- Basic and diluted non-GAAP net income attributable to ordinary shareholders of Baozun Inc. per ADS⁵ were RMB1.01 (US\$0.15) and RMB0.96 (US\$0.15), respectively, compared with basic and diluted non-GAAP net income attributable to ordinary shareholders of Baozun Inc. per ADS of RMB0.80 and RMB0.73, respectively, for the same period of 2017.

Second Quarter 2018 Operational Highlights

- Total Gross Merchandise Volume ("GMV")⁶ was RMB6,084.0 million, an increase of 68.8% year-over-year.
- Distribution GMV⁷ was RMB666.1 million, an increase of 13.6% year-over-year.
- Non-distribution GMV⁸ was RMB5,417.9 million, an increase of 79.5% year-over-year.
- Number of brand partners increased to 162 as of June 30, 2018, from 140 as of June 30, 2017.
- Number of GMV brand partners increased to 156 as of June 30, 2018, from 129 as of June 30, 2017.

"We delivered another outstanding quarter in which we generated strong growth from our existing online stores and enhanced efficiency by deploying new and innovative tools," commented Mr. Vincent Qiu, Chairman and Chief Executive Officer of Baozun. "Our ability to rapidly adapt to changing market environment and develop new technology remains the key to our success. By enhancing our IT capabilities and expanding the breadth and depth of our technology services, we are able to create more value for our brand partners and drive future sustainable growth. We will continue to invest in building our long-term technological competitive advantage to further reinforce our market leading position in China's brand e-commerce market."

Mr. Beck Chen, Chief Financial Officer of Baozun commented, "We are pleased to deliver another strong quarter of growth with GMV increasing by 68.8% year-over-year. Investments in technological innovation and productization during the quarter amounted to RMB18.1 million, which we believe will enable us to expand our addressable market and strengthen our long-term competitiveness. With confidence in our strategy and operation, we expect GMV to grow to over RMB20 billion and services revenue to grow faster than 50% year-over-year during the second half of 2018."

Second Quarter 2018 Financial Results

Total net revenues were RMB1,159.1 million (US\$175.2 million), an increase of 30.5% from RMB888.3 million in the same quarter of last year.

Product sales revenue was RMB577.0 million (US\$87.2 million), an increase of 14.4% from RMB504.4 million in the same quarter of last year. The increase was primarily attributable to the increase in product sales revenue resulting from the increased popularity of brand partners' products and Baozun's increasingly effective marketing and promotional campaigns, which was partially offset by the transition of a leading electronics brand partner's business from the distribution model to the consignment model in September 2017.

Services revenue was RMB582.1 million (US\$88.0 million), an increase of 51.6% from RMB384.0 million in the same quarter of last year. The increase was primarily attributable to the rapid growth of the Company's consignment model and service fee model, and in particular, growth in sales from existing brand partners and the addition of new brand partners in the apparel category.

Total operating expenses were RMB1,100.8 million (US\$166.4 million), compared with RMB850.8 million in the same quarter of last year.

- **Cost of products** was RMB464.4 million (US\$70.2 million), compared with RMB440.6 million in the same quarter of last year. The increase was primarily due to higher costs associated with an increase in product sales revenue, which were partially offset by the transition of a leading electronics brand partner's business from the distribution model to the consignment model in September 2017 and improved margins from product sales.
- **Fulfillment expenses** were RMB277.7 million (US\$42.0 million), compared with RMB172.9 million in the same quarter of last year. The increase was primarily due to an increase in GMV contribution from the Company's distribution and consignment model and warehouse rental expenses.
- **Sales and marketing expenses** were RMB273.1 million (US\$41.3 million), compared with RMB183.3 million in the same quarter of last year. The increase was primarily due to the recruitment of additional online store operational staff and an increase in promotional and marketing expenses associated with Company-operated online stores.
- **Technology and content expenses** were RMB65.2 million (US\$9.9 million), compared with RMB31.4 million in the same quarter of last year. The increase was primarily due to increased investments in innovation and productization, including recruitment of additional technology-focused staff.
- **General and administrative expenses** were RMB38.7 million (US\$5.8 million), compared with RMB26.6 million in the same quarter of last year. The increase was primarily due to an increase in administrative, corporate strategy, and business planning staff.

Income from operations was RMB58.3 million (US\$8.8 million), compared with RMB37.5 million in the same quarter of last year. Operating margin was 5.0%, compared with 4.2% in the same quarter of last year.

Non-GAAP income from operations was RMB79.3 million (US\$12.0 million), compared with RMB50.7 million in the same quarter of last year. Non-GAAP operating margin was 6.8%, compared with 5.7% in the same quarter of last year.

Net income attributable to ordinary shareholders of Baozun Inc. was RMB36.8 million (US\$5.6 million), an increase of 23.5% from the same quarter of last year. Basic and diluted net income attributable to ordinary shareholders of Baozun Inc. per ADS were RMB0.65 (US\$0.10) and RMB0.62 (US\$0.09), respectively, compared with basic and diluted net income attributable to ordinary shareholders of Baozun Inc. per ADS of RMB0.55 and RMB0.51, respectively, in the same period of 2017.

Non-GAAP net income attributable to ordinary shareholders of Baozun Inc. was RMB57.5 million (US\$8.7 million), an increase of 34.1% from the same quarter of last year. Basic and diluted non-GAAP net income attributable to ordinary shareholders of Baozun Inc. per ADS were RMB1.01 (US\$0.15) and RMB0.96 (US\$0.15), respectively, compared with basic and diluted non-GAAP net income attributable to ordinary shareholders of Baozun Inc. per ADS of RMB0.80 and RMB0.73, respectively, in the same period of 2017.

As of June 30, 2018, the Company had RMB726.5 million (US\$109.8 million) in **cash, cash equivalents and short-term investment**, an increase from RMB557.4 million as of December 31, 2017 primarily due to the collection of accounts receivable during the first half year of 2018.

Business Outlook

The Company expects total net revenues to be between RMB1,090 million and RMB1,120 million for the third quarter of 2018.

Use of Non-GAAP Financial Measures

In evaluating the Company's business, the Company considers and uses non-GAAP income/(loss) from operations, non-GAAP operating margin, non-GAAP net income/(loss), non-GAAP net margin, non-GAAP net income (loss) attributable to ordinary shareholders of Baozun Inc. and non-GAAP net income (loss) attributable to ordinary shareholders of Baozun Inc. per ADS, as supplemental measures to review and assess the Company's operating performance. The presentation of these non-GAAP financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with U.S. GAAP. Non-GAAP income/(loss) from operations is income/(loss) from

operations excluding the impact of share-based compensation expenses and amortization of intangible assets resulting from business acquisition. Non-GAAP operating margin is non-GAAP income from operations as a percentage of total net revenues. Non-GAAP net income/(loss) is net income/(loss) excluding the impact of share-based compensation expenses and amortization of intangible assets resulting from business acquisition. Non-GAAP net margin is non-GAAP net income as a percentage of total net revenues. Non-GAAP net income (loss) attributable to ordinary shareholders of Baozun Inc. is net income (loss) attributable to ordinary shareholders of Baozun Inc. excluding the impact of share-based compensation expenses and amortization of intangible assets resulting from business acquisition. Non-GAAP net income (loss) attributable to ordinary shareholders of Baozun Inc. per ADS is non-GAAP net income (loss) attributable to ordinary shareholders of Baozun Inc. divided by weighted average number of shares used in calculating net income per ordinary share multiplied by three.

The Company presents the non-GAAP financial measures because they are used by the Company's management to evaluate the Company's operating performance and formulate business plans. Non-GAAP income/(loss) from operations and non-GAAP net income/(loss) enable the Company's management to assess the Company's operating results without considering the impact of share-based compensation expenses and amortization of intangible assets resulting from business acquisition. The Company also believes that the use of the non-GAAP measures facilitate investors' assessment of the Company's operating performance.

The non-GAAP financial measures are not defined under U.S. GAAP and are not presented in accordance with U.S. GAAP. The non-GAAP financial measures have limitations as analytical tools. One of the key limitations of using non-GAAP income/(loss) from operations, non-GAAP net income/(loss), non-GAAP net income (loss) attributable to ordinary shareholders of Baozun Inc., and non-GAAP net income (loss) attributable to ordinary shareholders of Baozun Inc. per ADS is that they do not reflect all items of income and expense that affect the Company's operations. Share-based compensation expenses and amortization of intangible assets resulting from business acquisition have been and may continue to be incurred in the Company's business and is not reflected in the presentation of non-GAAP income/(loss) from operations and non-GAAP net income/(loss). Further, the non-GAAP measures may differ from the non-GAAP measures used by other companies, including peer companies, and therefore their comparability may be limited. In light of the foregoing limitations, the non-GAAP income/(loss) from operations, non-GAAP operating margin, non-GAAP net income/(loss), non-GAAP net margin, non-GAAP net income (loss) attributable to ordinary shareholders of Baozun Inc. and non-GAAP net income (loss) attributable to ordinary shareholders of Baozun Inc. per ADS for the period should not be considered in isolation from or as an alternative to income/(loss) from operations, operating margin, net income/(loss), net margin, net income (loss) attributable to ordinary shareholders of Baozun Inc. and net income (loss) attributable to ordinary shareholders of Baozun Inc. per ADS, or other financial measures prepared in accordance with U.S. GAAP.

The Company compensates for these limitations by reconciling the non-GAAP financial measures to the nearest U.S. GAAP performance measures, which should be considered when evaluating the Company's performance. For reconciliations of these non-GAAP financial measures to the most directly comparable GAAP financial measures, please see the section of the accompanying tables titled, "Reconciliations of GAAP and Non-GAAP Results."
