³ Represents the total amount of loans that X Financial facilitated and provided during the relevant period.

⁴ Xiaoying Credit Loan is a category of online personal credit loan products facilitated and provided through our platform, including Xiaoying Card Loan and other unsecured loan products we introduce from time to time.

⁵ Represents the total amount of loans outstanding for loans X Financial facilitated and provided at the end of the relevant period. Loans that are delinquent for more than 60 days are charged-off and are excluded in the outstanding loan balance, except for

- The delinquency rate for all outstanding loans⁶ that are past due for 31-60 days as of June 30, 2022 was 0.93%, compared with 1.31% as of March 31, 2022 and 0.77% as of June 30, 2021.
- The number of cumulative borrowers⁷ was 9.0 million as of June 30, 2022.
- Total cumulative registered users reached 74.4 million as of June 30, 2022.

Mr. Justin Tang, the Founder, Chief Executive Officer and Chairman of the Company, commented, “We are pleased with our performance this past quarter given the great challenges brought by the significant economic slowdown amid the escalation of Covid-19 containment measures in China. We continued to scale up our loan facilitation volume while improving asset quality quarter-over-quarter. Total loan facilitated and provided during the past quarter maintained steady growth on both a yearly and quarterly basis, exceeding the high end of our forecast. Thanks to our effective risk management system and premium borrower base, we saw a meaningful decrease in the delinquency rate from the previous quarter. We have further demonstrated our business resilience and ability to navigate tough conditions.”

“On the regulatory side, the China Banking and Insurance Regulatory Commission issued the Notice on Strengthening the Management of Commercial Banks’ Internet Loan Business to Improve the Quality and Efficiency of Financial Services on July 15, 2022. The new rules affirm the positive role of internet loans, further refine and clarify the requirements for internet loan management, and extend the grace period for the rectification of internet loan operations to June 2023 from July 2022. This initiative aims to promote the stable and healthy development of the internet loan business, and it is part of the government’s stimulus strategy to revive the pandemic-hit economy by encouraging more credit to stimulate investments and consumption. This is conducive to the overall development of the financial industry and the extended grace period also gives us more time to explore market opportunities under the new regulation, especially financial services for small and micro-businesses.”

“Looking ahead, with the Covid-19 pandemic subsiding and the macro economy gradually rebounding, we are cautiously optimistic about our business in the second half of the year. With an increasingly accommodative environment, we expect to see steady sequential growth in upcoming quarters.”

Mr. Kent Li, President of the Company, added, “During the second quarter, our total loan amount facilitated and provided reached RMB17 billion, representing an increase of 31.5% year-over-year and 10.7% quarter-over-quarter. The delinquency rate for all outstanding loans past due for 31-60 days as of June 30, 2022 decreased to 0.93% from 1.31% as of March 31, 2022. While the asset quality of the financial industry as a whole deteriorated during the quarter due to the macro headwinds, we managed to improve our asset quality as we continued to enhance our risk management system. We expect our asset quality to remain stable in the second half of the year.”

“During the past quarter, we stepped up our efforts to acquire more high-quality borrowers. As a result, our number of active borrowers increased 28.2% on both a yearly and quarterly basis, and reached a high level of over 1 million in this quarter. We are pleased to see that our products and

Xiaoying Housing Loan. As Xiaoying Housing Loan is a secured loan product and the Company is entitled to payment by exercising its rights to the collateral, the Company does not exclude Xiaoying Housing loan delinquent for more than 60 days in the outstanding loan balance.

Loans that are delinquent for more than 60 days are charged-off and excluded in the calculation of delinquency rate by balance. Xiaoying Housing Loan was launched in 2015 and ceased in 2019, and all the outstanding loan balance of housing loan as of June 30, 2021, March 31, 2022 and June 30, 2022 were overdue more than 60 days. To make the delinquency rate by balance comparable, the Company excludes Xiaoying Housing Loan in the calculation of delinquency rate.

services have been well received by an extensive and growing user base. This is a testament to our reputation for reliability and it has laid a solid foundation for our future growth. Going forward, we will continue to expand and deepen our cooperation with our institutional funding partners to jointly serve the diverse financing needs of small and micro-businesses and consumers in China.”

Mr. Frank Fuya Zheng, Chief Financial Officer of the Company, added, “Although our top line saw a slight decrease on a quarterly basis as we continued to reduce the total borrowing cost of the borrowers in line with government guidance, we improved our bottom line from the previous quarter. Net income for the second quarter of 2022 improved to RMB185.7 million from RMB139.9 million in the previous quarter, and Non-GAAP adjusted net income for the second quarter of 2022 was RMB210.7 million, representing an increase of 36.9% quarter-over-quarter. With a more stabilized macroeconomy and a clearer regulatory environment, we expect to see further improvement in financial performance in the future.”

“During the second quarter, we started to execute our share repurchase program. Going forward, we will continue to keep a close eye on market dynamics, regularly reevaluate how to best use our cash in order to maximize returns for our shareholders.”

Use of Non-GAAP Financial Measures Statement

In evaluating our business, we consider and use non-GAAP measures as supplemental measures to review and assess our operating performance. We present the non-GAAP financial measures because they are used by our management to evaluate our operating performance and formulate business plans. We believe that the use of the non-GAAP financial measures facilitates investors' assessment of our operating performance and help investors to identify underlying trends in our business that could otherwise be distorted by the effect of certain income or expenses that we include in income (loss) from operations and net income (loss). We also believe that the non-GAAP measures provide useful information about our core operating results, enhance the overall understanding of our past performance and future prospects and allow for greater visibility with respect to key metrics used by our management in its financial and operational decision-making.

We use in this press release the following non-GAAP financial measures: (i) adjusted net income, (ii) adjusted net income per basic ADS, and (iii) adjusted net income per diluted ADS, each of which excludes income (loss) from financial investments and share-based compensation expense. These non-GAAP financial measures are not defined under U.S. GAAP and are not presented in accordance with U.S. GAAP. These non-GAAP financial measures have limitations as analytical tools, and when assessing our operating performance, investors should not consider them in isolation, or as a substitute for the financial information prepared and presented in accordance with U.S. GAAP.

We mitigate these limitations by reconciling the non-GAAP financial measures to the most directly comparable U.S. GAAP financial measures, which should be considered when evaluating our performance. We encourage you to review our financial information in its entirety and not rely on a single financial measure.

For more information on these non-GAAP financial measures, please see the table captioned "Reconciliations of GAAP and Non-GAAP results" set forth at the end of this press release.
