1 Nature of the business and significant accounting policies

DHX Media Ltd. (formerly “The Halifax Film Company Limited”) (the “Company”) is a public company whose common shares were admitted to trading on the Alternate Investment Market (AIM) and the Toronto Stock Exchange (TSX) on May 19, 2006 (symbol DHX). The Company, incorporated on February 12, 2004 under the laws of the Province of Nova Scotia, Canada, and continued during the year ended June 30, 2006 under the Canada Business Corporation Act, develops, produces and distributes film and television programs for the domestic and international markets. On March 17, 2006, the Company changed its name from “The Halifax Film Company Limited” to “DHX Media Ltd.” The address of the head office is 1478 Queen Street, Halifax, Nova Scotia, Canada, B3J 2H7.

Basis of presentation

The accompanying unaudited interim financial statements have been prepared in accordance with the requirements of the Canadian Institute of Chartered Accountants (“CICA”) Handbook Section 1751 “Interim Financial Statements”. Accordingly, certain information and note disclosure normally included in annual financial statements prepared in accordance with Canadian generally accepted accounting principles have been omitted or condensed. In the opinion of management, these statements include all adjustments, consisting of normal accruals, considered necessary by management to present a fair statement of the results of operations, financial position and cash flows. These unaudited interim financial statements were prepared using the same accounting principles as were used for the audited consolidated financial statements for the year ended June 30, 2006 and should be read in conjunction with the audited financial statements of the Company for the year ended June 30, 2006, as set out in the 2006 Audited Annual Financial Statements, available at www.sedar.com.

2 Change in accounting policy

Variable Interest Entities

Effective July 1, 2005, the Company adopted Accounting Guideline 15 (“AcG 15”) – Consolidation of Variable Interest Entities (“VIEs”). AcG 15 provides criteria for the identification of VIEs and further criteria for determining what entity, if any should consolidate them. AcG 15 defines a VIE as an entity that either does not have sufficient equity at risk to finance its activities without subordinated financial support or where the equity investors lack the characteristic of a controlling financial interest. VIEs are subject to consolidation by a company if that company is deemed the primary beneficiary of the VIE. The primary beneficiary is the party that is either exposed to a majority of the losses from the VIEs activities or is entitled to receive a majority of the VIEs residual returns or both.

Prior to the adoption of AcG 15, the Company consolidated all entities that it controlled through ownership of a majority of voting interests.

Effective July 1, 2005, the Company implemented AcG 15, retroactively without the restatement of prior periods, and as a result, the Company has consolidated entities in which it has control through ownership of a majority of the voting interests as well as all VIEs for which it is the primary beneficiary.

2 Change in accounting policy (continued)

VIEs for which the Company is not the primary beneficiary have been accounted for using the equity method (note 6).

On July 15, 2005, the Company obtained a variable interest in and was determined to be the primary beneficiary of Media Fund (Atlantic) Ltd. (“Media Fund”). The Company is party to a management agreement and a shareholder agreement with Media Fund, a company with the objectives of promoting and supporting job creation and economic development initiatives in the film and television industry in Nova Scotia. On July 15, 2005, Media Fund closed its first financing. Under the terms of the shareholder agreement, the new shareholders of Media Fund were granted a right to sell their shares to the Company in exchange for shares of the Company (the put option) provided that the Company was able to obtain a public listing for its shares. Accordingly, on July 15, 2005 the Company consolidated Media Fund’s assets and liabilities consisting of restricted cash of \$957,195, accounts payable and accrued liabilities of \$449,193 and non-controlling interest of \$508,002.

3 Acquisitions (continued)

The Company will finalize the purchase price allocation upon completion of its review of certain working capital balances.

The estimated fair value of the share consideration is based on the estimated fair value of the Company’s common shares, as at the date the Company and the shareholders of Decode agreed to the terms of the purchase and sale, less a 15% discount for liquidity as these shares are subject to a lock-in period.

The purchase agreement includes contingent payments, based on certain Earnouts as described above, consisting of readily available funds and common shares. The purchase consideration and allocation of the cost of the purchase does not include any amounts related to the Earnout. The maximum amount of the Earnout is not determinable as the number of common shares that will be issued and the value attributed to these shares will only be determined when the Earnout conditions are met. When the contingency is resolved, any additional amounts due will be attributed to goodwill.

The acquisition has been accounted for using the purchase method and the results of operations are included in the consolidated statement of operations from May 19, 2006, the date of acquisition.

(c) On April 7, 2006 (the “Effective Date”), The Company acquired all of the issued and outstanding shares of Boy Girl Productions Canada Limited, a film production company for cash consideration of \$128,719.

c) Preferred Variable Voting Shares

The Preferred Variable Voting Shares were issued May 12, 2006 to an officer and director.

- d) On May 19, 2006, in connection with the initial public offering (“IPO”) of the Company, the Company issued 8,702,500 common shares for total proceeds of \$20,450,875 less offering costs of \$3,483,023 net of tax. Immediately prior to the closing of the aforementioned IPO, the Company completed the acquisition of all outstanding shares of Decode.

e) Share purchase financing

During the period ended September 30, 2006, the Company issued no amounts for share purchase financing (year ended June 30, 2006 - \$387,250, to an officer of the Company bearing interest at bank prime less 1.5% and is secured by the shares of the Company acquired with the loan proceeds).

In accordance with the applicable accounting guidance, the Company accounts for share purchase financing as a reduction of share capital and the benefit of the financing has been estimated using the Black Scholes option pricing model and the following assumptions: risk-free interest rate - 4.25%; expected life two years; expected volatility 50%; and expected dividend yield 0%.

As a result of applying this guidance for the period ended September 30, 2006 no compensation expense was recognized (year ended June 30, 2006 - \$98,858). Interest and any payments received on these loans are being recorded as a capital contribution.

f) Warrants

During the three-month period ended September 30, 2006 no warrants were granted or cancelled.

f) Warrants (continued)

The fair value of the warrants has been estimated by management using the Black Scholes option pricing model. The weighted average assumptions used in the pricing model to value the warrants are as follows:

| | September 30, 2006 | June 30, 2006 |
|-------------------------|-----------------------|------------------|
| Risk-free interest rate | 4.25% | 4.25% |
| Expected option life | 1 year | 1 year |
| Expected volatility | 50% | 50% |
| Expected dividend yield | nil | nil |

g) Stock options

On March 22, 2006, the Board of Directors approved an employee share option plan which provides for the issuance of up to 3,500,000 common shares. On the same date, the Company issued options under this plan to purchase 746,547 shares at \$2.25 per share, vesting at various times over four years and expiring on March 22, 2013.

During the three-month period ended September 30, 2006 no stock options were granted or expired.

At September 30, 2006 and June 30, 2006, the Company had the following stock options outstanding:

| | Number of options | Weighted average exercise price |
|---|----------------------|------------------------------------|
| Outstanding at June 30, 2005 | 275,000 | 1.85 |
| Granted to directors, an officer and employees | 746,547 | 2.25 |
| Outstanding at June 30, 2006 and September 30, 2006 | 1,021,547 | 2.14 |
| Exercisable at June 30, 2005 and 2006 and September 30, 2006 | 275,000 | 1.85 |

The weighted average grant date value of stock options at September 30, 2006 has been estimated at \$1.27 (June 30, 2006 - \$1.27) using the Black Scholes option pricing model. The following weighted average assumptions were used in the calculations:

| | September 30, 2006 | June 30, 2006 |
|-------------------------|-----------------------|------------------|
| Risk-free interest rate | 4.25% | 4.25% |
| Expected option life | 7 years | 7 years |

g) Stock options (continued)

Changes in the assumptions can materially affect the fair value estimate and therefore, the existing models do not necessarily provide a reliable measure of the fair value of the stock options.

During the three-month period ended September 30, 2006, a total of \$59,817 (three-month period ended September 30, 2005 - \$nil, year ended June 30, 2006 - \$37,879), was recognized as compensation expense.

h) Put options

Pursuant to a financing by Media Fund, the Company granted to the new shareholders of Media Fund a right to have the Company purchase their common shares in exchange for common shares of the Company (the "put option") on a one-for-one basis. These put options are exercisable only if and when the Company obtains a public listing for its shares. The put options are automatically exercised on January 15, 2009, unless the holder rejects the put right. The Company has a buy-out right to acquire all of the Media Fund shares after obtaining a public listing unless more than 25 percent of the shareholders reject the put right.

The common shares of Media Fund are redeemable by January 15, 2009 since a listing of the Company has occurred. However, as these common shares of Media Fund are residual equity in Media Fund, these shares have been presented as non-controlling interest.

The put option was issued for no consideration. At September 30, 2006, 425,420 (June 30, 2006 – 425,420) shares in Media Fund carried the put option described above.

12 Loss per common share

Loss per common share is calculated as follows:

| | September 30, 2006 \$ | September 30, 2005 \$ |
|---|-----------------------------|-----------------------------|
| Net loss for the year | (201,949) | (568,656) |
| Weighted average number of common shares | 22,889,770 | 14,037,270 |
| Basic and fully diluted loss per common share | <u>(0.01)</u> | <u>(0.04)</u> |

The effect of convertible, warrants, stock options and put options has been excluded from the calculations because they are anti-dilutive as a result of the net loss. The weighted average number of potentially dilutive instruments, comprised of shares issuable in respect of convertible warrants, stock options and put options, at September 30, 2006 is 2,660,826 (September 30, 2005 – 275,000).

15 Seasonality

Results of operations for any period are dependent on the number and timing of film and television programs delivered which cannot be predicted with certainty. Consequently, the Company’s results from operations may fluctuate materially from period to period and the results of any one period are not necessarily indicative of results for future periods. Cash flows may also fluctuate and are not necessarily closely correlated with revenue recognition.

The film and television revenues are generally highest in the third and fourth fiscal quarters, driven by contracted deliveries with the primary broadcasters. Distribution revenues are contract and demand driven and can fluctuate significantly from period to period.

16 Reconciliation of Canadian Generally Accepted Accounting Principles (“GAAP”) and International Financial Reporting Standards (“IFRS”)

These consolidated financial statements have been prepared in accordance with Canadian GAAP. In certain aspects, GAAP, as applied under IFRS differs from Canadian GAAP.

a) Judgments made by management

IFRS requires disclosure of judgments that have been made by management in the preparation of the financial statements. In this regard, other than estimates which are disclosed under Canadian GAAP, management has made judgments about which development projects, with total costs of \$1,008,625 at September 30, 2006 (year ended June 30, 2006 - \$681,181) are likely to result in productions. Development projects which, during the reporting period, have not been assessed as likely to proceed have been written off.

b) Dividends per share

IFRS requires the Company to disclose dividends per share which are as follows:

| | September 30, 2006 | September 30, 2005 |
|---------------------|-----------------------|-----------------------|
| | \$ | \$ |
| Dividends per share | — | 0.0375 |

c) Leases

Under IFRS total costs charged to expenses under operating leases must be disclosed. The Company incurred rent expense of \$180,251 for the three-month period ended September 30, 2006 (three-month period ended September 30, 2005 - \$55,486).

(in Canadian dollars)

16 Reconciliation of Canadian Generally Accepted Accounting Principles (“GAAP”) and International Financial Reporting Standards (“IFRS”) (continued)

d) Financial instruments

Under IFRS, transaction costs directly attributable to the issuance of financial instruments are deducted from the proceeds of the offering whereas under Canadian GAAP, such costs are recorded as a deferred financing fees. Accordingly, deferred financing fees as at September 30, 2006 of \$nil (September 30, 2005 - \$621,805) would be applied to reduce the financial liability component of the Class A preferred shares. This difference has no impact on the statements of operations and deficit as the amortization method used under Canadian GAAP results in a charge to the statement consistent with the use of the effective interest rate method under IFRS.

17 Subsequent events

Subsequent to September 30, 2006 the Company entered into an agreement to acquire distribution rights to 513 half-hours of television programming for a license fee of \$2,200,000 payable as follows:

- i. \$100,000 upon signature of agreement;
- ii. \$400,000 upon signature of the long form license agreement with a targeted completion date not to exceed November 30, 2006;
- iii. \$120,000 in 10 quarterly payments starting December 31, 2006 and ending on March 31, 2009 (for a total of \$1,200,000); and
- iv. \$500,000 on March 31, 2009.
