Notes to the Condensed Consolidated Interim Financial Statements

For the Three Months Ended March 31, 2022

(Unaudited)**

1. NATURE OF OPERATIONS AND GOING CONCERN

Mountain Province Diamonds Inc. ("Mountain Province" and together with its subsidiaries collectively, the "Company") was incorporated on December 2, 1986 under the British Columbia Company Act. The Company amended its articles and continued incorporation under the Ontario Business Corporations Act effective May 8, 2006. The Company holds a 49% interest in the operating Gahcho Kué Project ("Gahcho Kué Diamond Mine" or "GK Mine" or "GK Project") in Canada's Northwest Territories. The Company also owns 100% of the mineral rights of the Kennady North Project ("KNP") in Canada's Northwest Territories.

The address of the Company's registered office and its principal place of business is 161 Bay Street, Suite 1410, Toronto, ON, Canada, M5J 2S1. The Company's shares are listed on the Toronto Stock Exchange ("TSX") under the symbol 'MPVD'. During the year ended December 31, 2020, the Company voluntarily delisted its common shares from the NASDAQ.

These condensed consolidated interim financial statements have been prepared using the going concern basis of preparation which assumes that the Company will realize its assets and settle its liabilities in the normal course of business.

As of March 31, 2022, the Company faces liquidity challenges as a result of the Senior Secured Notes maturing on December 15, 2022 with a principal amount outstanding of \$375,075. The Company does not currently have sufficient cash flows expected from operations available to discharge the Senior Secured Notes amount when they come due. The Company will need to obtain additional financing in the future and/or seek to renegotiate with the holders of the Senior Secured Notes to extend the maturity dates or amend the underlying payment terms. However, there is no guarantee that such financing will be available, or at terms acceptable to the Company, or that holders of the Senior Secured Notes would be willing to renegotiate the amounts in a manner necessary to enable the Company to satisfy its obligations.

The above conditions related to the Company's Senior Secured Notes and long-term operational financing needs represent material uncertainties that result in substantial doubt as to the Company's ability to continue as a going concern. These condensed consolidated interim financial statements do not include the adjustments to the amounts and classification of assets and liabilities that would be necessary should the Company be unable to continue as a going concern. These adjustments may be material.

Failure to meet the obligations for cash calls to fund the Company's share of expenditures at the GK Mine may lead to De Beers Canada Inc. enforcing its remedies under the JV Agreement, which could result in, amongst other things the dilution of Mountain Province's interest in the GK Mine, and at certain dilution levels trigger cross-default clauses within the Senior Secured Notes.

Authorization of Financial Statements

These condensed consolidated interim financial statements were approved by the Board of Directors on May 3, 2022.

2. BASIS OF PRESENTATION

These condensed consolidated interim financial statements (the "Interim Financial Statements") have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting ("IAS 34") and follow the same

MOUNTAIN PROVINCE DIAMONDS INC.

Notes to the Condensed Consolidated Interim Financial Statements

(Unaudited)**

accounting policies and methods of application as the annual consolidated financial statements of the Company for the year ended December 31, 2021, except as noted below under Note 3 adoption of new accounting standards.

These consolidated financial statements were prepared under the historical cost convention, as modified by the revaluation of derivative assets and liabilities and are presented in thousands of Canadian dollars.

The consolidated financial statements include the accounts of Mountain Province and its wholly-owned subsidiaries:

- 2435572 Ontario Inc. (100% owned)
- 2435386 Ontario Inc. (100% owned by 2435572 Ontario Inc.)
- Kennedy Diamonds Inc. (100% owned)

The Company's 49% interest in the GK Mine is held through 2435386 Ontario Inc. All intercompany balances, transactions, income, expenses, profits and losses, including unrealized gains and losses have been eliminated on consolidation.

The Company's interest in the GK Mine through its joint arrangement is a joint operation under IFRS 11, Joint Arrangements, and, accordingly has recorded the assets, liabilities, revenues and expenses in relation to its interest in the joint operation. The Company's 49% interest in the GK Mine is bound by a contractual arrangement establishing joint control over the mine through required unanimous consent of the Company and De Beers Canada Inc. ("De Beers" or the "Operator", and together with the Company, the "Participants") for strategic, financial and operating policies of the GK Mine. The GK Mine management committee has two representatives of each of the Company and De Beers. The Participants have appointed De Beers as the operator of the GK Mine.

3. ADOPTION OF NEW ACCOUNTING STANDARD

(a) New accounting standard and amendments effective in the period

IAS 16, Property, Plant and Equipment

Effective January 1, 2022, the Company adopted the amendment to IAS 16, Property, Plant and Equipment which prohibits the deducting from property, plant and equipment amounts received from selling items produced while preparing an asset for its intended use. Instead, sales proceeds and its related costs must be recognized in profit or loss. The amendment requires companies to distinguish between costs associated with producing and selling items before the item of property, plant and equipment is available for use and costs associated with making the item of property, plant and equipment available for its intended use. Upon adoption of the IAS 16 amendment, there was no impact to these condensed consolidated interim financial statements.

4. SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of these financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities and contingent liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting periods. Judgments, estimates and assumptions are continually evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ materially from these estimates. The significant judgments,

estimates and assumptions made by management in applying the Company's accounting policies are consistent with those that applied to the audited financial statements as at and for the year ended December 31, 2021.

5. AMOUNTS RECEIVABLE

	March 31, 2022	December 31, 2021
GST/HST receivable	\$ 4,019	\$ 722

Rough diamonds	59,609	44,255
Supplies inventory	81,635	39,166
Total	\$ 167,918	\$ 109,832

Depreciation and depletion included in inventories at March 31, 2022 is \$19,101 (December 31, 2021 - \$12,203).

Included in inventories and production costs, for the three months ended March 31, 2022 are the Company's 49% share of payroll and employee benefits for staff of the GK Mine of \$10,725 (three months ended March 31, 2021 - \$10,891).

Supplies inventory includes bulk deliveries such as fuel, which are delivered during Q1 utilizing the 'winter road' to truck these amounts in, hence the significant increase in the first quarter of 2022 compared to the prior period.

8. DECOMMISSIONING AND RESTORATION LIABILITY

The decommissioning and restoration liability is comprised of the liabilities for the GK Mine and the Kennady North Project, which are broken down separately below.

The GK Mine decommissioning and restoration liability was calculated using the following assumptions as at March 31, 2022 and December 31, 2021:

	March 31, 2022	December 31, 2021
Expected undiscounted cash flows	\$ 84,128	\$ 84,128
Nominal risk-free discount rate	2.40%	1.42%
Inflation rate	2.00%	2.00%
Periods	2030	2030

The Kennady North Project decommissioning and restoration liability was calculated using the following assumptions as at March 31, 2022 and December 31, 2021:

	March 31, 2022	December 31, 2021
Expected undiscounted cash flows	\$ 2,467	\$ 2,467
Nominal risk-free discount rate	0.25%	0.25%
Inflation rate	2.00%	2.00%
Periods	2024	2024

The decommissioning and restoration liability has been calculated using expected cash flows that are current dollars, with inflation.

During the three months ended March 31, 2022, the GK Mine decommissioning and restoration liability decreased by \$10,517 (December 31, 2021 – \$19,471), resulting primarily from the change in nominal risk-free discount rate.

The continuity of the decommissioning and restoration liability at March 31, 2022 and December 31, 2021 is as follows:

	GK Mine	KNP	Total
Balance, at January 1, 2022	\$ 90,418	\$ 2,695	\$ 93,113

9. SECURED NOTES PAYABLE

On December 11, 2017, the Company completed an offering of US\$330 million of senior secured notes ("Notes"), secured by a second-ranking lien on all present and future assets, property and undertakings of the Company. The secured notes pay interest in semi-annual instalments on June 15 and December 15 of each year, at a rate of 8.00% per annum, and mature on December 15, 2022. The Company classified the secured notes liability as current liabilities since the notes will mature on December 15, 2022. The indenture governing the secured notes contains certain restrictive covenants that limit the Company's ability to, among other things, incur additional indebtedness, make certain dividend payments and other restricted payments, and create certain liens, in each case subject to certain exceptions. The restrictive covenant on the Company's ability to pay potential future dividends relates to a fixed charge coverage ratio of no less than 2:1. The fixed charge coverage ratio is calculated as EBITDA over interest expense. Subject to certain limitations and exceptions, the amount of the restricted payments, which include dividends and share buybacks, is limited to a maximum dollar threshold, which is calculated at an opening basket of US\$10 million plus 50% of the historical consolidated net income, subject to certain adjustments, reported from the quarter of issuance and up to the most recently available financial statements at the time of such restricted payment, plus an amount not to exceed the greater of US\$15 million and 2% of total assets as defined in the indenture.

As of March 31, 2022, the Company has an obligation of US\$299.9 million or \$375.1 million Canadian dollar equivalent under the secured notes payable (December 31, 2021 - US\$299.9 million or \$379.0 million).

	March 31, 2022	December 31, 2021
Total outstanding secured notes payable	\$ 375,075	\$ 379,034
Less: unamortized deferred transaction costs and issuance discount	(2,642)	(3,517)
Total secured notes payable	\$ 372,433	\$ 375,517

10. DUNEBRIDGE REVOLVING CREDIT FACILITY

On September 30, 2020, the Company entered into a revolving credit facility with Dunebridge Worldwide Ltd. ("Dunebridge") (the "Dunebridge RCF") (Note 19) of up to US\$25 million, with first ranking lien terms. The Dunebridge RCF carries an interest rate of 5% per annum, and was initially repayable on September 30, 2021. Interest is payable on a monthly basis. The agreement also required an upfront 1% financing fee, which was paid on September 30, 2020. The Dunebridge RCF is not subject to any financial covenants. A default would occur if the Company is unable to make the monthly interest payments, or the principal repayment.

The Dunebridge RCF includes various restrictive covenants which requires that no additional indebtedness be entered into, and no new agreements related to the sale of diamonds, beyond what currently exists, without prior written approval from Dunebridge.

Under the Dunebridge RCF, permitted distributions to third parties (which include dividends) are subject to the Company having a net debt to EBITDA ratio of less than or equal to 1.75:1. Net debt is equal to total debt, less cash and cash equivalents. The aggregate amount of all distributions paid during the rolling four quarters up to and including the date of such distribution does not exceed 25% of free cash flows ("FCF") during such period. FCF is defined as EBITDA minus, without duplication, (a) capital expenditures, (b) cash taxes, (c) any applicable standby fee, other fees or finance costs payable to the finance parties in connection with the Dunebridge RCF, (d) interest expenses and (e) any indebtedness (including mandatory prepayments) permitted under the existing agreement.

MOUNTAIN PROVINCE DIAMONDS INC.

Notes to the Condensed Consolidated Interim Financial Statements

For the Three Months Ended March 31, 2022

**Amounts in thousands of Canadian Dollars, except share and per share amounts, unless otherwise noted
(Unaudited)**

Also, the available liquidity after payment of a distribution must be greater than or equal to US\$60 million for distributions paid during a quarter ending March 31, or US\$50 million for other quarters, where the aggregate amount of the all-advances outstanding does not exceed US\$10 million.

On September 24, 2021, the Dunebridge RCF repayment date was extended to March 31, 2022, with the same restrictive covenants described above. An upfront 2% extension fee of US\$0.5 million was paid. The extension of the Dunebridge RCF was subject to the Dunebridge Term Facility ("Term Facility") (below) being fully repaid, and terminated. The Dunebridge RCF had an interest rate of 5% per annum.

The upfront fee was categorized as deferred financing fee against the loan and amortized over the term of the loan. As at December 31, 2021, \$319 unamortized deferred financing fee was remaining and classified as other assets on the consolidated balance sheet and was fully amortized on March 31, 2022.

During the three months ended March 31, 2022, the Company drew and repaid US\$5M from the Dunebridge RCF for funding operations.

11. DUNEBRIDGE JUNIOR CREDIT FACILITY

On March 28, 2022, the Company completed a US\$50M credit facility with Dunebridge bearing a cash payment interest rate of 8% per annum or an effective interest rate of 15.8%, paid semi-annually until December 2022. Following this date, the interest rate will be 2% above the margin on the senior secured notes payable then outstanding. The maturity date of this credit facility is December 15, 2027. The Dunebridge Junior Credit Facility ("Dunebridge JCF") is secured by substantially all of the properties and assets of the Company and its subsidiaries on a junior basis to the Company's existing senior secured notes payable. The Company is entitled to prepay the Dunebridge JCF at any time prior to the maturity date without penalty.

In order for the Company to request an advance under the Dunebridge JCF, the Company must deliver a utilization request to the administrative agent and confirm that the Company has met the conditions precedent to all borrowings, confirm representation and warranties and confirm that the proceeds requested are to be used as agreed upon in the agreement to (a) repay indebtedness under the senior credit agreement, by way of direction and set-off on the closing date, (b) repay the senior secured notes, and (c) for general corporate purposes, including working capital needs.

The Company issued to Dunebridge 41 million common share purchase warrants (Note 12), exercisable in whole or in part at any time up to December 15, 2027 at an exercise price of US\$0.60975 per common share.

The Company incurred legal and advisory fees in relation to the Dunebridge Junior Credit Facility ("Dunebridge JCF") of \$917 which was capitalized as deferred financing fee. In addition, the fair value of the warrants granted on closing of the Dunebridge JCF valued at \$0.33 per warrant and totaling \$13,489 was also capitalized resulting in a total deferred financing fee of \$14,406.

As at March 31, 2022, the Company had not drawn on the credit facility.

Subsequent to the three month period ended March 31, 2022, the Company drew US\$10 million to assist with funding operations.

12. WARRANT LIABILITY

As part of the Dunebridge JCF (Note 11), 41 million share warrants were issued at an exercise price of US\$0.60975 per common share with an expiry date of December 15, 2027. The warrants have an exercise price denominated in US dollars, which differs from the Company's Canadian dollar functional currency, and are therefore accounted for as derivative liabilities at fair value, with changes in fair value recorded in earnings as they occur.

The warrants were valued on the date of grant using the following assumptions:

	March 28, 2022
Exercise price	US\$0.60975 (\$0.7726)
Expected volatility	62%
Expected warrant life	5.7 years
Expected forfeiture	none
Expected dividend yield	0%
Risk-free interest rate	2.42%
Weighted average fair value per warrant granted	\$0.33

In valuing the warrants on March 28, 2022, the Company applied a liquidity discount of 32% from the Black-Scholes value.

As at March 31, 2022, the warrants were revalued using the following assumptions, resulting in a total value of \$15,014:

	March 31, 2022
Exercise price	US\$0.60975 (\$0.7746)
Expected volatility	62%
Expected warrant life	5.7 years
Expected forfeiture	none
Expected dividend yield	0%
Risk-free interest rate	2.42%
Weighted average fair value per warrant granted	\$0.37

In valuing the warrants on March 31, 2022, the Company applied a liquidity discount of 31% from the Black-Scholes value.

The number of common shares issued and outstanding as at March 31, 2022 is 210,909,141 (December 31, 2021 – 210,697,474).

iii. Stock options, RSUs, DSUs and share-based payments reserve

The Company has a long-term equity incentive plan (the "Plan") which, among other things, allows for the maximum number of shares that may be reserved for issuance under the Plan to be 10% of the Company's issued and outstanding shares at the time of the grant. The Board of Directors has the authority and discretion to grant stock options, restricted share units ("RSU") and deferred share units ("DSU") awards within the limits identified in the Plan, which includes provisions limiting the issuance of options to directors and employees of the Company to maximums identified in the Plan.

As at March 31, 2022, the aggregate maximum number of shares pursuant to options granted under the Plan will not exceed 21,090,914 shares. All stock options are settled by the issuance of common shares.

The restricted and deferred share unit plans are full value phantom shares that mirror the value of the Company's publicly traded common shares. Grants under the RSU and DSU plan are made on a discretionary basis to directors and employees of the Company subject to the Board of Directors' approval. Under the RSU and DSU plan, RSUs and DSUs vest according to the terms set out in the award agreement which are determined on the initial grant date on an individual basis at the discretion of the Board of Directors. Vesting under the RSU and DSU plan is subject to special rules for death, disability and change in control. The awards can be settled through issuance of common shares or paid in cash, at the discretion of the Board of Directors. These awards are accounted for as equity settled RSUs.

The fair value of each RSU issued is determined at the closing share price on the grant date.

The following table shows the RSU awards which have been granted and settled during the period:

16. DERIVATIVES ASSETS AND LIABILITIES

During the three months ended March 31, 2022 and the year ended December 31, 2021, the Company entered into foreign currency put options to mitigate the foreign currency risk associated with the U.S. dollar sales proceeds and the risk that the Company would not have sufficient Canadian dollar funds to contribute to the operations of the GK Mine. These derivatives have been accounted as non-hedge derivatives and are recorded at fair value. Changes in fair value of the foreign currency put option contracts are recognized in the condensed consolidated interim statements of comprehensive income as gains or losses on derivatives.

At March 31, 2022, the Company has US\$18 million foreign currency put option contracts outstanding at a strike price of 1.28 with settlement dates from April 2022 to December 2022 and a further US\$18 million foreign currency put option contract at a strike price of 1.25 with settlement dates from April 2022 to December 2022.

Subsequent to the three months ended March 31, 2022, the Company entered into an agreement with Scotiabank to cancel the remaining foreign currency of US\$32 million put option contracts at strike price 1.28 and 1.25 and exchanged for new foreign currency swing collar contracts of US\$60 million at a strike price of 1.26 with settlement dates from May 2022 to December 2022. On settlement date, if the spot rate exceeds 1.33, the Company will settle at a strike price of 1.27 if the spot rate is between 1.26 to 1.33, there is no obligatory settlement. No cash was exchanged on the transaction date and the fair value of the old contract was priced into the new contracts.

The notes indentures grant the Company the option to prepay the notes prior to the maturity of the instruments, and specifies a premium during each applicable time period. These prepayment options have been accounted for as embedded derivatives at fair value through profit and loss and are outlined below. The Company may redeem the secured notes in whole or in part at any time during the twelve-month period beginning on December 15, 2021 at a redemption price equal to 100% of the principal amount of the secured notes redeemed, plus accrued and unpaid interest to the date of redemption.

17. FINANCIAL INSTRUMENTS**Fair value measurement**

The Company categorizes each of its fair value measurements in accordance with a fair value hierarchy. The fair value hierarchy establishes three levels to classify the inputs to valuation techniques used to measure fair value. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs are quoted prices in markets that are not active, quoted prices for similar assets or liabilities in active markets, inputs other than quoted prices that are observable for the asset or liability (for example, interest rate and yield curves observable at commonly quoted intervals, forward pricing curves used to value currency and commodity contracts and volatility measurements used to value option contracts), or inputs that are derived principally from or corroborated by observable market data or other means. Level 3 inputs are unobservable (supported by little or no market activity).

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs.

The fair values of the accounts receivable and accounts payable and accrued liabilities approximate their carrying values due to the relatively short-term maturity of these financial instruments.

The following table shows the carrying amounts and fair values of the Company's financial assets and financial liabilities, including their levels in the fair value hierarchy.

Fair values of assets and liabilities classified as Level 2 are valued using discounted cash flow (“DCF”) models. These models require a variety of observable inputs including market prices, forward price curves, yield curves and credit spreads. Derivative assets are carried at fair value which is determined based on internal valuation model that reflect the observable currency exchange rates in the markets. These inputs are obtained from or verified with the market where possible. The financial assets relate to the embedded derivative assets, which are prepayment options on the secured notes payable (Note 9) and foreign currency put option contracts (Note 16). The financial liability relates to warrants which is accounted for as derivative liabilities at fair value, with changes in fair value recorded to earnings as they occur (Note 12).

19. RELATED PARTIES

The Company's related parties include the Operator of the GK Mine, Dermot Desmond, Dunebridge and Vertigol Unlimited Company ("Vertigol") (corporations ultimately beneficially owned by Dermot Desmond), key management and their close family members, and the Company's directors. Dermot Desmond, indirectly through Vertigol, is the ultimate beneficial owner of greater than 10% of the Company's shares. International Investment and Underwriting ("IIU") is also a related party since it is ultimately beneficially owned by Dermot Desmond.

Related party transactions are recorded at their exchange amount, being the amount agreed to by the parties.

The Company had the following transactions and balances with its related parties including key management personnel including the Company's directors, Dermot Desmond, Dunebridge, Vertigol, IIU and the Operator of the GK Mine. The transactions with key management personnel are in the nature of remuneration. The transactions with the Operator of the GK Mine relate to the funding of the Company's interest in the GK Mine for the current year's expenditures, capital additions, management fee, and production sales related to the 49% share of fancies and special diamonds. The transactions with IIU are for the director fees of the Chairman of the Company.

On March 28, 2022, the Company executed a credit facility with Dunebridge, for US\$50 million (Note 11).

On September 24, 2021, the Dunebridge RCF was extended to March 31, 2022 and an upfront 2% extension fee of US\$500 was paid. The extension of the Dunebridge RCF was subject to the Term Facility (below) being repaid in full and terminated. The Dunebridge RCF continues to carry an interest rate of 5% per annum. On September 29, 2021, the Company made a partial repayment of US\$5 million, and in the fourth quarter of 2021, the Company fully repaid the Dunebridge RCF for the remainder US\$20 million. During the period ended March 31, 2022, the Company drew and repaid US\$5M from the Dunebridge RCF for funding operations. The Dunebridge RCF was terminated prior to the quarter ended March 31, 2022.

Between 2014 and 2020, the Company and De Beers signed agreements allowing De Beers ("the Operator") to utilize De Beers' credit facilities to issue reclamation and restoration security deposits to the federal and territorial governments. In accordance with these agreements, the Company agreed to a 3% fee annually for their share of the letters of credit issued. As at March 31, 2022, the Company's share of the letters of credit issued were \$44.1 million (December 31, 2021 - \$44.1 million).

MOUNTAIN PROVINCE DIAMONDS INC.**Notes to the Condensed Consolidated Interim Financial Statements****For the Three Months Ended March 31, 2022****Amounts in thousands of Canadian Dollars, except share and per share amounts, unless otherwise noted (Unaudited)**

In 2020, the Company and De Beers signed an agreement to reduce the fee from 3% to 0.3%, annually, for their share of the letters of credit issued. Furthermore, a resolution was passed by the joint venture management committee to establish a decommissioning fund, where the Company will fund \$15 million in 2020, and \$10 million each year for four years thereafter until the Company's 49% share totaling \$55 million is fully funded. The target funding can change over time, dependent on future changes to the decommissioning and restoration liability and returns on decommissioning fund investments. During the three months ended March 31, 2022, the Company funded \$Nil (December 31, 2021 - \$10 million) into the decommissioning fund, which is presented as restricted cash on the balance sheet.

Failure to meet the obligations for cash calls to fund the Company's share in the GK Mine may lead to De Beers enforcing its remedies under the JV Agreement, which could result in, amongst other things the dilution of Mountain Province's interest in the GK Mine, and at certain dilution levels trigger cross-default clauses within the Senior Notes.

The balances as at March 31, 2022 and December 31, 2021 were as follows:

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Company directly or indirectly, including any directors (executive and non-executive) of the Company. In addition to the directors of the Company, key management personnel include the Chief Executive Officer ("CEO") and Chief Financial Officer.

20. SEGMENTED REPORTING

The reportable operating segments are those operations for which operating results are reviewed by the CEO who is the chief operating decision maker regarding decisions about resources to be allocated to the segment and to assess performance provided those operations pass certain quantitative thresholds. Operations with revenues, earnings or losses or assets that exceed 10% of total consolidated revenue, earnings or losses or assets are reportable segments.

As a result of the asset acquisition of Kennady, which included all mineral rights of the KNP, the Company now owns multiple diamond projects in the Northwest Territories, Canada. The GK Mine is a diamond mine in operations, while the KNP resource continues to be developed through exploration and evaluation programs.
