RESPONSIBILITY FOR CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

The accompanying unaudited condensed consolidated interim financial statements of Mountain Province Diamonds Inc. (the "Company") are the responsibility of management and have been approved by the Board of Directors.

The unaudited condensed consolidated interim financial statements have been prepared by management, on behalf of the Board of Directors, in accordance with the accounting policies disclosed in the notes to the Company's audited consolidated financial statements as at December 31, 2020. Where necessary, management has made informed judgments and estimates in accounting for transactions which were not complete at the balance sheet date. The condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standards 34 – Interim Financial Reporting using accounting policies consistent with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") appropriate in the circumstances.

Management has established processes, which are in place to provide sufficient knowledge to support management representations that it has exercised reasonable diligence that the unaudited condensed consolidated interim financial statements fairly present in all material respects the financial condition, financial performance and cash flows of the Company, as of the date of and for the periods presented by the unaudited condensed consolidated interim financial statements.

The Board of Directors is responsible for reviewing and approving the condensed consolidated interim financial statements together with other financial information of the Company and for ensuring that management fulfills its financial reporting responsibilities. The Audit Committee assists the Board of Directors in fulfilling this responsibility.

The Audit Committee meets with management to review the financial reporting process and the unaudited condensed consolidated interim financial statements together with other financial information of the Company. The Audit Committee reports its findings to the Board of Directors for its unaudited condensed consolidated interim financial statements together with other financial information of the Company for issuance to the shareholders.

Management recognizes its responsibility for conducting the Company's affairs in compliance with IFRS as issued by the IASB, and applicable laws and regulations, and for maintaining proper standards of conduct for its activities.

1. NATURE OF OPERATIONS AND GOING CONCERN

Mountain Province Diamonds Inc. ("Mountain Province" and together with its subsidiaries collectively, the "Company") was incorporated on December 2, 1986 under the British Columbia Company Act. The Company amended its articles and continued incorporation under the Ontario Business Corporations Act effective May 8, 2006. The Company holds a 49% interest in the operating Gahcho Kué Project ("Gahcho Kué Diamond Mine" or "GK Mine" or "GK Project") in Canada's Northwest Territories. The Company also owns 100% of the mineral rights of the Kennady North Project ("KNP").

The address of the Company's registered office and its principal place of business is 161 Bay Street, Suite 1410, PO Box 216, Toronto, ON, Canada, M5J 2S1. The Company's shares are listed on the Toronto Stock Exchange ("TSX") under the symbol 'MPVD'. During the year ended December 31, 2020, the Company voluntarily delisted its common shares from the NASDAQ.

These condensed consolidated interim financial statements have been prepared using the going concern basis of preparation which assumes that the Company will realize its assets and settle its liabilities in the normal course of business.

Amid the continuing COVID-19 pandemic, the Company has experienced liquidity challenges primarily resulting from the deferral of the normal diamond sales carried out in Antwerp, Belgium during 2020. While the Company had experienced strong diamond sales in late 2020, and continued price increases in 2021, the risk of decreased sales volumes and fluctuation of diamond prices, particularly through the remainder of 2021, could significantly result in reduced 2021 revenue and correspondingly net income and operating cash flows. Also, a temporary suspension of mine operations to limit the spread of COVID-19 at the site during the first quarter of 2021, has added additional challenges to the Company's short-term liquidity. On September 30, 2020, the Company entered into a senior secured revolving credit facility with Dunebridge Worldwide Ltd. ("Dunebridge") (Note 9 and 16) for US\$25 million to reassign its previously drawn revolving credit facility ("RCF"), which is due September 30, 2021. Also, during the three months ended June 30, 2021, the Company has amended and restated its credit agreement with Dunebridge, as lender, adding a US\$33 million term loan facility (the "Term Facility") (Note 9 and 16) to its existing US\$25 million senior secured revolving credit facility ("Dunebridge RCF"). COVID-19 pandemic issues along with the need to repay or extend the Dunebridge RCF and Term Facility by September 30, 2021 and December 31, 2021, respectively, funding of ongoing operational costs and semi-annual interest payments on the secured notes may result in a future event of default under the terms of these debt instruments.

Management will seek alternative sources of financing; however, such alternative sources of financing may not be available or at terms acceptable to the Company. Given the challenges related to COVID-19 mentioned above, alternative sources of financing may be required in the near term, in order to fund ongoing operations and debt repayment. The above conditions related to the diamond industry, the Company's operations and the Company's current financing constraints each represent a material uncertainty that results in substantial doubt as to the Company's ability to continue as a going concern. These financial statements do not include the adjustments to the amounts and classification of assets and liabilities that would be necessary should the Company be unable to continue as a going concern. These adjustments may be material.

Failure to meet the obligations for cash calls to fund the Company's share in the GK Mine may lead to De Beers enforcing its remedies under the JV Agreement, which could result in, amongst other things the dilution of Mountain Province's interest in the GK Mine, and at certain dilution levels trigger cross-default clauses within the Senior Notes.

Authorization of Financial Statements

These consolidated financial statements were approved by the Board of Directors on August 4, 2021.

2. BASIS OF PRESENTATION

These consolidated financial statements of the Company were prepared in accordance with IAS 34 Interim Financial Reporting using policies consistent with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board. These financial statements do not include all the information required for full annual financial statements and therefore should be read in conjunction with the consolidated financial statements of the Company as at and for the year ended December 31, 2020. Selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes to the Company’s financial position and performance since the last annual consolidated financial statements.

The Company has applied the same accounting policies and methods as those described, in the annual consolidated financial statements for the year ended December 31, 2020.

These financial statements were prepared under the historical cost convention, as modified by the revaluation of derivative assets and liabilities and are presented in thousands of Canadian dollars.

The consolidated financial statements include the accounts of Mountain Province and its wholly-owned subsidiaries:

- 2435572 Ontario Inc. (100% owned)
- 2435386 Ontario Inc. (100% owned by 2435572 Ontario Inc.)
- Kennady Diamonds Inc. (100% owned)

The Company’s 49% interest in the GK Mine is held through 2435386 Ontario Inc. All intercompany balances, transactions, income, expenses, profits and losses, including unrealized gains and losses have been eliminated on consolidation.

The Company’s interest in the GK Mine through its joint arrangement is a joint operation under IFRS 11, Joint Arrangements, and, accordingly has recorded the assets, liabilities, revenues and expenses in relation to its interest in the joint operation. The Company’s 49% interest in the GK Mine is bound by a contractual arrangement establishing joint control over the mine through required unanimous consent of the Company and De Beers Canada Inc. (“De Beers” or the “Operator”, and together with the Company, the “Participants”) for strategic, financial and operating policies of the GK Mine. The GK Mine management committee has two representatives of each of the Company and De Beers. The Participants have appointed De Beers as the operator of the GK Mine.

3. SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of these financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities and contingent liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting periods. Judgments, estimates and assumptions are continually evaluated and are based on management’s experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ materially from these estimates. The significant judgments, estimates and assumptions made by management in applying the Company’s accounting policies were the same as those that applied to the audited financial statements as at and for the year ended December 31, 2020.

Depreciation and depletion included in inventories at June 30, 2021 is \$12,526 (December 31, 2020 - \$13,663).

The amount of inventory expensed approximates cost of sales with respect to production costs incurred, and the cost of acquired diamonds. Included in the production costs is a net realizable value adjustment for \$Nil that was recognized against the rough diamond and ore stockpile inventory for the three and six months ended June 30, 2021. The write-down is included in the cost of sales included in the statement of comprehensive income (loss) (Three and six months ended June 30, 2020 - \$17 million).

Included in inventories and production costs, for the three and six months ended June 30, 2021 are the Company's 49% share of payroll and employee benefits for staff of the GK Mine of \$9,607 and \$20,498 (three and six months ended June 30, 2020 - \$9,842 and \$19,871, respectively).

(Unaudited)

The Kennady North Project decommissioning and restoration liability was calculated using the following assumptions as at June 30, 2021 and December 31, 2020:

	June 30, 2021	December 31, 2020
Expected undiscounted cash flows	\$ 2,268	\$ 2,268
Discount rate	0.25%	0.25%
Inflation rate	2.00%	2.00%
Periods	2024	2024

The decommissioning and restoration liability has been calculated using expected cash flows that are current dollars, with inflation.

During the six months ended June 30, 2021, and the year ended December 31, 2020, the decommissioning and restoration liability was changed by \$(3,463) and \$13,364, respectively, for an increase in additional disturbance due to ongoing mining activity and changes in discount rates.

The continuity of the decommissioning and restoration liability at June 30, 2021 and December 31, 2020 is as follows:

	GK Mine	KNP	Total
Balance, at January 1, 2020	\$ 56,429	\$ 2,087	\$ 58,516
Change in estimate of discounted cash flows	13,086	278	13,364

Non-current decommissioning and restoration liability, at June 30, 2021	\$ 67,264	\$ 2,444	\$ 69,708

8. SECURED NOTES PAYABLE

On December 11, 2017, the Company completed an offering of US\$330 million of senior secured notes ("Notes"), secured by a second-ranking lien on all present and future assets, property and undertakings of the Company. The secured notes pay interest in semi-annual instalments on June 15 and December 15 of each year, at a rate of 8.00% per annum, and mature on December 15, 2022. The indenture governing the secured notes contains certain restrictive covenants that limit the Company's ability to, among other things, incur additional indebtedness, make certain dividend payments and other restricted payments, and create certain liens, in each case subject to certain exceptions. The restrictive covenant on the Company's ability to pay potential future dividends relates to a fixed charge coverage ratio of no less than 2:1. The fixed charge coverage ratio is calculated as EBITDA over interest expense. Subject to certain limitations and exceptions, the amount of the restricted payments, which include dividends and share buybacks, is limited to a maximum dollar threshold, which is calculated at an opening basket of US\$10 million plus 50% of the historical consolidated net income, subject to certain adjustments, reported from the quarter of issuance and up to the most recently available financial statements at the time of such restricted payment, plus an amount not to exceed the greater of US\$15 million and 2% of total assets as defined in the indenture.

Revolving Credit Facility

Concurrent with the closing of the Notes offering, the Company entered into a US\$50 million first ranking lien revolving credit facility with the Bank of Nova Scotia ("Scotiabank") and Nedbank Ltd. in order to maintain a liquidity cushion for general corporate purposes. The RCF was subject to a quarterly commitment fee between 0.9625% and 1.2375%, depending on the leverage ratio at the time. Upon drawing on the RCF, an interest rate of LIBOR plus 2.5% to 4.5% per annum would be charged for the number of days the funds are outstanding, based on the leverage ratio at the time. During the second quarter of 2020, the Company drew US\$25 million from the RCF in order to maintain the liquidity of the business during the challenges faced by COVID-19. The RCF was subject to several financial covenants, in order to remain available which were breached as of June 30, 2020 and for which a waiver was obtained as at July 3, 2020. In exchange for the waiver, the Company agreed to a reduction in the size of the revolving credit facility to US\$25 million from US\$50 million. The Company also agreed to repay or provide alternate financing for the US\$25 million by September 30, 2020, rather than the original maturity date of December 15, 2020.

On September 30, 2020, the RCF was assigned to Dunebridge. The amount drawn at the time of US\$22.7 million was paid by Dunebridge to Scotiabank and Nedbank Ltd. and the remaining available amount of US\$2.3 million under the new Dunebridge RCF (described in Note 9 below) was advanced to the Company.

9. DUNEBRIDGE REVOLVING CREDIT FACILITY AND DUNEBRIDGE TERM FACILITY

On September 30, 2020, the Company entered into the Dunebridge RCF (Note 16) for US\$25 million, with first ranking lien terms. The Dunebridge RCF carries an interest rate of 5% per annum, and is repayable on September 30, 2021, therefore has been classified as short-term on the balance sheet. Interest is payable on a monthly basis. The agreement also required an upfront 1% financing fee, which was paid on September 30, 2020. The Dunebridge RCF is not subject to any financial covenants to remain available. A default would occur if the Company is unable to make the monthly interest payments, or the principal repayment.

The Dunebridge RCF includes various restrictive covenants which requires that no additional indebtedness be entered into, and no new agreements related to the sale of Diamonds, beyond what currently exists, without prior written approval from Dunebridge.

Under the Dunebridge RCF, permitted distributions to third parties (which include dividends) are subject to the Company having a net debt to EBITDA ratio of less than or equal to 1.75:1. Net debt is equal to total debt, less cash and cash equivalents. The aggregate amount of all distributions paid during the rolling four quarters up to and including the date of such distribution does not exceed 25% of free cash flows ("FCF") during such period. FCF is

defined as EBITDA minus, without duplication, (a) capital expenditures, (b) cash taxes, (c) any applicable standby fee, other fees or finance costs payable to the finance parties in connection with the Dunebridge RCF, (d) interest expenses and (e) any indebtedness (including mandatory prepayments) permitted under the existing agreement. Also, the available liquidity after payment of a distribution must be greater than or equal to US\$60 million for distributions paid during a quarter ending March 31, or US\$50 million for other quarters, where the aggregate amount of the all-advances outstanding does not exceed US\$10 million.

The Dunebridge RCF payable is carried at amortized cost on the consolidated balance sheet.

Dunebridge Term Facility

On May 12, 2021, the Company, with Dunebridge as lender, added a US\$33 million term loan facility to its existing US\$25 million RCF, with first ranking lien terms. The Term Facility bears interest at a fixed rate of 10% per annum, net of withholding taxes, payable monthly. In addition to the interest, a flat 5% fee is payable on each advance made thereunder. The Term Facility will reduce in size to a maximum of US\$22 million on July 15, 2021 and mature on December 31, 2021. On May 17, 2021, a US\$23 million advance was drawn by the Company, followed by a US\$8 million draw in June 2021. The terms of the Revolving Facility were unchanged as a result of the amendment. The Term Facility is subject to certain cash sweep requirements, when the following month's weekly ending projected cash is above US\$2 million. This cash sweep is calculated 5 business days after each sale takes place in Antwerp, Belgium. Any cash sweep repayments are not subject to further drawdown fees, if the amount needs to be re-drawn, therefore the cash sweep portion is revolving.

On June 30, 2021, the Company repaid US\$9 million ahead of the reduction of size requirement to US\$22 million on July 15, 2021. The Company also repaid a cash sweep amount of US\$2 million. The total outstanding amount for the Term Facility as at June 30, 2021 was therefore US\$20 million.

Subsequent to the period ended June 30, 2021, the Company repaid a further amount of US\$8.5 million pursuant to the cash sweep.

As at June 30, 2021, the Company has an obligation for US\$20 million or \$24.8 million Canadian dollar equivalent from the Dunebridge Term Facility (December 31, 2020 - \$nil).

11. SHAREHOLDERS' EQUITY

i. Authorized share capital

Unlimited common shares, without par value.

ii. Share capital

The number of common shares issued and fully paid as at June 30, 2021 is 210,490,807.

iii. Stock options, RSUs, DSUs and share-based payments reserve

The Company has a long-term equity incentive plan (the "Plan") which, among other things, allows for the maximum number of shares that may be reserved for issuance under the Plan to be 10% of the Company's issued and outstanding shares at the time of the grant. The Board of Directors has the authority and discretion to grant stock option, restricted share units ("RSU") and deferred share units ("DSU") awards within the limits identified in the Plan, which includes provisions limiting the issuance of options to directors and employees of the Company to maximums identified in the Plan.

As at June 30, 2021, the aggregate maximum number of shares pursuant to options granted under the Plan will not exceed 21,049,081 shares. All stock options are settled by the issuance of common shares.

The following table summarizes information about the stock options outstanding and exercisable:

The fair value of the stock options granted have been estimated on the date of grant using the Black-Scholes option pricing model. The assumptions are presented below for options granted during the June 30, 2021 period. Expected volatility is calculated by reference to the weekly closing share price for a period that reflects the expected life of the options. The 1,085,000 stock options issued on February 3, 2021 vest 1/3 on February 3, 2022, 1/3 on February 3, 2023 and 1/3 on February 3, 2024.

Expected volatility	59.38%
Expected option life	5 years
Contractual option life	5 years
Expected forfeiture	none
Expected option cancellation	none
Expected dividend yield	0%
Risk-free interest rate	0.46%

The following tables reflect the number of stock options outstanding, the weighted average of stock options outstanding, and the exercise price of stock options outstanding at June 30, 2021. The Black-Scholes values are measured at the grant date.

At June 30, 2021				
Expiry Date	Black-Scholes Value	Number of Options	Number of Exercisable Options	Exercise Price
November 3, 2021	214	100,000	100,000	6.96

	\$ 2,320	3,440,002	1,678,336	\$ 2.09

The weighted average remaining contractual life of the options outstanding at June 30, 2021 is 3.06 years (December 31, 2020 - 2.72 years).

The restricted and deferred share unit plans are full value phantom shares that mirror the value of the Company's publicly traded common shares. Grants under the RSU and DSU plan are made on a discretionary basis to directors and employees of the Company subject to the Board of Directors' approval. Under the RSU and DSU plan, RSUs vest according to the terms set out in the award agreement which are determined on the initial grant date on an individual basis at the discretion of the Board of Directors. Vesting under the RSU and DSU plan is subject to special rules for death, disability and change in control. The awards can be settled through issuance of common shares or paid in cash, at the discretion of the Board of Directors. These awards are accounted for as equity settled RSUs.

13. DERIVATIVE ASSETS AND LIABILITIES

The Notes indenture grants the Company the option to prepay the notes prior to the maturity of the instruments, and specifies a premium during each applicable time period. These prepayment options have been accounted for as embedded derivatives and are outlined below. The Company may redeem the secured notes:

- in whole or in part at any time during the twelve-month period beginning on December 15, 2019 at a redemption price equal to 104% of the principal amount of the secured notes redeemed, plus accrued and unpaid interest to the date of redemption;
- in whole or in part at any time during the twelve-month period beginning on December 15, 2020 at a redemption price equal to 102% of the principal amount of the secured notes redeemed, plus accrued and unpaid interest to the date of redemption; and
- in whole or in part at any time during the twelve-month period beginning on December 15, 2021 at a redemption price equal to 100% of the principal amount of the secured notes redeemed, plus accrued and unpaid interest to the date of redemption.

14. FINANCIAL INSTRUMENTS

Fair value measurement

The Company categorizes each of its fair value measurements in accordance with a fair value hierarchy. The fair value hierarchy establishes three levels to classify the inputs to valuation techniques used to measure fair value. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs are quoted prices in markets that are not active, quoted prices for similar assets or liabilities in active markets, inputs other than quoted prices that are observable for the asset or liability (for example, interest rate and yield curves observable at commonly quoted intervals, forward pricing curves used to value currency and commodity contracts and volatility measurements used to value option contracts), or inputs that are derived principally from or corroborated by observable market data or other means. Level 3 inputs are unobservable (supported by little or no market activity).

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs.

The fair values of the amounts receivable and accounts payable and accrued liabilities approximate their carrying values due to the relatively short-term maturity of these financial instruments.

The following table shows the carrying amounts and fair values of the Company's financial assets and financial liabilities, including their levels in the fair value hierarchy. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

Fair values of assets and liabilities classified as Level 2 are valued using discounted cash flow (“DCF”) models. These models require a variety of observable inputs including market prices, forward price curves, yield curves and credit spreads. These inputs are obtained from or verified with the market where possible. The financial assets relate to the embedded derivative assets, which are prepayment options on the secured notes payable (Note 8). The financial liabilities relate to Dunebridge revolving credit facility and term facility.

Derivative instruments are valued using DCF models. These models require a variety of observable inputs including market prices, forward price curves and yield curves. These inputs are obtained from or verified with the market where possible.

The fair value of the secured notes payable is determined using market quoted prices.

16. RELATED PARTIES

The Company's related parties include the Operator of the GK Mine, Dermot Desmond, Dunebridge and Vertigol Unlimited Company ("Vertigol") (corporations ultimately beneficially owned by Dermot Desmond), key management and their close family members, and the Company's directors. Dermot Desmond, indirectly through Vertigol, is the ultimate beneficial owner of greater than 10% of the Company's shares. International Investment Underwriting ("IIU") is also a related party since it is ultimately beneficially owned by Dermot Desmond.

Related party transactions are recorded at their exchange amount, being the amount agreed to by the parties.

The Company had the following transactions and balances with its related parties including key management personnel including the Company's directors, Dermot Desmond, Dunebridge, Vertigol, IIU and the Operator of the GK Mine. The transactions with key management personnel are in the nature of remuneration. The transactions with the Operator of the GK Mine relate to the funding of the Company's interest in the GK Mine for the current year's expenditures, capital additions, management fee, and production sales related to the 49% share of facies and special diamonds. The transactions with IIU are for the director fees of the Chairman of the Company.

In the second quarter of 2020, the Company entered into an agreement to sell up to US\$50 million of diamonds to Dunebridge. The agreement permits the Company to sell its run of mine diamonds (below 10.8 carats) at the estimated prevailing market price at the time of each sale. The transaction also allows the Company to participate, after fees and expenses in a portion of any increase in the value of diamonds realized by Dunebridge upon its future sale of diamonds to a third party. Dunebridge is entitled to receive 10% annualized returns in respect to these future sales of Dunebridge diamonds, calculated with reference to each specific Dunebridge sales parcel. These fees are fixed at 10% of the amount of the future sales for the first year. In the second and third year following the date of Dunebridge diamond purchase from the Company, an additional 10% of the amount of the future sale is compounded and pro-rated based on the amount of time in each of the second and third years have passed. After three years, the agreement is effectively terminated, and any upside realized by Dunebridge will not be shared with the Company. The expenses relate to any future sale costs. Once all fees and expenses have been deducted any surplus will be shared equally between Dunebridge and the Company. The purchase price was determined using the Company's price book, adjusted for the estimated current underlying market conditions.

As at June 30, 2021, approximately US\$49.4 million of run of mine diamonds have been sold to Dunebridge under the agreement. On September 29, 2020, the shareholders approved to have this agreement amended to increase the total sales value from US\$50 million of diamonds, to US\$100 million. Effective November 6, 2020, the new agreement with the incremental increase to US\$100 million was executed. As at June 30, 2021, all of the original diamonds included in the US\$49.4 million sold to Dunebridge have been re-sold to third parties. Included in the diamond sales of \$75,147 for the three months ended June 30, 2021, is \$10,399 of upside profit which has been realized and reviewed related to this Dunebridge agreement. All diamonds related to this contract have now been sold by Dunebridge.

On September 30, 2020, the Company entered into the Dunebridge RCF for US\$25 million to reassign the previous RCF, with first ranking lien terms. The Dunebridge RCF carries an interest rate of 5% per annum, and is repayable on September 30, 2021 (Note 9). The agreement included an upfront 1% financing fee, which was paid on September 30, 2020.

On May 12, 2021, the Company, with Dunebridge as lender, added a US\$33 million term loan facility to its existing US\$25 million RCF, with first ranking lien terms. The Term Facility bears interest at a fixed rate of 10% per annum, net of withholding taxes, payable monthly. In addition to the interest, a flat 5% fee is payable on each advance made thereunder. The Term Facility will reduce in size to a maximum of US\$22 million on July 15, 2021 and mature on December 31, 2021. On May 17, 2021, a US\$23 million advance was drawn by the Company, followed by a US\$8 million draw in June 2021. The terms of the Revolving Facility were unchanged as a result of the amendment. The Term Facility is subject to certain cash sweep requirements, when the following month's weekly ending projected cash is above US\$2 million. This cash sweep is calculated 5 business days after each sale takes place in Antwerp, Belgium. Any cash sweep repayments are not subject to further drawdown fees, if the amount needs to be re-drawn, therefore the cash sweep portion is revolving.

On June 30, 2021, the Company repaid US\$9 million ahead of the reduction of size requirement to US\$22 million on July 15, 2021. The Company also repaid a cash sweep amount of US\$2 million. The total outstanding amount for the Term Facility as at June 30, 2021 was therefore US\$20 million.

Between 2014 and 2020, the Company and De Beers signed agreements allowing De Beers ("the Operator") to utilize De Beers' credit facilities to issue reclamation and restoration security deposits to the federal and territorial governments. In accordance with these agreements, the Company agreed to a 3% fee annually for their share of the letters of credit issued. As at June 30, 2021, the Company's share of the letters of credit issued were \$44.1 million (December 31, 2020 - \$44.1 million).

During the year ended December 31, 2020, the Company and De Beers signed an agreement to reduce the fee from 3% to 0.3%, annually, for their share of the letters of credit issued. Furthermore, a resolution was passed by the joint venture management committee to establish a decommissioning fund, where the Company will fund \$15 million in 2020, and \$10 million each year for four years thereafter until the Company's 49% share totaling \$55 million is fully funded. The target funding can change over time, dependent on future changes to the decommissioning and restoration liability and returns on decommissioning fund investments. During the year ended December 31, 2020, the Company funded \$15 million into the decommissioning fund, which is presented as restricted cash on the balance sheet. As of June 30, 2021, no further funding had occurred as the next amount of \$10 million is due in September 2021.

Failure to meet the obligations for cash calls to fund the Company's share in the GK Mine may lead to De Beers enforcing its remedies under the JV Agreement, which could result in, amongst other things the dilution of Mountain Province's interest in the GK Mine, and at certain dilution levels trigger cross-default clauses within the Senior Notes.

(Unaudited)****17. SEGMENTED REPORTING**

The reportable operating segments are those operations for which operating results are reviewed by the Chief Executive Officer who is the chief operating decision maker regarding decisions about resources to be allocated to the segment and to assess performance provided those operations pass certain quantitative thresholds. Operations with revenues, earnings or losses or assets that exceed 10% of total consolidated revenue, earnings or losses or assets are reportable segments.

As a result of the asset acquisition of Kennady, which included all mineral rights of the KNP, the Company now owns multiple diamond projects in the North West Territories, Canada. The GK Mine is a diamond mine in operations, while the KNP resource continues to be developed through exploration and evaluation programs.
