

## **2022** INFORMATION CIRCULAR

# NOTICE OF ANNUAL MEETING OF SHAREHOLDERS

Dear Shareholder,

You are receiving this notification as Héroux-Devtek Inc. (the “**Corporation**”) has elected to use the notice and access model (“**Notice and Access**”) for the delivery of meeting materials to its shareholders for the annual meeting of the shareholders of the Corporation to be held on Friday, August 5, 2022 (the “**Meeting**”). Under Notice and Access, instead of receiving printed copies of the Corporation’s Management Proxy Circular (the “**Circular**”), consolidated financial statements for the year ended March 31, 2022 and related management’s discussion and analysis (collectively, the “**Meeting Materials**”), shareholders are receiving this notice with information on how they may access such Meeting Materials electronically. However, together with this notice, shareholders continue to receive a proxy form (in the case of registered shareholders) (“**Proxy Form**”) or a voting instruction form (in the case of non-registered shareholders) (“**Voting Instruction Form**”), enabling them to vote at the Meeting. The Corporation has adopted this alternative means of delivery in order to further its commitment to environmental sustainability and to reduce its printing and mailing costs.

## Meeting Date, Location and Purposes

Notice is hereby given that the Meeting will be held in the Fortifications Ballroom of the Westin Hotel, 270 Saint-Antoine Street West, in the City of Montréal, Québec, at 10:00 a.m., local time, on Friday, August 5, 2022 (the “**Meeting Date**”), for the following purposes:

1. to receive the consolidated financial statements of the Corporation for the year ended March 31, 2022 and the auditors’ report thereon;
2. to elect directors;
3. to appoint Ernst & Young LLP as independent auditors of the Corporation and to authorize the directors to fix their remuneration; and,
4. to transact such other business as may properly be brought before the Meeting.

Proxies to be used at the Meeting must be deposited with the Corporation c/o Computershare Investor Services Inc. (“Computershare”), by mail to the address on the envelope provided herewith or in accordance with the instructions indicated in the Proxy Form or Voting Instruction Form. They must be received by the transfer agent no later than 10:00 a.m., local time, on Wednesday, August 3, 2022.

## Accessing Meeting Materials Online

The Meeting Materials can be viewed online at [www.herouxdevtek.com/en/investors/financial-documents](http://www.herouxdevtek.com/en/investors/financial-documents) or under the Corporation’s profile at [www.sedar.com](http://www.sedar.com).

## Requesting Printed Meeting Materials

## MANAGEMENT PROXY CIRCULAR

This management proxy circular (the “Circular”) is furnished in connection with the solicitation of proxies by the management of Héroux-Devtek Inc. (the “Corporation” or “Héroux-Devtek”) for use at the annual meeting of the shareholders of the Corporation (the “Meeting”) to be held on Friday, August 5, 2022 (the “Meeting Date”) and at every adjournment thereof. Solicitation will be primarily by mail but proxies may also be solicited by telephone, or personally by directors, officers or employees of the Corporation. The Corporation will bear all expenses in connection with the solicitation of proxies.

To be used at the Meeting, the proxy must be deposited with the Corporation c/o Computershare Investor Services Inc., (“Computershare”) by mail to the address on the envelope provided herewith or in accordance with the instructions indicated in the Proxy Form or Voting Instruction Form. The transfer agent must receive your proxy no later than 10:00 a.m., local time, on Wednesday, August 3, 2022.

### Voting by Proxy

Shares represented by properly executed proxies in favour of the persons designated in the enclosed form of proxy will be voted or withheld from voting on any ballot that may be called for and, if the shareholder specifies a choice in respect of the matters to be voted upon, the shares shall be voted or withheld from voting in accordance with the specification made by the shareholder. **If no specification is made, such shares will be voted for (i) the election of the directors specified in this Circular and (ii) the appointment of Ernst & Young LLP as independent auditors of the Corporation and the fixing of their remuneration by the directors.**

The enclosed proxy confers discretionary authority upon the persons named therein with respect to amendments or variations to matters identified in the Notice (as defined below) relating to the Meeting and other matters which may properly come before the Meeting other than for the election of a director who would not be named in this Circular. At the date of this Circular, the management of the Corporation is not aware that any such amendments, variations or other matters are to be presented for action at the Meeting.

### Appointment of Proxy

The persons named in the enclosed form of proxy are executive officers of the Corporation. **A shareholder has the right to appoint a person, who need not be a shareholder of the Corporation, other than the persons designated in the accompanying form of proxy, to attend and act on his or her behalf at the Meeting. To exercise this right, a shareholder may either cross out the names printed on the form of proxy and insert such other person’s name in the blank space provided in the accompanying form of proxy or complete another appropriate form of proxy.**

### Revocability of Proxy

A proxy given pursuant to this solicitation may be revoked by an instrument in writing executed by the shareholder or by the shareholder’s attorney authorized in writing and transmitted either to c/o Computershare Investor Services Inc., 1500 Robert-Bourassa Boulevard, 7<sup>th</sup> Floor, Montréal, Québec, Canada H3A 3S8, at any time up to and including the last business day preceding the day of the Meeting or any adjournment thereof at which the proxy is to be used, or to the Chairman or Secretary of such Meeting on the day of the Meeting or any adjournment thereof, or by any other manner permitted by law.

### Beneficial Shareholders

A beneficial shareholder (“Beneficial Shareholder”) is a shareholder whose shares are registered in the name of a representative, such as an investment dealer or another intermediary (collectively, “Intermediaries”), rather than in the shareholder’s name. Most of the Corporation’s shareholders are Beneficial Shareholders.

In accordance with Canadian securities legislation, the Notice (as defined herein) is being sent to both registered and Beneficial Shareholders. There are two types of Beneficial Shareholders: shareholders who have objected to the disclosure of their identities and share positions (“OBO’s”) and shareholders who do not object to the Corporation knowing who they are (“NOBO’s”).

In the case of NOBO’s, the Notice (as defined herein) has either (a) been sent by the Corporation (or its agent) directly to NOBO’s, or (b) been sent by the Corporation (or its agent) to intermediaries holding on behalf of NOBO’s for distribution to such shareholder. If you are a NOBO and the Corporation (or its agent) has sent the Notice (as defined herein) directly to you, your personal information has been obtained in accordance with applicable securities regulatory requirements from the intermediary holding on your behalf. By choosing to send this notice to you directly, the Corporation (and not the intermediary holding on your behalf) has assumed responsibility for (i) delivering this notice to you, and (ii) executing your proper voting instructions.

As it relates to OBO’s, the Corporation intends to pay Intermediaries to send proxy-related materials and Voting Instruction Forms to OBO’s. Most intermediaries delegate responsibility for obtaining voting instructions from clients to Broadridge Financial Solutions, Inc. (“Broadridge”).

Broadridge mails a Voting Instruction Form in lieu of a Proxy Form provided by the Corporation. For your common shares to be voted, you must follow the instructions on the Voting Instruction Form that is provided to you.

### *How to Vote*

Please note that you have two ways to vote your shares: (i) by submitting your Proxy Form or other Voting Instruction Form as per instructions indicated, or (ii) during the Meeting, in person, if you are a) a registered shareholder, you do not need to complete and return the enclosed Proxy Form. When you arrive at the Meeting, a Computershare representative will register your attendance before you enter the Meeting; b) a Beneficial Shareholder AND you wish to vote in person, you MUST complete and return a Voting Instruction Form no later than 10 a.m. local time, on Wednesday, August 3, 2022 appointing yourself. Even if you plan on attending the Meeting, we nonetheless recommend to vote prior to the Meeting in order to tabulate your vote in advance.

### **Notice and Access**

The Corporation has elected to use the notice and access model ("**Notice and Access**") provided for under Regulation 54-101 *respecting Communication with Beneficial Owners of Securities of a Reporting Issuer* for the delivery of meeting materials to its shareholders for the Meeting, namely the Circular, consolidated financial statements for the year ended March 31, 2022 and related management's discussion and analysis (collectively, the "**Meeting Materials**"). The Corporation has adopted this alternative means of delivery in order to further its commitment to environmental sustainability and to reduce its printing and mailing costs.

Under Notice and Access, instead of receiving printed copies of the Meeting Materials, shareholders receive a notice (the "**Notice**") with information on the date, location and purpose of the Meeting, as well as information on how they may access the Meeting Materials electronically.

Shareholders with existing instructions on their account to receive printed materials and those shareholders with addresses outside of Canada and the United States will receive a printed copy of the Meeting Materials with the Notice.

**The Corporation urges shareholders to review this Circular before voting.**

### *Accessing Meeting Materials Online*

The Meeting Materials can be viewed online at [www.herouxdevtek.com/en/investors/financial-documents](http://www.herouxdevtek.com/en/investors/financial-documents) or under the Corporation's profile at [www.sedar.com](http://www.sedar.com).

### *Requesting Printed Meeting Materials*

Shareholders can request that printed copies of the Meeting Materials be sent to them by postal delivery at no cost to them up to one year from the date the Circular was filed on SEDAR.

Registered shareholders and NOBOs may make their request by calling Computershare at 1-866-962-0498 (within North America) and at 514-982-8716 (outside North America) up to the Meeting Date and at 1-877-907-7643 after the Meeting Date.

OBOs may make their request by telephone at 1-877-907-7643 by entering the control number located on the Voting Instruction Form and following the instructions provided.

To receive the Meeting Materials in advance of the proxy deposit date and Meeting Date, shareholders' requests for printed copies must be received by July 18, 2022 to ensure timely receipt.

### **Voting Rights and Principal of Voting Securities**

Holders of common shares of record at the close of business on the Record Date will be entitled to one vote for each such share held by them except to the extent that a person has transferred any shares after the Record Date and the transferee of such shares establishes proper ownership of such common shares and demands, not later than 10 days before the Meeting, to be included in the list of shareholders entitled to vote at the Meeting.

## ELECTION OF DIRECTORS

The affairs of the Corporation are managed by a board of directors of the Corporation (the “**Board**”). The members of the Board are elected annually, on an individual basis, at each annual meeting of shareholders to hold office until the next annual meeting unless, prior thereto, he or she resigns, or the office of such director becomes vacant by death, removal or other cause.

By resolution of the Board, the precise number of directors has been fixed at nine directors. All nominees have served continuously as directors of the Corporation since their appointment or first election in such capacity. Therefore, a total of nine nominees are being proposed as directors for election by the shareholders at the Meeting. See pages 8 through 10 for information about the nominees for election, including their principal occupation, the years in which they became directors of the Corporation and the number of common shares of the Corporation owned directly or indirectly, controlled or directed by the nominees.

The Board, upon recommendation of the Human Resources and Corporate Governance Committee (the “**Human Resources Committee**”), has adopted and implemented a majority voting policy. Such policy provides that in an uncontested election of directors of the Corporation, any nominee who receives a greater number of votes “withheld” than votes “for” will promptly tender his or her resignation to the Chairman of the Board following the Corporation’s meeting of shareholders. The Human Resources Committee shall consider the resignation offer and shall recommend to the Board whether to accept it or not. The Board will make its decision and announce it in a press release within 90 days following the meeting, including the reasons for rejecting the resignation, if applicable. A director who tenders a resignation pursuant to this policy will not participate in any meeting of the Board or of the Human Resources Committee at which the resignation is considered.

**The persons designated on the enclosed form of proxy intend to vote for the election of the nominees whose names are set forth on pages 8 through 10.**

## APPOINTMENT AND REMUNERATION OF AUDITORS

At the Meeting, the shareholders will be called upon to appoint Ernst & Young LLP as independent auditors of the Corporation to hold office until the next annual meeting of shareholders and to authorize the directors to establish the remuneration of the auditors appointed.

**Unless instructions are given to abstain from voting with regard to the appointment of auditors, the persons named in the enclosed form of proxy intend to vote FOR the appointment of Ernst & Young LLP, as independent auditors of the Corporation, at a remuneration for their services to be determined by the Board.**

## BOARD OF DIRECTORS

The following individuals are nominated for election as directors. The total market value of common shares and deferred share units (“**DSUs**”) is estimated by multiplying the number of shares or DSUs by the closing share price prior to June 1, 2022, being \$15.91 as at May 31, 2022 and \$17.61 as at May 31, 2021.

The Board has approved a minimum share ownership requirement for non-employee members of the Board equivalent to three times the Director’s compensation as a member of the Board. Please see *Director Compensation* below for further details.

<sup>(4)</sup> For the purposes of this table and in accordance with paragraph 3.1 of Item 3 of Form 51-102F6 of the Regulation 51-102 respecting Continuous Disclosure Obligations, share-based awards include award amounts based on the grant date fair value of the award of DSUs for the fiscal year in question.

<sup>(5)</sup> The mandate of Ms. Paule Doré ended on August 10, 2021.

### Deferred Share Unit Plan

In May 2011, the Board introduced the Deferred Share Unit Plan (“**DSU Plan**”) to enhance the Corporation’s ability to attract and retain high quality individuals to serve as members of the Board and participate in the Corporation’s long-term success and to promote a greater alignment of interests between the Corporation’s non-employee directors and its shareholders. Refer to the Equity Compensation Plans section hereafter for details regarding the **DSU Plan**.

### Retainer and Attendance Fees

Each non-executive director receives payment of an annual retainer fee as well as each member of a committee of the Board. Directors also receive reimbursement for reasonable expenses incurred in connection with attending Board and committee meetings. The retainer is composed of the following three components, in Canadian dollars for Canadian directors and US Dollars for non-Canadian directors:

Board Membership	Committee Chairs	Committee Members
Lead Director	Human Resources Committee	Human Resources Committee
Board Member	Audit Committee	Audit Committee

An eligible director under the DSU Plan may elect annually to receive up to 100% of its annual retainer fees in DSUs. In addition, all non-employee directors will receive as long-term incentive pay a number of DSUs that would represent, on the date of their grant, \$40,000 for Canadian directors, US\$40,000 for non-Canadian directors and US\$50,000 for the lead independent director (“Lead Director”). The portion of DSUs granted to a director as annual retainer usually vests in stages over 12 months starting on August 1<sup>st</sup> of each year of grant with 1/12 of the DSUs vesting on the last day of each month.

Louis Morin (Chair), Nathalie Bourque and Annie Thabet also participated in the special committee put in place to review the transaction by which the Corporation repurchased, by way of private agreement, common shares owned by a corporation controlled by Gilles Labbé.

### Share Ownership Requirements

In order to align their interests with shareholders, the Board approved a minimum share ownership requirement for members of the Board. Members of the Board must own, directly or indirectly, a number of common shares and DSUs of the Corporation having a market value equal to three times the amount of the annual compensation payable to them, it being understood that a new director shall have a period of four years to comply with such requirement.

## ESG DISCLOSURE

In recent years, stakeholders in the aerospace and defence industry have gradually shifted towards more ambitious Environmental, Social, and Governance (ESG) objectives, directly benefiting the entire spectrum of activities and supply chain stages – from sourcing, aircraft manufacturing, and airport operations, to airline activities and cargo handling.

Héroux-Devtek is proud to be the world's third-largest landing gear manufacturer. Such an industry leadership position comes both with a responsibility and the ability to stimulate positive impacts at scale.

As such, the Corporation has been pursuing more specific ESG commitments for over a decade, articulated through a set of diligently enforced corporate policies and the hiring of experts with responsibilities in the key areas of environmental compliance and sustainability, social impact, and community development, as well as in health and safety prevention and promotion.

Héroux-Devtek's ESG commitments and track record start with organizational culture and team values. The Corporation fosters a strong entrepreneurial spirit and culture of innovation where continuous improvement, new practices, and change management are part of the daily reality of its 1,800 employees at each of its centers of excellence and at its corporate head office in Longueuil.

The Corporation's culture is defined by four fundamental values, internally referred to as the 4Rs: Respect, Responsibility, Recognition, and Resilience. Together, they imply a strong company-wide recognition that the sustainability of Héroux-Devtek's success as an organization is defined by the well-being of its employees, the communities in which it operates, and the planet that they will leave to future generations.

Héroux-Devtek's lean management structure allows it to be in very close proximity to its operations and ensures effective and comprehensive two-way communications between all organizational levels.

## **Environmental Considerations**

Management strives to implement, maintain and continuously improve the Corporation's state-of-the-art operations in compliance with all applicable environmental laws and regulations in all applicable jurisdictions. Héroux-Devtek's environmental management culture is supported by four pillars comprised of Awareness, Compliance, Risk Mitigation and Control:

- The Awareness pillar ensures support of the development, implementation, maintenance and enhancement of the corporate environmental policy and related procedures, which are further supported by effective communication and training programs. The corporate environmental policy clearly states Héroux-Devtek's commitment to continually meet or exceed regulations and minimize the Corporation's environmental footprint.
- The Compliance pillar includes regulatory tracking and permitting programs, environmental management programs, as well as timely and transparent communications with regulatory authorities and agencies.
- The Risk Mitigation pillar is grounded on environmental site assessments and risk assessments and inspections.
- The Control pillar governs the Corporation's environmental compliance audit program which is based on the potential environmental risk inherent to each individual operating site. Sites that are determined to be higher risk due to the nature of their operations, such as those having surface treatment processes, are audited annually, alternating between internal audits led by the Director, Environment and external audits led by qualified consultants that are very familiar with local requirements. Lower risk sites are audited every 2 or 3 years also alternating between internal and external audits. In all cases, audits cover both regulatory and corporate requirements.

The key environmental performance indicators of each individual site are communicated to Héroux-Devtek's senior management and Board and diligently reviewed to ensure that appropriate resources are allocated to manage all environmental issues to closure. These indicators include audit results and findings, compliance events, incidents and more importantly, the status and progress of all corrective actions taken to remediate the issues with a strong focus on ensuring actions meet the expectations of the regulatory authorities and address root causes.

The Corporation's environmental management team is comprised of the President and Chief Executive Officer ("CEO"), the Vice-President Engineering, Quality and Environment, the Director, Environment and his team, as well as each operating facilities' General Manager and Designated Environmental Officer, and the contribution of all employees. This top down and bottom up collaboration is key to the successful implementation and effectiveness of Héroux-Devtek's corporate environmental policy.

## **Social Considerations**

### *Health & Safety*

The safety of Héroux-Devtek's employees is the Corporation's number one priority. While compliance with applicable legal requirements represents a minimum, management prefers to establish standards which may impose even more stringent obligations. The Corporation also believes that senior management plays a vital role in establishing a culture that supports occupational health and safety programs and initiatives.

Accordingly, Héroux-Devtek is committed to eliminating all work-related injuries and illnesses by providing a safe and healthy workspace and proactively identifying and addressing all inherent risks. The Corporation's health and safety programs combine clear leadership by management, the participation of all employees and functions, and the use of appropriate safety equipment and technology in all stages of operations. Héroux-Devtek encourages employees to play an active role in identifying hazards and to offer suggestions or ideas to improve the safety program.

This philosophy implies continuous improvement toward an accident-free workplace through effective supervision, hiring skilled employees, education, and training. All supervisors and employees are expected to be dedicated to the continuing objectives of workplace safety and eliminating "near misses", which will greatly reduce the risk of injuries. The Corporation has also implemented procedures and processes to record, report, and manage work-related injuries and illnesses.

Senior management and Board meetings include reports and discussions of notable workplace incidents and several key performance indicators and metrics. In addition to a dedicated health and safety team at each of Héroux-Devtek's facilities, a team of safety and operations personnel from all sites also meets monthly to share information related to health & safety such as best practices and reviews incidents to apply insights learned.

Finally, management leverages data and analytics to support Héroux-Devtek's health and safety vision by maximizing the use of the Corporation's global work safety management system, implemented enterprise-wide.

With regards to COVID-19, the Corporation implemented specific protocols in order to monitor and mitigate the effect of the pandemic, with the objective of avoiding any virus transmission within its facilities. These measures included, but were not limited to: daily health questionnaires, social distancing, staggered shifts, personal protective equipment and symptom monitoring protocols. The Corporation continues to monitor developments and meet or exceed local guidelines.

### Community Engagement

As an active corporate citizen in communities across Canada, the United States, Spain, and the United Kingdom, Héroux-Devtek is committed to making a positive difference through its support of community organizations, academic institutions, as well as the arts and cultural sectors.

This past year, Héroux-Devtek made several financial donations in support of food banks, to promote a world free of sexual violence, as well as to accelerate heart disease research, to name a few – in addition to the long-time support of the annual Centraide of Greater Montreal campaign provided by the Corporation's employees, unions and executives.

The Corporation also contributed financially to support the professional development of future aerospace engineers and technicians, as well as in the advancement of intelligent manufacturing practices, and in support of entrepreneurship and women in leadership programs.

### Governance Considerations

Héroux-Devtek is committed to staying at the forefront of corporate governance standards and all employees adhere to a Code of Conduct that establishes the highest standards of ethical behavior at all levels of the organization. It provides mandatory guidance and frameworks concerning the Corporation's activities, and is divided into 12 sections:

1. Employees and human rights
2. Environment, health & safety
3. Government business
4. Supplier relationships
5. Bribery and corruption
6. Conflicts of interest
7. Exports, imports, and trade compliance
8. Fair dealings with other people and organizations
9. Confidential information and other assets
10. Data privacy and digital ethics
11. Insider trading and dealing and stock tipping
12. Financial stewardship/controllership

In addition, a Whistleblower Policy is in place to encourage and enable employees to raise any serious concerns within the Corporation without fear of any reprisals or discrimination. Disclosure mechanisms are regularly reminded to employees, who may confidentially contact the Chairperson of the Audit Committee of the Board, if warranted.

Héroux-Devtek continues to closely monitor the changing business and regulatory environment and will adjust its governance and disclosure practices accordingly.

Further information on the Corporation's governance practices are detailed in the following section.

### *Role of the Board*

The Board is elected by the Corporation's shareholders to supervise, directly and through its committees, the management of the business and affairs of the Corporation, which are conducted by its officers and employees under the direction of the CEO.

The primary stewardship responsibility of the Board is to ensure that the management conducts the business and affairs of the Corporation with the main objectives to enhance shareholder value in a manner that recognizes the concerns of other stakeholders in the Corporation, including its employees, suppliers, customers and the communities in which it operates, to continuously improve the Corporation's performance and quality of its products and services, and to ensure its continuous growth and development. In doing so, the members of the Board must act honestly and in good faith with a view to the best interests of the Corporation.

### *Mandate and Objectives*

The mandate of the Board includes setting long-term goals and objectives for the Corporation, formulating the plans and strategies necessary to achieve those objectives, and supervising senior management who is responsible for the implementation of the Board's objectives and day-to-day management of the Corporation. The Board retains a supervisory role and ultimate responsibility for all matters relating to the Corporation and its business.

The Board discharges its responsibility both directly and through its committees, including the Audit Committee and the Human Resources Committee. The Board may also appoint ad hoc committees periodically to address issues on a more short-term tenure.

### *Composition and Procedures*

**Size of Board and candidate selection process** – Subject to the minimum number of directors set out at three in the articles of the Corporation, the Board takes into account recommendations of the Human Resources Committee with respect to the desired size and profile of the Board, the need for recruitment and the expected experience of new candidates.

The size of the Board must be sufficient in number to ensure a diversity of skills and perspectives and to provide useful experience to the Board supervising the management of the Corporation as well as members on the various Board committees, while allowing the Board to function efficiently and effectively.

The Human Resources Committee reviews and recommends to the Board the candidates for nomination and election as directors. The Board approves the final choice of candidates for nomination and election by the shareholders. Between annual meetings, the Board may appoint directors to serve until the next annual meeting in compliance with the provisions of the Corporation's articles and by-laws.

**Election** – Board members will be elected at the annual meeting of shareholders and will serve until their resignation or until their successors are duly appointed or elected.

**Qualifications** – Directors should have the highest personal and professional ethics and values and be committed to advancing the best interests of the shareholders of the Corporation. They should possess skills and competencies in areas that are relevant to the Corporation's activities, solid business experience, good judgment, integrity, financial literacy and the ability to allocate the necessary time and effort to perform Board and committees duties. A majority of the Board shall be composed of independent directors within the meaning of section 1.4 of Regulation 52-110.

The Board, upon the recommendation of the Human Resources Committee, shall appoint a Chairman of the Board, who should be an independent director. At all times the same person may not occupy the position of Chairman of the Board and of the CEO. Should the Chairman not be an independent director, the Board, upon recommendation of the Human Resources Committee, will appoint a Lead Director.

The retirement age for members of the Board is normally fixed at 75 years.

**Director orientation** – The Executive Chairman of the Board, the President and Chief Executive Officer and the Chief Financial Officer are responsible for providing an orientation and education program for new directors with a view to ascertaining that all new directors fully understand the role of the Board and its committees, as well as the contribution individual directors are expected to make (including, in particular, the commitment of time and energy that the Corporation expects from its directors), and the nature and operation of the Corporation's business. The Board shall encourage and provide opportunities for all directors to continually update their skills as well as their knowledge of the Corporation, its business and its senior management, through the orientation and education program.

**Committees** – The Board has established two standing committees to assist the Board in discharging its responsibilities: the Audit Committee and the Human Resources Committee. Special committees may be established from time to time to assist the Board in connection with specific matters on a more short-term tenure. Each committee operates according to a Board approved written mandate outlining its duties and responsibilities. The chair of each committee reports to the Board following meetings of the committee.

**Evaluation** – The Human Resources Committee with the support of the Lead Director bears the responsibility to assess the Board's performance as a whole as well as that of individual directors and performs an annual evaluation of the effectiveness of the Board as a whole, the committees of the Board and the contributions of individual directors. The Human Resources Committee, with the support of the Lead Director, reports to the Board on such evaluation.

**Meeting and Procedures** – The Board meets at least quarterly and as many additional times as necessary to carry out its duties effectively. The Board is responsible for its agenda. Prior to each Board meeting, the CEO discusses agenda items for the meeting with the Executive Chairman of the Board. Materials for each meeting will be distributed to the directors in advance of the meetings.

The independent directors meet, without the presence of members of management, at the end of each regular meeting (unless they waive such requirement) and they have at least two such meetings each year.

Quorum for meetings of the Board shall be a majority of its members; quorum shall be maintained throughout the meeting. The powers of the Board may be exercised at a meeting at which a quorum of the Board is present in person or by telephone or other electronic means or by a resolution signed by all members entitled to vote on that resolution at a meeting of the Board.

Each member (including the Executive Chairman of the Board) is entitled to one vote in Board proceedings.

At all meetings of the Board, every question shall be decided by a majority of the votes cast. In the case of an equality of votes, the Executive Chairman of the Board shall not be entitled to a second vote.

The Board receives a report from the CEO at each regularly scheduled meeting on the current matters relevant to the Corporation.

An advance notice by-law (the "**Advance Notice By-Law**") was adopted by the Corporation in 2018 in order to provide shareholders, directors and management of the Corporation with a clear framework for nominating directors of the Corporation. To be timely, an Advance Notice must be made (a) in the case of an annual meeting of shareholders, not less than 30 nor more than 65 days prior to the date of the annual meeting of shareholders; provided, however, that in the event that the annual meeting of shareholders is to be held on a date that is less than 50 days after the date (the "**Notice Date**") on which the first public announcement of the date of the meeting was made, notice may be made not later than the close of business on the 10<sup>th</sup> day following the Notice Date; and (b) in the case of a special meeting (which is not also an annual meeting) of shareholders called for the purpose of electing directors (whether or not called for other purposes), not later than the close of business on the 15<sup>th</sup> day following the date on which the first public announcement of the date of the meeting was made.

To be in proper written form, an Advance Notice must set forth: (a) as to each person ("**Proposed Nominee**") proposed for nomination for election as a director: (A) the name, age, business address and residential address of the Proposed Nominee; (B) the principal occupation or employment of the Proposed Nominee; (C) the class or series and number of shares in the capital of the Corporation which are controlled or which are owned beneficially or of record by the Proposed Nominee as of the record date for the meeting of shareholders (if such date has been made publicly available and has occurred) and as of the date of such Advance Notice; and (D) any other information relating to the Proposed Nominee that would be required to be disclosed in a dissident's proxy circular in connection with solicitations of proxies for election of directors pursuant to the applicable laws; and (b) as to the shareholder giving the Advance Notice: (A) the name and address of the shareholder and (B) any proxy, contract, arrangement, understanding or relationship pursuant to which such shareholder has a right to vote any shares of the Corporation; and (C) any other information relating to such shareholder that would be required to be made in a dissident's proxy circular in connection with solicitations of proxies for election of directors pursuant to the applicable laws. Additional information, including a written consent to act, may be required by the Corporation to determine the eligibility of such Proposed Nominee to serve as an independent director of the Corporation.

The Advance Notice By-Law is available on the Corporation's Web site at [www.herouxdevtek.com/en/investors/corporate-governance](http://www.herouxdevtek.com/en/investors/corporate-governance).

## 7. Compensation

The Human Resources Committee is charged, with the support of an independent compensation consultant, with periodically reviewing the compensation and benefits paid to the directors in light of market conditions and practice and in light of risks and responsibilities.

## 8. Other Board Committees

The Board has no standing committees other than the Audit Committee and the Human Resources Committee.

## 9. Assessments

The Human Resources Committee with the support of the Lead Director is responsible for monitoring the effectiveness of the Board and the performance of the directors. The process is facilitated by questionnaires sent by or on behalf of the Human Resources Committee to enable individual directors to provide feedback on the effectiveness of the Board and its committees. Following receipt of the questionnaires, the Chair of the Human Resources Committee or the Lead Director contacts the directors separately in order to discuss their answer to the questionnaires. The Human Resources Committee assesses the operation of the Board and the committees, the adequacy of information given to directors, communication between the Board and management and the strategic direction and processes of the Board and committees. The Human Resources Committee recommends changes to enhance the performance of the Board based on the survey feedback.

## **10. Term of office and other processes for the renewal of the Board**

The Corporation has not fixed a maximum term of office for its directors other than the retirement age normally fixed at 75 years. The Corporation has not established a formal process for the renewal of Board membership. The Board is of the view that it is in the Corporation's best interests to retain experienced board members who are familiar with the Corporation's business and can provide continuity to its management.

## **11. Policies Regarding the Representation of Women on the Board**

The Board is proud that 33% of the Board members are women and is mindful of the benefit of diversity on the Board and regards involvement of women and their experience and input as constructive to the Board's decision-making process.

The Board and Human Resources Committee encourage the diversity in the composition of the Board, even though the Corporation does not have a formal policy with respect to the representation of women on the Board. The Board does not foresee the adoption of such a policy at this time since it has a high level of representation of women on Board. The Board is committed to maintaining that level as board turnover occurs from time to time taking into account the skills, background, experience and knowledge desired at a particular time by the Board and its committees.

## **12. Consideration of the Representation of Women in the Director Identification and Selection Process**

The Human Resources Committee has, within the purview of its mandate, the responsibility to take gender into consideration as part of its overall recruitment and selection process in respect of the Board. Accordingly, when searching for new directors, the Human Resources Committee considers the level of representation of women on the Board and, where appropriate, will recruit qualified women candidates as part of the Corporation's overall recruitment and selection process to fill Board positions, as the need arises, through vacancies, growth or otherwise.

## **13. Consideration Given to the Representation of Women in Executive Officer Appointments**

The Corporation will consider and be sensitive to the representation of women when making executive officer appointments. However, considering the small number of positions in question, the Corporation refrains from setting targets for the representation of women among its executive officers. It is important that each individual appointed as an executive officer be considered on the individual's merits and on the needs of the Corporation at the relevant time. Targets based on specific criteria could limit the Corporation's ability to appoint the individual who is the best qualified for the position. The Corporation is however committed to increasing the gender diversity of its executive officers going forward.

## **14. The Corporation's Targets Regarding the Representation of Women on the Board and in Executive Officer Positions**

The Corporation has not adopted a measurable objective for achieving gender diversity on the Board or in executive officer positions. The Corporation will consider establishing measurable objectives and targets as it further develops.

## **15. Number of Women on the Board and Executive Officer Positions**

As at the date hereof, three women sit on the Board of the Corporation, which represents a total of 33%.

As at the date hereof, the Corporation has one woman in an executive officer position, which represents a total of 7%.

## EXECUTIVE COMPENSATION

### Compensation Discussion and Analysis

The information contained under this heading represents the compensation received by the executive officers of the Corporation that were acting in such capacity as at the end of the fiscal year 2022.

#### *Compensation Governance*

##### **Human Resources Committee**

The Human Resources Committee has the responsibility to establish a compensation policy for the executive officers that is consistent with the Corporation's business plan, strategies and objectives. This Committee has, namely, the responsibility to analyze for the Board all questions relating to human resources planning, compensation for executive officers, directors and other employees, short and long-term incentive programs, employee benefits programs, and recommends the appointment of executive officers.

As at March 31, 2022, the Human Resources Committee was made up of the following three independent directors: Annie Thabet, Brian A. Robbins, and James J. Morris, with the latter being the chair of the Committee. All members of the Human Resources Committee are considered to be independent members under the applicable securities legislation. They all possess experience in the area of executive compensation, either as former Chief Executive Officers of publicly traded companies or as executives. Ms. Thabet is a Corporate Director and Partner at Celtics Capital Inc since 2003. Mr. Robbins is Executive Chairman of Exco Technologies Limited. Mr. Morris was, up to December 31, 2006, Vice President Engineering and Manufacturing for Boeing Commercial Airplanes.

The Board believes that the members of the Human Resources Committee possess the combined knowledge, experience and backgrounds necessary to fulfill the Committee's mandate.

##### **External Independent Consultant**

In fiscal year 2021, the Human Resources Committee in consultation with management retained the services of Willis Towers Watson ("WTW") to act as the new external independent compensation consultant for the Human Resources Committee going forward, replacing PCI - Perrault Consulting Inc. ("PCI") in this role. WTW has been mandated to review and provide advice on executive compensation recommendations and related questions, and the services provided in fiscal year 2022 were related to reviewing the compensation of the executive team including the Named Executives (as hereinafter defined) and assist the Committee on different executive compensation issues.

The following table summarizes fees paid to WTW and PCI for the fiscal years ended March 31, 2022 and 2021:

	2022	2021
<b>Fees paid to PCI</b>		
<i>Executive Compensation-Related Fees</i>	\$ —	\$ 23,754
<i>All Other Fees</i>	—	—
	\$ —	\$ 23,754
<b>Fees paid to WTW</b>		
<i>Executive Compensation-Related Fees</i>	\$ 38,537	\$ 17,719
<i>All Other Fees<sup>(1)</sup></i>	53,373	113,564
	\$ 91,910	\$ 131,283

<sup>(1)</sup> These fees essentially relate to services rendered in Canada and the U.K., including administration and investment consulting for the pension plans, life and health insurance consulting.

#### *Objectives of the Compensation Policy*

The compensation policy has the following primary objectives:

- offer total compensation capable of attracting and retaining top level executive officers required to ensure the Corporation's short and long-term goals and success;
- motivate the executive officers in achieving and exceeding the goals of the Corporation and of its shareholders;
- provide Named Executive (as hereinafter defined) with total compensation that stands between the 25<sup>th</sup> percentile and the median of the market comparators, which could be exceeded upon achieving superior profitability results and shareholder value creation.

The compensation policy is established in such a way to compensate the executive officers and other key employees considering the market and the Corporation's performance.

The Named Executives of the Corporation are the President and Chief Executive Officer, the Vice President and Chief Financial Officer and the Corporation's three most highly compensated executive officers other than the President and Chief Executive Officer and the Vice President and Chief Financial Officer (the "Named Executives").

#### *Market Comparator and Positioning*

The Corporation's positioning in the market with respect to compensation for executive officers is assessed periodically based on a comparator group that serves as a reference group, as suggested by WTW and approved by Human Resources Committee. WTW last conducted the Corporation's executive compensation market positioning in fiscal year 2022. The comparator group includes 18 companies selected considering criteria such as annual revenues, relevant industries, comparable customer base, publicly-traded, autonomous, market for potential recruitment and entrepreneurial culture (the "Comparator Group").

The Comparator Group is composed of the following companies:

Canadian Companies	Revenues (in million)	U.S. Companies	Revenues (in million)
Lassonde Industries Inc.	\$1,893	AAR Corp	US\$1,652
Richelieu Hardware Ltd	1,440	Mercury Systems, Inc.	924
Magellan Aerospace Corporation	688	Kaman Corporation	709
Logistec Corporation	744	Kratos Defense & Security Solutions	812
IBI Group Inc	557	RBC Bearings Incorporated	609
Exco Technologies Limited	461	Ducommun Incorporated	645
Velan Inc.	302	Astronics Corporation	445
EXFO Inc.	266	AeroVironment, Inc.	449
Avcorp Industries Inc.	99	AerSale Corporation	340

#### *Héroux-Devtek's Positioning Relative to the Comparator Group*

Median Revenues	\$627
Héroux-Devtek	570

#### *Components of the Compensation Policy*

The compensation policy consists of the sum of:

- salary;
- annual incentive (bonus) compensation;
- long term incentive compensation;
- benefits and perquisites; and
- pension.

Each of these elements, together with the Corporation philosophy with respect to same, is hereinafter detailed.

#### **Salary**

The Corporation's salary policy is to pay salaries to the Named Executives around the 25<sup>th</sup> percentile of the Comparator Group. The named executive officers' salaries are reviewed annually and may be adjusted by the Human Resources Committee based on the incumbents' performance, tenure and their relative positioning against market. Following his promotion to the position of CEO Officer in fiscal 2020, Mr. Brassard's annual salary will progressively increase towards the 25<sup>th</sup> percentile of the Comparator Group.

#### **Annual Incentive Compensation**

The Corporation offers executive officers the opportunity to earn an annual bonus provided the Corporation achieves or exceeds its financial objectives and provided the executive officer or employee achieves specific personal objectives. The annual bonus for the product line or business unit executives and employees rests on financial objectives set against the fiscal year's budget. The annual bonus rests on the achievement of the budgeted net income for the Executive Chairman of the Board, the President and Chief Executive Officer and the Vice President and Chief Financial Officer, and the free cash flows and EBITDA for the Vice President, General Manager of Central Region and Vice President Engineering, Quality Assurance and Environment. The combination of salary and annual bonus target shall be between the 25<sup>th</sup> percentile and the 50<sup>th</sup> percentile of the Comparator Group.

The bonus is calculated based on the degree of achievement of the financial performance presented in the annual budget of the Corporation. In order to be eligible to receive bonuses based on financial performance, the region/product line or business unit shall have met at least 80% of its financial target budget. If such goal is achieved, the bonus payout, expressed as a percentage of target bonus could go from 40% to 120% for eligible managers, 130% for senior managers and 170% for some Named Executives depending on the level of achievement.

The target bonus for each Named Executive are as follows:

Named Executives	Target Bonus
Gilles Labbé	100 %
Martin Brassard	110 %
Stéphane Arsenault	70 %
Dominique Dallaire	40 %
Daniel Normandin	40 %

The final bonus to be paid to each executive officer and key employee will also take into account the performance of the Corporation as a whole in terms of adjusted net income. Therefore, the total annual incentive compensation paid based on the Corporation's performance is composed of the following:

For positions with corporate responsibilities:

- 100% of the target bonus is based on the Corporation's performance as a whole.

For positions with region, product line and/or business unit responsibilities:

- 25% of the target bonus is based on the Corporation's performance as a whole; and,
- 75% of the target bonus is based on the region, product line and/or business unit performance.

The following table summarizes the details of the annual incentive compensation:

Position	Performance Measures	Weighting	Threshold Levels
Executive Chairman of the Board President and Chief Executive Officer Vice President and Chief Financial Officer	The Corporation's Adjusted Net Income	100%	Thresholds in line with prior year's Adjusted Net Income
Vice President, General Manager of Central Region, and Vice President Engineering, Quality Assurance and Environment	Free Cash Flows EBITDA; and The Corporation's Adjusted Net Income	37.5% 37.5% 25%	Thresholds in line with previous year's Free Cash Flows and EBITDA

Thresholds for incentive compensation based on financial measures are determined using the Corporation's budget and set at levels which are attainable and aligned with the Corporation's growth objectives.

For fiscal year ended March 31, 2022, the Corporation used adjusted net income, which excludes non-recurring items, net of taxes, to assess its financial performance. This financial measure is not prescribed by IFRS. However, the Corporation's management considers this metric to be useful information to assist in evaluating the Corporation's profitability, liquidity and ability to generate funds to finance its operations and capital investment needs. For relevant information about these measures see the "Non-IFRS Financial Measures" section in the Management's Discussion and Analysis for fiscal 2022 available for review on SEDAR at [sedar.com](http://sedar.com) or on Héroux-Devtek's website.

The Human Resources Committee has concluded that it would be seriously prejudicial to the Corporation's interests to publicly disclose the level of performance that is associated with threshold, target and maximum achievement for each performance measure of the annual incentive compensation. The levels of these metrics could be used by competitors to infer conclusions about confidential strategic priorities of the Corporation. In addition, the disclosure of these metrics may generate confusion with the financial guidance provided to shareholders in the Corporation's annual and quarterly earnings releases. The targets are intended to be challenging – neither impossible nor easy to achieve.

The Corporation's achievement of financial objectives and performance as a whole and per region for the fiscal year ended March 31, 2022 ranged from 0% to 146%, and the from 103% to 146% for the Named Executives.

Finally, the executive officers and key employees' bonus will be calculated based on the individual performance; from 80% for "below expectations" to 120% for "outstanding contribution". The Human Resources Committee may, from time to time, exercise its discretion to allow that the annual incentive compensation otherwise payable in accordance with the Corporation's policies be adjusted to better reflect the overall performance of the Corporation and exceptional market conditions. The Human Resources Committee also reserves the right to recommend to the Board to waive minimum requirements for the annual incentive compensation when exceptional strategic achievements that could increase the long-term value of the Corporation are realized during the year.

Based on its review, the Human Resources Committee approved the following individual payout factor for each of the following Named Executives in connection with payment of the short-term incentive to each of them:

Named Executives	Individual Payout Factor
Gilles Labbé	99.0 %
Martin Brassard	109.6 %
Stéphane Arsenault	119.7 %
Dominique Dallaire	127.2 %
Daniel Normandin	118.1 %

Accordingly, based on the Human Resources Committee's assessment of the fiscal year 2022 corporate objectives and on the individual performance for the fiscal year ended March 31, 2022, the following annual incentive compensation will be paid in fiscal year 2023 to each Named Executive:

Named Executives	Annual Incentive Compensation	% of Salary
Gilles Labbé	\$460,000	108.9 %
Martin Brassard	590,000	132.6 %
Stéphane Arsenault	280,000	92.2 %
Dominique Dallaire	125,400	47.1 %
Daniel Normandin	130,000	59.1 %

### Long-term Incentive Compensation

The Corporation offers executive officers the opportunity to receive long-term incentive compensation in order to encourage executive officers and other eligible employees to work toward and participate in the growth and development of the Corporation and to assist the Corporation in attracting, retaining and motivating its executive officers and key employees. The Corporation's long-term incentive compensation is designed to:

- Recognize and reward the impact of long-term strategic actions undertaken by executive officers and key employees;
- Align the interests of the Corporation's executive officers and key employees;
- Focus executive officers and key employees on developing and successfully implementing the continuing growth strategy of the Corporation;
- Foster the retention of executive officers and key employees; and
- Attract talented individuals to the company.

Two forms of stock-based compensation are generally granted to executive officers:

- Stock options; and
- Performance Share Units.

Each form represents approximately half of the total long-term incentives Named Executives are awarded annually. The long-term incentive compensation framework is described below:

#### Stock Option Plan

The establishment of a balance between short and long-term compensation is essential for the Corporation's performance. For this reason, the Corporation has adopted a Stock Option Plan in 1986 (the "**Stock Option Plan**") allowing the grant of options to certain key employees of the Corporation and its business units.

In general, the Board determines the number of options granted annually based on a target percentage attributed to each Named Executive established according to their level of responsibility and authority. The total amount of options issued over the past years is looked at but does not have a material impact on the number of options to be granted to the employee. The options are granted at market value at time of grant and may be exercised for a period of up to seven years, subject to stock performance and time-based vesting conditions as established by the Board.

Refer to the Equity Compensation Plans section hereafter for details regarding the Stock Option Plan.

### Performance Share Unit Plan

The Performance Share Unit Plan (the “**PSU Plan**”) for management and key employees of the Corporation and its subsidiaries was adopted by the Board on August 6, 2014 with the objective to enhance the Corporation’s ability to attract and retain qualified management and key employees, to focus them on financial performance and total long-term shareholder return and to promote a proprietary interest in the Corporation.

The PSU Plan is administered by the Human Resources Committee. The PSU Plan enables the participants to receive upon fulfillment of certain performance vesting conditions, a cash amount equal to the market price of a common share on the determination date for each vested PSU (the “**PSU Payment**”). The performance vesting conditions are generally based on an adjusted EBITDA target for each of the next three fiscal years established using the Corporation’s most recent budget and strategic plan. The number of Performance Share Units (“**PSUs**”) to be granted is determined on the basis of the volume weighted average trading price of the common shares of the Corporation traded on the TSX, for the five trading days preceding the date of the award of the PSUs.

Refer to the Equity Compensation Plans section hereafter for details regarding the **PSU Plan**.

### Employee Stock Purchase Plan

On September 2, 2004, the Board has also approved an employee stock purchase plan (the “**Purchase Plan**”) to incent key employees to hold, on a permanent basis, common shares of the Corporation. Refer to the Equity Compensation Plans section hereafter for details regarding the **Purchase Plan**.

### **Benefits and Perquisites**

The Corporation’s executive officers benefit program includes life, medical, dental and disability insurance. Perquisites may consist of car allowance and reimbursement for club memberships, medical and financial services. Such benefits and perquisites are designed to be competitive with the Comparator Group and other comparable Canadian enterprises.

The compensation policy seeks to primary reward the superior performance through both individual and corporate results and the increased shareholder value. In reviewing executive officers’ compensation, the Human Resources Committee will take into consideration numerous factors that are not easily measurable but which consider the individual performance, experience, integrity and peer appreciation.

### **Pension**

Refer to the Pension Plans section hereafter for details regarding the Pension Plan schemes offered to the Corporation’s executive officers.

### *Compensation and Risk Management*

As per its Charter, the Human Resources Committee is responsible for the risk oversight of the Corporation’s compensation policies and practices.

In fiscal year 2013, the Board, upon recommendation of the Human Resources Committee, adopted and implemented a risk management policy which considers the implications of the risks associated with the Corporation’s compensation policies and practices. Such policy is reviewed annually by the Human Resources Committee and updated as the case may be.

The policy establishes that Management is responsible for ensuring that procedures are in place to identify and assess all risks associated with the Corporation’s compensation policies and practices and to report to the Human Resources Committee on the steps taken to identify, monitor and mitigate risks associated with compensation policies and practices.

As part of the policy, Management evaluates risk exposures related to compensation of the Board, executives, management and the broader employee population, with a focus on the short and long-term incentive plans. This includes:

- identifying any such policies or practices that may encourage executive officers to take inappropriate or excessive risks,
- identifying risks arising from such policies and practices that could have a material adverse effect on the Corporation and
- considering the possible risk implications of the Corporation’s compensation policies and practices and any proposed changes to them.

The following procedures are followed by Management to identify and mitigate compensation policies and practices that could encourage an executive officer or an individual at a principal business unit, region or product line to take inappropriate or excessive risks:

- annual assessment of the Corporation's compensation policies and practices, including a review and analysis of the aspects of those policies that may lead to risky behavior on the part of an executive officer or any other individual;
- dialogue and communication with experts outside the Corporation (as necessary) regarding an analysis of the risks associated with the Corporation's compensation policies and practices and a review of the risk identification and mitigation practices used by other public companies; and
- scheduling of *in camera* sessions of the Human Resources Committee allowing the members of this committee to discuss and analyze the risks associated with the Corporation's compensation policies and practices without the presence of members of management.

In keeping with the above, during fiscal year 2022, the Human Resources Committee reviewed Management's report about the Corporation's compensation policies and practices, taking into account risks associated therewith. The Committee has not identified any risks associated with the Corporation's compensation policies and practices that are reasonably likely to have a material adverse effect on the Corporation.

The Human Resources Committee is of the opinion that the total compensation of the executive officers is balanced to avoid any potential risk that may result from taking actions to maximize compensation without regard for the risk assumed by the Corporation.

### **Restrictions on trading and hedging of the Corporation's shares**

The Corporation has adopted a policy refraining its directors and officers from purchasing financial instruments, including, for greater certainty, prepaid variable forward contracts, equity swaps, collars or units of exchange funds that are designed to hedge or offset a decrease in market value of equity securities granted as compensation or held directly or indirectly by the director or officer.

### **Minimum Ownership Requirements for Executive Officers**

In order to align the interests of executive officers with those of shareholders, the Corporation has adopted in fiscal year 2022 a minimum share ownership requirement policy. As such, effective fiscal year 2022, the following executive officers are required to hold a minimum number of securities of the Corporation whose total value must equal a multiple of their salary. The multiples are as follows:

Category	Securities Ownership Level
Chief Executive Officer and Executive Chairman	3 x annual base salary
Chief Financial Officer	2 x annual base salary
Vice-President	0.75 x annual base salary

As at March 31, 2022, all the Named Executives met the share ownership requirements.

The following securities count in determining whether the requirement is met: i) common shares owned directly, ii) common shares owned jointly or separately by the individual's spouse, iii) common shares held in trust for the benefit of the executive officer, the executive officer's spouse and/or children, and iv) PSUs (whether vested or not vested). Unexercised stock options do not count toward meeting these requirements.

The stock ownership requirement is based upon the executive officer's annual base salary or annual retainer and the determination of whether they meet the applicable requirement will be made in April of each year and will be based on the average closing price of the Corporation's common shares on the TSX for the 5 trading days preceding and including March 31.

The executive officers will have 5 years from the date they are appointed as executive officers of the Corporation to meet the requirement. In the event of an increase in an executive officer's base salary, such officer will have 3 years from the time of the increase to acquire additional securities required to meet the new requirement.

Once the executive officer's level of share ownership satisfies the applicable requirement, ownership level is expected to be maintained for as long as the executive officer is subject to the policy.

If an executive officer falls below the applicable requirement due solely to a decline in the value of the common shares, the executive officer will not be required to acquire additional common shares to meet the requirement, but he or she will be required to retain all common shares then held until such time as the executive officer again attains the target requirement.

The Human Resources Committee has the discretion to enforce the policy on a case-by-case basis and to evaluate whether exceptions from the requirements under the policy should be made in the case of any executive officer who, due to his or her unique financial circumstances, would incur a hardship by complying with the requirements.

### Clawback Policy

A compensation clawback policy (the “**Clawback Policy**”) was adopted by the Corporation in fiscal 2022 which allows the Board to require the reimbursement of certain incentive or deferred compensation paid to certain officers, if such compensation was paid in whole or in part as a result of an act of fraud, dishonesty or gross negligence or material non-compliance with legal requirements or the Corporation’s policies, any act or omission which would justify termination with cause or any failure to report or take action to stop such an act of another employee of the Corporation, or in the event where there has been a material misrepresentation or material error resulting in the restatement of the Corporation’s financial statements, for any reason other than a restatement caused by a change in applicable accounting rules or interpretations.

The Clawback Policy applies to the Executive Chairman, the President and Chief Executive Officer, the Vice President and Chief Financial Officer or to any person holding the position of Vice-President of the Corporation and includes the following compensation paid or awarded to such individuals: annual performance bonus; Options; PSUs; and any realized gain received from the exercise of options or payment of PSUs, net of the exercise price paid, as applicable. Recovery under the Clawback Policy is limited to compensation paid, granted or awarded to, or received or earned by, or vested in the then current fiscal year and the immediately preceding three financial years and may be implemented through various forms, including direct reimbursement, deduction from salary or future payments, grants or awards of incentive compensation, or cancellation or forfeiture of vested or unvested Options, PSUs or any other share-based or option-based awards held by the individual.

### Performance Graph

The following graph compares the total cumulative shareholder return for \$100 invested in the Corporation’s common shares on March 31, 2017 with the cumulative total return of the Toronto Stock Exchange’s S&P/TSX Composite Index for the five most recently completed fiscal years up to March 31, 2022.

	March 31, 2017	March 31, 2018	March 31, 2019	March 31, 2020	March 31, 2021	March 31, 2022

S&P/TSX Composite	\$100	\$103	\$104	\$86	\$120	\$141

The trend shown by the above graph is a positive total cumulative return for a shareholder over the past five years. Total compensation received by the Named Executives is generally in line with the trend.

## Summary Compensation Table

<sup>(1)</sup> Share-based Awards were made under the Purchase Plan and the PSU Plan. Value of Share-based Awards represents the Corporation's contribution under the Purchase Plan and the PSU grant date value. The PSU grant date value is equal to the number of PSUs granted multiplied by the Volume Weighted Average Price ("VWAP") during the five trading days preceding the grant date of the common shares (fiscal year 2020: \$16.04; fiscal year 2021: \$9.88; fiscal year 2022 17.64). These amounts do not reflect the current value of the PSUs or the value, if any, that may be received when the PSUs are vested.

<sup>(2)</sup> The theoretical value of options is estimated at the date of grant using a binomial lattice model. The weighted average value per option granted was \$6.30 in fiscal year 2022, \$3.05 in fiscal 2021 and, \$4.33 in fiscal 2020.

<sup>(3)</sup> These amounts represent annual bonuses as more fully described under the heading "Compensation Discussion and Analysis - Annual Incentive Compensation" elsewhere in this Circular.

<sup>(4)</sup> All other compensation includes other benefits such as car usage or allowance, tax equalization payments and others.

<sup>(1)</sup> Share-based Awards were made under the Purchase Plan and the PSU Plan.

<sup>(2)</sup> These amounts are calculated based on the difference between the closing share price at the end of fiscal year 2022 and the option exercise price. On March 31, 2022, being the last business day of fiscal year 2022, the closing price of the Corporation's common shares on the TSX was \$17.09 (HRX-T).

<sup>(3)</sup> The value of the common shares under the Purchase Plan is calculated based on the closing share price at the end of fiscal year 2022. On March 31, 2022, being the last business day of fiscal year 2022, the closing price of the Corporation's common shares on the TSX was \$17.09 (HRX-T). The value of units under the PSU Plan is calculated using the VWAP for the five trading days ending on March 31, 2022, being the last trading day in the fiscal year 2022 (\$17.08). PSUs were valued based on the Corporation's expected results as compared to the PSU's performance conditions.

## Equity Compensation Plans

Options granted by the Corporation are governed by the Stock Option Plan.

The following table shows, as of March 31, 2022, aggregated information for the Corporation's Stock Option Plan which is the only compensation plan under which equity securities of the Corporation are authorized for issuance from treasury.

Plan Category	Number of Common Shares to be Issued Upon Exercise of Outstanding Options and rights	Weighted Average Exercise Price of Outstanding Options and rights	Number of Common Shares Remaining Available for Future Issuance Under the Equity Compensation Plans
Equity Compensation Plans of the Corporation approved by the shareholders	1,503,750	\$14.19	721,912
<b>Total:</b>	<b>1,503,750</b>	<b>14.19</b>	<b>721,912</b>

During fiscal year 2022, 197,000 options were granted under the Stock Option Plan at a weighted-average exercise price of \$17.45.

In addition to the Stock Option Plan, the Corporation also maintains the Purchase Plan, the PSU Plan and the DSU Plan which provide long-term incentive to management, key employees and non-employee Directors of the Corporation based on the stock price of the Corporation.

The main features of these four equity compensation plans follow.

### Stock Option Plan

The establishment of a balance between short and long-term compensation is essential for the Corporation's performance. For this reason, the Corporation has adopted the Stock Option Plan in 1986 allowing the grant of options to certain key employees of the Corporation and its business units.

In general, the Board determines the number of options granted annually based on a percentage of the target bonus of the Named Executives and key employees, established according to the level of responsibility and authority of such Named Executives. The total amount of options issued over the past years is looked at but does not have a material impact on the number of options to be granted to the employee.

Participants	Officers other than outside directors and key employees of Héroux-Devtek and its subsidiaries, as determined by the Board of Directors or the Human Resources Committee.
Term	The term of each grant is determined by the Board or the Human Resources Committee, subject to a maximum of seven years.
Expiry	Options expire under the following conditions, excluding maturity at term: 1) vested options expire 60 days (or longer at the discretion of the Board or Human Resources Committee) following termination of employment for any reason other than death, disability or retirement 2) all options, vested or not, expire upon termination for cause 3) vested options expire 180 days (or longer at the discretion of the Board or Human Resources Committee) following death, disability or retirement  Under no circumstances do options expire later than their initial term.
Vesting conditions	Vesting conditions are determined by the Board or Human Resources Committee. Options granted generally vest in tranches beginning one year following the grant date and include a performance vesting condition based on the price of the Corporation's common shares.
Exercise price	The exercise price may not be lower than average closing price of the Corporation's common shares for the five days preceding the grant.
Authorized securities	The total number of common shares currently issuable under the Stock Option Plan shall not exceed in the aggregate 2,808,257 common shares (representing approximately 8.1% of the common shares outstanding as at March 31, 2022).
Insider participation limit	As defined by the TSX: 1) the number of shares issuable to insiders under all security-based compensation arrangements may not exceed 10% of the total issued and outstanding Common Shares at the award date. 2) the number of shares issued to insiders during any one-year period may not exceed 10% of the total issued and outstanding Common Shares.
Maximum issuable to one person	1) The number of common shares issued to one insider pursuant to the Stock Option Plan, within a one-year period, shall not exceed 5% of the total number of common shares outstanding at each date of such issue of common shares; 2) The aggregate number of common shares issued or which could be issued under the Stock Option Plan to any one beneficiary shall not exceed 20% of the aggregate number of common shares issuable under the Stock Option Plan.
Assignment or transfer	Options awarded under the Stock Option Plan may not be transferred or assigned.
Change of control	In the event of a change of control, the Board may make such provision for the protection of the rights of the participants in the event of a change of control as the Board at its sole discretion considers appropriate in the circumstances.
Blackout	If the term of an option arrives during a trading blackout, the term of the option is extended for ten business days following the end of the blackout period, or ten business days less the number of business days elapsed between the end of the black out period and the end of the term, as applicable.
Options outstanding	As at March 31, 2022, 1,503,750 options were outstanding representing 4.4% of the issued and outstanding common shares. Such options were exercisable at exercise prices ranging from \$9.83 to \$17.45 per share and were due to expire up to May 31, 2028.
Annual burn rate	The burn rate of securities issued related to his plan stood at 0.6%, 1.0% and 0.9% for each of the fiscal years ended March 31 2022, 2021 and 2020, respectively.

#### Amendment procedures

- e. the addition of any form of financial assistance;

- g. any amendment to the amendment section of the Stock Option Plan.

### *PSU Plan*

The PSU Plan for management and key employees of the Corporation and its subsidiaries was adopted by the Board on August 6, 2014 and is intended to enhance the Corporation's ability to attract and retain qualified management and key employees, to promote a proprietary interest in the Corporation and to focus management and key employees on operating and financial performance, corporate strategies and total long-term shareholders' return.

The PSU Plan is administered by the Human Resources Committee. The PSU Plan enables the participants to receive upon fulfillment of certain performance vesting conditions, a cash amount equal to the market price of a common share on the determination date for each vested PSU. The number of PSUs to be granted is determined on the basis of the VWAP of the common shares of the Corporation traded on the TSX, for the five trading days preceding the date of the award of the PSUs.

<b>Participants</b>	Management and key employees of the Corporation and its subsidiaries, as determined by the Board of Directors or the Human Resources Committee.
<b>Term</b>	December 1st of the third calendar year following the award of PSUs, unless otherwise determined by the Board of Directors or Human Resources Committee.
<b>Expiry</b>	PSUs expire under the following conditions, excluding maturity at term: 1) immediately following termination of employment for any reason other than death, disability or retirement; 2) upon disability or death, all PSUs granted to a participant shall vest on a pro-rata basis as of the date of disability or death, with the remainder being cancelled; 3) upon retirement of a participant over the age of 60 with over ten years of consecutive service in the employment of Héroux-Devtek or its subsidiaries, all PSUs granted to said participant vest on a pro-rata basis as of the date of retirement, with the remainder being cancelled.
<b>Vesting conditions</b>	Vesting conditions are determined by the Board or Human Resources Committee, and are generally based on achieving a targeted level of adjusted EBITDA over each of the three fiscal years following the date of grant, determined based on the Corporation's budget and strategic plan. One third of each PSU award generally vests on March 31st of each fiscal year following its grant, provided the performance vesting condition set by the Board of Directors or Human Resources Committee is met.
<b>Payout amount and date</b>	PSUs are paid out in cash at term. The payment amount is equal to the volume weighted average trading price of the Corporation's shares for the five trading days prior to the end of the term multiplied by the number of PSUs.
<b>Assignment or transfer</b>	PSUs may not be transferred or assigned.
<b>Change of control</b>	At all times, the Board may make such provision for the protection of the rights of the participants in the event of a Change of Control as the Board at its sole discretion considers appropriate in the circumstances.
<b>Blackout</b>	As PSU Payments are made on a predetermined schedule, they are not affected by blackout periods.
<b>PSUs Outstanding</b>	As at March 31, 2022, 285,350 PSUs were issued and outstanding.

### Amendment procedures

The Board may at any time, amend the PSU Plan as it deems necessary or appropriate. Such amendment shall be ratified by the Board of each relevant subsidiary.

### Purchase Plan

On September 2, 2004, the Board approved the Purchase Plan to induce key employees to hold, on a permanent basis, common shares of the Corporation. The Purchase Plan was amended in 2006, 2011 and 2019.

Membership in the Purchase Plan is optional and is valid for one Purchase Plan year at a time, namely for the period beginning January 1 and ending December 31 of each calendar year. An eligible management employee shall become a participating employee only if he joins the Purchase Plan by completing the enrollment form and if he subscribes with respect to said Purchase Plan year, for a number of shares whose aggregate price shall equal between 2% and 10% of the employee's annual salary as at the date of his enrollment, without exceeding 10% of said annual salary. The Corporation makes matching contributions of between 1.25% and 5.25%.

<b>Participants</b>	Management employees of the Corporation or its subsidiaries, as designated by the Board or the Human Resources Committee, who have more than 6 months of continuous service unless that condition is otherwise waived by the Board of Directors or the Human Resources Committee.
<b>Term</b>	Common shares of the Corporation do not have a term.
<b>Subscription price</b>	All shares are purchased on the market at fair value.
<b>Vesting conditions</b>	One third of the common shares purchased over a calendar year will become vested on July 1 of each of the three following years.
<b>Termination of employment</b>	The following terms relate to termination of employment: 1) if the employment of a participant ends for any reason other than death, disability or retirement, all unvested shares resulting from employer contributions are forfeited. All unvested shares purchased with employee contributions vest immediately; 2) upon retirement, disability or death, all unvested shares shall vest.
<b>Assignment or transfer</b>	The rights and privileges related to common shares cannot be assigned or transferred.
<b>Change of control</b>	At all times, the Board may make such provision for the protection of the rights of the participants in the event of a Change of Control as the Board at its sole discretion considers appropriate in the circumstances.
<b>Blackout</b>	Insiders cannot trade in shares of the Corporation during a blackout period. As payroll deductions are scheduled and automated, contributions continue during a blackout.

### Amendment procedures

The Board has full and complete responsibility for the Purchase Plan, which includes, without restriction, the power to adopt, amend, suspend or terminate the Purchase Plan, as it deems necessary or desirable, provided that such acts do not retroactively affect the rights of the participating employees under the Purchase Plan and that the approval of the regulators and the self-regulatory organizations, if necessary, is obtained. The Purchase Plan does not require that an amendment thereto be approved by the shareholders of the Corporation.

### *DSU Plan*

The DSU Plan for non-employee directors adopted by the Board in May 2011, as amended, is intended to enhance the Corporation's ability to attract and retain high quality individuals to serve as members of the Board and participate in the Corporation's long-term success and to promote a greater alignment of interests between the Corporation's non-employee directors and its shareholders.

The DSU Plan is administered by the Human Resources Committee. The DSU Plan enables the participants to receive upon termination of service as director, a cash amount equal to the market price of a common share on the termination date for each vested DSU. The number of DSUs to be granted is determined on the basis of the VWAP of the common shares of the Corporation traded on the TSX, for the five trading days preceding the date of the award of the DSUs.

<b>Participants</b>	Non-employee directors of the Corporation.
<b>Term</b>	DSUs do not have a fixed term.
<b>Expiry</b>	DSUs expire under the following conditions, at which time they are paid out: 1) upon termination of service as a Director; 2) upon death or disability of the participant.
<b>Vesting conditions</b>	DSUs vest immediately on the award date, unless the director has elected to receive such DSUs in lieu of cash for their annual retainer. DSUs received under election as annual retainer usually vest 1/12 during each month of service, the last day of each month.
<b>Payout amount and date</b>	The cash payment amount upon termination is equal to the volume weighted average trading price of the Corporation's shares for the five trading days prior to the end of the term multiplied by the number of DSUs.
<b>Assignment or transfer</b>	DSUs may not be transferred or assigned.
<b>Blackout</b>	Should the service of a Board member terminate during a blackout period, the DSUs will be paid out following the blackout period at a rate equal to the volume weighted average trading price of the Corporation's shares for the five trading days following the end of the blackout multiplied by the number of DSUs.
<b>DSUs Outstanding</b>	As at March 31, 2022, 199,471 DSUs were issued and outstanding.

### Amendment procedures

The Board may at any time amend the Plan as it deems necessary or appropriate.

## **Pension Plans**

### *Defined Benefit Pension Plans*

The pension payable to the eligible executive officer is based on the years of credited service and a percentage of the average of the best three consecutive basic earnings (Average Earnings) at the date of retirement. For Gilles Labbé, this percentage is equal to 2% for all his credited service and his pension is not limited. The pension is payable at normal retirement date (first of the month coincident with or immediately following the executive's 65th birthday, or later if the participant works past this date).

The pension is payable from two sources: a registered Individual Pension Plan (IPP) and an unregistered Executive Retirement Plan (ERP). The IPP pays the pension up to the income tax limits and the excess is paid from the ERP. The IPP pension is funded through Corporation's and employee's contributions while the ERP pension is funded through Corporation's contributions to the Retirement Compensation Arrangements (RCA).

In the event of a change in control of the Corporation, the ERP benefits shall be fully funded upon the closing of such change of control and no reduction would be applied on the pension upon early retirement.

The following table shows the retirement benefits for the eligible Named Executive under the defined benefit pension plans:

Name	Number of years of Credited Service <sup>(1)</sup>	Annual Benefits Payable <sup>(2)</sup>		Accrued Obligation at start of year <sup>(3)</sup>	Compensatory Change <sup>(4)</sup>	Non-Compensatory Change <sup>(5)</sup>	Accrued Obligation at year end <sup>(6)</sup>
		At year end	At age 65				
Gilles Labbé	38.60	\$360,400	\$360,400	\$6,092,900	\$12,500	\$(88,000)	\$6,017,400

<sup>(1)</sup> Number of years of credited service as at March 31, 2022.

<sup>(2)</sup> The annual lifetime benefit at year-end is payable from normal retirement age and is based on years of credited service and pensionable earnings as at March 31, 2022. The annual lifetime benefit payable at age 65 is based on years of credited service as at age 65 and pensionable earnings as at March 31, 2022.

<sup>(3)</sup> The accrued obligation at start of year is the value of the accrued retirement benefits as at March 31, 2021 based on assumptions and methods in respect of fiscal year ended March 31, 2021, as disclosed in the Corporation's financial statements available on SEDAR at [www.sedar.com](http://www.sedar.com) and a copy of same will be provided free of charge, upon request, to any shareholder of the Corporation.

<sup>(4)</sup> The compensatory change in the accrued obligation includes service cost net of employee contributions and difference between actual and estimated earnings.

<sup>(5)</sup> The non-compensatory change in the accrued obligation includes changes in assumptions, employee contributions and interest on the accrued obligation at the start of the year.

<sup>(6)</sup> The accrued obligation at year-end is the value of the accrued retirement benefits as at March 31, 2022 based on assumptions and methods in respect of fiscal year ended March 31, 2022, as disclosed in the Corporation's financial statements available on SEDAR at [www.sedar.com](http://www.sedar.com) and a copy of same will be provided free of charge, upon request, to any shareholder of the Corporation.

#### Defined Contribution Pension Plan

Under the Canadian defined contribution pension plan offered to executive officers working in Canada (the "Canadian Plan"), the Corporation contributes an amount equal to the executive officers' contributions (between 3% and 5% of base salary), subject to the income tax limits, to a savings account opened on their behalf. The contributions of both Mr. Brassard and Mr. Arsenault have been waived and the Corporation contributes 10% of their base salary up to the income tax limits.

The executive officers' accounts accumulate with interest according to their investment instructions. At retirement, the executive officers receive their account balance.

The following table shows the accumulated values for each eligible Named Executive under the defined contribution pension plans:

Name	Accumulated Value at start of year <sup>(1)</sup>	Compensatory <sup>(2)</sup>	Non-Compensatory <sup>(3)</sup>	Accumulated Value at year end <sup>(4)</sup>
Martin Brassard	\$776,500	\$30,700	\$32,700	\$839,900

Daniel Normandin	422,000	11,000	55,200	488,200

<sup>(1)</sup> The accumulated value at start of year is the account balance as at April 1, 2021.

<sup>(2)</sup> The compensatory component represents the amount of employer contributions from April 1st, 2021 to March 31, 2022.

<sup>(3)</sup> The non-compensatory component represents the amount of employee contributions and investment earnings from April 1st, 2021 to March 31, 2022.

<sup>(4)</sup> The accumulated value at year end is the account balance as at March 31, 2022.
