"Looking ahead, as we embark upon the next phase of our development, we expect to continue shifting our revenue mix towards higher-quality and more profitable growth, underpinned by sustained investments in our brand's brand equities and R&D. Third Quarter 2021 Financial Results

Net Revenues. Total net revenues for the third quarter of 2021 increased by 6.0% to RMB1.34 billion (US\$208.4 million) from RMB1.27 billion in the prior year period. The increase was primarily attributable to sales from our newly launched and acquired brands.

Gross margin for the third quarter of 2021 increased to 67.9% from 65.7% in the prior year period. The increase was primarily attributable to (i) premiumization of our *Perfect Diary* brand, and (ii) increased sales from skincare brands with higher margins in the sales mix.

As a percentage of total net revenues, fulfillment expenses for the third quarter of 2021 increased to 7.5% from 7.2% in the prior year period. The increase was primarily attributable to an increase in customer service expenses and share-based compensation expenses compared to the third quarter of 2020, partially offset by a slight decrease in fulfillment logistics expenses.
- **Selling and Marketing Expenses.** Selling and marketing expenses for the third quarter of 2021 were RMB911.3million (US\$141.4 million), as compared with RMB854.3 million in the prior year period. As a percentage of total net revenues, selling and marketing expenses for the third quarter of 2021 increased to 67.9% from 67.5% in the prior year period. The increase was primarily attributable to an increase in salaries, store-related expenses and share-based compensation expenses compared to the third quarter of 2020, partially offset by a decrease in advertising expenses and platform commissions.
- **General and Administrative Expenses.** General and administrative expenses for the third quarter of 2021 were RMB233.9 million (US\$36.3 million), as compared with RMB515.9 million in the prior year period. As a percentage of total net revenues, general and administrative expenses for the third quarter of 2021 decreased to 17.4% from 40.7% in the prior year period. Business Outlook

For the fourth quarter of 2021, the Company expects its total net revenues to be between RMB1.57 billion and RMB1.67 billion, representing a year-over-year decline of approximately 15% to 20%, primarily due to the prior year period's high comparison basis and softer-than-expected industry-wide color cosmetics sales. These forecasts reflect the Company's current and preliminary views on the market and operational conditions, which are subject to change.

Share Repurchase Program

The Company's board of directors has approved a share repurchase program whereby the Company is authorized to repurchase up to US\$100 million worth of its ordinary shares (including in the form of American depositary shares) over the next 24 months. The Company's proposed repurchases may be made from time to time through open market transactions at prevailing market prices, in privately negotiated transactions, in block trades and/or through other legally permissible means, depending on the market conditions and in accordance with applicable rules and regulations. The Company's board of directors will review the share repurchase program periodically, and may authorize adjustment of its terms and size. The Company expects to fund the repurchases with its existing cash balance.

Use of Non-GAAP Financial Measures

The Company uses non-GAAP income (loss) from operations, non-GAAP net income (loss), non-GAAP net income (loss) attributable to ordinary shareholders and non-GAAP net income (loss) attributable to ordinary shareholders per diluted ADS, each a non-GAAP financial measure, in reviewing and assessing its operating performance. The presentation of these non-GAAP financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with U.S. GAAP. The Company presents these non-GAAP financial measures because they are used by the management to evaluate operating performance and formulate business plans. Non-GAAP financial measures help identify underlying trends in its business, provide further information about its results of operations, and enhance the overall understanding of its past performance and future prospects. The Company

defines non-GAAP income (loss) from operations as income (loss) from operations excluding share-based compensation expenses and amortization of intangible assets resulting from assets and business acquisitions. The Company defines non-GAAP net income (loss) as net income (loss) excluding (i) share-based compensation expenses, (ii) amortization of intangible assets resulting from assets and business acquisitions and (iii) tax effects on non-GAAP adjustments. The Company defines non-GAAP net income (loss) attributable to ordinary shareholders as net income (loss) attributable to ordinary shareholders excluding (i) share-based compensation expenses, (ii) amortization of intangible assets resulting from assets and business acquisitions, (iii) tax effects on non-GAAP adjustments, (iv) accretion to preferred shares, and (v) deemed dividends to preferred shareholders due to modification of preferred shares. Non-GAAP net income (loss) attributable to ordinary shareholders per diluted ADS is computed using non-GAAP net income (loss) attributable to ordinary shareholders divided by weighted average number of diluted ADS outstanding for computing diluted earnings per ADS.

However, the non-GAAP financial measures have limitations as analytical tools as the non-GAAP financial measures are not presented in accordance with U.S. GAAP and may differ from the non-GAAP information used by other companies, including peer companies, and therefore their comparability may be limited. The Company compensates for these limitations by reconciling the non-GAAP financial measures to the nearest U.S. GAAP performance measure, all of which should be considered when evaluating performance. The Company encourages investors and others to review its financial information in its entirety and not rely on a single financial measure. Reconciliations of Yatsen's non-GAAP financial measure to the most comparable U.S. GAAP measure are included at the end of this press release.
