

To Shareholders of the Vertical Capital Income Fund:

**Notification of Sources of Distribution.**

**Notice to broker-dealers, financial intermediaries and other holders of record:** This notice should be provided to the underlying shareholders.

**Distribution Policy.** The Fund's distribution policy is to make monthly distributions to shareholders pursuant to the Fund's managed distribution plan (the "Plan"). Pursuant to the Plan, the Fund pays a minimum monthly distribution to shareholders at a stated annual rate as a percentage of the 3-month average net asset value ("NAV") of the Fund's shares prior to the month of distribution. The distribution is calculated as 8% of the previous three-month average NAV, divided by 12. The primary purpose of the Plan is to provide investors with consistent, but not guaranteed, periodic distributions from the Fund, regardless of when or whether income is earned or capital gains are realized. The Plan will be subject to periodic review by the Fund's Board of Trustees, and the Board of Trustees may amend the terms of the Plan including amending the annual rate of payment or may terminate the Plan at any time without prior notice to the Fund's shareholders.

(1) You should not draw any conclusions about the Fund's investment performance from the amount of this distribution or from the terms of the Fund's Distribution Policy.

(2) The amounts and sources of distributions reported in this 19(a) Notice are only estimates and are not being provided for tax reporting purposes. The actual amounts and sources of the amounts for tax reporting purposes will depend upon the Fund's investment experience during the remainder of its fiscal year and may be subject to changes based on tax regulations. The Fund will send you a Form 1099-DIV for the calendar year that will tell you how to report these distributions for federal income tax purposes.

(3) The Fund estimates that it has distributed more than its income and net realized capital gains; therefore, a portion of your distribution may be a return of capital. A return of capital may occur, for example, when some or all of the money that you invested in the Fund is paid back to you. A return of capital distribution does not necessarily reflect the Fund's investment performance and should not be confused with "yield" or "income."
