secure municipal deposits, securities sold under agreements to repurchase, certain derivative agreements, and borrowings or borrowing capacity, as well as for other purposes as required or permitted by law. Assets pledged to the FHLB and FRB are subject to applicable asset discounts when determining borrowing capacity. The Company obtains secured financing and letters of credit from the FRB and FHLB. The Company's letters of credit from the FHLB can be used to secure various client deposits, including public fund relationships. Excluding assets related to employee benefit plans, the majority of the agreements governing the pledged assets do not permit the other party to sell or repledge the collateral. The following table provides the total carrying amount of pledged assets by asset type:

(Dollars in millions)	Jun 30, 2021	Dec 31, 2020
Pledged securities	\$ 25,012	\$ 24,974
Pledged loans:		
FRB	71,174	75,615
FHLB	63,800	69,994
Unused borrowing capacity:		
FRB	50,625	52,831
FHLB	48,864	52,274

Litigation and Regulatory Matters

Truist and/or its subsidiaries are routinely parties to numerous legal proceedings, including private, civil litigation, and regulatory investigations, arising from the ordinary conduct of its regular business activities. The matters range from individual actions involving a single plaintiff to class action lawsuits with multiple class members and can involve claims for substantial amounts. Investigations involve both formal and informal proceedings, by both governmental agencies and self-regulatory organizations. These legal proceedings are at varying stages of adjudication, arbitration, or investigation and may consist of a variety of claims, including common law tort and contract claims, as well as statutory antitrust, securities, and consumer protection claims. The ultimate resolution of any proceeding is uncertain and inherently difficult to predict. It is possible that the ultimate resolution of these matters, if unfavorable, may be material to the consolidated financial position, consolidated results of operations, or consolidated cash flows of Truist.

Truist establishes accruals for legal matters when potential losses associated with the actions become probable and the amount of loss can be reasonably estimated. There is no assurance that the ultimate resolution of these matters will not significantly exceed the amounts that Truist has accrued. Accruals for legal matters are based on management's best judgment after consultation with counsel and others.

The Company estimates reasonably possible losses, in excess of amounts accrued, of up to approximately \$200 million as of June 30, 2021. This estimate is based upon currently available information and involves considerable judgment, given that claims often include significant legal uncertainties, damages alleged by plaintiffs are often unspecified or overstated, discovery may not have started or may not be complete and material facts may be disputed or unsubstantiated, among other factors. In addition, the matters underlying this estimate will change from time to time and actual losses may vary significantly from this estimate. As a result, the Company does not believe that an estimate of reasonably possible losses can be made for certain matters. Such matters are not reflected in the estimate provided herein.

The following is a description of a certain legal proceeding in which Truist is involved:

Bickerstaff v. SunTrust Bank

This class action case was filed in the Fulton County State Court on July 12, 2010, and an amended complaint was filed on August 9, 2010. Plaintiff asserts that all overdraft fees charged to his account which related to debit card and ATM transactions are actually interest charges and therefore subject to the usury laws of Georgia. Plaintiff has brought claims for violations of civil and criminal usury laws, conversion, and money had and received. On October 6, 2017, the trial court granted plaintiff's motion for class certification and defined the class as "Every Georgia citizen who had or has one or more accounts with SunTrust Bank and who, from July 12, 2006, to October 6, 2017 (i) had at least one overdraft of \$500.00 or less resulting from an ATM or debit card transaction (the "Transaction"); (ii) paid any Overdraft Fees as a result of the Transaction; and (iii) did not receive a refund of those Fees," and the granting of a certified class was affirmed on appeal. On April 8, 2020, the Company filed a motion seeking to narrow the scope of this class, and on May 29, 2020, it filed a renewed motion to compel arbitration of the claims of some of the class members. On February 9, 2021, the trial court denied both motions as premature but held that the issues could be raised again after the conclusion of discovery, which is currently underway. The Company believes that the claims are without merit.

NOTE 14. Fair Value Disclosures

Recurring Fair Value Measurements

Accounting standards define fair value as the price that would be received on the measurement date to sell an asset or the price paid to transfer a liability in the principal or most advantageous market available to the entity in an orderly transaction between market participants, with a three level measurement hierarchy:

- Level 1: Quoted prices for identical instruments in active markets
- Level 2: Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs are observable in active markets
- Level 3: Valuations derived from valuation techniques in which one or more significant inputs are unobservable

The following tables present fair value information for assets and liabilities measured at fair value on a recurring basis:

June 30, 2021 (Dollars in millions)	Total	Level 1	Level 2	Level 3	Netting Adjustments (1)
Assets:					
Trading assets:

(1) Refer to “Note 15. Derivative Financial Instruments” for additional discussion on netting adjustments.

At June 30, 2021 and December 31, 2020, investments totaling \$413 million and \$387 million, respectively, have been excluded from the table above as they are valued based on net asset value as a practical expedient. These investments primarily consist of certain SBIC funds.

For additional information on the valuation techniques and significant inputs for Level 2 and Level 3 assets and liabilities that are measured at fair value on a recurring basis, see “Note 18. Fair Value Disclosures” of the Annual Report on Form 10-K for the year ended December 31, 2020.

Activity for Level 3 assets and liabilities is summarized below:

Three Months Ended June 30, 2021 and 2020 (Dollars in millions)	Non-agency MBS	MSRs	Net Derivatives	Private Equity Investments
Balance at April 1, 2020	\$ 298	\$ 2,150	\$ 143	\$ 448

Primary income statement location of realized gains (losses) included in earnings	Securities gains (losses)	Residential mortgage income and Commercial real estate related income	Residential mortgage income and Commercial real estate related income	Other income

During 2020, Truist sold non-agency MBS previously categorized as Level 3 that represented ownership interests in various tranches of REMIC trusts. Additionally during 2020, as a result of a change in control of the funds' manager, the Company deconsolidated certain SBIC funds for which it had previously concluded that it was the primary beneficiary.

Refer to "Note 6. Loan Servicing" for additional information on valuation techniques and inputs for MSRs.

Fair Value Option

The following table details the fair value and UPB of LHFS that were elected to be measured at fair value. Trading loans, included in other trading assets, were also elected to be measured at fair value.

(Dollars in millions)	June 30, 2021			December 31, 2020		
	Fair Value	UPB	Difference	Fair Value	UPB	Difference
Trading loans	\$ 1,748	\$ 1,732	\$ 16	\$ 1,586	\$ 1,619	\$ (33)
LHFS at fair value	2,816	2,719	97	4,955	4,736	219

Nonrecurring Fair Value Measurements

The following table provides information about certain assets measured at fair value on a nonrecurring basis still held as of period end. The carrying values represent end of period values, which approximate the fair value measurements that occurred on the various measurement dates throughout the period. These assets are considered to be Level 3 assets.

(Dollars in millions)	Jun 30, 2021	Dec 31, 2020
Carrying value:		
LHFS	\$ 166	\$ 979
Loans and leases	130	142
Other	119	92

The following table provides information about valuation adjustments for certain assets measured at fair value on a nonrecurring basis. The valuation adjustments represent the amounts recorded during the period regardless of whether the asset is still held at period end.

Six Months Ended June 30, (Dollars in millions)	2021	2020
Valuation adjustments:		
LHFS	\$ (26)	\$ (55)
Loans and leases	(32)	(27)
Other	(127)	(133)

LHFS with valuation adjustments in the table above consisted primarily of residential mortgages and commercial loans that were valued using market prices and measured at the lower of cost or market. LHFS as of December 31, 2020 includes the small ticket loan and lease portfolio that was sold during the first quarter of 2021. The table above excludes \$27 million and \$125 million of LHFS carried at cost at June 30, 2021 and December 31, 2020, respectively, that did not require a valuation adjustment during the period. The remainder of LHFS is carried at fair value. The Company held \$78 million in nonperforming LHFS at June 30, 2021 and \$5 million of nonperforming LHFS at December 31, 2020. LHFS that were 90 days or more past due and still accruing interest were not material at June 30, 2021.

Loans and leases consists of larger commercial loans and leases that do not share similar risk characteristics. These loans and leases are collateral dependent and may be subject to liquidity adjustments. Refer to "Note 1. Basis of Presentation" in Truist's Annual Report on Form 10-K for the year ended December 31, 2020 for additional discussion of individually evaluated loans and leases.

Other includes foreclosed real estate, other foreclosed property, ROU assets, premises and equipment, and OREO, and consists primarily of residential homes, commercial properties, vacant lots, and automobiles. ROU assets are measured based on the fair value of the assets, which considers the potential for sublease income. The remaining assets are measured at the lower of cost or fair value, less costs to sell.

Financial Instruments Not Recorded at Fair Value

For financial instruments not recorded at fair value, estimates of fair value are based on relevant market data and information about the instruments. Values obtained relate to trading without regard to any premium or discount that may result from concentrations of ownership, possible tax ramifications, estimated transaction costs that may result from bulk sales or the relationship between various instruments.

An active market does not exist for certain financial instruments. Fair value estimates for these instruments are based on current economic conditions and interest rate risk characteristics, loss experience and other factors. Many of these estimates involve uncertainties and matters of significant judgment and cannot be determined with precision. Therefore, the fair value estimates in many instances cannot be substantiated by comparison to independent markets. In addition, changes in assumptions could significantly affect these fair value estimates. Financial assets and liabilities not recorded at fair value are summarized below:

(Dollars in millions)	Fair Value Hierarchy	June 30, 2021		December 31, 2020		
		Carrying Amount	Fair Value	Carrying Amount	Fair Value	
Financial assets:						
Loans and leases HFI, net of ALLL	Level 3	\$ 281,364	\$ 283,130	\$ 293,899	\$ 295,461	
Financial liabilities:						
Time deposits	Level 2	17,545	17,651	21,941	22,095	
Long-term debt	Level 2	37,969	38,682	39,597	40,864	

The carrying value of the RUFC, which approximates the fair value of unfunded commitments, was \$315 million and \$364 million at June 30, 2021 and December 31, 2020, respectively.

NOTE 15. Derivative Financial Instruments

Impact of Derivatives on the Consolidated Balance Sheets

The following table presents the gross notional amounts and estimated fair value of derivative instruments employed by the Company. Truist held no cash flow hedges as of June 30, 2021 and December 31, 2020.

(Dollars in millions)	June 30, 2021			December 31, 2020		
	Notional Amount	Fair Value		Notional Amount	Fair Value	
		Assets	Liabilities		Assets	Liabilities
Fair value hedges:

Total derivative liabilities	\$ (3,663)	\$ 3,108	\$ (555)	\$ 35	\$ (520)

The following table presents the carrying value of hedged items in fair value hedging relationships:

(Dollars in millions)	June 30, 2021			December 31, 2020		
	Hedged Asset / Liability Basis	Hedge Basis Adjustment		Hedged Asset / Liability Basis	Hedge Basis Adjustment	
		Items Currently Designated	Discontinued Hedges		Items Currently Designated	Discontinued Hedges
AFS securities (1)	\$ 99,627	\$ (394)	\$ 46	\$ 100,988	\$ (33)	\$ 50
Loans and leases	451	—	16	470	—	18
Long-term debt	23,581	—	773	27,725	—	930

(1) The amortized cost of AFS securities was \$100.3 billion at June 30, 2021 and \$99.4 billion at December 31, 2020.

Impact of Derivatives on the Consolidated Statements of Income and Comprehensive Income

Derivatives Designated as Hedging Instruments under GAAP

No portion of the change in fair value of derivatives designated as hedges has been excluded from effectiveness testing.

The following table summarizes amounts related to cash flow hedges, which consist of interest rate contracts.

(Dollars in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Pre-tax gain (loss) reclassified from AOCI into interest expense:				
Deposits	\$ (1)	(4)	\$ (2)	\$ (6)
Short-term borrowings	(7)	(4)	(12)	(8)
Long-term debt	(5)	(7)	(10)	(15)
Total	\$ (13)	\$ (15)	\$ (24)	\$ (29)
Pre-tax gain (loss) reclassified from AOCI into other expense: (1)				
Deposits	\$ —	\$ —	\$ (12)	\$ —
Short-term borrowings	—	—	(20)	—
Long-term debt	—	—	(4)	—
Total	\$ —	\$ —	\$ (36)	\$ —

(1) Represents the accelerated amortization of amounts reclassified from AOCI, where management determined that the forecasted transaction is probable of not occurring.

The following table summarizes the impact on net interest income related to fair value hedges:

(Dollars in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
AFS securities:				
Amounts related to interest settlements	\$ (13)	\$ —	\$ (24)	\$ —
Recognized on derivatives	(163)	—	361	—
Recognized on hedged items	161	(2)	(365)	(4)

Net income (expense) recognized, total	\$ 60	\$ 86	\$ 125	\$ 99

The following table presents information about the Company's cash flow and fair value hedges:

(Dollars in millions)	Jun 30, 2021	Dec 31, 2020
Cash flow hedges:		
Net unrecognized after-tax gain (loss) on terminated hedges recorded in AOCI (to be recognized in earnings through 2022)	\$ (18)	\$ (64)
Estimated portion of net after-tax gain (loss) on terminated hedges to be reclassified from AOCI into earnings during the next 12 months	(17)	(42)
Fair value hedges:		
Unrecognized pre-tax net gain (loss) on terminated hedges (to be recognized as interest primarily through 2029)	\$ 711	\$ 862
Portion of pre-tax net gain (loss) on terminated hedges to be recognized as a change in interest during the next 12 months	249	292

Derivatives Not Designated as Hedging Instruments under GAAP

The Company also enters into derivatives that are not designated as accounting hedges under GAAP to economically hedge certain risks as well as in a trading capacity with its clients.

The following table presents pre-tax gain (loss) recognized in income for derivative instruments not designated as hedges:

(Dollars in millions)	Income Statement Location	Three Months Ended June 30,		Six Months Ended June 30,	
		2021	2020	2021	2020
Client-related and other risk management:					
Interest rate contracts	Investment banking and trading income and other income	\$ 12	\$ 37	\$ 114	\$ (27)
Foreign exchange contracts	Investment banking and trading income and other income	8	(26)	34	81

MSRs:					
Interest rate contracts	Residential mortgage income	219	42	(114)	537
Interest rate contracts	Commercial real estate related income	5	2	(7)	22
Total		\$ 120	\$ (122)	\$ (47)	\$ 768

Credit Derivative Instruments

As part of the Company's corporate investment banking business, the Company enters into contracts that are, in form or substance, written guarantees; specifically, risk participations, TRS, and credit default swaps. The Company accounts for these contracts as derivatives.

Truist has entered into risk participation agreements to share the credit exposure with other financial institutions on client-related interest rate derivative contracts. Under these agreements, the Company has guaranteed payment to a dealer counterparty in the event the counterparty experiences a loss on the derivative due to a failure to pay by the counterparty's client. The Company manages its payment risk on its risk participations by monitoring the creditworthiness of the underlying client through the normal credit review process that the Company would have performed had it entered into a derivative directly with the obligors. At June 30, 2021, the remaining terms on these risk participations ranged from less than one year to 10 years. The potential future exposure represents the Company's maximum estimated exposure to written risk participations, as measured by projecting a maximum value of the guaranteed derivative instruments based on scenario simulations and assuming 100% default by all obligors on the maximum value.

The Company has also entered into TRS contracts on loans. To mitigate its credit risk, the Company typically receives initial margin from the counterparty upon entering into the TRS and variation margin if the fair value of the underlying reference assets deteriorates. For additional information on the Company's TRS contracts, see "Note 13. Commitments and Contingencies."

The Company enters into credit default swaps to hedge credit risk associated with certain loans and leases. The Company accounts for these contracts as derivatives, and accordingly, recognizes these contracts at fair value.

The following table presents additional information related to interest rate derivative risk participation agreements and total return swaps:

(Dollars in millions)	Jun 30, 2021	Dec 31, 2020
Risk participation agreements:		
Maximum potential amount of exposure	\$ 506	\$ 530
Total return swaps:		
Cash collateral held	280	374

The following table summarizes collateral positions with counterparties:

(Dollars in millions)	Jun 30, 2021	Dec 31, 2020
Dealer and other counterparties:		
Cash and other collateral received from counterparties	\$ 274	\$ 446
Derivatives in a net gain position secured by collateral received	443	585
Unsecured positions in a net gain with counterparties after collateral postings	160	49
Cash collateral posted to dealer counterparties	1,597	1,524
Derivatives in a net loss position secured by collateral	1,682	1,604
Additional collateral that would have been posted had the Company's credit ratings dropped below investment grade	4	3
Central counterparties clearing:		
Cash collateral, including initial margin, posted to central clearing parties	77	172
Derivatives in a net loss position	38	90
Derivatives in a net gain position	1	5
Securities pledged to central counterparties clearing	1,183	1,281

NOTE 16. Computation of EPS

Basic and diluted EPS calculations are presented in the following table:

(Dollars in millions, except per share data, shares in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Net income available to common shareholders	\$ 1,559	\$ 902	\$ 2,893	\$ 1,888

Effect of dilutive outstanding equity-based awards	11,190	8,322	12,247	10,867
Weighted average number of diluted common shares	1,349,492	1,355,834	1,354,210	1,356,809
Basic EPS	\$ 1.16	\$ 0.67	\$ 2.16	\$ 1.40
Diluted EPS	\$ 1.16	\$ 0.67	\$ 2.14	\$ 1.39
Anti-dilutive awards	—	5,081	3	2,806

NOTE 17. Operating Segments

Truist operates and measures business activity across three segments: Consumer Banking and Wealth, Corporate and Commercial Banking, and Insurance Holdings, with functional activities included in Other, Treasury and Corporate. The Company's business segment structure is based on the manner in which financial information is evaluated by management as well as the products and services provided or the type of client served. For additional information, see "Note 21. Operating Segments" of the Annual Report on Form 10-K for the year ended December 31, 2020.

The following table presents results by segment:

Three Months Ended June 30, (Dollars in millions)	CB&W		C&CB		IH		OT&C (1)		Total

(1) Includes financial data from business units below the quantitative and qualitative thresholds requiring disclosure.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

MD&A is intended to assist readers in their analysis of the accompanying Consolidated Financial Statements and supplemental financial information. It should be read in conjunction with the Consolidated Financial Statements, the accompanying Notes to the Consolidated Financial Statements in this Form 10-K, other information contained in this document, as well as with Truist's Annual Report on Form 10-K for the year ended December 31, 2020.

Regulatory Considerations

The regulatory framework applicable to banking organizations is intended primarily for the protection of depositors and the stability of the financial system, rather than for the protection of shareholders and creditors. Truist is subject to banking laws and regulations, and various other laws and regulations, which affect the operations and management of Truist and its ability to make distributions to shareholders. Truist and its subsidiaries are also subject to supervision and examination by multiple regulators. The descriptions below summarize updates since the filing of the Annual Report on Form 10-K for the year ended December 31, 2020 to state and federal laws to which Truist is subject. These descriptions do not summarize all possible or proposed changes in current laws or regulations, and are not intended to be a substitute for the related statutes or regulatory provisions. Refer to Truist's Annual Report on Form 10-K for the year ended December 31, 2020 for additional disclosures.

The temporary exclusion of U.S. Treasury securities and deposits at the FRB from the calculation of the supplementary leverage ratio expired as scheduled on March 31, 2021. This temporary relief added 24 basis points to the Company's supplementary leverage ratio as of March 31, 2021. The FRB also announced plans to propose several potential modifications to the supplementary leverage ratio to ensure that the supplementary leverage ratio remains effective in an environment of higher reserves, though such proposal had not been published as of the date of this report.

Stress Capital Buffer

In June 2021, the FRB provided Truist with a preliminary SCB of 2.5% and will provide the final SCB by August 31, 2021. This SCB will be effective from October 1, 2021 to September 30, 2022, at which point a revised SCB will be calculated and provided to Truist.

At the same time, the FRB lifted the restrictions on capital distributions for large banking organizations, including Truist, that had been in place due to the uncertainty caused by the COVID-19 pandemic. Going forward, Truist will be subject to the normal restrictions on capital distributions under the SCB framework and applicable law.

Bank Level Resolution Plans

The FDIC issued a policy statement in June 2021 announcing that it will resume requiring bank level resolution plans for large banks, including Truist Bank, and bank-level resolution plans will have more streamlined content requirements. Truist Bank will be required to submit a bank-level resolution plan every three years. The FDIC has not yet provided Truist Bank with a due date for its next resolution plan, but stated banks will not be required to submit a resolution plan without at least 12 months of advance notice.

Lifting of Consent Order

In June 2021, the FRB lifted the November 2019 consent order between SunTrust Bank and the FRB, relating to certain identified legacy compliance issues, and requiring certain remediation actions with respect to the identified issues.

Executive Overview

Truist had a strong financial performance in the second quarter of 2021 and achieved several significant milestones that are reflective of its purpose in action. Truist continues to closely monitor the COVID-19 pandemic and its effects on stakeholders and the financial markets and is actively supporting teammates, clients, and communities. Truist also continues to make significant progress on Merger integration and conversion efforts.

Integration Efforts

Recent highlights include:

- Reaffirmed its commitment to achieving \$1.6 billion in net cost saves on a run rate basis by the fourth quarter of 2022.
- Completed the Wealth brokerage and trust transitions.
- Continued the mortgage systems transition, enabling clients to get the best of both heritage SunTrust and heritage BB&T to meet their homeownership needs.
- Continued to activate the Integrated Relationship Management approach. Truist's Integrated Relationship Management approach is designed to deepen client relationships and bring the full breadth and depth of Truist's products and services to meet clients' financial needs.
- Completed testing protocols for core bank transition events.
- Launched teammate and client pilot program for digital experience.

Supporting Clients

Truist is continuing to work closely with clients as they experience challenges from the COVID-19 pandemic. Truist supported clients by being the sixth largest amongst commercial banks in the second round of PPP funding, assisting clients with the forgiveness process, and continuing to support clients as they transition from payment relief programs. Truist originated approximately \$17 billion of PPP loans through June 30, 2021.

Supporting Teammates

Truist offered a voluntary separation and retirement program to eligible teammates in June 2021. Nearly 2,000 teammates elected to participate in the voluntary program designed to provide tenured teammates flexibility on how they want to manage their career. While Truist is hiring in some areas and rightsizing in others through natural attrition, planned staffing reductions, and the voluntary separation and retirement program, Truist is actively supporting all teammates affected by reductions with opportunities and tools for internal placement, severance payments, and outplacement assistance and coaching. The Company recognized \$144 million of merger-related and restructuring charges during the second quarter of 2021 related to the voluntary separation and retirement program.

Additionally, this quarter Truist was recognized as one of America's Best Employers for Diversity by Forbes magazine.

Supporting Communities

Truist continued to fulfill its purpose in meaningful ways in the community. In the quarter, Truist released its inaugural supplier diversity report, which reflects a \$1 billion impact for 2020, significantly expanded its partnership with Operation HOPE to help provide more education, insights and tools to help more people build better lives, and contributed a combined \$200 million to the Truist Foundation and the Truist Charitable Fund to further support the important work of organizations across Truist's diverse markets. In addition, Truist continued to make solid progress towards the Company's \$60 billion Community Benefits Plan, ending May 2021 at 114% of the annual target. In July, Truist also released its second annual Corporate Social Responsibility and Environmental, Social and Governance report to outline its advancements and commitments with regard to diversity, equity, and inclusion; environmental sustainability and climate change; governance; community involvement; and financial inclusion.

Financial Results

Net income available to common shareholders for the second quarter of 2021 totaled \$1.6 billion, up 73%, compared with the second quarter of last year. On a diluted per common share basis, earnings for the second quarter of 2021 were \$1.16, an increase of \$0.49 compared to the second quarter of 2020. Truist's results of operations for the second quarter of 2021 produced an annualized return on average assets of 1.28% and an annualized return on average common shareholders' equity of 10.1% compared to prior year returns of 0.75% and 5.9%, respectively. Results for the second quarter of 2021 included merger-related and restructuring charges of \$297 million (\$228 million after-tax), incremental operating expenses related to the Merger of \$190 million (\$146 million after-tax), and charitable contributions to the Truist Foundation and the Truist Charitable Fund of \$200 million (\$153 million after-tax). Results for the second quarter of 2020 included \$209 million (\$160 million after-tax) of merger-related and restructuring charges, \$129 million (\$99 million after-tax) of incremental operating expenses related to the Merger, securities gains of \$300 million (\$230 million after-tax), and losses from the early extinguishment of long-term debt of \$235 million (\$180 million after-tax).

Truist's revenue for the second quarter of 2021 was \$5.7 billion. On a TE basis, revenue was also \$5.7 billion for the second quarter of 2021, a decrease of \$224 million, or 3.8%, compared to the same period in 2020, due primarily to securities gains of \$300 million in the second quarter of 2020.

Net interest income for the second quarter of 2021 was down \$206 million, or 5.9%, compared to the earlier quarter due to lower purchase accounting accretion and lower rates on earning assets. This decrease was partially offset by lower funding costs, higher fees on PPP loans and fewer interest deferrals on COVID-19 loan accommodations. Average earning assets increased \$8.4 billion compared to the earlier quarter. The increase in average earning assets reflects a \$60.5 billion increase in average securities, while average total loans and leases decreased \$33.5 billion and average other earning assets decreased \$19.9 billion. Average interest-bearing liabilities decreased \$20.1 billion compared to the earlier quarter, which was offset by significant growth in average noninterest-bearing deposits, which increased \$24.0 billion compared to the earlier quarter.

Net interest margin was 2.88%, down 25 basis points compared to the earlier quarter. The yield on the total loan portfolio for the second quarter of 2021 was 4.01%, down 18 basis points compared to the earlier quarter, reflecting the impact of a lower rate environment and lower purchase accounting accretion. The yield on the average securities portfolio was 1.47%, down 90 basis points compared to the earlier quarter primarily due to lower yields on new purchases. The average costs of interest-bearing liabilities was 0.26%, down 29 basis points compared to the prior year.

Provision for credit losses was a negative \$434 million compared to \$844 million for the second quarter of 2020. The earlier quarter included significant uncertainty of the economic impacts resulting from the COVID-19 pandemic, whereas the current quarter includes a reserve release due to improving economic outlook and lower loan balances. The net charge-off ratio of 0.20% was down 19 basis points compared to the second quarter of 2020, primarily driven by lower losses in the indirect auto and commercial portfolios combined with higher recoveries, as well as lower losses in the residential mortgage portfolio. The net charge-off ratio for the second quarter of 2021 was a post financial crisis low.

Noninterest income for the second quarter of 2021 decreased \$18 million, or 0.7%, compared to the earlier quarter. Noninterest income for the second quarter of 2020 included \$300 million of securities gains on available-for-sale securities. Excluding securities gains, noninterest income increased \$282 million, or 13%, compared to the earlier quarter. The current quarter reflects record revenues from insurance, wealth management, card and payment related fees, and commercial real estate related revenues, as well as very strong investment banking income due to strong execution across multiple lines of business. In addition, other income increased from higher investment income (primarily valuation gains) related to the Company's SBIC and Truist Ventures strategic investments. These increases were partially offset by a decline in residential mortgage income due to lower production related revenues, coupled with lower servicing income.

Noninterest expense for the second quarter of 2021 was up \$133 million, or 3.4%, compared to the earlier quarter. Merger-related and restructuring charges increased \$88 million and other incremental operating expenses related to the merger increased \$61 million, primarily reflected in professional fees and outside processing. The current quarter also includes \$200 million for charitable contributions (other expense) to the Truist Foundation and the Truist Charitable Fund, whereas the earlier quarter included a \$235 million loss on the early extinguishment of debt. Excluding the aforementioned items and changes in amortization of intangibles, adjusted noninterest expense was up \$55 million, or 1.8%, compared to the earlier quarter. Additionally, increases in personnel expense of \$199 million were partially offset by a decline in net occupancy expense of \$61 million and other expense of \$86 million (excluding the \$200 million charitable contributions mentioned above.)

The provision for income taxes was \$415 million for the second quarter of 2021, compared to \$191 million for the earlier quarter. This produced an effective tax rate for the second quarter of 2021 of 20.0%, compared to 16.6% for the earlier quarter. The higher effective tax rate is primarily due to higher pre-tax income in the current quarter and lower discrete tax benefits compared to the earlier quarter.

Truist's total assets at June 30, 2021 were \$522.0 billion, an increase of \$12.7 billion, or 2.5%, compared to December 31, 2020. The increase in total assets was primarily a result of strong deposit growth, the deployment of which led to an increase in AFS securities of \$19.1 billion and balances held at the Federal Reserve of \$7.8 billion. These increases were partially offset by a \$16.3 billion decline in total loans and leases.

Total deposits at June 30, 2021 were \$398.3 billion, an increase of \$17.2 billion, or 4.5%, compared to December 31, 2020. Deposit growth was strong during the first six months of 2021 resulting from fiscal and monetary stimulus, partially offset by a decrease in time deposits primarily due to the maturity of wholesale negotiable certificates of deposit and higher-cost personal accounts.

Asset quality ratios improved reflecting improving economic conditions and effective problem asset resolution. As of June 30, 2021, nonperforming assets were 0.23% of total assets, down four basis points from December 31, 2020. The allowance for loan and lease loss coverage ratio was 4.83x nonperforming loans and leases held for investment, compared to 4.39x at December 31, 2020.

Truist maintained strong capital and liquidity. As of June 30, 2021, the CET1 ratio was 10.2% and the average LCR was 113%. For the six months ended June 30, 2021, Truist completed \$1.1 billion of share repurchases and redeemed \$1.4 billion of preferred stock. Additionally, the Company had \$4.5 billion of senior long term debt maturities and redemptions, partially offset by issuances of \$3.3 billion. Truist declared common dividends of \$0.45 per share during the second quarter of 2021, resulting in dividend and total payout ratios for the second quarter of 2021 of 39% and 78%, respectively.

Truist completed the 2021 CCAR process and received a preliminary stress capital buffer of 2.5% for the period October 1, 2021 to September 30, 2022. In July 2021, the Board of Directors approved an increase in the quarterly dividend of 7% to \$0.48 beginning in the third quarter of 2021.

Truist plans to target a CET1 ratio of approximately 9.75% over the near-term, and accordingly, the Company expects to be able to, with appropriate approvals from its Board of Directors, deploy approximately \$4 billion to \$5 billion of capital (either in the form of share repurchases or acquisitions) over the next 5 quarters (3Q21-3Q22). Effective July 1, 2021, the Board of Directors increased the previous repurchase authority of the Company's common stock, of which the Company has \$3.1 billion remaining. The amount of share repurchases is dependent on capital deployment through organic growth, earnings, and acquisitions, giving consideration to 9.75% CET1 target. Additionally, on July 1, 2021, Truist acquired Constellation Affiliated Partners, which resulted in approximately \$900 million of goodwill and identifiable intangible assets, reducing the amount of capital deployment available for share repurchases or acquisitions to approximately \$3 billion to \$4 billion through 3Q22.

Analysis of Results of Operations

Net Interest Income and NIM

Second Quarter 2021 compared to Second Quarter 2020

Taxable-equivalent net interest income for the second quarter of 2021 was down \$206 million, or 5.9%, compared to the earlier quarter due to lower purchase accounting accretion and lower rates on earning assets. These decreases were partially offset by lower funding costs, higher fees on PPP loans and fewer interest deferrals on COVID-19 loan accommodations. Average earning assets increased \$8.4 billion compared to the earlier quarter. The increase in average earning assets reflects a \$60.5 billion increase in average securities, while average total loans and leases decreased \$33.5 billion and average other earning assets decreased \$19.9 billion. The growth in average earnings assets is a result of an increase in investment securities driven by strong deposit growth resulting from fiscal and monetary stimulus. Average interest-bearing liabilities decreased \$20.1 billion compared to the earlier quarter. The decline in average interest-bearing liabilities was offset by significant growth in average noninterest-bearing deposits, which increased \$24.0 billion compared to the earlier quarter. Average interest-bearing deposits increased \$1.4 billion, while average long-term debt decreased \$18.7 billion and average short-term borrowings decreased \$2.8 billion.

Net interest margin was 2.88%, down 25 basis points compared to the earlier quarter. The yield on the total loan portfolio for the second quarter of 2021 was 4.01%, down 18 basis points compared to the earlier quarter, reflecting the impact of a lower rate environment and lower purchase accounting accretion. The yield on the average securities portfolio was 1.47%, down 90 basis points compared to the earlier quarter primarily due to lower yields on new purchases.

The average cost of total deposits was 0.04%, down 18 basis points compared to the earlier quarter. The average rate on short-term borrowings was 0.98%, down 26 basis points compared to the earlier quarter. The average rate on long-term debt was 1.60%, up eight basis points compared to the earlier quarter.

Six Months of 2021 compared to Six Months of 2020

Taxable-equivalent net interest income for the six months ended June 30, 2021 was down \$580 million, or 7.6%, compared to the prior period due to lower purchase accounting accretion and lower rates on earning assets. These decreases were partially offset by lower funding costs, higher fees on PPP loans and fewer interest deferrals on COVID-19 loan accommodations. Average earning assets increased \$19.5 billion compared to the prior period. The increase in average earning assets reflects a \$53.6 billion increase in average securities, while average total loans and leases decreased \$20.9 billion and average other earning assets decreased \$13.1 billion. The growth in average earnings assets is a result of an increase in investment securities driven by strong deposit growth resulting from fiscal and monetary stimulus. Average interest-bearing liabilities decreased \$13.9 billion compared to the prior period. The decline in average interest-bearing liabilities was offset by significant growth in average noninterest-bearing deposits, which increased \$29.8 billion compared to the prior period. Average interest-bearing deposits increased \$7.3 billion, while average long-term debt decreased \$13.7 billion and average short-term borrowings decreased \$7.5 billion.

Net interest margin was 2.95% for the six months ended June 30, 2021, down 39 basis points compared to the prior period. The yield on the total loan portfolio for the six months ended June 30, 2021 was 4.05%, down 52 basis points compared to the prior period, reflecting the impact of a lower rate environment and lower purchase accounting accretion. The yield on the average securities portfolio was 1.46% for the six months ended June 30, 2021, down 103 basis points compared to the prior period primarily due to lower yields on new purchases and premium amortization.

The average cost of total deposits was 0.04% for the six months ended June 30, 2021, down 31 basis points compared to the prior period. The average rate on short-term borrowings was 0.90% for the six months ended June 30, 2021, down 70 basis points compared to the prior period. The average rate on long-term debt was 1.58% for the six months ended June 30, 2021, down 32 basis points compared to the prior period. The lower rates on interest-bearing liabilities reflect the lower rate environment.

As of June 30, 2021, the remaining unamortized fair value marks on the loan and lease portfolio, deposits, and long-term debt were \$1.8 billion, \$12 million, and \$176 million, respectively. As of December 31, 2020, the remaining unamortized fair value marks on the loan and lease portfolio, deposits and long-term debt were \$2.4 billion, \$19 million, and \$216 million, respectively.

The remaining unamortized fair value mark on loans and leases consists of \$929 million for consumer loans and leases, and \$848 million for commercial loans and leases. These amounts will be recognized over the remaining contractual lives of the underlying instruments or as paydowns occur.

The major components of net interest income and the related annualized yields as well as the variances between the periods caused by changes in interest rates versus changes in volumes are summarized below.

Provision for Credit Losses

Second Quarter 2021 compared to Second Quarter 2020

The provision for credit losses was a negative \$434 million, compared to \$844 million for the earlier quarter. The earlier quarter included significant uncertainty of the economic impacts resulting from the COVID-19 pandemic, whereas the current quarter includes a reserve release due to improving economic outlook and lower loan balances. Net charge-offs for the second quarter of 2021 totaled \$142 million compared to \$316 million in the earlier quarter. The net charge-off ratio for the current quarter of 0.20% was down 19 basis points compared to the second quarter of 2020, primarily driven by lower losses in the indirect auto and commercial portfolios combined with higher recoveries, as well as lower losses in the residential mortgage portfolio.

Six Months of 2021 compared to Six Months of 2020

The provision for credit losses was a negative \$386 million for the six months ended June 30, 2021, compared to \$1.7 billion for the prior period. The prior period included significant uncertainty of the economic impacts resulting from the COVID-19 pandemic, whereas the current year includes a reserve release due to improving economic outlook and lower loan balances. Net charge-offs for the six months ended June 30, 2021 totaled \$380 million compared to \$588 million in the earlier period. The net charge-off ratio for the current year of 0.26% was down 12 basis points compared to the prior period, primarily driven by lower losses in the commercial and indirect auto portfolios combined with higher recoveries, as well as lower losses in the residential mortgage portfolio.

Noninterest Income

Noninterest income is a significant contributor to Truist's financial results. Management focuses on diversifying its sources of revenue to reduce Truist's reliance on traditional spread-based interest income, as certain fee-based activities are a relatively stable revenue source during periods of changing interest rates.

Table 2: Noninterest Income

(Dollars in millions)	Three Months Ended June 30,			Six Months Ended June 30,		
	2021	2020	% Change	2021	2020	% Change
Insurance income	\$ 690	\$ 581	18.8 %	\$ 1,316	\$ 1,130	16.5 %
Wealth management income	345	289	19.4	686	621	10.5
Service charges on deposits	253	202	25.2	511	507	0.8
Residential mortgage income	117	341	(65.7)	217	586	(63.0)
Investment banking and trading income	317	274	15.7	657	392	67.6
Card and payment related fees	225	171	31.6	425	358	18.7
Lending related fees	94	66	42.4	194	133	45.9
Operating lease income	66	83	(20.5)	134	160	(16.3)
Commercial real estate related income	138	49	181.6	181	93	94.6
Income from bank-owned life insurance	46	45	2.2	96	89	7.9
Securities gains (losses)	—	300	NM	—	298	NM
Other income	114	22	NM	185	17	NM
Total noninterest income	\$ 2,405	\$ 2,423	(0.7)	\$ 4,602	\$ 4,384	5.0

Second Quarter 2021 compared to Second Quarter 2020

Noninterest income for the second quarter of 2021 decreased \$18 million compared to the earlier quarter. Noninterest income for the second quarter of 2020 included \$300 million of securities gains on available-for-sale securities. Excluding securities gains, noninterest income increased \$282 million, or 13%, compared to the earlier quarter. Insurance income increased \$109 million due to acquisitions, as well as new business and higher retention. Commercial real-estate related income increased \$89 million primarily due to client-related structured real estate transactions. Investment banking and trading income increased \$43 million due to strong investment banking income from loan syndications, merger and acquisition fees and asset securitization transactions, which was partially offset by lower trading income. Other income increased \$92 million primarily due to an increase of \$67 million related to increased investment income (primarily valuations gains) from the Company's SBIC and Truist Ventures investments. In addition, other income increased \$43 million from higher valuations of assets held for certain post-retirement benefits, which is primarily offset by higher benefits expense included in personnel expense. Revenues related to wealth management, service charges on deposits and card and payment related activities increased \$161 million as transaction volumes and asset levels increased compared to the levels in the earlier quarter due to improving economic conditions. Residential mortgage banking income decreased \$224 million primarily due to lower production related revenues as a result of lower gain on sale margins and volumes, coupled with lower servicing income due to a reduction in the third-party servicing portfolio as a result of prepayments.

Six Months of 2021 compared to Six Months of 2020

Noninterest income for the six months ended June 30, 2021 increased \$218 million compared to the prior period. Other income for the six months ended June 30, 2021 includes a \$37 million gain from the divestiture of certain businesses, whereas noninterest income for the six months ended June 30, 2020 included \$298 million of securities gains on available-for-sale securities. Excluding securities gains and the divestiture gain, noninterest income increased \$479 million, or 12%, compared to the prior period. Investment banking and trading income increased \$265 million due to strong investment banking income from loan syndications, equity originations, merger and acquisition fees, and asset securitization transactions, as well as the impact from CVA recoveries in the current period compared to losses in the earlier period. Other income increased \$168 million primarily due to higher valuations of \$105 million for assets held for certain post-retirement benefits, which is largely offset by higher benefits expense included in personnel expense. In addition, other income increased \$57 million related to increased investment income (primarily valuations gains) from the Company's SBIC and Truist Ventures investments. Insurance income increased \$186 million due to acquisitions, as well as new business and higher retention. Commercial real-estate related income increased \$88 million primarily due to client-related structured real estate transactions. Revenues related to wealth management and card and payment related activities increased \$132 million as transaction volumes and asset levels increased compared to the levels in the earlier period due to improving economic conditions. Lending related fees increased \$61 million due to gains from the sale of finance leases and noninterest loan fees due to higher unused line fees. Residential mortgage banking income decreased \$369 million primarily due to lower production related revenues as a result of lower gain on sale margins and volumes, coupled with lower servicing income due to a reduction in the third-party servicing portfolio as a result of prepayments.

Noninterest Expense

The following table provides a breakdown of Truist's noninterest expense:

Table 3: Noninterest Expense

(Dollars in millions)	Three Months Ended June 30,			Six Months Ended June 30,		
	2021	2020	% Change	2021	2020	% Change
Personnel expense	\$ 2,207	\$ 2,008	9.9 %	\$ 4,349	\$ 3,980	9.3 %
Professional fees and outside processing	341	289	18.0	691	536	28.9
Net occupancy expense	182	243	(25.1)	391	464	(15.7)
Software expense	246	216	13.9	456	426	7.0
Amortization of intangibles	142	178	(20.2)	286	343	(16.6)
Equipment expense	122	120	1.7	235	236	(0.4)
Marketing and customer development	66	56	17.9	132	140	(5.7)
Operating lease depreciation	47	77	(39.0)	97	148	(34.5)
Loan-related expense	55	56	(1.8)	109	118	(7.6)
Regulatory costs	31	30	3.3	56	59	(5.1)
Merger-related and restructuring charges	297	209	42.1	438	316	38.6
Loss (gain) on early extinguishment of debt	—	235	(100.0)	(3)	235	(101.3)
Other expense	275	161	70.8	384	308	24.7
Total noninterest expense	\$ 4,011	\$ 3,878	3.4	\$ 7,621	\$ 7,309	4.3

Second Quarter 2021 compared to Second Quarter 2020

Noninterest expense for the second quarter of 2021 was up \$133 million compared to the earlier quarter. Merger-related and restructuring charges increased \$88 million primarily due to costs in connection with a voluntary separation and retirement program, partially offset by lower severance costs in the earlier quarter. Other incremental operating expenses related to the merger increased \$61 million, primarily reflected in professional fees and outside processing. The current quarter also includes \$200 million for charitable contributions to the Truist Foundation and the Truist Charitable Fund, whereas the earlier quarter included a \$235 million loss on the early extinguishment of debt. Excluding the aforementioned items and changes in amortization of intangibles, adjusted noninterest expense was up \$55 million, or 1.8%, compared to the earlier quarter. Personnel expense increased \$199 million primarily due to higher incentive expenses due to improved performance, higher other employee benefits due to the previously mentioned increase in noninterest income, as well as higher pension and insurance benefits expense. These increases in personnel expense were partially offset by lower salaries due to fewer FTEs. Other expense also includes decreases of \$42 million for non-service-related pension cost components and \$31 million for certain expenses provided in the earlier quarter related to support for teammates through the COVID-19 pandemic. There was also a decrease of \$61 million from net occupancy expense primarily due to branch and property consolidations.

Six Months of 2021 compared to Six Months of 2020

Noninterest expense for the six months ended June 30, 2021 was up \$312 million compared to the earlier period. Merger-related and restructuring charges increased \$122 million and other incremental operating expenses related to the Merger increased \$162 million. The current period also includes \$200 million for charitable contributions to the Truist Foundation and the Truist Charitable Fund and \$36 million of expense associated with an acceleration of loss recognition related to certain terminated cash flow hedges, whereas the earlier period included a \$235 million loss on the early extinguishment of debt. Excluding the aforementioned items and changes in amortization of intangibles, noninterest expense increased \$87 million, or 1.4%, compared to the earlier period. Personnel expense increased \$369 million primarily due to higher incentive expenses due to improved performance, higher other employee benefits due to the previously mentioned increase in noninterest income, as well as higher pension and insurance benefits expense. These increases in personnel expense were partially offset by lower salaries due to fewer FTEs. Other expense also includes decreases of \$84 million for non-service-related pension cost components and \$31 million for certain expenses provided in the earlier quarter related to support for teammates through the COVID-19 pandemic. There was also a decrease of \$73 million from net occupancy expense primarily due to branch and property consolidations and a decrease in operating lease depreciation of \$51 million due to valuation adjustments taken in the prior year.

Merger-Related and Restructuring Charges

The following table presents a summary of merger-related and restructuring charges and the related accruals:

Table 4: Merger-Related and Restructuring Accrual Activity

(Dollars in millions)	Three Months Ended June 30, 2021				Six Months Ended June 30, 2021			
	Accrual at Apr 1, 2021	Expense	Utilized	Accrual at Jun 30, 2021	Accrual at Jan 1, 2021	Expense	Utilized	Accrual at Jun 30, 2021
Severance and personnel-related (1)	\$ 12	\$ 166	\$ (26)	\$ 152	\$ 36	\$ 192	\$ (76)	\$ 152
Occupancy and equipment	—	53	(48)	5	—	107	(102)	5
Professional services	29	63	(64)	28	16	117	(105)	28
Systems conversion and related costs	—	6	(6)	—	—	13	(13)	—
Other	11	9	(10)	10	11	9	(10)	10
Total (2)	\$ 52	\$ 297	\$ (154)	\$ 195	\$ 63	\$ 438	\$ (306)	\$ 195

- (1) Includes \$144 million of restructuring charges related to the Company's voluntary separation and retirement program.
(2) The Company recognized \$278 million of expenses for the three months ended June 30, 2021 and \$408 million for the six months ended June 30, 2021 related to the Merger. At June 30, 2021, the Company had an accrual of \$178 million related to the Merger. The remaining expense and accrual relate to other restructuring activities.

Segment Results

Truist operates and measures business activity across three segments: Consumer Banking and Wealth, Corporate and Commercial Banking, and Insurance Holdings, with functional activities included in Other, Treasury and Corporate. The Company's business segment structure is based on the manner in which financial information is evaluated by management as well as the products and services provided or the type of client served. See "Note 17. Operating Segments" herein and "Note 21. Operating Segments" in Truist's Annual Report on Form 10-K for the year ended December 31, 2020 for additional disclosures related to Truist's reportable business segments, including additional details related to results of operations. Fluctuations in noninterest income and noninterest expense are more fully discussed in the Noninterest Income and Noninterest Expense sections above.

Table 5: Net Income by Reportable Segment

(Dollars in millions)	Three Months Ended June 30,			Six Months Ended June 30,		
	2021	2020	% Change	2021	2020	% Change
Consumer Banking and Wealth	\$ 862	\$ 712	21.1 %	\$ 1,662	\$ 1,400	18.7 %
Corporate and Commercial Banking	1,227	402	NM	2,139	810	164.1
Insurance Holdings	156	126	23.8	287	232	23.7
Other, Treasury & Corporate	(587)	(282)	108.2	(957)	(421)	127.3
Truist Financial Corporation	\$ 1,658	\$ 958	73.1	\$ 3,131	\$ 2,021	54.9

Consumer Banking and Wealth

CB&W net income was \$862 million for the second quarter of 2021, an increase of \$150 million compared to the earlier quarter. Segment net interest income decreased \$45 million primarily due to a decline in the funding credit provided on liabilities, lower purchase accounting accretion, and a decline in average loans. The allocated provision for credit losses decreased \$274 million which reflects the impact of an allowance release during the current quarter, an allowance build during the earlier quarter resulting from the deteriorating economic outlook caused by the COVID-19 pandemic, and lower net charge-offs in the current quarter primarily in the mortgage, home equity and auto portfolios. Noninterest income decreased \$83 million driven by lower residential mortgage income due to lower gain on sale margins and volumes, partially offset by increases in card and related fee income as well as wealth management income due to favorable market conditions in the current quarter. Noninterest expense decreased \$47 million primarily due to lower amortization of intangibles related to the merger, occupancy expenses, and personnel related expenses, partially offset by increased restructuring charges in the current quarter.

CB&W average loans held for investment decreased \$9.5 billion, or 6.7%, for the second quarter of 2021 compared to the earlier quarter, primarily driven by lower residential mortgage and home equity lending, partially offset by increased mortgage warehouse and indirect auto lending. Average total deposits increased \$26.3 billion, or 12%, for the second quarter of 2021 compared to the earlier quarter primarily due to the impact of government stimulus programs.

Corporate and Commercial Banking

C&CB net income was \$1.2 billion for the second quarter of 2021, an increase of \$825 million compared to the earlier quarter. Segment net interest income decreased \$78 million primarily due to reduced funding credit on liabilities, lower purchase accounting accretion, and a decline in average loans. The allocated provision for credit losses decreased \$933 million primarily reflecting the allowance release in the current quarter and a significant allowance build in the earlier quarter resulting from the deteriorating economic outlook caused by the onset of the COVID-19 pandemic. Noninterest income increased \$188 million driven by commercial real estate income, investment banking, lending related fees, service charges on deposits, and income from strategic investments, partially offset by lower trading fees. Noninterest expense decreased \$36 million primarily due to lower operating lease depreciation, reduction in LIHTC liability mark accretion in the earlier quarter, and lower allocated corporate expenses in the current quarter, partially offset by higher incentives tied to performance as well as increased restructuring charges in current quarter.

C&CB average loans held for investment decreased \$23.8 billion, or 13%, for the second quarter of 2021 compared to the earlier quarter, primarily due to lower line utilization in commercial loans, commercial real estate, and dealer floor plan. Average total deposits increased \$4.3 billion, or 3.1%, for the second quarter of 2021 compared to the earlier quarter, primarily due to the government stimulus programs.

Insurance Holdings

IH net income was \$156 million for the second quarter of 2021, an increase of \$30 million compared to the earlier quarter. Noninterest income increased \$100 million primarily due to higher property and casualty insurance production from strong organic growth, as well as acquisitions. Noninterest expense increased \$67 million primarily due to higher performance-based incentives, merger related expenses, and amortization of intangibles related to acquisitions.

Other, Treasury & Corporate

OT&C generated a net loss of \$587 million in the second quarter of 2021, compared to a net loss of \$282 million in the earlier quarter. Segment net interest income decreased \$78 million primarily due to lower net funding charges to other segments due to lower market rates partially offset by an increase in income on securities. The allocated provision for credit losses decreased \$64 million which primarily reflects an allowance release in the current quarter resulting from the improving economic outlook and an allowance build during the earlier quarter related to the deteriorating economic outlook caused by the onset of the pandemic. Noninterest income decreased \$223 million primarily due to a gain on sale of non-agency MBS in the earlier quarter. Noninterest expense increased \$149 million primarily due to charitable contributions to the Truist Foundation and the Truist Charitable Fund, as well as higher incremental operating expenses related to the merger and higher restructuring charges in the current quarter, partially offset by the loss on early extinguishment of long-term debt in the earlier quarter.

Consumer Banking and Wealth

CB&W net income was \$1.7 billion for the six months ended June 30, 2021, an increase of \$262 million compared to the same period of the prior year. Segment net interest income decreased \$164 million primarily due to lower rates, lower purchase accounting accretion, and a decline in average loans. The allocated provision for credit losses decreased \$611 million primarily due to an allowance release that was primarily driven by an improving economic outlook and lower net charge offs in the auto, mortgage, and home equity portfolios as well as lower loan balances. Noninterest income decreased \$231 million, due to lower residential mortgage income driven by lower gain on sale margins and volumes, partially offset by increased revenues in wealth management and card and payment related activities resulting from improving economic conditions as well as gains from the divestiture of certain businesses. Noninterest expense decreased \$123 million primarily due to lower salary expense, pension costs, amortization of intangibles, and occupancy expenses in the current year.

CB&W average loans and leases decreased \$7.9 billion, or 5.7%, at June 30, 2021, compared to the same period of the prior year, primarily due to lower residential mortgage loans and home equity lending, partially offset by increased mortgage warehouse and indirect auto lending. Average total deposits were up \$28.2 billion, or 13%, at June 30, 2021, compared to the same period of the prior year, primarily due to the impact of government stimulus programs.

Corporate and Commercial Banking

C&CB net income was \$2.1 billion for the six months ended June 30, 2021, an increase of \$1.3 billion compared to the same period of the prior year. Segment net interest income decreased \$191 million primarily due to lower rates, lower purchase accounting accretion, and a decline in average loans. The allocated provision for credit losses decreased \$1.4 billion which reflects an allowance release driven by an improving economic outlook, lower net charge offs primarily in the commercial and industrial portfolio as well as lower loan balances. Noninterest income increased \$426 million due to strong investment banking and trading income, commercial real-estate related income, increased lending related fees, income from strategic investments, and increased service charges on deposits. Noninterest expense decreased \$144 million primarily due to lower operating lease depreciation, a reduction in LIHTC liability mark accretion in the same period of 2020, lower allocated corporate expenses and reduced salary expense, partially offset by higher incentives tied to performance and increased professional fees and outside processing expense.

C&CB average loans and leases decreased \$12.1 billion, or 7.2%, at June 30, 2021, compared to the same period of the prior year, primarily due to lower line utilization in commercial loans, commercial real estate, and dealer floor plan. Average total deposits were up \$13.3 billion, or 10%, at June 30, 2021, compared to the same period of the prior year, primarily due to the impact of government stimulus programs.

Insurance Holdings

IH net income was \$287 million for the six months ended June 30, 2021, an increase of \$55 million compared to the same period of the prior year. Noninterest income increased \$176 million primarily due to higher property and casualty insurance production as well as acquisitions. Noninterest expense increased \$107 million primarily due to commissions on higher production in the current year.

Other, Treasury and Corporate

OT&C generated a net loss of \$957 million in the six months ended June 30, 2021, compared to a net loss of \$421 million in the same period of the prior year. Segment net interest income decreased \$206 million primarily due to lower net funding charges to other segments due to lower market rates partially offset by lower interest expense on borrowings. The allocated provision for credit losses decreased \$138 million which primarily reflects changes in the reserve for unfunded commitments as well as an allowance release in the current year resulting from the improving economic outlook. Noninterest income decreased \$153 million primarily due to a gain on the sale of non-agency MBS in the same period of the prior year, partially offset by income from assets held for certain post-employment benefits. Noninterest expense increased \$472 million primarily due to charitable contributions to the Truist Foundation and the Truist Charitable Fund, as well as higher incremental operating expenses related to the merger and higher restructuring charges in the current year, partially offset by the loss on early extinguishment of long-term debt in the same period of the prior year.

Analysis of Financial Condition

Investment Activities

The securities portfolio totaled \$139.9 billion at June 30, 2021, compared to \$120.8 billion at December 31, 2020. The increase was due primarily to increases in U.S. Treasury securities and MBS resulting from strong deposit growth resulting from fiscal and monetary stimulus.

As of June 30, 2021, approximately 1.6% of the securities portfolio was variable rate, compared to 1.9% as of December 31, 2020. The effective duration of the securities portfolio was 5.5 years at June 30, 2021, compared to 4.0 years at December 31, 2020.

U.S. Treasury, GSE, and Agency MBS represented more than 99% of the total securities portfolio as of June 30, 2021 and December 31, 2020.

Lending Activities

The following table presents the composition of average loans and leases:

Table 6: Average Loans and Leases

For the Three Months Ended (Dollars in millions)	Jun 30, 2021	Mar 31, 2021	Dec 31, 2020	Sep 30, 2020	Jun 30, 2020
Commercial:					
Commercial and industrial	\$ 133,646	\$ 136,051	\$ 139,223	\$ 143,452	\$ 152,991
CRE	25,645	26,211	27,030	27,761	27,804
Commercial construction	6,359	6,557	6,616	6,861	6,748
Lease financing	4,893	4,975	5,401	5,626	5,922
Consumer:					
Residential mortgage	43,605	45,823	48,847	51,500	52,380
Residential home equity and direct	25,238	25,658	26,327	26,726	27,199
Indirect auto	26,444	26,363	25,788	24,732	24,721
Indirect other	10,797	10,848	11,291	11,530	11,282
Student	7,396	7,519	7,519	7,446	7,633
Credit card	4,552	4,645	4,818	4,810	4,949
Total average loans and leases HFI	\$ 288,575	\$ 294,650	\$ 302,860	\$ 310,444	\$ 321,629

Average loans and leases held for investment for the second quarter of 2021 were \$288.6 billion, down \$6.1 billion, or 2.1%, compared to the first quarter of 2021.

Average commercial loans decreased \$3.3 billion primarily due to a \$1.3 billion decrease in average PPP loans (commercial and industrial), a \$1.2 billion decrease in average dealer floor plan loans (commercial and industrial), a \$566 million decrease in average CRE loans, and a \$198 million decrease in average commercial construction loans.

Average consumer loans decreased \$2.7 billion primarily due to refinance activity resulting in a decline in residential mortgages and residential home equity and direct loans.

COVID-19 Lending Activities

The CARES Act created the PPP, which has temporarily expanded the Small Business Administration's business loan guarantee program. The carrying value of PPP loans was \$6.0 billion as of June 30, 2021. The CARES Act additionally includes provisions that were designed to encourage financial institutions to support borrowers impacted by COVID-19. These modifications are generally not considered a TDR. Refer to "Note 1. Basis of Presentation" in Truist's Annual Report on Form 10-K for the year ended December 31, 2020 for additional disclosures related to modifications and TDRs. Payment relief assistance includes forbearance, deferrals, extension and re-aging programs, along with certain other modification strategies. The following table provides a summary of accommodations as of June 30, 2021:

Table 7: Client Accommodations (1)

June 30, 2021 (Dollars in millions)	Active Accommodations		Exited Accommodations		% Paid-off or Current (2)	Types of Accommodations
	Total Count	Outstanding Balance	Outstanding Balance			
Commercial	412	\$ 4	\$ 18,700		98 %	Clients may elect to defer loan or lease payments for up to 90 days without late fees being incurred but with finance charges continuing to accrue.
Consumer	14,563	611	9,244		89	Clients may elect to defer loan payments for time periods that generally range from 30 to 90 days without late fees being incurred but with finance charges generally continuing to accrue. The Company's residential mortgage forbearance program generally provides up to 180 days of relief. Additional relief may be provided in certain circumstances.
Credit card	1,533	9	167		89	Clients may elect to defer payments for up to 90 days without late fees being incurred but with finance charges accruing. In addition, Truist provided credit card clients with 5% cash back on qualifying card purchases for certain important basic needs.
Total	16,508	\$ 624	\$ 28,111			

(1) Excludes approximately 24,000 of active accommodations related to government guaranteed loans totaling approximately \$1.7 billion.

(2) Calculated based on accommodation count; includes loans that are less than 30 days past due.

The following table provides a summary of the Company's exposure related to loans that have exited accommodations:

Table 8: Accommodations Exposure

June 30, 2021 (Dollars in millions)	Exposure
Current	\$ 26,899
Past due and still accruing	524
Nonperforming	688
Total	\$ 28,111

The following table provides a summary of exposure to industries that management believes were considered more vulnerable during the COVID-19 pandemic. These selected industry exposures represent 9.0% of loans held for investment at June 30, 2021. Truist is actively managing these portfolios and will continue to make underwriting or risk acceptance adjustments as appropriate.

Table 9: Selected Credit Exposures

June 30, 2021 (Dollars in billions)	Outstanding Balance	Percentage of Loans HFI
Senior Care	\$ 6.2	2.1 %
Hotels, Resorts & Cruise Lines	5.9	2.1
Acute Care Facilities	5.0	1.7
Oil & Gas Portfolio	4.2	1.5
Restaurants	2.5	0.9
Sensitive Retail	2.0	0.7
Total	\$ 25.8	9.0 %

Asset Quality

The following tables summarize asset quality information:

Table 10: Asset Quality

(Dollars in millions)	Jun 30, 2021	Mar 31, 2021	Dec 31, 2020	Sep 30, 2020	Jun 30, 2020

Total loans 30-89 days past due and still accruing	\$ 1,824	\$ 1,788	\$ 2,220	\$ 2,148	\$ 1,901

(1) The past due status of loans that received a deferral under the CARES Act is generally frozen during the deferral period.

Nonperforming assets totaled \$1.2 billion at June 30, 2021, down \$107 million compared to March 31, 2021. Nonperforming loans and leases represented 0.39% of total loans and leases, down three basis points compared to March 31, 2021. The decrease in nonperforming loans and leases was primarily in the commercial loan portfolios.

Performing TDRs were down \$38 million during the second quarter compared to the prior quarter.

Loans 90 days or more past due and still accruing totaled \$2.1 billion at June 30, 2021, down slightly compared to the prior quarter. The ratio of loans 90 days or more past due and still accruing as a percentage of loans and leases was 0.72% at June 30, 2021, up one basis point from the prior quarter. Excluding government guaranteed loans, the ratio of loans 90 days or more past due and still accruing as a percentage of loans and leases was 0.04% at June 30, 2021, unchanged from March 31, 2021.

Loans 30-89 days past due and still accruing totaled \$1.8 billion at June 30, 2021, up \$36 million compared to the prior quarter. The increase was primarily in indirect automobile due to seasonality. The ratio of loans 30-89 days past due and still accruing as a percentage of loans and leases was 0.64% at June 30, 2021, up 3 basis points from the prior quarter.

Problem loans include NPLs and loans that are 90 days or more past due and still accruing as disclosed in Table 10. In addition, for the commercial portfolio segment, loans that are rated special mention or substandard performing are closely monitored by management as potential problem loans. Refer to "Note 4. Loans and ACL" for additional disclosures related to these potential problem loans.

Table 11: Asset Quality Ratios

As of / For the Three Months Ended	Jun 30, 2021	Mar 31, 2021	Dec 31, 2020	Sep 30, 2020	Jun 30, 2020
Loans 30-89 days past due and still accruing as a percentage of loans and leases HFI	0.64 %	0.61 %	0.74 %	0.70 %	0.60 %
Loans 90 days or more past due and still accruing as a percentage of loans and leases HFI	0.72	0.71	0.67	0.39	0.34
NPLs as a percentage of loans and leases HFI	0.37	0.40	0.44	0.37	0.35
NPLs as a percentage of total loans and leases (1)	0.39	0.42	0.44	0.40	0.37
NPAs as a percentage of:					
Total assets (1)	0.23	0.25	0.27	0.26	0.25
Loans and leases HFI plus foreclosed property	0.39	0.42	0.46	0.39	0.37
Net charge-offs as a percentage of average loans and leases HFI	0.20	0.33	0.27	0.42	0.39
ALLL as a percentage of loans and leases HFI	1.79	1.94	1.95	1.91	1.81
Ratio of ALLL to:					
Net charge-offs	8.98x	5.87x	7.15x	4.52x	4.49x
NPLs	4.83x	4.84x	4.39x	5.22x	5.24x
Loans 90 days or more past due and still accruing as a percentage of loans and leases HFI, excluding PPP and other government guaranteed (2)	0.04 %	0.04 %	0.04 %	0.03 %	0.04 %

Applicable ratios are annualized.

(1) Includes LHFS.

(2) This asset quality ratio has been adjusted to remove the impact of government guaranteed mortgage, student, and PPP loans.

Management believes the inclusion of such assets in this asset quality ratio results in distortion of this ratio such that it might not be reflective of asset collectability or might not be comparable to other periods presented or to other portfolios that do not have government guarantees.

The following table presents activity related to NPAs:

Table 12: Rollforward of NPAs

(Dollars in millions)	2021	2020
Balance, January 1	\$ 1,387	\$ 684
New NPAs (1)	1,015	1,710
Advances and principal increases	227	172
Disposals of foreclosed assets (2)	(220)	(248)
Disposals of NPLs (3)	(141)	(269)
Charge-offs and losses	(181)	(322)
Payments	(564)	(318)
Transfers to performing status	(309)	(177)
Other, net	(22)	20
Ending balance, June 30	\$ 1,192	\$ 1,252

- (1) For 2020, includes approximately \$500 million of loans previously classified as PCI that would have otherwise been nonperforming as of December 31, 2019.
- (2) Includes charge-offs and losses recorded upon sale of \$70 million and \$73 million for the six months ended June 30, 2021 and 2020, respectively.
- (3) Includes charge-offs and losses recorded upon sale of \$5 million and \$54 million for the six months ended June 30, 2021 and 2020, respectively.

TDRs occur when a borrower is experiencing, or is expected to experience, financial difficulties in the near term and a concession has been granted to the borrower. As a result, Truist works with borrowers to prevent further difficulties and to improve the likelihood of recovery on a loan. To facilitate this process, a concessionary modification that would not otherwise be considered may be granted, resulting in classification of the loan as a TDR. In accordance with the CARES Act, Truist implemented loan modification programs in response to the COVID-19 pandemic in order to provide borrowers with flexibility with respect to repayment terms. Payment relief assistance provided by Truist includes forbearance, deferrals, extension, and re-aging programs, along with certain other modification strategies. The Company adopted certain provisions of the CARES Act and other regulatory guidance that provide relief from the requirement to apply TDR accounting to (1) certain modifications of federally backed mortgages upon request from the borrower, and (2) certain modifications of other non-federally backed mortgages for borrowers impacted by the COVID-19 pandemic that were less than 30 days past due at December 31, 2019. Refer to "Note 1. Basis of Presentation" in Truist's Annual Report on Form 10-K for the year ended December 31, 2020 for the policies related to TDRs and COVID-19 loan modifications.

TDRs identified by SunTrust prior to the Merger date are not included in Truist's TDR disclosure because all such loans were recorded at fair value and a new accounting basis was established as of the Merger date. Subsequent modifications are evaluated for potential treatment as TDRs in accordance with Truist's accounting policies.

The following table provides a summary of performing TDR activity:

Table 13: Rollforward of Performing TDRs

(Dollars in millions)	2021	2020
Balance, January 1	\$ 1,361	\$ 980

Total ACL	\$ 5,436	\$ 6,011	\$ 6,199	\$ 6,229	\$ 6,133		

Net charge-offs during the second quarter totaled \$142 million, down \$96 million compared to the prior quarter. The net charge-off ratio was 0.20%, down 13 basis points compared to the prior quarter. The decrease in net charge-offs was primarily due to lower losses in the indirect auto and commercial portfolios combined with higher recoveries.

At June 30, 2021, the allowance for credit losses was \$5.4 billion and includes \$5.1 billion for the allowance for loan and lease losses and \$315 million for the reserve for unfunded commitments. The allowance for loan and lease loss ratio was 1.79% compared to 1.94% at March 31, 2021. The allowance for loan and lease losses covered nonperforming loans and leases held for investment 4.83X compared to 4.84X at March 31, 2021. At June 30, 2021, the allowance for loan and lease losses was 8.98X annualized net charge-offs, compared to 5.87X at March 31, 2021.

The following table presents an allocation of the ALLL. The entire amount of the allowance is available to absorb losses occurring in any category of loans and leases.

Table 16: Allocation of ALLL by Category

(Dollars in millions)	June 30, 2021			December 31, 2020		
	Amount	% ALLL in Each Category	% Loans in Each Category	Amount	% ALLL in Each Category	% Loans in Each Category
Commercial and industrial	\$ 1,757	34.3 %	45.6 %	\$ 2,156	37.0 %	46.2 %

RUFC	315			364		
Total ACL	\$ 5,436			\$ 6,199		

Truist monitors the performance of its home equity loans and lines secured by second liens similarly to other consumer loans and utilizes assumptions specific to these loans in determining the necessary ALLL. Truist also receives notification when the first lien holder, whether Truist or another financial institution, has initiated foreclosure proceedings against the borrower. When notified that the first lien is in the process of foreclosure, Truist obtains valuations to determine if any additional charge-offs or reserves are warranted. These valuations are updated at least annually thereafter.

Truist has limited ability to monitor the delinquency status of the first lien, unless the first lien is held or serviced by Truist. Truist estimates second lien loans where the first lien is delinquent based on historical experience; the increased risk of loss on these credits is reflected in the ALLL. As of June 30, 2021, Truist held or serviced the first lien on 30% of its second lien positions.

Other Assets

The components of other assets are presented in the following table:

Table 17: Other Assets as of Period End

(Dollars in millions)	June 30, 2021	December 31, 2020
Bank-owned life insurance	\$ 6,494	\$ 6,479
Tax credit and other private equity investments	5,854	5,685
Prepaid pension assets	4,837	4,358
Derivative assets	3,188	3,837
Accrued income	1,874	1,934

FHLB stock	91	164
Other	491	549
Total other assets	\$ 30,999	\$ 30,673

Funding Activities

Deposits

The following table presents average deposits:

Table 18: Average Deposits

Three Months Ended (Dollars in millions)	Jun 30, 2021	Mar 31, 2021	Dec 31, 2020	Sep 30, 2020	Jun 30, 2020
Noninterest-bearing deposits	\$ 137,892	\$ 128,579	\$ 127,103	\$ 123,966	\$ 113,875
Interest checking	106,121	104,744	99,866	96,707	97,863
Money market and savings	134,029	129,303	124,692	123,598	126,071
Time deposits	18,213	20,559	23,605	27,940	33,009
Total average deposits	\$ 396,255	\$ 383,185	\$ 375,266	\$ 372,211	\$ 370,818

Average deposits for the second quarter of 2021 were \$396.3 billion, an increase of \$13.1 billion, or 3.4%, compared to the linked quarter. Average noninterest bearing deposits grew 7.2% compared to the prior quarter and represented 35% of total deposits for the second quarter of 2021, compared to 34% for the prior quarter. Average money market and savings and interest checking grew 3.7% and 1.3%, respectively, compared to the linked quarter.

Average time deposits decreased primarily due to the maturity of wholesale negotiable certificates of deposit and higher-cost personal accounts.

Borrowings

At June 30, 2021, short-term borrowings totaled \$5.7 billion, a decrease of \$440 million compared to December 31, 2020, due primarily to a decrease of \$1.5 billion in short-term FHLB advances, partially offset by an increase of \$1.0 billion in securities sold under agreements to repurchase.

Average short-term borrowings were \$6.2 billion or 1.4% of total funding for the second quarter of 2021, as compared to \$9.0 billion or 2.1% for the prior year. Average short-term borrowings decreased as a percentage of funding sources due to strong deposit growth. Long-term debt provides funding and, to a lesser extent, regulatory capital, and primarily consists of senior and subordinated notes issued by Truist and Truist Bank. Long-term debt totaled \$38.0 billion at June 30, 2021, a decrease of \$1.6 billion compared to December 31, 2020. During 2021, the Company had \$4.5 billion of senior long term debt maturities and redemptions, partially offset by issuances of \$2.3 billion of fixed rate senior notes with an interest rate of 1.27% to 1.89% maturing between 2027 to 2029 and issuances of \$1.0 billion in variable rate senior notes maturing in 2025. FHLB advances represented 2.3% of total outstanding long-term debt at June 30, 2021, compared to 2.2% at December 31, 2020. The average cost of long-term debt was 1.58% for the six months ended June 30, 2021, down 32 basis points compared to the same period in 2020.

On August 2, 2021, Truist redeemed \$500 million of fixed rate senior notes due in August 2022 and \$300 million in floating rate senior notes due in August 2022. In July 2021, Truist announced plans to redeem \$500 million of fixed rate senior notes on August 3, 2021 due in September 2021.

Shareholders' Equity

Total shareholders' equity was \$68.3 billion at June 30, 2021, a decrease of \$2.6 billion from December 31, 2020. This decrease includes a decrease of \$1.8 billion in AOCI, redemptions of \$1.4 billion in preferred stock for Series F, G, and H, \$1.4 billion in dividends, and \$1.1 billion in repurchases of common stock, partially offset by \$3.1 billion in net income available. Truist's book value per common share at June 30, 2021 was \$46.20, compared to \$46.52 at December 31, 2020.

Refer to "Note 9. Shareholders' Equity" for additional disclosures related to preferred stock redemptions.

Effective July 1, 2021, the Board of Directors increased the previous repurchase authority of the Company's common stock, of which the Company has \$3.1 billion remaining. The amount of share repurchases is dependent on capital deployment through organic growth and acquisitions, giving consideration to economic and regulatory conditions.

Risk Management

Truist maintains a comprehensive risk management framework supported by people, processes, and systems to identify, measure, monitor, manage, and report significant risks arising from its exposures and business activities. Effective risk management involves optimizing risk and return while operating in a safe and sound manner, and promoting compliance with applicable laws and regulations. The Company's risk management framework promotes the execution of business strategies and objectives in alignment with its risk appetite.

Truist has developed and employs a risk taxonomy that further guides business functions in identifying, measuring, responding to, monitoring, and reporting on possible exposures to the organization. The risk taxonomy drives internal risk conversations and enables Truist to clearly and transparently communicate to stakeholders the level of potential risk the Company faces, both presently and in the future, and the Company's position on managing risk to acceptable levels.

Truist is committed to fostering a culture that supports identification and escalation of risks across the organization. All teammates are responsible for upholding the Company's purpose, mission, and values, and are encouraged to speak up if there is any activity or behavior that is inconsistent with the Company's culture. The Truist code of ethics guides the Company's decision making and informs teammates on how to act in the absence of specific guidance.

Truist seeks an appropriate return for the risk taken in its business operations. Risk-taking activities are evaluated and prioritized to identify those that present attractive risk-adjusted returns, while preserving asset value and capital.

Compensation decisions take into account a teammate's adherence to and successful implementation of Truist's risk values and associated policies and procedures. The Company's compensation structure supports its core values and sound risk management practices in an effort to promote judicious risk-taking behavior.

Truist employs a comprehensive change management program to manage the risks associated with integrating heritage BB&T and heritage SunTrust. The Board and Executive Leadership oversee the change management program, which is designed to ensure key decisions are reviewed and that there is appropriate oversight of integration activities.

Refer to Truist's Annual Report on Form 10-K for the year ended December 31, 2020 for additional disclosures under the section titled "Risk Management."

Market Risk

Market risk is the risk to current or anticipated earnings, capital, or economic value arising from changes in the market value of portfolios, securities, or other financial instruments. Market risk results from changes in the level, volatility, or correlations among financial market risk factors or prices, including interest rates, credit spreads, foreign exchange rates, equity, and commodity prices.

Effective management of market risk is essential to achieving Truist's strategic financial objectives. Truist's most significant market risk exposure is to interest rate risk in its balance sheet; however, market risk also results from underlying product liquidity risk, price risk, and volatility risk in Truist's business units. Interest rate risk results from differences between the timing of rate changes and the timing of cash flows associated with assets and liabilities (re-pricing risk); from changing rate relationships among different yield curves affecting bank activities (basis risk); from changing rate relationships across the spectrum of maturities (yield curve risk); and from interest-related options inherently embedded in bank products (options risk).

The primary objectives of effective market risk management are to minimize adverse effects from changes in market risk factors on net interest income, net income, and capital, and to offset the risk of price changes for certain assets and liabilities recorded at fair value. At Truist, market risk management also includes the enterprise-wide IPV function.

Interest Rate Market Risk

As a financial institution, Truist is exposed to interest rate risk both on its assets and on its liabilities. Truist actively manages its interest rate risk exposure through the strategic repricing of its assets and liabilities, taking into account the volumes, maturities, and mix, with the goal of keeping net interest margin as stable as possible. Truist primarily uses three methods to measure and monitor its interest rate risk: (i) simulations of possible changes to net interest income over the next two years based on gradual changes in interest rates; (ii) analysis of interest rate shock scenarios; and (iii) analysis of economic value of equity based on changes in interest rates.

The Company's simulation model takes into account assumptions related to prepayment trends, using a combination of market data and internal historical experiences for deposits and loans, as well as scheduled maturities and payments, and the expected outlook for the economy and interest rates. These assumptions are reviewed and adjusted monthly to reflect changes in current interest rates compared to the rates applicable to Truist's assets and liabilities. The model also considers Truist's current and prospective liquidity position, current balance sheet volumes, and projected growth and/or contractions, accessibility of funds for short-term needs and capital maintenance.

Deposit betas are an important assumption in the interest rate risk modeling process. Truist applies an average deposit beta (the sensitivity of deposit rate changes relative to market rate changes) of approximately 50% to its non-maturity interest-bearing deposit accounts when determining its interest rate sensitivity. Non-maturity, interest-bearing deposit accounts include interest checking accounts, savings accounts, and money market accounts that do not have a contractual maturity. Truist also regularly conducts sensitivity analyses on other key variables, including noninterest-bearing deposits, to determine the impact these variables could have on the Company's interest rate risk position. The predictive value of the simulation model depends upon the accuracy of the assumptions, but management believes that it provides helpful information for the management of interest rate risk.

The following table shows the effect that the indicated changes in interest rates would have on net interest income as projected for the next 12 months assuming a gradual change in interest rates as described below.

Table 19: Interest Sensitivity Simulation Analysis

Gradual Change in Prime Rate (bps)	Interest Rate Scenario		Annualized Hypothetical Percentage Change in Net Interest Income	
	Prime Rate		Jun 30, 2021	Jun 30, 2020
	Jun 30, 2021	Jun 30, 2020		
Up 100	4.25 %	4.25 %	3.93 %	2.39 %
Up 50	3.75	3.75	3.07	1.84
No Change	3.25	3.25	—	—
Down 25 (1)	3.00	3.00	(1.47)	(1.24)
Down 50 (1)	2.75	2.75	(1.93)	(1.44)

(1) The Down 25 and 50 rates are floored at one basis point and may not reflect Down 25 and 50 basis points for all rate indices.

Rate sensitivity increased compared to the prior periods, primarily driven by hedging changes.

Management considers how the interest rate risk position could be impacted by changes in balance sheet mix. Liquidity in the banking industry has been very strong during the current economic cycle. Much of this liquidity increase has resulted in growth in noninterest-bearing demand deposits. Consistent with the industry, Truist has seen a significant increase in this funding source. The behavior of these deposits is one of the most important assumptions used in determining the interest rate risk position of Truist. A decrease in the amount of these deposits in the future would reduce the asset sensitivity of Truist's balance sheet because the Company would increase interest-bearing funds to offset the loss of this advantageous funding source.

The following table shows the results of Truist's interest-rate sensitivity position assuming the loss of demand deposits and an associated increase in managed rate deposits under various scenarios. For purposes of this analysis, Truist modeled the incremental beta of managed rate deposits for the replacement of the demand deposits at 100%.

Table 20: Deposit Mix Sensitivity Analysis

Gradual Change in Rates (bps)	Base Scenario at June 30, 2021 (1)	Results Assuming a Decrease in Noninterest-Bearing Demand Deposits	
		\$20 Billion	\$40 Billion
Up 100	3.93 %	3.08 %	2.23 %
Up 50	3.07	2.45	1.83

(1) The base scenario is equal to the annualized hypothetical percentage change in net interest income at June 30, 2021 as presented in the preceding table.

Truist also uses an EVE analysis to focus on longer-term projected changes in asset and liability values given potential changes in interest rates. This measure allows Truist to analyze interest rate risk that falls outside the net interest income simulation period. The EVE model is a discounted cash flow of the portfolio of assets, liabilities, and derivative instruments. The difference in the present value of assets minus the present value of liabilities is defined as EVE.

The following table shows the effect that the indicated changes in interest rates would have on EVE:

Table 21: EVE Simulation Analysis

Change in Interest Rates (bps)	Hypothetical Percentage Change in EVE	
	Jun 30, 2021	Jun 30, 2020
Up 100	(3.0)%	6.6 %
No Change	—	—
Down 100	(3.6)	(7.3)

Truist uses financial instruments including derivatives to manage interest rate risk related to securities, commercial loans, MSR, and mortgage banking operations, long-term debt, and other funding sources. Truist's hedges a portion of its AFS securities to reduce mark-to-market volatility within AOCI and also to increase its overall asset sensitivity position. As of June 30, 2021, the Company had \$20.4 billion of pay-fixed swaps associated with this hedging program that are accounted for as fair value hedges. In the second quarter of 2021, this hedging program reduced net interest income by \$15 million. Truist also uses derivatives to facilitate transactions on behalf of its clients and as part of associated hedging activities. As of June 30, 2021, Truist had derivative financial instruments outstanding with notional amounts totaling \$315.9 billion, with an associated net fair value of \$2.6 billion. See "Note 15. Derivative Financial Instruments" for additional disclosures.

LIBOR in its current form will no longer be available after 2021. For most tenors of U.S. dollar LIBOR, the administrator of LIBOR extended publication until June 30, 2023. Tenors used infrequently by Truist, including one week and two month U.S. dollar LIBOR and all non-U.S. dollar LIBOR, will cease publication at December 31, 2021, based on this guidance. Truist has U.S. dollar LIBOR-based contracts that extend beyond June 30, 2023. In accordance with regulatory guidance, production of new U.S. dollar LIBOR contracts will cease before the end of 2021. To prepare for the transition to an alternative reference rate, management formed a cross-functional project team to address the LIBOR transition. The project team performed an assessment to identify the potential risks related to the transition from LIBOR to a new index. The project team provides updates to Executive Leadership and the Board.

Contract fallback language for existing loans and leases is under review and certain contracts will need updated provisions for the transition. The Company has plans for impacted lines of business to remediate these contracts, train impacted teammates, and provide timely notice to impacted clients. Current fallback language used for new, renewed, and modified contracts is generally consistent with ARRC recommendations and includes use of "hardwired fallback" language, where appropriate. Truist continues to manage the impact of these contracts and other financial instruments, systems implications, hedging strategies, and related operational and market risks on established project plans for business and operational readiness for the transition. Market risks associated with this change are dependent on the alternative reference rates available and market conditions at transition. In 2020, Truist began offering SOFR-based lending solutions to wholesale and consumer clients and entered into SOFR-based derivative contracts. The Company has actively been using SOFR as a reference rate in various loan contracts and has originated more than \$1 billion of loans as of June 30, 2021 using this alternative reference rate. Truist expects SOFR to become a more commonly-used pricing benchmark across the industry and will offer additional SOFR based products during 2021. Other alternative reference rates, such as emerging credit sensitive rates, will be evaluated as additional alternatives for LIBOR. For a further discussion of the various risks associated with the potential cessation of LIBOR and the transition to alternative reference rates, refer to the section titled "Item 1A. Risk Factors" in the Form 10-K for the year ended December 31, 2020.

Market risk from trading activities

As a financial intermediary, Truist provides its clients access to derivatives, foreign exchange and securities markets, which generate market risks. Trading market risk is managed using a comprehensive risk management approach, which includes measuring risk using VaR, stress testing, and sensitivity analysis. Risk metrics are monitored against a suite of limits on a daily basis at both the trading desk level and at the aggregate portfolio level, which is intended to ensure that exposures are in line with Truist's risk appetite.

Truist is also subject to risk-based capital guidelines for market risk under the Market Risk Rule.

Covered Trading Positions

Covered positions subject to the Market Risk Rule include trading assets and liabilities, specifically those held for the purpose of short-term resale or with the intent of benefiting from actual or expected short-term price movements or to lock in arbitrage profits. Truist's trading portfolio of covered positions results primarily from market making and underwriting services for the Company's clients, as well as associated risk mitigating hedging activity. The trading portfolio, measured in terms of VaR, consists primarily of four sub-portfolios of covered positions: (i) credit trading, (ii) fixed income securities, (iii) interest rate derivatives, and (iv) equity derivatives. As a market maker across different asset classes, Truist's trading portfolio also contains other sub-portfolios, including foreign exchange, loan trading, and commodity derivatives; however, these portfolios do not generate material trading risk exposures.

Valuation policies and methodologies exist for all trading positions. Additionally, these positions are subject to independent price verification. See “Note 15. Derivative Financial Instruments,” “Note 14. Fair Value Disclosures,” and “Critical Accounting Policies” herein for discussion of valuation policies and methodologies.

Securitizations

As of June 30, 2021, the aggregate market value of on-balance sheet securitization positions subject to the Market Risk Rule was \$23 million, all of which were non-agency asset backed securities positions. Consistent with the Market Risk Rule requirements, the Company performs pre-purchase due diligence on each securitization position to identify the characteristics including, but not limited to, deal structure and the asset quality of the underlying assets, that materially affect valuation and performance. Securitization positions are subject to Truist’s comprehensive risk management framework, which includes daily monitoring against a suite of limits. There were no off-balance sheet securitization positions during the reporting period.

Correlation Trading Positions

The trading portfolio of covered positions did not contain any correlation trading positions as of June 30, 2021.

VaR-Based Measures

VaR measures the potential loss of a given position or portfolio of positions at a specified confidence level and time horizon. Truist utilizes a historical VaR methodology to measure and aggregate risks across its covered trading positions. For risk management purposes, the VaR calculation is based on a historical simulation approach and measures the potential trading losses using a one-day holding period at a one-tail, 99% confidence level. For Market Risk Rule purposes, the Company calculates VaR using a 10-day holding period and a 99% confidence level. Due to inherent limitations of the VaR methodology, such as the assumption that past market behavior is indicative of future market performance, VaR is only one of several tools used to measure and manage market risk. Other tools used to actively manage market risk include stress testing, scenario analysis, and stop loss limits.

The trading portfolio’s VaR profile is influenced by a variety of factors, including the size and composition of the portfolio, market volatility, and the correlation between different positions. A portfolio of trading positions is typically less risky than the sum of the risk from each of the individual sub-portfolios, because, under normal market conditions, risk within each category partially offsets the exposure to other risk categories. The following table summarizes certain VaR-based measures for the three and six months ended June 30, 2021 and 2020. In the second quarter of 2021, one and ten day VaR measures declined from the prior quarter and the same period of last year as heightened market volatility experienced during March 2020 aged out of the 12-month VaR look-back window.

Table 22: VaR-based Measures

	Three Months Ended June 30,				Six Months Ended June 30,			
	2021		2020		2021		2020	
(Dollars in millions)	10-Day Holding Period	1-Day Holding Period	10-Day Holding Period	1-Day Holding Period	10-Day Holding Period	1-Day Holding Period	10-Day Holding Period	1-Day Holding Period
VaR-based Measures:								
Maximum	\$ 8	\$ 3	\$ 65	\$ 9	\$ 68	\$ 16	\$ 65	\$ 10
Average	5	2	29	6	22	6	20	4
Minimum	4	1	13	3	3	1	3	1
Period-end	6	2	17	3	6	2	17	3
VaR by Risk Class:								
Interest Rate Risk		1		3		1		3
Credit Spread Risk		3		4		3		4
Equity Price Risk		1		1		1		1
Foreign Exchange Risk		—		—		—		—
Portfolio Diversification		(4)		(6)		(4)		(6)
Period-end		2		3		2		3

Stressed VaR-based measures

Stressed VaR, another component of market risk capital, is calculated using the same internal models as used for the VaR-based measure. Stressed VaR is calculated over a ten-day holding period at a one-tail, 99% confidence level and employs a historical simulation approach based on a continuous twelve-month historical window selected to reflect a period of significant financial stress for the Company's trading portfolio. The following table summarizes Stressed VaR-based measures:

Table 23: Stressed VaR-based Measures - 10 Day Holding Period

(Dollars in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Maximum	\$ 91	\$ 65	\$ 91	\$ 65
Average	60	29	57	31
Minimum	43	13	26	13
Period-end	49	17	49	17

Compared to the prior year periods, stressed VaR measures increased in the second quarter of 2021 primarily due to the normalization of market making inventory levels this year compared to the same periods of 2020 when inventory levels were lower due to the market volatility.

Specific Risk Measures

Specific risk is a measure of idiosyncratic risk that could result from risk factors other than broad market movements (e.g. default, event risks). The Market Risk Rule provides fixed risk weights under a standardized measurement method while also allowing a model-based approach, subject to regulatory approval. Truist utilizes the standardized measurement method to calculate the specific risk component of market risk regulatory capital. As such, incremental risk capital requirements do not apply.

VaR Model Backtesting

In accordance with the Market Risk Rule, the Company evaluates the accuracy of its VaR model through daily backtesting by comparing aggregate daily trading gains and losses (excluding fees, commissions, reserves, net interest income, and intraday trading) from covered positions with the corresponding daily VaR-based measures generated by the model. As illustrated in the following graph, there were no Company-wide VaR backtesting exceptions during the twelve months ended June 30, 2021. The total number of Company-wide VaR backtesting exceptions over the preceding twelve months is used to determine the multiplication factor for the VaR-based capital requirement under the Market Risk Rule. The capital multiplication factor increases from a minimum of three to a maximum of four, depending on the number of exceptions. All Company-wide VaR backtesting exceptions are thoroughly reviewed in the context of VaR model use and performance. There was no change in the capital multiplication factor over the preceding twelve months.

VaR Backtesting - Twelve Months

Model Risk Management

MRM is responsible for the independent model validation of all decision tools and models including trading market risk models. The validation activities are conducted in accordance with MRM policy, which incorporates regulatory guidance related to the evaluation of model conceptual soundness, ongoing monitoring, and outcomes analysis. As part of ongoing monitoring efforts, the performance of all trading risk models are reviewed regularly to preemptively address emerging developments in financial markets, assess evolving modeling approaches, and to identify potential model enhancement.

Stress Testing

The Company uses a comprehensive range of stress testing techniques to help monitor risks across trading desks and to augment standard daily VaR and other risk limits reporting. The stress testing framework is designed to quantify the impact of extreme, but plausible, stress scenarios that could lead to large unexpected losses. Stress tests include simulations for historical repeats and hypothetical risk factor shocks. All trading positions within each applicable market risk category (interest rate risk, equity risk, foreign exchange rate risk, credit spread risk, and commodity price risk) are included in the Company's comprehensive stress testing framework. Management reviews stress testing scenarios on an ongoing basis and makes updates, as necessary, which is intended to ensure that both current and emerging risks are captured appropriately. Management also utilizes stress analyses to support the Company's capital adequacy assessment standards. See the "Capital" section of MD&A for additional discussion of capital adequacy.

Liquidity

Liquidity represents the continuing ability to meet funding needs, including deposit withdrawals, repayment of borrowings and other liabilities, and funding of loan commitments. In addition to the level of liquid assets, such as cash, cash equivalents, and AFS securities, other factors affect the ability to meet liquidity needs, including access to a variety of funding sources, maintaining borrowing capacity, growing core deposits, loan repayment, and the ability to securitize or package loans for sale.

Truist monitors the ability to meet client demand for funds under both normal and stressed market conditions. In considering its liquidity position, management evaluates Truist's funding mix based on client core funding, client rate-sensitive funding and national markets funding. In addition, management evaluates exposure to rate-sensitive funding sources that mature in one year or less. Management also measures liquidity needs against 30 days of stressed cash outflows for Truist and Truist Bank. To ensure a strong liquidity position and compliance with regulatory requirements, management maintains a liquid asset buffer of cash on hand and highly liquid unencumbered securities. As of June 30, 2021 and December 31, 2020, Truist's liquid asset buffer, as a percent of total assets, was 24.7% and 20.2%, respectively.

The LCR rule directs large U.S. banking organizations to hold unencumbered high-quality liquid assets sufficient to withstand projected 30-day total net cash outflows, as defined under the LCR rule. As of January 1, 2020, Truist is subject to the Category III reduced LCR requirements. Truist's average LCR was 113% for the three months ended June 30, 2021, well above the regulatory minimum of 100%.

The ability to raise funding at competitive prices is affected by the rating agencies' views of the Parent Company's and Truist Bank's credit quality, liquidity, capital, and earnings. Management meets with the rating agencies on a regular basis to discuss current outlooks. During 2021, Fitch Ratings, S&P Global Ratings, DBRS Morningstar, and Moody's Investors Service all affirmed their ratings and provided updates to their rating outlooks for the Company and the Bank as further detailed below.

On May 7, 2021, Fitch Ratings affirmed the ratings of the Parent Company and Truist Bank, and revised the rating outlook to "stable" from "negative." The revision to the rating outlook reflects the rating agency's view that the Company's diverse business model and strategy execution will drive stable earnings performance that supports its credit ratings. The revised rating outlook also reflects increased confidence in a U.S. economic recovery, which reduces the likelihood of the downside scenario that was contemplated when Fitch Ratings revised the ratings outlook to "negative" in April 2020.

On May 24, 2021, S&P Global Ratings affirmed the ratings of the Parent Company and Truist Bank, and revised the rating outlook to "positive" from "stable", citing the stabilization in U.S. economic trends and the easing industry risk in the U.S. banking system. The rating agency also noted that the positive outlook reflects the view that, as a merged entity, Truist's better geographic diversity, increased market position, improved earnings power, and higher technology spending provide a sustainable competitive advantage, and that the financial and credit positives of the merged entity could outweigh the operational risks of integrating two large regional banks.

On June 10, 2021, DBRS Morningstar confirmed the ratings of the Parent Company and Truist Bank and revised the trend for all ratings to "positive" from "stable," citing substantial progress to date with the Merger integration and the rating agency's view that the impact of the economic fallout from the coronavirus pandemic on Truist's asset quality and capital will continue to be manageable.

On July 12, 2021, Moody's Investors Service upgraded Truist Bank's long-term subordinated debt rating to A2 from A3, and downgraded Truist Bank's long-term bank deposit rating to Aa3 from Aa2. The rating actions were driven by revisions to the rating agency's advanced loss given failure analysis within its updated methodology published on July 9, 2021.

See the "Liquidity" section of MD&A in Truist's Annual Report on Form 10-K for the year ended December 31, 2020 for additional information regarding credit ratings.

Parent Company

The Parent Company serves as the primary source of capital for the operating subsidiaries. The Parent Company's assets consist primarily of cash on deposit with Truist Bank, equity investments in subsidiaries, advances to subsidiaries, and notes receivable from subsidiaries. The principal obligations of the Parent Company are payments on long-term debt. The main sources of funds for the Parent Company are dividends and management fees from subsidiaries, repayments of advances to subsidiaries, and proceeds from the issuance of equity and long-term debt. The primary uses of funds by the Parent Company are investments in subsidiaries, advances to subsidiaries, dividend payments to common and preferred shareholders, repurchases of common stock, and payments on long-term debt.

See "Note 22. Parent Company Financial Information" in Truist's Annual Report on Form 10-K for the year ended December 31, 2020 for additional information regarding dividends from subsidiaries and debt transactions.

Access to funding at the Parent Company is more sensitive to market disruptions. Therefore, Truist prudently manages cash levels at the Parent Company to cover a minimum of one year of projected cash outflows which includes unfunded external commitments, debt service, common and preferred dividends and scheduled debt maturities, without the benefit of any new cash inflows. Truist maintains a significant buffer above the projected one year of cash outflows. In determining the buffer, Truist considers cash requirements for common and preferred dividends, unfunded commitments to affiliates, serving as a source of strength to Truist Bank, and being able to withstand sustained market disruptions that could limit access to the capital markets. At June 30, 2021 and December 31, 2020, the Parent Company had 39 months and 43 months, respectively, of cash on hand to satisfy projected cash outflows, and 20 months and 22 months, respectively, when including the payment of common stock dividends.

Truist Bank

Truist carefully manages liquidity risk at Truist Bank. Truist Bank's primary source of funding is client deposits. Continued access to client deposits is highly dependent on public confidence in the stability of Truist Bank and its ability to return funds to clients when requested.

Truist Bank maintains a number of diverse funding sources to meet its liquidity requirements. These sources include unsecured borrowings from the capital markets through the issuance of senior or subordinated bank notes, institutional CDs, overnight and term Federal funds markets, and retail brokered CDs. Truist Bank also maintains access to secured borrowing sources including FHLB advances, repurchase agreements, and the FRB discount window. At June 30, 2021, Truist Bank had \$212.1 billion of available secured borrowing capacity, which represents approximately 9.8 times the amount of wholesale funding maturities in one-year or less. In addition to secured borrowing sources, Truist had excess eligible cash at the Federal Reserve Bank of \$21.3 billion at June 30, 2021.

Contractual Obligations, Commitments, Contingent Liabilities, and Off-Balance Sheet Arrangements

Refer to Truist's Annual Report on Form 10-K for the year ended December 31, 2020 for discussion with respect to Truist's quantitative and qualitative disclosures about its fixed and determinable contractual obligations. Truist's commitments include investments in affordable housing projects throughout its market area, renewable energy credits, private equity funds, derivative contracts to manage various financial risks, as well as other commitments. Refer to "Note 13. Commitments and Contingencies," "Note 14. Fair Value Disclosures," and "Note 15. Derivative Financial Instruments" in this Form 10-Q, and "Note 16. Commitments and Contingencies" of the Annual Report on Form 10-K for further discussion of these commitments.

Capital

The maintenance of appropriate levels of capital is a management priority and is monitored on a regular basis. Truist's principal goals related to the maintenance of capital are to provide adequate capital to support Truist's risk profile consistent with the Board-approved risk appetite, provide financial flexibility to support future growth and client needs, comply with relevant laws, regulations, and supervisory guidance, achieve optimal credit ratings for Truist and its subsidiaries, and provide a competitive return to shareholders. Risk-based capital ratios, which include CET1 capital, Tier 1 capital, and Total capital are calculated based on regulatory guidance related to the measurement of capital and risk-weighted assets.

Truist regularly performs stress testing on its capital levels and is required to periodically submit the Company's capital plans and stress testing results to the banking regulators. Management regularly monitors the capital position of Truist on both a consolidated and bank-level basis. In this regard, management's overriding policy is to maintain capital at levels that are in excess of internal capital targets, which are above the regulatory "well capitalized" minimums. Management evaluates whether capital ratios calculated after the effect of alternative capital actions are likely to remain above minimums specified by the FRB for the annual CCAR process. Breaches of minimum targets prompt a review of the planned capital actions included in Truist's capital plan.

Table 24: Capital Requirements

	Minimum Capital	Well Capitalized		Minimum Capital Plus Stress Capital Buffer (1)
		Truist	Truist Bank	
CET1	4.5 %	NA	6.5 %	7.2 %
Tier 1 capital	6.0	6.0 %	8.0	8.7
Total capital	8.0	10.0	10.0	10.7
Leverage ratio	4.0	NA	5.0	NA
Supplementary leverage ratio	3.0	NA	NA	NA

(1) Reflects a SCB of 2.7% applicable to Truist until September 30, 2021.

Truist completed the 2021 CCAR process and received the preliminary SCB of 2.5% for the period October 1, 2021 to September 30, 2022. In July 2021, the Board of Directors approved an increase in the quarterly dividend of 7% to \$0.48 beginning in the third quarter of 2021. Truist plans to target a CET1 ratio of approximately 9.75% over the near-term, and accordingly, the Company expects to be able to, with appropriate approvals from its Board of Directors, deploy approximately \$4 billion to \$5 billion of capital (either in the form of share repurchases or acquisitions) over the next 5 quarters (3Q21-3Q22). Effective July 1, 2021, the Board of Directors increased the previous repurchase authority of the Company's common stock, of which the Company has \$3.1 billion remaining. The amount of share repurchases is dependent on capital deployment through organic growth, earnings, and acquisitions, giving consideration to 9.75% CET1 target. Additionally, on July 1, 2021, Truist acquired Constellation Affiliated Partners, which resulted in approximately \$900 million of goodwill and identifiable intangible assets, reducing the amount of capital deployment available for share repurchases or acquisitions to approximately \$3 billion to \$4 billion through 3Q22.

Truist's capital ratios are presented in the following table:

Table 25: Capital Ratios - Truist Financial Corporation

(Dollars in millions, except per share data, shares in thousands)

	Jun 30, 2021	Dec 31, 2020
Risk-based:		
CET1 capital to risk-weighted assets	10.2 %	10.0 %
Tier 1 capital to risk-weighted assets	12.0	12.1
Total capital to risk-weighted assets	14.2	14.5
Leverage ratio	9.1	9.6
Supplementary leverage ratio	7.9	8.7
Non-GAAP capital measure (1):		
Tangible common equity per common share	\$ 26.50	\$ 26.78
Calculation of tangible common equity (1):		
Total shareholders' equity	\$ 68,336	\$ 70,912
Less:		
Preferred stock	6,673	8,048
Noncontrolling interests	—	105
Goodwill and intangible assets, net of deferred taxes	26,296	26,629
Tangible common equity	\$ 35,367	\$ 36,130
Risk-weighted assets	\$ 379,044	\$ 379,153
Common shares outstanding at end of period	1,334,770	1,348,961

(1) Tangible common equity and related measures are non-GAAP measures that exclude the impact of intangible assets, net of deferred taxes, and their related amortization. These measures are useful for evaluating the performance of a business consistently, whether acquired or developed internally. Truist's management uses these measures to assess the quality of capital and returns relative to balance sheet risk. These capital measures are not necessarily comparable to similar capital measures that may be presented by other companies.

Capital ratios remained strong compared to the regulatory requirements for well capitalized banks. For the six months ended June 30, 2021, Truist paid \$1.2 billion in common stock dividends or \$0.90 per share, and completed \$1.1 billion in common share repurchases. The dividend and total payout ratios for the six months ended June 30, 2021 were 42% and 80%, respectively. Truist also redeemed \$1.4 billion of preferred stock to optimize the Company's capital position.

Share Repurchase Activity

Table 26: Share Repurchase Activity

(Dollars in millions, except per share data, shares in thousands)	Total Shares Repurchased (1)	Average Price Paid Per Share (2)	Total Shares Repurchased Pursuant to Publicly-Announced Plan (3)	Maximum Remaining Dollar Value of Shares Available for Repurchase Pursuant to Publicly-Announced Plan
April 2021	4,715	\$ 57.74	4,715	\$ 1,222
May 2021	5,569	60.64	5,569	884
June 2021	—	—	—	884
Total	10,284	59.31	10,284	

- (1) Includes shares exchanged or surrendered in connection with the exercise of equity-based awards under equity-based compensation plans.
- (2) Excludes commissions.
- (3) Pursuant to the 2020 Repurchase Plan, announced in December 2020, authorizing up to \$2.0 billion of share repurchases beginning in the first quarter of 2021. In June 2021, the Board of Directors increased, effective July 1, 2021, the previous repurchase authority to effectuate repurchases up to an additional \$2.2 billion in shares of the Company's common stock through September 30, 2022 (up to \$4.2 billion in aggregate amount). With the additional authorization, the Company has \$3.1 billion remaining for share repurchases.

Critical Accounting Policies

The accounting and reporting policies of Truist are in accordance with GAAP and conform to the accounting and reporting guidelines prescribed by bank regulatory authorities. Truist's financial position and results of operations are affected by management's application of accounting policies, including estimates, assumptions, and judgments made to arrive at the carrying value of assets and liabilities, and amounts reported for revenues and expenses. Different assumptions in the application of these policies could result in material changes in the consolidated financial position and/or consolidated results of operations, and related disclosures. The more critical policies include accounting for the ACL, determining fair value of financial instruments, intangible assets, income taxes, and benefit obligations associated with pension and postretirement benefit plans. Understanding Truist's accounting policies is fundamental to understanding the consolidated financial position and consolidated results of operations. The critical accounting policies are discussed in MD&A in Truist's Annual Report on Form 10-K for the year ended December 31, 2020. Significant accounting policies and changes in accounting principles and effects of new accounting pronouncements are discussed in "Note 1. Basis of Presentation" in Form 10-K for the year ended December 31, 2020. Additional disclosures regarding the effects of new accounting pronouncements are included in the "Note 1. Basis of Presentation" in this report. Except for the item noted below, there have been no other changes to the significant accounting policies during 2021.

Intangible Assets

The Company performed a qualitative assessment of current events and circumstances, including macroeconomic and market factors, industry and banking sector events, Truist specific performance indicators, and a comparison of management's forecast and assumptions to those used in its October 1, 2020 quantitative impairment test, concluding that it was not more-likely-than-not that the fair value of one or more of its reporting units is below its respective carrying amount as of June 30, 2021, and therefore no triggering event occurred that required a quantitative goodwill impairment test. If economic conditions deteriorate, or the COVID-19 pandemic's effects prolong or worsen, it may be more-likely-than-not that the fair value of one or more of Truist's reporting units falls below its respective carrying amount, which would require a quantitative goodwill impairment test.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this report, the management of the Company, under the supervision and with the participation of the Company's CEO and CFO, carried out an evaluation of the effectiveness of the Company's disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act. Based on that evaluation, the CEO and CFO concluded that the Company's disclosure controls and procedures were effective.

Changes in Internal Control over Financial Reporting

Management of Truist is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rule 13a-15(f) of the Exchange Act. The Company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with GAAP.

There were no changes in the Company's internal control over financial reporting that occurred during the quarter ended June 30, 2021 that materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Refer to the Litigation and Regulatory Matters section in "Note 13. Commitments and Contingencies," which is incorporated by reference into this item.

ITEM 1A. RISK FACTORS

There have been no material changes to the risk factors disclosed in Truist's Annual Report on Form 10-K for the year ended December 31, 2020. Additional risks and uncertainties not currently known to Truist or that management has deemed to be immaterial also may materially adversely affect Truist's business, financial condition, or operating results.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Refer to the Share Repurchase Activity section in the MD&A, which is incorporated by reference into this item.

ITEM 6. EXHIBITS

Exhibit No.	Description	Location
11	Statement re computation of earnings per share.	Filed herewith as Computation of EPS note to the consolidated financial statements.
31.1	Certification of Chief Executive Officer pursuant to Rule 13a-14(a) or 15d-14(a) of the Exchange Act, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.	Filed herewith.
