## CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, (the “Securities Act”) and Section 21E of the Securities Exchange Act of 1934, as amended, (the “Exchange Act”). These forward-looking statements are generally located in the material set forth under the heading “Management’s Discussion and Analysis of Financial Condition and Results of Operations” but may be found in other locations as well. These forward-looking statements are subject to risks and uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from the results, performance or achievements expressed or implied by the forward-looking statements. You should not unduly rely on these statements.

We identify forward-looking statements by use of terms such as “may,” “will,” “expect,” “anticipate,” “estimate,” “hope,” “plan,” “believe,” “predict,” “envision,” “intend,” “will,” “continue,” “potential,” “should,” “confident,” “could” and similar words and expressions, although some forward-looking statements may be expressed differently. You should be aware that our actual results could differ materially from those contained in the forward-looking statements.

Forward-looking statements are based on information available at the time the statements are made and involve known and unknown risks, uncertainties and other factors that may cause our results, levels of activity, performance or achievements to be materially different from the information expressed or implied by the forward-looking statements in this report. These factors include, among others:

- our ability to execute on our growth strategies;
- our ability to find manufacturing partners on favorable terms;
- declines in general economic conditions in the markets where we may compete;
- our anticipated needs for working capital; and

Where we express an expectation or belief as to future events or results, such expectation or belief is expressed in good faith and believed to have a reasonable basis.

Forward-looking statements speak only as of the date of this report or the date of any document incorporated by reference in this report. Except to the extent required by applicable law or regulation, we do not undertake any obligation to update forward-looking statements to reflect events or circumstances after the date of this report or to reflect the occurrence of unanticipated events.

**NOTE 1 – NATURE OF BUSINESS**

**Organization**

WeTrade Group, Inc. was incorporated in the State of Wyoming on March 28, 2019 and is in the business of providing technical services and solutions via its membership-based social e-commerce platform. We are committed to providing an international cloud-based intelligence system and independently developed a micro-business cloud intelligence system called the “YCloud.” Our goal is to provide technical and auto-billing management services to micro-business online stores in China through big data analytics, machine learning mechanisms, social network recommendations, and multi-channel data analysis.

We provide technology services to both individual and corporate users. Through Yueshang Beijing, we provide “YCloud” service to our customer, Zhuozhou Weijiafu Information Technology Limited, or Weijiafu, a PRC technology company, which provide “YCloud” services to individual and corporate micro-business owners. The market individual micro-business owners represents a potential of 330 million users by the year of 2023. YCloud serves corporate users in multiple industries, including Yuetao Group, Zhiding, Lvyue, Yuebei, Yuedian, Coke GO, and Zhongyanshangyue. We conduct business operations in mainland China and have established trial operations in Hong Kong, the Philippines, and Singapore. We expect to utilize the YCloud system to establish a global strategic cooperation with various social media platforms. Plan to negotiate with Kakao Talk, Line, Whatsapp, Ohho, and Bluechat. Additionally, we have formed long-term technical collaborations with Yuetao App, Daren App, Yuebei App, Zhiding App, Yuedian App, and Lvyue App through Weijiafu.

In January 2020, we appointed a third party software company to develop an auto-billing management system (“WeTrade System”), the early stage of the YCloud system, at the cost of RMB 400,000 (or approximately USD \$62,000) to provide online payment services for micro-business owners in the PRC. The main functions of the YCloud system is to manage users’ marketing relationships, CPS commission profit management, multi-channel data statistics, AI fission and management, and improved supply chain systems.

Currently, YCloud serves the micro business industry. We expect to expand the application of YCloud to tourism, hospitality, livestreaming and short video, medical beauty and traditional retail industries.

**Our Business**

We believe that YCloud the first global micro-business cloud intelligent internationalization system. It conducts multi-channel data analysis through the learning of big data and social recommendation relationships. It also provides users with independent research and development of community AI fission and management systems and supply chain systems. It focuses on solving the problem of new maintenance, supply chain CPS integration output, and enrich the functional needs of users. YCloud has four main functions and competitive advantages as follows

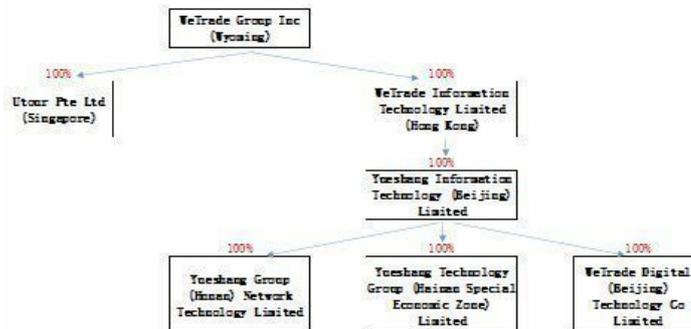

Multiple integrated payment methods and payment analytics: the YCloud system provides micro-business owners with multiple payment methods such as Alipay, WeChat, and UnionPay. The total order amount is directly entered into the platform to collect funds in separate accounts. Using YCloud’s technology support, the micro-business owners offer multiple channels of payments to their customers, including Alipay, WeChat, and UnionPay. Meanwhile, YCloud assigns a bar code to merchandises that purchasers can then scan to pay, allowing purchasers to make payments both online and offline. This proprietary payment technology allows our customers to reduce labor costs and error rates, thus significantly improving data analysis.

**Team management:** the YCloud system utilizes user marketing relationship tracking and CPS commission revenue management tools.

**AI fission and management:** using intelligent robots to analyze user behavior, data sharing, purchase history, and other data, the YCloud system provides tailored recommendations and displays. For example, the YCloud system connects users' behavior across multiple apps and platforms and makes automatic recommendations based on the analysis.

**Supply chain system integration:** the YCloud system applies cross-platform resource integration technology. The integration allows the multi-channel output of high-quality products creates a seamless connection between suppliers and customers. The YCloud provides a complete supply chain system integrating supply, sales, finance, and service.

## NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### Basis of preparation of financial statements

The consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America (“GAAP”). The consolidated financial statements include the financial statements of the Company and its subsidiaries. All significant inter-company transactions and balances have been eliminated in consolidation.

The condensed consolidated financial statements of the Company as of and for the six months ended June 30, 2021 and 2020 are unaudited. In the opinion of management, all adjustments (including normal recurring adjustments) that have been made are necessary to fairly present the financial position of the Company as of June 30, 2021, the results of its operations for the period ended June 30, 2021 and 2020, and its cash flows for the period ended June 30, 2021 and 2020. Operating results for the quarterly periods presented are not necessarily indicative of the results to be expected for a full fiscal year. Certain prior period amounts in the consolidated financial statements and accompanying notes have been reclassified to conform to the current period’s presentation. The balance sheet as of December 31, 2020 has been derived from the Company’s audited financial statements included in the Form 10-K for the year ended December 31, 2020.

[Table of Contents](#)

The statements and related notes have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (the “SEC”). Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been omitted pursuant to such rules and regulations. These financial statements should be read in conjunction with the financial statements and other information included in the Company’s Annual Report on Form 10-K as filed with the SEC for the fiscal year ended December 31, 2020.

#### COVID-19 outbreak

In March 2020 the World Health Organization declared coronavirus COVID-19 a global pandemic. The COVID-19 pandemic has negatively impacted the global economy, workforces, customers, and created significant volatility and disruption of financial markets. It has also disrupted the normal operations of many businesses, including ours. This outbreak could decrease spending, adversely affect demand for our services and harm our business and results of operations. It is not possible for us to predict the duration or magnitude of the adverse results of the outbreak and its effects on our business or results of operations at this time.

#### Revenue recognition

The Company follows the guidance of Accounting Standards Codification (ASC) 606, *Revenue from Contracts*. ASC 606 creates a five-step model that requires entities to exercise judgment when considering the terms of contracts, which includes (1) identifying the contracts or agreements with a customer, (2) identifying our performance obligations in the contract or agreement, (3) determining the transaction price, (4) allocating the transaction price to the separate performance obligations, and (5) recognizing revenue as each performance obligation is satisfied. The Company only applies the five-step model to contracts when it is probable that the Company will collect the consideration it is entitled to in exchange for the services it transfers to its clients.

#### Cash and Cash Equivalents

The Company considers all highly liquid debt instruments purchased with a maturity period of three months or less to be cash or cash equivalents. The carrying amounts reported in the accompanying unaudited condensed consolidated balance sheets for cash and cash equivalents approximate their fair value. All of the Company's cash that is held in bank accounts in Singapore and PRC is not protected by Federal Deposit Insurance Corporation ("FDIC") insurance or any other similar insurance in the PRC, or Singapore.

#### Foreign Currency

The Company's principal country of operations is the PRC. The accompanying consolidated financial statements are presented in US\$. The functional currency of the Company is US\$, and the functional currency of the Company's subsidiaries is RMB. The consolidated financial statements are translated into US\$ from RMB at year-end exchange rates as to assets and liabilities and average exchange rates as to revenues and expenses. Capital accounts are translated at their historical exchange rates when the capital transactions occurred. The resulting translation adjustments are recorded as a component of shareholders' equity included in other comprehensive income. Gains and losses from foreign currency transactions are included in profit or loss. There were no gains and losses from foreign currency transactions from the inception to June 30, 2021.

	June 30, 2021	December 31, 2020
RMB: US\$ exchange rate	6.46	6.53

The balance sheet amounts, with the exception of equity, June 30, 2021 and December 31, 2020 were translated at 6.45 RMB and 6.53 RMB to \$1.00, respectively. The equity accounts were stated at their historical rates. The average translation rates applied to statements of operations and comprehensive income (loss) accounts for the period ended June 30, 2021 and year ended December 31, 2020 were 6.46 RMB and 6.84 RMB to \$1.00, respectively. Cash flows were also translated at average translation rates for the year and, therefore, amounts reported on the statement of cash flows would not necessarily agree with changes in the corresponding balances on the consolidated balance sheet. The transactions dominated in SGD are immaterial.

#### **Use of Estimate**

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of expenses during the reporting periods. Actual results could differ from those estimates.

#### **Concentration of Risk**

Financial instruments that potentially subject the Company to concentrations of credit risk consist principally of cash. Cash on hand amounted to \$3,210,464 as of June 30, 2021.

#### **Accounts receivable**

Accounts receivable are presented net of allowance for doubtful accounts. The Group uses specific identification in providing for bad debts when facts and circumstances indicate that collection is doubtful and based on factors listed in the following paragraph. If the financial conditions of its customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowance may be required.

The Company maintains an allowance for doubtful accounts which reflects its best estimate of amounts that potentially will not be collected. The Company determines the allowance for doubtful accounts on general basis taking into consideration various factors including but not limited to historical collection experience and credit-worthiness of the customers as well as the age of the individual receivables balance. Additionally, the Company makes specific bad debt provisions based on any specific knowledge the Company has acquired that might indicate that an account is uncollectible. The facts and circumstances of each account may require the Company to use substantial judgment in assessing its collectability.

#### **Intangible Asset**

Intangible asset is software development cost incurred by company, it will be amortized on a straight line basis over the estimated useful life of 5 years.

#### **Property and Equipment, net**

Property and equipment are stated at cost less accumulated depreciation and any recorded impairment. The estimated useful lives of computer and office equipment is 3 years.

Depreciation on property and equipment is calculated on the straight-line method over the estimated useful lives of the assets.

#### **Leases**

The Company adopted Accounting Standards Update No. 2016-02, Leases (Topic 842) (ASU 2016-02), as amended, which supersedes the lease accounting guidance under Topic 840, and generally requires lessees to recognize operating and financing lease liabilities and corresponding right-of-use (ROU) assets on the balance sheet and to provide enhanced disclosures surrounding the amount, timing and uncertainty of cash flows arising from leasing arrangements.

Operating leases are included in operating lease right-of-use ("ROU") assets and short-term and long-term lease liabilities in our consolidated balance sheets. Finance leases are included in property and equipment, other current liabilities, and other long-term liabilities in our consolidated balance sheets.

ROU assets represent the Company's right to use an underlying asset for the lease term and lease liabilities represent the Company's obligation to make lease payments arising from the lease. Operating lease ROU assets and liabilities are recognized at commencement date based on the present value of lease payments over the lease term. As most of the leases do not provide an implicit rate, we use the industry incremental borrowing rate based on the information available at commencement date in determining the present value of lease payments. We use the implicit rate when readily determinable. The operating lease ROU asset also includes any lease payments made and excludes lease incentives. The lease terms may include options to extend or terminate the lease when it is reasonably certain that we will exercise that option. Lease expense for lease payments is recognized on a straight-line basis over the lease term.

[Table of Contents](#)

Under ASC 840, leases were classified as either capital or operating, and the classification significantly impacted the effect the contract had on the company's financial statements. Capital lease classification resulted in a liability that was recorded on a company's balance sheet, whereas operating leases did not impact the balance sheet. After the new adoption, \$2,574,212 of operating lease right-of-use asset and \$2,799,898 of operating lease liabilities were reflected on the Company's June 30, 2021 financial statements.

ASU 2016-02 requires that public companies use a secured incremental borrowing rate for the present value of lease payments when the rate implicit in the contract is not readily determinable. We determine a secured rate on a quarterly basis and update the weighted average discount rate accordingly. Lease terms and discount rate follow:

<b>Lease cost</b>	<b>In USD</b>
Operating lease cost (included in general and admin in company's statement of operations)	\$ 230,770

### Income Tax

Income taxes are determined in accordance with the provisions of ASC Topic 740, "Income Taxes" ("ASC Topic 740"). Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted income tax rates expected to apply to taxable income in the periods in which those temporary differences are expected to be recovered or settled. Any effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

ASC 740 prescribes a comprehensive model for how companies should recognize, measure, present, and disclose in their financial statements uncertain tax positions taken or expected to be taken on a tax return. Under ASC 740, tax positions must initially be recognized in the financial statements when it is more likely than not the position will be sustained upon examination by the tax authorities. Such tax positions must initially and subsequently be measured as the largest amount of tax benefit that has a greater than 50% likelihood of being realized upon ultimate settlement with the tax authority assuming full knowledge of the position and relevant facts.

The Company has a subsidiary in Singapore and PRC. The Company is subject to tax in Singapore and PRC jurisdictions. As a result of its future business activities, the Company will be required to file tax returns that are subject to examination by the Inland Revenue Authority of Singapore and Tax Department of PRC.

### Profit Per Share

Basic net income per share of common stock attributable to common stockholders is calculated by dividing net income attributable to common stockholders by the weighted-average shares of common stock outstanding for the period. Potentially dilutive shares, which are based on the weighted-average shares of common stock underlying outstanding stock-based awards, warrants, options, or convertible debt using the treasury stock method or the if-converted method, as applicable, are included when calculating diluted net income (loss) per share of common stock attributable to common stockholders when their effect is dilutive.

Potential dilutive securities are excluded from the calculation of diluted EPS in profit periods as their effect would be anti-dilutive.

As of June 30, 2021, there were no potentially dilutive shares.

### Fair Value

The Company follows guidance for accounting for fair value measurements of financial assets and financial liabilities and for fair value measurements of nonfinancial items that are recognized or disclosed at fair value in the financial statements on a recurring basis. Additionally, the Company adopted guidance for fair value measurement related to nonfinancial items that are recognized and disclosed at fair value in the financial statements on a nonrecurring basis. The guidance establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

[Table of Contents](#)

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date.

Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 inputs are unobservable inputs for the asset or liability. The carrying amounts of financial assets such as cash approximate their fair values because of the short maturity of these instruments.

**NOTE 3 – RECENT ACCOUNTING PRONOUNCEMENTS**

Recent accounting pronouncements issued by the FASB (including its Emerging Issues Task Force) and the United States Securities and Exchange Commission did not or are not believed by management to have a material impact on the Company's present or future financial statements.

**NOTE 4 – REVENUE**

In the business of providing technical services and solutions via a social e-commerce platform, we are committed to providing an international cloud-based intelligence system and independently developed the "YCloud" system. We aim to provide technical and auto-billing management services to micro-business online stores in China through big data analytics, machine learning mechanisms, social network recommendations, and multi-channel data analysis.

We derive our revenue from service fees charged for transactions conducted through YCloud. We receive 3.5% of the total Gross Merchandise Volume generated in the platform as a service fee through our agreement with our customers (such as Weijiafu and Hainan Changtongfu), depending on the type of service and industry. Gross Merchandise Volume, or GMV, is a term used in online retailing to indicate a total sales monetary-value for merchandise sold through a particular marketplace over a certain time frame. We generally settle the service fee with customers within the first ten days of each calendar month.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of financial condition and results of operations should be read in conjunction with our financial statements and related notes included elsewhere in this report. This discussion contains forward-looking statements that involve risks, uncertainties and assumptions. See "Cautionary Note Regarding Forward-Looking Statements." Our actual results could differ materially from those anticipated in the forward-looking statements as a result of certain factors discussed elsewhere in this report.

### Overview

WeTrade Group, Inc. was incorporated in the State of Wyoming on March 28, 2019 and is in the business of providing technical services and solutions via its membership-based social e-commerce platform. We are committed to providing an international cloud-based intelligence system and independently developed a micro-business cloud intelligence system called the "YCloud." Our goal is to provide technical and auto-billing management services to micro-business online stores in China through big data analytics, machine learning mechanisms, social network recommendations, and multi-channel data analysis.

We provide technology services to both individual and corporate users. Through Yueshang Beijing, we provide "YCloud" service to our customer, Zhuozhou Weijiafu Information Technology Limited, or Weijiafu, a PRC technology company, which provide "YCloud" services to individual and corporate micro-business owners. The market individual micro-business owners represents a potential of 330 million users by the year of 2023. YCloud serves corporate users in multiple industries, including Yuetao Group, Zhiding, Lvyue, Yuebei, Yuedian, Coke GO, and Zhongyanshangyue. We conduct business operations in mainland China and have established trial operations in Hong Kong, the Philippines, and Singapore. We expect to utilize the YCloud system to establish a global strategic cooperation with various social media platforms. Plan to negotiate with Kakao Talk, Line, Whatsapp, Ohho, and Bluechat. Additionally, we have formed long-term technical collaborations with Yuetao App, Daren App, Yuebei App, Zhiding App, Yuedian App, and Lvyue App through Weijiafu.

In January 2020, we appointed a third-party software company to develop an auto-billing management system ("WeTrade System"), the early stage of the YCloud system, at the cost of RMB 400,000 (or approximately USD \$62,000) to provide online payment services for micro-business owners in the PRC. The main functions of the YCloud system is to manage users' marketing relationships, CPS commission profit management, multi-channel data statistics, AI fission and management, and improved supply chain systems.

Currently, YCloud serves the micro business industry. We expect to expand the application of YCloud to tourism, hospitality, livestreaming and short video, medical beauty and traditional retail industries.

### **Inflation**

Inflation does not materially affect our business or the results of our operations.

### **Off-Balance Sheet Arrangements**

We do not have any off-balance sheet arrangements.

### **Critical Accounting Policies**

We prepare our financial statements in accordance with generally accepted accounting principles of the United States (“GAAP”). GAAP represents a comprehensive set of accounting and disclosure rules and requirements. The preparation of our financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Our actual results could differ from those estimates. We use historical data to assist in the forecast of our future results. Deviations from our projections are addressed when our financials are reviewed on a monthly basis. This allows us to be proactive in our approach to managing our business. It also allows us to rely on proven data rather than having to make assumptions regarding our estimates.

### **Recent Accounting Pronouncements**

We have reviewed all the recently issued, but not yet effective, accounting pronouncements and we do not believe any of these pronouncements will have a material impact on the Company financial statements.

### ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are a “smaller reporting company” as defined by Item 10(f)(1) of Regulation S-K, and as such are not required to provide the information contained in this item pursuant to Item 305 of Regulation S-K.

### ITEM 4. CONTROLS AND PROCEDURES

#### *Disclosure Controls and Procedures.*

The management of the Company is responsible for establishing and maintaining adequate internal control over financial reporting. The Company’s internal control over financial reporting is a process designed under the supervision of the Company’s Chief Executive Officer and Chief Financial Officer to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the Company’s financial statements for external purposes in accordance with U.S. generally accepted accounting principles.

With respect to the period ending June 30, 2021, under the supervision and with the participation of our management, we conducted an evaluation of the effectiveness of the design and operations of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) promulgated under the Securities Exchange Act of 1934.

Based upon our evaluation regarding the period ending June 30, 2021, the Company’s management, including its Principal Executive Officer, has concluded that its disclosure controls and procedures were not effective due to the Company’s limited internal resources and lack of ability to have multiple levels of transaction review. Material weaknesses noted are lack of an audit committee, lack of a majority of outside directors on the board of directors, resulting in ineffective oversight in the establishment and monitoring of required internal controls and procedures; and management is dominated by two individuals, without adequate compensating controls. However, management believes the financial statements and other information presented herewith are materially correct.

Our management assessed the effectiveness of our internal control over financial reporting as of June 30, 2021. In making this assessment, our management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (“COSO”) in Internal Control - Integrated Framework - Guidance for Smaller Public Companies (the COSO criteria). Based on our assessment, management identified material weaknesses related to: (i) our internal audit functions; (ii) a lack of segregation of duties within accounting functions; and the lack of multiple levels of review of our accounting data. Based on this evaluation, our management concluded that as of June 30, 2021, we did not maintain effective internal control over financial reporting.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with any policies and procedures may deteriorate. Due to our size and nature, segregation of all conflicting duties may not always be possible and may not be economically feasible. To the extent possible, we will implement procedures to assure that the initiation of transactions, the custody of assets and the recording of transactions will be performed by separate individuals. With proper funding we plan on remediating the significant deficiencies identified above, and we will continue to monitor the effectiveness of these steps and make any changes that our management deems appropriate.

A material weakness is a control deficiency (within the meaning of Public Company Accounting Oversight Board Auditing Standard No. 5) or combination of control deficiencies, that results in a reasonable possibility that a material misstatement of the annual or interim financial statements will not be prevented or detected on a timely basis.

#### **Changes in Internal Control over Financial Reporting**

There were no changes in our internal control over financial reporting that occurred during our most recently completed fiscal quarter that has materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
