Forward Looking Statements

Certain statements in this presentation, including statements regarding the Company's fourth quarter and full year 2025 financial performance and guidance, the Company's differentiation and positioning to continue delivering sustainable, long-term shareholder value and any other statements regarding events or developments that we believe or anticipate will or may occur in the future are "forward-looking" statements within the meaning of the federal securities laws. All statements other than historical factual information are forward-looking statements, including, without limitation, statements regarding: projections of revenue, expenses, profit, profit margins, asset values, pricing, tax rates, tax provisions, cash flows, pension and benefit obligations and funding requirements, Veralto's liquidity position or other projected financial measures; Veralto's management's plans and strategies for future operations, including statements relating to anticipated operating performance, customer demand, cost reductions, restructuring activities, new product and service developments, competitive strengths or market position, acquisitions and the integration thereof, divestitures, spin-offs, split-offs, initial public offerings, other securities offerings or other distributions, strategic opportunities, stock repurchases, dividends and executive compensation; growth, declines and other trends in markets Veralto sells into, including the impact of changes to global trade policies, restrictions on imports, related countermeasures and reciprocal tariffs; future new or modified laws, regulations, accounting pronouncements or public policy changes; regulatory approvals and the timing and conditionality thereof; outstanding claims, legal proceedings, tax audits and assessments and other contingent liabilities; future foreign currency exchange rates and fluctuations in those rates; results of operations and/or financial condition; general economic and capital markets conditions; the anticipated timing of any of the foregoing; assumptions underlying any of the foregoing; and any other statements that address events or developments that Veralto intends or believes will or may occur in the future.

Additional information regarding the factors that may cause actual results to differ materially from these forward-looking statements is available in our SEC filings. These forward-looking statements speak only as of the date of this presentation and except to the extent required by applicable law, the Company does not assume any obligation to update or revise any forward-looking statement, whether as a result of new information, future events and developments or otherwise.

Opening Remarks

Jennifer L. Honeycutt

President and Chief Executive Officer

Q3 2025 Results | October 28, 2025

Veralto / Q3 2025 key consolidated financial results

*See appendix for reconciliations to non-GAAP measures

Q3 2025 Performance Reflects Durable Sales and Earnings Per Share Growth

Veralto / Geographic core sales growth⁽¹⁾ for Q3 and YTD 2025

Q3 2025

NORTH AMERICA (49% of Q3 sales)

WESTERN EUROPE (22% of Q3 sales)

HIGH GROWTH MARKETS (27% of Q3 sales)

YTD 2025

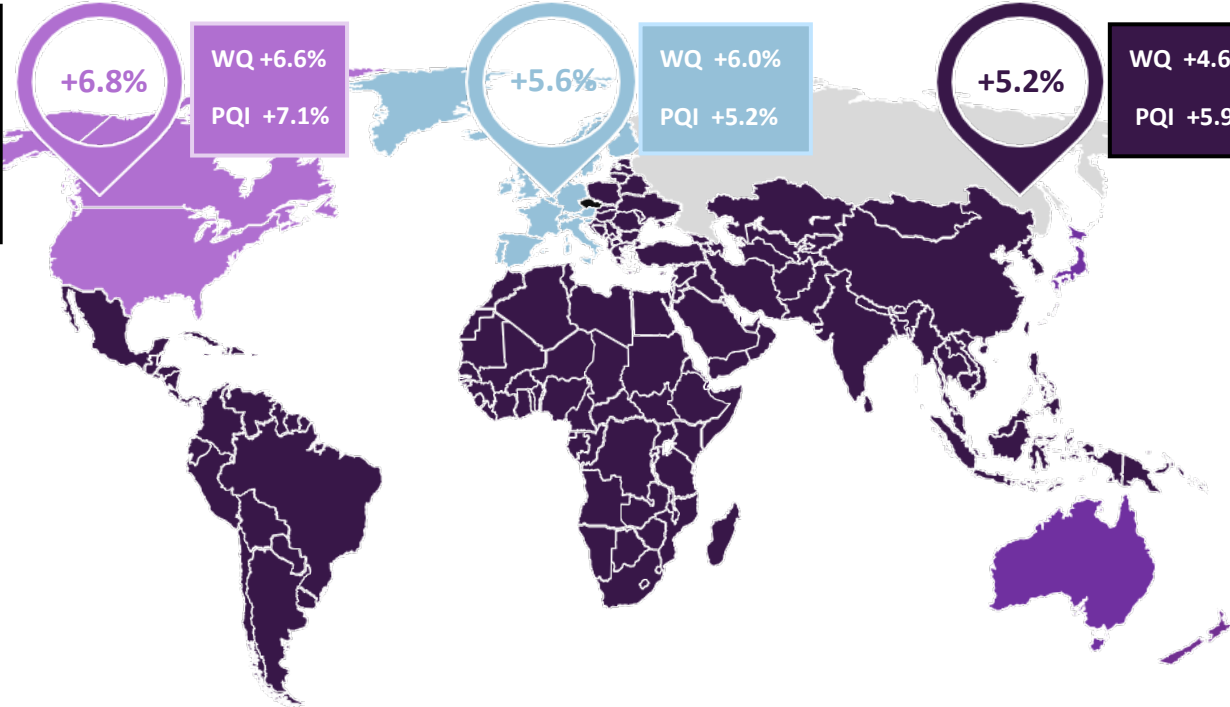

NORTH AMERICA (49% of YTD sales)

WESTERN EUROPE (22% of YTD sales)

HIGH GROWTH MARKETS (27% of YTD sales)

⁽¹⁾ Geographic core sales growth excludes impact from acquisitions, divestitures and management estimates for currency translation. It is not adjusted for intercompany sales, returns or allowances.

Notes: Japan, Australia and New Zealand represent 2% of total sales

Q3 2025 Commentary

North America:

- **WQ:** MSD growth in water treatment led by chemical treatment across industrial applications; MSD growth in water analytics
- **PQI:** HSD growth in marking and coding and packaging and color

Western Europe:

- **WQ:** LSD growth driven by water analytics
- **PQI:** MSD growth in marking and coding, LSD growth in packaging and color

High Growth Markets:

- Strong growth in Middle East, LATAM and India
- Sales in China grew LSD at both WQ and PQI

Notes: WQ = Water Quality; PQI = Product Quality & Innovation

VERALTO CORPORATION

Forecasted Core Sales Growth, Adjusted Operating Profit Margin, Adjusted Diluted Net Earnings per Share and Free Cash Flow to Net Earnings Conversion Ratio

The Company provides forecasted sales only on a non-GAAP basis because of the difficulty in estimating the other components of GAAP revenue, such as currency translation, acquisitions and divested product lines. Additionally, we do not reconcile adjusted operating profit margin (or components thereof), adjusted diluted earnings per share or free cash flow to net earnings conversion ratio to the comparable GAAP measures because of the difficulty in estimating the other unknown components such as investment gains and losses, impairments and separation costs, which would be reflected in any forecasted GAAP operating profit, forecasted diluted earnings per share or forecasted net earnings ratio.

	% Change Three-Month Period Ending December 31, 2025 vs. Comparable 2024 Period
Core sales growth (non-GAAP)	+Low-single-digits

Other Non-GAAP Adjusted P&L Measures

(\$ in millions, except per share data)

A Amortization of acquisition-related intangible assets in the following historical periods (only the pretax amounts set forth below are reflected in the amortization line item above):

	Three-Month Period Ended		Nine-Month Period Ended	
	October 3, 2025	September 27, 2024	October 3, 2025	September 27, 2024
Pretax	\$ 9	\$ 7	\$ 27	\$ 28
After-tax	7	5	21	21

B Costs incurred in the three-month period ended October 3, 2025 (\$1 million pretax and after-tax as reported in this line item) and costs incurred in the nine-month period ended October 3, 2025 (\$6 million pretax as reported in this line item and \$5 million after-tax) related to certain strategic initiatives. Costs incurred in the three and nine-month period ended September 27, 2024 (\$2 million pretax and after-tax as reported in this line item) related to certain strategic initiatives.

C Loss on the disposition of certain product lines in the nine-month period ended October 3, 2025 (\$6 million pretax and after-tax as reported in this line item). Gain on the disposition of certain product lines in the three-month period ended September 27, 2024 (\$5 million pretax and after-tax as reported in this line item) and net loss on the disposition of certain product lines in the nine-month period ended September 27, 2024 (\$10 million pretax and after-tax as reported in this line item).

D Costs incurred in the nine-month period ended September 27, 2024 related to the separation of the Company from Danaher primarily related to IT costs and certain regulatory fees (\$1 million pretax as reported in this line item).

E This line item reflects the aggregate tax effect of all nontax adjustments reflected in the preceding line items of the table. In addition, the footnotes above indicate the after-tax amount of each individual adjustment item. Veralto estimates the tax effect of each adjustment item by applying Veralto's overall estimated effective tax rate to the pretax amount, unless the nature of the item and/or the tax jurisdiction in which the item has been recorded requires application of a specific tax rate or tax treatment, in which case the tax effect of such item is estimated by applying such specific tax rate or tax treatment.

F Discrete tax matters relate to changes in estimates associated with prior period uncertain tax positions, audit settlements and excess tax benefits from stock-based compensation.

Cash Flow, Free Cash Flow, Operating Cash Flow to Net Earnings Ratio and Free Cash Flow to Net Earnings Conversion Ratio

(\$ in millions)

	Three-Month Period Ended		Year-over-Year Change	Nine-Month Period Ended		Year-over-Year Change
	October 3, 2025	September 27, 2024		October 3, 2025	September 27, 2024	
Total Cash Flows:						
Net cash provided by operating activities (GAAP)	\$ 270	\$ 224		\$ 766	\$ 590	
Total cash used in investing activities (GAAP)	\$ (12)	\$ (6)		\$ (63)	\$ (40)	
Total cash used in financing activities (GAAP)	\$ (36)	\$ (16)		\$ (77)	\$ (49)	
Free Cash Flow:						
Total cash provided by operating activities (GAAP)	\$ 270	\$ 224	~ 20.5 %	\$ 766	\$ 590	~ 30.0 %
Less: payments for additions to property, plant & equipment (capital expenditures) (GAAP)	(12)	(9)		(43)	(33)	
Free cash flow (non-GAAP)	<u>\$ 258</u>	<u>\$ 215</u>	~ 20.0 %	<u>\$ 723</u>	<u>\$ 557</u>	~ 30.0 %
Operating Cash Flow to Net Earnings Ratio (GAAP)						
Net cash provided by operating activities (GAAP)	\$ 270	\$ 224		\$ 766	\$ 590	
Net earnings (GAAP)	<u>\$ 239</u>	<u>\$ 219</u>		<u>\$ 686</u>	<u>\$ 606</u>	
Operating cash flow to net earnings conversion ratio	<u>1.13</u>	<u>1.02</u>		<u>1.12</u>	<u>0.97</u>	
Free Cash Flow to Net Earnings Conversion Ratio (non-GAAP):						
Free cash flow from above (non-GAAP)	\$ 258	\$ 215		\$ 723	\$ 557	
Net earnings (GAAP)	<u>\$ 239</u>	<u>\$ 219</u>		<u>\$ 686</u>	<u>\$ 606</u>	
Free cash flow to net earnings conversion ratio (non-GAAP)	<u>1.08</u>	<u>0.98</u>		<u>1.05</u>	<u>0.92</u>	

We define free cash flow as operating cash flows, less payments for additions to property, plant and equipment ("capital expenditures") plus the proceeds from sales of plant, property and equipment ("capital disposals").

Statement Regarding Non-GAAP Measures

Each of the non-GAAP measures set forth above should be considered in addition to, and not as a replacement for or superior to, the comparable GAAP measure, and may not be comparable to similarly titled measures reported by other companies. Management believes that these measures provide useful information to investors by offering additional ways of viewing Veralto Corporation's ("Veralto" or the "Company") results that, when reconciled to the corresponding GAAP measure, help our investors:

- with respect to the profitability-related non-GAAP measures, understand the long-term profitability trends of our business and compare our profitability to prior and future periods and to our peers;
- with respect to core sales and related sales measures, identify underlying growth trends in our business and compare our sales performance with prior and future periods and to our peers; and
- with respect to free cash flow and related cash flow measures (the "FCF Measure"), understand Veralto's ability to generate cash without external financings, strengthen its balance sheet, invest in its business and grow its business through acquisitions and other strategic opportunities (although a limitation of free cash flow is that it does not take into account the Company's non-discretionary expenditures, and as a result the entire free cash flow amount is not necessarily available for discretionary expenditures).

Management uses these non-GAAP measures to measure the Company's operating and financial performance.

- The items excluded from the non-GAAP measures set forth above have been excluded for the following reasons:
 - **Amortization of Intangible Assets:** We exclude the amortization of acquisition-related intangible assets because the amount and timing of such charges are significantly impacted by the timing, size, number and nature of the acquisitions we consummate. While we have a history of significant acquisition activity, we do not acquire businesses on a predictable cycle, and the amount of an acquisition's purchase price allocated to intangible assets and related amortization term are unique to each acquisition and can vary significantly from acquisition to acquisition. Exclusion of this amortization expense facilitates more consistent comparisons of operating results over time between our newly acquired and long-held businesses, and with both acquisitive and non-acquisitive peer companies. We believe however that it is important for investors to understand that such intangible assets contribute to sales generation and that intangible asset amortization related to past acquisitions will recur in future periods until such intangible assets have been fully amortized.
 - **Restructuring Charges:** We exclude costs incurred pursuant to discrete restructuring plans that are fundamentally different (in terms of the size, strategic nature and planning requirements, as well as the inconsistent frequency, of such plans) from the ongoing productivity improvements that result from application of the Veralto Enterprise System. Because these restructuring plans are incremental to the core activities that arise in the ordinary course of our business and we believe are not indicative of Veralto's ongoing operating costs in a given period, we exclude these costs to facilitate a more consistent comparison of operating results over time.
 - **Other Adjustments:** With respect to the other items excluded from the profitability-related non-GAAP measures, we exclude these items because they are of a nature and/or size that occur with inconsistent frequency, occur for reasons that may be unrelated to Veralto's commercial performance during the period and/or we believe that such items may obscure underlying business trends and make comparisons of long-term performance difficult.
 - With respect to core operating profit margin changes, in addition to the explanation set forth in the bullets above relating to "restructuring charges" and "other adjustments", we exclude the impact of businesses owned for less than one year (or disposed of during such period

Statement Regarding Non-GAAP Measures

and not treated as discontinued operations) because the timing, size, number and nature of such transactions can vary significantly from period to period and may obscure underlying business trends and make comparisons of long-term performance difficult.

- We calculate adjusted EBITDA by adding to operating profit amounts equal to depreciation and amortization and making the other adjustments reflected in the applicable tables above, which allows us to calculate and disclose such measure by segment. Given Veralto's diversification, we believe this helps our investors compare the profitability of our individual segments to peer companies with like business lines.
- With respect to core sales related measures, (1) we exclude the impact of currency translation because it is not under management's control, is subject to volatility and can obscure underlying business trends, and (2) we exclude the effect of acquisitions and divested product lines because the timing, size, number and nature of such transactions can vary significantly from period-to-period and between us and our peers, which we believe may obscure underlying business trends and make comparisons of long-term performance difficult.
- With respect to the FCF Measure, we exclude payments for additions to property, plant and equipment (net of the proceeds from capital disposals) to demonstrate the amount of operating cash flow for the period that remains after accounting for the Company's capital expenditure requirements.
- We calculate gross leverage and net leverage as the ratio of debt and net debt (defined as total debt less cash and cash equivalents) to trailing twelve month adjusted EBITDA. Trailing Twelve Month EBITDA is an ongoing liquidity measure and is calculated as the sum of adjusted EBITDA for the previous four quarters. We believe these liquidity measures help our investors to assess our liquidity relative to peer companies.
